(g) Same; composition where considering supply officers for promotion.

Whenever officers designated for supply duty are eligible for consideration by a selection board for promotion or for continuation on the active list, the Secretary of the Navy shall appoint, as alternate members of the appropriate selection board, three officers of that designation, and if there be not three available, he shall so appoint such lesser number as may be available, and the junior members of the board who are not restricted in the performance of duty, in like number, shall not act upon the cases of officers designated for supply duty. No such alternate member shall act upon the cases of officers other than those designated for supply duty. No officer designated for supply duty or for limited duty shall act upon the cases of officers not restricted in the performance of duty.

(i) Promotion zone in grade of brigadier general; number determination by Secretary of the Navy.

The promotion zone in the grade of brigadier general for officers not restricted in the performance of duty shall be established by the Secretary of the Navy as of the date of the convening of a selection board to consider officers of that grade for recom-

mendation for promotion to the next higher grade. It shall consist of that number of the most senior such officers of the grade of brigadier general, who are eligible for selection for promotion to the next higher grade and have not previously failed of such selection, which must be either selected for promotion by the particular board or be considered as having failed of such selection, in order to maintain a flow of promotion consistent with the needs of the service and to best assure to individuals in succeeding years equality of opportunity for promotion. The number shall be determined by the Secretary of the Navy and shall be based upon a consideration of the estimated number of vacancies which will occur in the next higher grade for each of the ensuing five years and the number of such officers who will be eligible for selection.

(j) Relative rank among major and brigadier generals and rear admirals of upper and lower half, respectively.

Officers serving in the grade of major general in the Marine Corps and officers serving in the grade of rear admiral in the Navy who are entitled to the pay of the upper half of that grade shall take rank among themselves according to their respective dates of rank in such grades. Officers serving in the grade of brigadier general in the Marine Corps and officers serving in the grade of rear admiral in the Navy who are entitled to the pay of the lower half of that grade shall take rank among themselves according to their respective dates of rank in such grades.

(l) Retirement of major generals to allow promotion of brigadier generals.

Should it be found, as of the time of the convening of a board for the consideration of brigadier generals for promotion to the grade of major general, that the number of vacancies existing plus the estimated number of vacancies which will occur during the ensuing twelve-month period in the grade of major general is less than will permit the selection for promotion of a number of brigadier generals equal to 50 per centum of the number of such officers comprising the promotion zone for that grade, the Secretary of the Navy shall convene a board of not less than five officers serving in ranks above that of major general or rear admiral to consider and recommend for retirement a sufficient number of major generals to permit the selection for promotion of the said number of brigadier generals.

(m) Retirement of brigadier generals to allow promotion of colonels.

Should it be found, as of the time of the convening of a board for the consideration of colonels who are not restricted in the performance of duty for promotion to the grade of brigadier general, that the number of vacancies existing plus the estimated number of vacancies which will occur during the ensuing

twelve-month period is less than will permit the selection for promotion of a number of such colonels equal to 10 per centum of the authorized number of general officers who are not restricted in the performance of duty, the Secretary of the Navy shall convene a board of not less than five officers serving in ranks above that of major general or rear admiral to consider and recommend for retirement a sufficient number of general officers to permit the selection for promotion of the said number of colonels.

(n) Retirement of brigadier generals upon failure of selection on second failure of selection; computation of pay and allowances.

Brigadier generals, who are not restricted in the performance of duty, whose names are not on the promotion list shall, if not otherwise retired pursuant to law, be placed on the retired list on June 30 of the fiscal year in which they fail of selection for promotion the second time with retired pay at the rate of $2\frac{1}{2}$ per centum of their active-duty pay in the grade in which serving at the time of retirement multiplied by the number of years of service for which they would be entitled to credit in the computation of pay on the active list had they been serving in the grade of colonel at the time of their retirement, but retired pay so computed shall not exceed a total of 75 per centum of said active-duty pay.

(o) Laws applicable to limited duty officers.

The provisions of sections 3a, 4, 304–304g, 410f, 410g, 626, and 864a of this title relating to officers of the Navy designated for limited duty shall be applicable in like manner and with like effect to officers of the Marine Corps designated for limited duty.

(p) Laws applicable to officers designated for supply duty.

The provisions of sections 3a, 4, 304–304g, 410f, 410g, 626, and 864a of this title relating to officers of the Navy designated for engineering duty shall be applicable in like manner and with like effect to officers of the Marine Corps designated for supply duty, except as may be necessary to adapt the said provisions to the Marine Corps or as herein otherwise provided.

(q) Retirement of brigadier generals designated for supply duty; computation of pay and allowances.

Brigadier generals designated for supply duty, if not retired pursuant to other provisions of law, shall, except as otherwise provided in this section, be placed on the retired list on June 30 of the fiscal year in which they complete five years' service in that grade and thirty-five years' total commissioned service with retired pay at the rate of $2\frac{1}{2}$ per centum of their active-duty pay in the grade in which serving at the time of retirement multiplied by the number of years of service for which they would be entitled to credit in the computation of pay on the active list had they been serving in the grade of colonel at the time of their retirement, but retired pay so computed shall not exceed a total of 75 per centum of said active-duty pay.

(r) Same; eligible for retention on active list.

Brigadier generals of the Marine Corps designated for supply duty who in the then current fiscal year

complete or will complete five years' service in their grade and have completed or will complete in such fiscal year thirty-five years of total commissioned service; those who prior to the then current fiscal year have completed five years' service in their grade and in such fiscal year complete or will complete thirty-five years of total commissioned service; and those who were recommended for continuation on the active list in the approved report of the immediately preceding appropriate selection board, shall be eligible for consideration by a selection board for continuation on the active list: *Provided*, That not to exceed two such brigadier generals recommended for continuation on the active list in the report of a selection board as approved by the President may be so continued until the report of the next succeeding selection board is approved: *And provided further*, That a brigadier general so continued on the active list shall, if not again recommended for continuation on the active list in the approved report of the next succeeding selection board, thereafter be carried in excess of the number authorized to be so continued and shall be placed on the retired list on June 30 of the then current fiscal year.

(s) Same; additional information furnished by Secretary of the Navy.

In addition to the information otherwise required by sections 3a, 4, 304–304g, 410f, 410g, 626, and 864a of this title, the Secretary of the Navy shall furnish the appropriate selection board with the number of brigadier generals designated for supply duty which the board may recommend for continuation on the active list. The number so furnished shall be such number as the Secretary of the Navy shall determine to be necessary to meet the requirements of the Marine Corps not to exceed two.

(t) Same; retirement to allow promotion of colonels.

Should it be found, as of the time of the convening of a board for the consideration of colonels designated for supply duty for promotion to the grade of brigadier general, that the number of vacancies existing plus the estimated number of vacancies which will occur during the ensuing twelve-month period in the grade of brigadier general is less than will permit the selection for promotion in such period of a number of such colonels equal to 15 per centum of the authorized number of brigadier generals designated for supply duty, the Secretary of the Navy shall convene a board of not less than five officers serving in ranks above that of brigadier general to consider and recommend for retirement a sufficient number of brigadier generals designated for supply duty to permit the selection for promotion in such period of the said number of such colonels.

(u) Number of colonels designated for supply duty to be retained on active list.

The number to be furnished the board in respect to colonels designated for supply duty to be continued on the active list shall be such number, not to exceed two, as the Secretary of the Navy shall determine to be necessary to meet the requirements of the Marine Corps.

(v) Retirement of certain officers; computation of pay and allowances.

Officers recommended for retirement in the report of a board convened pursuant to subsections (l), (m), and (t) of this section, as approved by the President, shall, if not otherwise retired pursuant to law, be placed on the retired list on June 30 of the then current fiscal year with retired pay at the rate of 2½ per centum of their active-duty pay in the grade in which serving at the time of retirement multiplied by the number of years of service for which they would be entitled to credit in the computation of pay on the active list had they been serving in the grade of colonel at the time of their retirement, but retired pay so computed shall not exceed a total of 75 per centum of said active-duty pay.

(w) Recommendation of best fitted officers designated for supply duty for retention on active list.

REPEALS

Act Aug. 29, 1916, ch. 417, 39 Stat. 609, formerly cited to this section was repealed by section 436 (b) of act Aug. 7, 1947, cited to text.

§ 626-1. Terminable provisions relating to commissioned personnel—(a) Number; distribution in grades; promotion; retirement; discharge.

Commissioned officers of the Marine Corps shall be authorized in number in the same proportion to authorized enlisted strength and shall be distributed in grades, promoted, retired, and discharged in like manner and with the same relative conditions in

all respects as provided for commissioned officers of the line of the Navy, by existing law, or by laws hereafter enacted, except as may be necessary to adapt the said provisions to the Marine Corps, or as herein otherwise provided.

(b) Distribution in grades above colonel.

Of the authorized number of commissioned officers above the grade of colonel who are not restricted in the performance of duty, not more than 50 per centum may be major generals and above and the remainder brigadier generals.

(c) Number of brigadier generals designated for supply duty.

The number of brigadier generals designated for supply duty, including the officer serving as the head of the Supply Department, shall not exceed at any one time a number equal to 13 per centum of the number of general officers of the Marine Corps not restricted in the performance of duty authorized at that time.

(d) Number of officers designated for supply duty.

The total number of officers designated for supply duty in the combined grades of colonel, lieutenant colonel, and major shall not exceed at any one time a number equal to 8 per centum of the total number of officers not restricted in the performance of duty authorized in those grades at that time.

(e) Sea or foreign duty requirement.

The requirement of sea or foreign service in grade shall not apply to temporary promotion of officers of the Marine Corps.

(f) Selection boards; composition; weight of staff duty for promotional purposes.

Selection boards shall consist of nine officers of the active list of the Marine Corps, the composition of the boards to be determined by the Secretary of the Navy: *Provided*, That no officer shall be recommended for temporary promotion or for continuation on the active list unless he shall have received the recommendation of not less than two-thirds of the acting members of the board: *Provided further*, That whenever there are insufficient general officers available to comprise a selection board for the recommendation of officers for temporary promotion to the grades of brigadier general and colonel without placing thereon general officers who served as members of the same corresponding board the preceding year, officers of the active list of the line of the Navy, not restricted in the performance of duty, of the grade of rear admiral may be substituted for general officers of the Marine Corps in order to comply with the provisions of section 306 (a) (2) of this title: *Provided further*, That selection boards to recommend brigadier generals for temporary promotion to major general shall be composed of officers of the permanent grade of major general on the active list of the Marine Corps to the extent that such officers are deemed available for this duty by the Secretary of the Navy, and the remainder of the board shall be composed of rear admirals on the active list of the line of the Navy, not restricted in the performance of duty: *And provided further*, That administrative staff duty performed

by any officer under appointment or detail, and duty in aviation, or in any technical specialty, shall be given weight by the selection board in determining his fitness for promotion equal to that given to line duty equally well performed.

(g) Same; composition when considering supply officers for promotion.

Whenever officers designated for supply duty are eligible for consideration by a selection board for temporary promotion or for continuation on the active list, the Secretary of the Navy shall appoint, as alternate members of the appropriate selection board, three officers of that designation, and if there be not three available, he shall so appoint such lesser number as may be available, and the junior members of the board who are not restricted in the performance of duty, in like number, shall not act upon the cases of officers designated for supply duty. No such alternate member shall act upon the cases of officers other than those designated for supply duty. No officer designated for supply duty or for limited duty shall act upon the cases of officers not restricted in the performance of duty.

(h) Temporary promotion to major general; eligible officers; date of rank, pay and allowances.

Temporary promotion to major general shall be from brigadier generals who are not restricted in the performance of duty, and such officers shall be eligible for consideration by a selection board for temporary promotion to major general when they will have completed on June 30 of the fiscal year of the convening of the board four years' service in that grade. The date of rank of an officer temporarily appointed in the grade of major general shall be the date of rank held by such officer in the grade of brigadier general under permanent or temporary appointment: *Provided*, That subject to the provisions of sections 306f (c) (1) and 306s (b) of this title, such date of rank shall not be earlier than that of the junior officer in the grade of major general: *And provided further*, That such an officer shall be entitled to the pay and allowances of the higher grade from the date of occurrence of the vacancy which he is promoted to fill.

(i) Promotion zone in grade of brigadier general, number; determination by Secretary of the Navy.

The promotion zone in the grade of brigadier general for officers not restricted in the performance of duty shall be established by the Secretary of the Navy as of the date of the convening of a selection board to consider officers of that grade for recommendation for temporary promotion to the next higher grade. It shall consist of that number of the most senior such officers of the grade of brigadier general who are eligible for selection for temporary promotion to the next higher grade and have not previously failed of such selection, which must be either selected for temporary promotion by the particular board or be considered as having failed of such selection, in order to maintain a flow of promotion consistent with the needs of the service and to best assure to individuals in succeeding years equality of opportunity for promotion. The number shall be determined by the Secretary of the Navy

and shall be based upon a consideration of the estimated number of vacancies which will occur in the next higher grade for each of the ensuing five years and the number of such officers who will be eligible for selection.

(j) Relative rank among major and brigadier generals and rear admirals of upper and lower half respectively.

Officers serving in the grade of major general in the Marine Corps and officers serving in the grade of rear admiral in the Navy who are entitled to the pay of the upper half of that grade shall take rank among themselves according to their respective dates of rank in such grades. Officers serving in the grade of brigadier general in the Marine Corps and officers serving in the grade of rear admiral in the Navy who are entitled to the pay of the lower half of that grade shall take rank among themselves according to their respective dates of rank in such grades.

(l) Retirement of major generals to allow promotion of brigadier generals.

Should it be found, as of the time of the convening of a board for the consideration of brigadier generals for temporary promotion to the grade of major general, that the number of vacancies existing plus the estimated number of vacancies which will occur during the ensuing twelve-month period in the grade of major general is less than will permit the selection for temporary promotion of a number of brigadier generals equal to 50 per centum of the number of such officers comprising the promotion zone for that grade, the Secretary of the Navy shall convene a board of not less than five officers serving in ranks above that of major general or rear admiral to consider and recommend for retirement a sufficient number of major generals to permit the selection for temporary promotion of the said number of brigadier generals.

(m) Retirement of brigadier generals to allow promotion of colonels.

Should it be found, as of the time of the convening of a board for the consideration of colonels, who are not restricted in the performance of duty for temporary promotion to the grade of brigadier general, that the number of vacancies existing plus the estimated number of vacancies which will occur during the ensuing twelve-month period is less than will permit the selection for temporary promotion of a number of such colonels equal to 10 per centum of the authorized number of general officers who are not restricted in the performance of duty, the Secretary of the Navy shall convene a board of not less than five officers serving in ranks above that of major general or rear admiral to consider and recommend for retirement a sufficient number of general officers to permit the selection for temporary promotion of the said number of colonels.

(n) Computation of retirement pay of brigadier generals.

Brigadier generals, who are not restricted in the performance of duty, whose names are not on the promotion list shall, if not otherwise retired pursuant to law, be placed on the retired list on June 30 of the fiscal year in which they fail of selection for temporary promotion the second time with retired pay at the rate of $2\frac{1}{2}$ per centum of their active-duty pay in the grade in which serving at the time of retirement multiplied by the number of years of service for which they would be entitled to credit in the computation of pay on the active list had they been serving in the grade of colonel at the time of their retirement, but retired pay so computed shall not exceed a total of 75 per centum of said active-duty pay.

(o) Laws applicable to limited duty officers.

The provisions of sections 3c, 5a, 211a, 306-306n, 332b, 332c, 410j-410m, 626-1, and 864b of this title relating to officers of the Navy designated for limited duty shall be applicable in like manner and with like effect to officers of the Marine Corps designated for limited duty.

(p) Laws applicable to officers designated for supply duty.

The provisions of sections 3c, 5a, 211a, 306-306n, 332b, 332c, 410j-410m, 626-1, and 864b of this title relating to officers of the Navy designated for engineering duty shall be applicable in like manner and with like effect to officers of the Marine Corps designated for supply duty, except as may be necessary to adapt the said provisions to the Marine Corps or as herein otherwise provided.

(q) Retirement of brigadier generals designated for supply duty.

Brigadier generals designated for supply duty, if not retired pursuant to other provisions of law, shall, except as otherwise provided in this section, be placed on the retired list on June 30 of the fiscal year in which they complete five years' service in that grade and thirty-five years' total commissioned service, the latter as defined in section 3a of this title, with retired pay at the rate of $2\frac{1}{2}$ per centum of their active-duty pay in the grade in which serving at the time of retirement multiplied by the number of years of service for which they would be entitled to credit in the computation of pay on the active list had they been serving in the grade of colonel at the time of their retirement, but retired pay so computed shall not exceed a total of 75 per centum of said active-duty pay.

(r) Brigadier generals designated for supply duty; eligible for retention on active list.

Brigadier generals of the Marine Corps designated for supply duty who in the then current fiscal year complete or will complete five years' service in their grade and have completed or will complete in such fiscal year thirty-five years of total commissioned service; those who prior to the then current fiscal year have completed five years' service in their grade and in such fiscal year complete or will complete thirty-five years of total commissioned service; and those who were recommended for continuation on

the active list in the approval report of the immediately preceding appropriate selection board, shall be eligible for consideration by a selection board for continuation on the active list: *Provided*, That total commissioned service shall be as defined in section 3a of this title: *Provided further*, That not to exceed two such brigadier generals recommended for continuation on the active list in the report of a selection board as approved by the President may be so continued until the report of the next succeeding selection board is approved: *And provided further*, That a brigadier general so continued on the active list shall, if not again recommended for continuation on the active list in the approved report of the next succeeding selection board, thereafter be carried in excess of the number authorized to be so continued and shall be placed on the retired list on June 30 of the then current fiscal year.

(s) Same; additional information furnished selection board by Secretary of the Navy.

In addition to the information otherwise required by sections 3c, 5a, 211a, 306-306n, 332b, 332c, 410j-410m, 626-1, and 864b of this title, the Secretary of the Navy shall furnish the appropriate selection board with the number of brigadier generals designated for supply duty which the board may recommend for continuation on the active list. The number so furnished shall be such number as the Secretary of the Navy shall determine to be necessary to meet the requirements of the Marine Corps not to exceed two.

(t) Same; retirement to allow promotion of colonels.

Should it be found, as of the time of the convening of a board for the consideration of colonels designated for supply duty for temporary promotion to the grade of brigadier general, that the number of vacancies existing plus the estimated number of vacancies which will occur during the ensuing twelve-month period in the grade of brigadier general is less than will permit the selection for temporary promotion in such period of a number of such colonels equal to 15 per centum of the authorized number of brigadier generals designated for supply duty, the Secretary of the Navy shall convene a board of not less than five officers serving in ranks above that of brigadier general to consider and recommend for retirement a sufficient number of brigadier generals designated for supply duty to permit the selection for temporary promotion in such period of the said number of such colonels.

(u) Number of colonels designated for supply duty to be retained on active list.

The number to be furnished the board in respect to colonels designated for supply duty to be continued on the active list shall be such number, not to exceed two, as the Secretary of the Navy shall determine to be necessary to meet the requirements of the Marine Corps.

(v) Retirement of certain officers; computation of pay and allowances.

Officers recommended for retirement in the report of a board convened pursuant to subsections (l), (m), and (t) of this section, as approved by the President, shall, if not otherwise retired pursuant to

law, be placed on the retired list on June 30 of the then current fiscal year with retired pay at the rate of $2\frac{1}{2}$ per centum of their active-duty pay in the grade in which serving at the time of retirement multiplied by the number of years of service for which they would be entitled to credit in the computation of pay on the active list had they been serving in the grade of colonel at the time of their retirement, but retired pay so computed shall not exceed a total of 75 per centum of said active-duty pay.

(w) Recommendation of best fitted officers designated for supply duty for retention on active list.

From among the officers designated for supply duty who are eligible for consideration for continuation on the active list, the board shall recommend for such continuation those officers whom it considers best fitted for continued service on the active list in number equal to the number furnished the board by the Secretary of the Navy.

(x) Reduction of retired ranks or pay.

Nothing in this section shall be held to reduce the retired rank or pay to which an officer would be entitled under other provisions of law.

(y) Submission of certain reports to President.

GENERAL INFORMATION AND CORRESPONDENCE**§ 1.1. All communications to be addressed to The Commissioner of Patents.**

All letters and other communications intended for the Patent Office must be addressed to "The Commissioner of Patents," Washington 25, D. C. When appropriate, a letter may be marked for the attention of a particular officer or individual.

EFFECTIVE DATE

Part 1, Patents, is hereby amended, revised and rewritten, and replaced by new Part 1. The text of new Part 1, Rules of Practice in Patent Cases, is set forth in full below. The revisions and amendments introduce various changes in the procedure in the Patent Office and in the rules relating to the recognition of attorneys and agents, and are made after publication of proposed rules and a hearing, and consideration of the material and arguments submitted. (The published proposed changes in the rule relating to advertising by attorneys and agents are still under consideration and the former rule on this subject is included without change in this revision, pending such consideration.)

The new rules shall take effect March 1, 1949, except as otherwise indicated.

These rules shall apply to further proceedings in applications pending on such date and also to further inter partes action in contested cases pending on such date, except to the extent that, in the opinion of the Commissioner, their application to a particular case pending

when these rules take effect, or to a particular action or paper in such case, would not be feasible or would work injustice, in which event the rules in effect immediately prior to March 1, 1949, shall apply to such case, action or paper.

Sections 1.192 to 1.195 shall not apply to appeals from final rejections of the primary examiners made before March 1, 1949, and appeals to the Board of Appeals from such rejections shall be governed by the applicable rules in effect prior to March 1, 1949.

Section 1.302 shall not apply to cases in which the time for appeal had expired prior to March 1, 1949.

§ 1.2. Business to be transacted in writing.

All business with the Patent Office should be transacted in writing. The personal attendance of applicants or their attorneys or agents at the Patent Office is unnecessary. The action of the Patent Office will be based exclusively on the written record in the Office. No attention will be paid to any alleged oral promise, stipulation, or understanding in relation to which there is disagreement or doubt.

§ 1.3. Business to be conducted with decorum and courtesy.

Applicants and their attorneys or agents are required to conduct their business with the Patent Office with decorum and courtesy. Papers presented in violation of this requirement will be submitted to the Commissioner and will be returned by his direct order. Complaints against examiners and other employees must be made in communications separate from other papers.

§ 1.4. Nature of correspondence.

(a) Correspondence with the Patent Office comprises (1) correspondence relating to services and facilities of the Office, such as general inquiries, requests for publications supplied by the Office, orders for printed copies of patents, orders for copies of records, transmission of assignments for recording, and the like, and (2) correspondence in and relating to a particular application or other proceeding in the Office. See particularly the rules relating to the filing and prosecution of applications or other proceedings (§ 1.31 and following sections).

(b) Since different matters may be considered by different branches or sections of the Patent Office, each distinct subject, inquiry or order should be contained in a separate letter to avoid confusion and delay in answering letters dealing with different subjects.

§ 1.5. Identification of application or patent.

(a) When a letter concerns an application for patent, it should state the name of the applicant, the title of the invention, the serial number of the application, the date of filing the same, and, if known, the division to which it has been assigned (see § 1.55).

(b) When the letter concerns a patent, it should state the number and date of issue of the patent, the name of the patentee, and the title of the invention.

§ 1.6. Receipt of letters and papers.

(a) Letters and other papers received in the Patent Office are stamped with the date of receipt.

(b) Mail placed in the Patent Office pouch up to midnight on weekdays, excepting holidays, by the post office at Washington, D. C., serving the Patent Office, is considered as having been received in the Patent Office on the day it was so placed in the pouch.

(c) In addition to being mailed or delivered by hand during office hours, letters and other papers may be deposited up to midnight in a box provided at the guard's desk at the 14th and E Street entrance of the Patent Office on weekdays except Saturdays, and at the main entrance of the Commerce Building on Saturdays, excepting holidays, and all papers deposited therein are considered as received in the Patent Office on the day of deposit.

(d) No papers are received in the Patent Office on Sundays or holidays within the District of Columbia.

§ 1.7. Times for taking action; expiration on Sunday or holiday.

Whenever periods of time are specified in this part in days, calendar days are intended unless otherwise indicated. When the day, or the last day, fixed by statute or by or under this part for taking any action or paying any fee falls on Sunday, or on a holiday within the District of Columbia, the action may be taken, or the fee paid, on the next succeeding day which is not a Sunday or a holiday.

RECORDS AND FILES OF THE PATENT OFFICE

§ 1.11. Patent files open to the public.

After a patent has been issued, the specification, drawings, and all papers relating to the case in the file of the patent are open to inspection by the general public, and copies may be furnished upon paying the fee therefor. The file of any terminated interference involving a patent, or an application on which a patent has subsequently issued, is similarly open to public inspection and procurement of copies.

§ 1.12. Assignment records open to public inspection.

The assignment, records, including digests and indexes, are open to public inspection and copies of any instrument recorded may be obtained upon payment of the fee therefor. An order for a copy of an assignment should give the liber and page of the record. If identified only by the name of the patentee and number of the patent, or by name of the applicant and serial number of the application, an extra charge will be made for the time consumed in making a search for such assignment.

§ 1.13. Copies and certified copies.

(a) Copies of patents and of any records, books, papers, or drawings belonging to the Patent Office and open to the public, will be furnished by the Patent Office to any person, and copies of other records or papers will be furnished to persons entitled thereto, upon payment of the fee therefor.

(b) Such copies will be authenticated by the seal of the Patent Office and certified by the Commissioner, or in his name attested by a chief of division, duly designated by the Commissioner, upon pay-

ment of the fee for the authentication certificate in addition to the fee for the copies.

§ 1.14. Applications preserved in secrecy.

(a) Pending applications are preserved in secrecy. No information will be given by the Office respecting the filing by any particular person of an application for a patent, the pendency of any particular case before it, or the subject matter of any particular application, nor will access be given to or copies furnished of any pending application or papers relating thereto, without written authority of the applicant, or his assignee or attorney or agent, unless it shall be necessary to the proper conduct of business before the Office or as provided by this part.

(b) Abandoned applications are likewise not open to public inspection, except that if an application referred to in a United States patent is abandoned and is available, it may be inspected or copies obtained by any person on written request, without notice to the applicant. Abandoned applications may be destroyed after twenty years from their filing date, except those to which particular attention has been called and which have been marked for preservation. Abandoned applications will not be returned.

(c) Applications for patents which disclose, or which appear to disclose, or which purport to disclose, inventions or discoveries relating to atomic energy are reported to the Atomic Energy Commission and the Commission will be given access to such applications, but such reporting does not constitute a determination that the subject matter of each application so reported is in fact useful or an invention or discovery or that such application in fact discloses subject matter in categories specified by sec. 11 (d) of the Atomic Energy Act of 1946, 60 Stat. 768, 42 U. S. C. 1811.

§ 1.22. Fees payable in advance.

Fees and charges payable to the Patent Office are required to be paid in advance, that is, at the time of making application for any action by the Office for which a fee or charge is payable.

§ 1.23. Method of payment.

All payments of money required for Patent Office fees should be made in United States specie, Treasury notes, national bank notes, post office money orders or postal notes payable in Washington, D. C., or by certified checks. If sent in any other form, the Office may delay or cancel the credit until collection

is made. Money orders and checks must be made payable to the Commissioner of Patents. Remittances from foreign countries must be payable and immediately negotiable in the United States for the full amount of the fee required. Money sent by mail to the Patent Office will be at the risk of the sender; letters containing money should be registered.

§ 1.24. Coupons.

Coupons in denominations of ten cents and twenty-five cents are sold by the Patent Office for the convenience of regular purchasers of printed copies of patents and designs (and also of trademark registrations); these coupons may also be used for small remittances. The ten-cent coupons are sold individually and in pads of 20 for \$2.00 and books of 100 with stubs for record for \$10.00. The twenty-five cent coupons are sold individually and in pads of 20 for \$5.00 and in books of 100 with stubs for record for \$25.00. These coupons are good until used; they may be transferred but cannot be re-deemed.

NOTE: Public document coupons issued by the Superintendent of Documents cannot be used in the Patent Office, nor can the coupons issued by the Patent Office be used at the Government Printing Office or elsewhere.

§ 1.25. Deposit accounts.

(a) For the convenience of attorneys, agents and the general public in ordering services offered by the Office, copies of records, etc., special deposit accounts may be established in the Patent Office. A minimum deposit of \$25 or more, depending on the activity of the individual account, is required. At the close of each month's business, a statement will be rendered. Whenever the statement shows that the account has fallen below the required minimum balance, a remittance must be made to cover the deficiency. An amount sufficient to cover all services, copies, etc., requested must always be on deposit.

(b) Filing, final, appeal and petition fees will not be charged against these accounts.

§ 1.26. Refunds.

Money paid by actual mistake or in excess, such as a payment not required by law, will be refunded, but a mere change of purpose after the payment of money, as when a party desires to withdraw his application for a patent or to withdraw an appeal, will not entitle a party to demand such a return. Amounts of ten cents or less will not be returned unless specifically demanded, within a reasonable time, nor will the payer be notified of such amount; amounts over ten cents but less than one dollar may be returned in postage stamps, and other amounts by check.

PROSECUTION OF APPLICATION AND APPOINTMENT OF ATTORNEY OR AGENT

§ 1.31. Applicants may be represented by an attorney or agent.

An applicant for patent may file and prosecute his own case, or he may be represented by an attorney or agent authorized to practice before the Patent Office in patent cases. The Patent Office cannot aid in the selection of an attorney or agent.

§ 1.32. Prosecution by assignee.

The assignee of record of the entire interest in an application for patent is entitled to conduct the prosecution of the application to the exclusion of the inventor.

§ 1.33. Correspondence when no attorney or agent.

When no attorney or agent has been appointed, all notices, official letters and other communications in the case will be sent to the applicant, or to the assignee of the entire interest if the applicant or such assignee so request, or to the assignee of an undivided part if the applicant so request, at the post office address of which the Office has been notified in the case. Amendments and other papers filed in the application must be signed by the applicant, or if there is an assignee of an undivided part interest, by the applicant and such assignee, or if there is an assignee of the entire interest, by such assignee.

§ 1.34. Power of attorney or authorization.

Before any attorney or agent, original or associate, will be allowed to inspect papers or take action of any kind in any application or proceeding, a written power of attorney or authorization, from the person or persons entitled to prosecute the application or from the principal attorney or agent in the case of an associate attorney or agent, must be filed in that particular application or proceeding.

§ 1.35. Correspondence held with attorney.

When an attorney or agent shall have filed his power of attorney, or authorization, duly executed, the correspondence will be held with him; notices, official letters and other communications in the case intended for the applicant will be sent to the attorney or agent at the address of which notice shall have been given in the case, and replies to Office actions, or other actions in the case, will be received from him. Double correspondence with an applicant and his attorney or agent, or with two representatives, will not be undertaken. If more than one attorney or agent be appointed, correspondence will be held with the one last appointed unless otherwise requested.

§ 1.36. Revocation of power of attorney or authorization; withdrawal of attorney or agent.

A power of attorney or authorization of agent may be revoked at any stage in the proceedings of a case, and an attorney or agent may withdraw, upon application to and approval by the Commissioner; and when it is so revoked, or the attorney or agent so withdrawn, the Office will communicate directly with the applicant, or with such other attorney or agent as he may appoint. An attorney or agent will be notified of the revocation of his power of attorney or authorization and the applicant will be notified of the withdrawal of the attorney or agent. An assignment will not of itself operate as a revocation of a power or authorization previously given, but the assignee of the entire interest may revoke previous powers and be represented by an attorney or agent of his own selection.

WHO MAY APPLY FOR A PATENT**§ 1.41. Only inventor may apply for patent.**

Only the actual inventor may apply for a patent and the application papers must be signed and the necessary oath executed by the inventor, unless the inventor is dead or insane. See § 1.147.

§ 1.42. When the inventor is dead.

In case of the death of the inventor, the executor or administrator of the deceased inventor may sign the application papers and make the necessary oath, and apply for and obtain the patent. Where the inventor dies during the time intervening between the filing of his application and the granting of a patent thereon, the letters patent may be issued to the executor or administrator upon proper intervention by him.

§ 1.43. When the inventor is insane.

In case an inventor becomes insane, the legally appointed guardian, conservator, or representative of the insane inventor may sign the application papers and make the necessary oath, and apply for and obtain the patent.

§ 1.44. Proof of authority.

In the cases mentioned in §§ 1.42 and 1.43, proof of the power or authority of the executor or administrator, or of the guardian, conservator, or representative, must be recorded in the Patent Office before the grant of a patent.

§ 1.45. Joint inventors.

(a) Joint inventors must apply for a patent jointly and each must sign the application papers and make the required oath; neither of them alone, nor less than the entire number, can apply for a patent for an invention invented by them jointly.

(b) If an application for patent has been made inadvertently or by mistake and without fraudulent intention by two or more persons as joint inventors when they were not in fact joint inventors, the application may be amended to remove the name of those not inventors upon filing a statement of the facts verified by all of the original applicants, and an oath as required by § 1.65 by the applicant who is the actual inventor, provided the amendment is diligently made. An application can not be amended to add the name of a joint inventor who was omitted, but a new independent application must be filed.

§ 1.46. Assigned inventions and patents.

In case the whole or a part interest in the invention or in the patent to be issued is assigned, the application must still be made by the inventor as indicated in §§ 1.41 and 1.45, or by one of the persons mentioned in §§ 1.42 and 1.43. However, the patent may be issued to the assignee or jointly to the inventor and the assignee as provided in § 1.334.

§ 1.47. Applicant.

Unless the contrary is indicated, the word "applicant" when used in this part refers to the inventor (§ 1.41), joint inventors who have applied for a patent (§ 1.45), or to the person mentioned in § 1.42

or § 1.43 who has applied for a patent in place of the inventor.

THE APPLICATION**§ 1.51. General requisites of an application.**

Applications for patents must be made to the Commissioner of Patents. A complete application comprises:

- (a) A petition or request for a patent, see § 1.61.
- (b) A specification, including a claim or claims, see §§ 1.71 to 1.77.
- (c) An oath, see § 1.65.
- (d) Drawings, when necessary, see §§ 1.81 to 1.88.
- (e) The prescribed filing fee. See § 1.21 for filing fees.)

§ 1.52. Language, paper, writing margins.

(a) The petition, specification, and oath must be in the English language. All papers which are to become a part of the permanent records of the Patent Office must be legibly written or printed in permanent ink.

(b) The specification and claims, and also papers subsequently filed, must be plainly written on but one side of the paper. A wide margin must be reserved on the left-hand side and on the top of each page and the lines must not be crowded too closely together. Legal paper, 8 to 8½ by 12½ to 13 inches, typewritten and double spaced with margins of one and one-half inches on the left-hand side and top is deemed preferable. Typewritten or printed papers suitable for use by the Office may be required if the papers originally filed are not correctly, legibly and clearly written.

(c) Any interlineation, erasure or cancellation or other alteration made before the application was signed and sworn to should be clearly referred to in a marginal note or footnote on the same sheet of paper, and initialed or signed and dated by the applicant to indicate such fact. (See § 1.56.)

§ 1.53. Application accepted and filed for examination only when complete.

An application for a patent will not be accepted and placed upon the files for examination until all its required parts, complying with the rules relating thereto, are received, except that certain minor informalities may be waived subject to subsequent correction whenever required.

If the papers and parts are incomplete, or so defective that they cannot be accepted as a complete application for examination, the applicant will be notified; the papers will be held six months for completion and, if not by then completed, will be stored as an abandoned incomplete application and eventually destroyed or otherwise disposed of; the fee submitted will be refunded.

§ 1.54. Parts of application to be filed together.

It is desirable that all parts of the complete application be deposited in the Office together; otherwise a letter must accompany each part, accurately and clearly connecting it with the other parts of the application.

§ 1.55. Serial number and filing date of application.

Complete applications are numbered in regular order, and the applicant will be informed of the serial number and filing date of the application by a filing receipt. The filing date of the application is the date on which the complete application, acceptable for placing on the files for examination, is received in the Patent Office; or the date on which the last part completing such application is received in the case of an incomplete or defective application completed within six months.

NOTE: See R. S. 4887; 35 U. S. C. 32, second paragraph, for right to rely on filing date of foreign application.

§ 1.56. Improper applications.

Any application signed or sworn to in blank, or without actual inspection by the applicant, and any application altered or partly filled in after being signed or sworn to, and also any application fraudulently filed or in connection with which any fraud is practiced or attempted on the Patent Office, may be stricken from the files.

§ 1.57. Signatures.

The petition, the specification and claim, and the oath, must be signed by the applicant in person. Full names must be given, including the full first name without abbreviation, and the middle initial or name if any.

§ 1.58. Single signature form.

The petition, oath, specification and claim, and power of attorney may be included in a single document and may be executed by a single signature of the applicant if an approved single signature form supplied by the Office or approved by the Office is used.

§ 1.59. Papers of complete application not to be returned.

The papers in a complete application will not be returned for any purpose whatever. If applicants have not preserved copies of the papers, the Office will furnish copies at the usual cost. See § 1.87 for return of drawing.

PETITION**§ 1.61. Petition.**

The petition must be addressed to the Commissioner of Patents and must state the name, residence, and post office address of the petitioner and request the grant of a patent; designate by title the invention sought to be patented; contain a reference to the specification for a full disclosure of such invention; and must be signed by the applicant in person.

The power of attorney or authorization of agent may be incorporated in the petition.

In the single signature form, the statements above required for a separate petition do not all appear in the petition paragraph and are differently arranged. (See § 1.58)

THE OATH**§ 1.65. Oath of applicant.**

(a) The applicant, if the inventor, must make oath or affirmation that he does verily believe him-

self to be the original and first inventor or discoverer of the art, machine, manufacture, composition, or improvement, or of the variety of plant, for which he solicits a patent; that he does not know and does not believe that the same was ever known or used before his invention or discovery thereof, and shall state of what country he is a citizen and where he resides, and whether he is a sole or joint inventor of the invention claimed in his application. In every original application the applicant must distinctly state under oath that to the best of his knowledge and belief the invention has not been in public use or on sale in the United States for more than one year prior to his application, or patented or described in any printed publication in any country before his invention or more than one year prior to his application, or patented in any foreign country on an application filed by himself or his legal representatives or assigns more than twelve months prior to his application in this country. If any application for patent has been filed in any foreign country by the applicant in this country, or by his legal representatives or assigns, prior to his application in this country, he shall state the country or countries in which such application has been filed, giving the date of such application, and shall also state that no application has been filed in any other country or countries than those mentioned, and if no application for patent has been filed in any foreign country, he shall so state. This oath must be subscribed to by the affiant.

(b) If the application be made by an executor or administrator of a deceased person or the guardian, conservator, or representative of an insane person, the oath shall state the relationship of the affiant to the inventor and, upon information and behalf, the facts which the inventor is required by this section to make oath to.

(c) An additional oath may be required if the application has not been filed in the Patent Office within a reasonable time after the execution of the original oath.

(d) In the case of applications for patent for inventions to which section 3 of 61 Stat. 794; Public Law 390, August 6, 1947; 35 U. S. C., Sup., 101 note, applies, the oath should include a statement that the invention was not made before January 1, 1946, or was not made before January 1, 1946 in Germany or Japan or in the territory of any other of the Axis Powers or in any territory occupied by the Axis forces. If not included in the oath, a separate affidavit will be required.

§ 1.66. Officers authorized to administer oaths.

(a) The oath or affirmation may be made before any person within the United States authorized by law to administer oaths, or, when the applicant resides in a foreign country, before any minister, charge d'affaires, consul, or commercial agent holding commission under the Government of the United States, or before any notary public, judge, or magistrate having an official seal and authorized to administer oaths in the foreign country in which the applicant may be, whose authority shall be proved by a certificate of a diplomatic or consular officer

of the United States, the oath being attested in all cases in this and other countries, by the proper official seal of the officer before whom the oath or affirmation is made, except that no oath or affirmation may be administered by any attorney or agent appearing in the case. When the person before whom the oath or affirmation is made in this country is not provided with a seal, his official character shall be established by competent evidence, as by a certificate from a clerk of a court of record or other proper officer having a seal.

(b) When the oath is taken before an officer in a country foreign to the United States, all the application papers, except the drawings, must be attached together and a ribbon passed one or more times through all the sheets of the application, except the drawings, and the ends of said ribbon brought together under the seal before the latter is affixed and impressed, or each sheet must be impressed with the official seal of the officer before whom the oath is taken. If the papers as filed are not properly ribboned or each sheet impressed with the seal, the case will be accepted for examination, but before it is allowed, duplicate papers, prepared in compliance with the foregoing sentence, must be filed.

§ 1.67. Supplemental oath for matter not originally claimed.

(a) When an applicant presents a claim for matter originally shown or described but not substantially embraced in the statement of invention or claim originally presented, he shall file a supplemental oath to the effect that the subject matter of the proposed amendment was part of his invention; that he does not know and does not believe that the same was ever known or used before his invention or discovery thereof, or patented or described in any printed publication in any country before his invention or discovery thereof, or more than one year before his application, or in public use or on sale in the United States for more than one year before the date of his application, that said invention has not been patented in any foreign country on an application filed by himself or his legal representatives or assigns more than twelve months prior to his application in the United States, and has not been abandoned. Such supplemental oath should accompany and properly identify the proposed amendment, otherwise the proposed amendment may be refused consideration.

(b) In proper cases the oath here required may be made on information and belief by an executor or administrator of a deceased person or a guardian, conservator, or representative of an insane person.

SPECIFICATION

§ 1.71. Detailed description and specification of the invention.

(a) The specification must include a written description of the invention or discovery and of the manner and process of making, constructing, compounding, and using the same, and is required to be in such full, clear, concise, and exact terms as to enable any person skilled in the art or science to

which the invention or discovery appertains, or with which it is most nearly connected, to make, construct, compound, and use the same.

(b) The specification must set forth the precise invention for which a patent is solicited, in such manner as to distinguish it from other inventions and from what is old. It must describe completely a specific embodiment of the process, machine, manufacture, composition of matter or improvement invented, and must explain the mode of operation or principle whenever applicable. The best mode devised by the inventor of carrying out his invention must be set forth.

(c) In the case of an improvement, the specification must particularly point out the part or parts of the process, machine, manufacture, or composition of matter to which the improvement relates, and the description should be confined to the specific improvement and to such parts as necessarily cooperate with it or as may be necessary to a complete understanding or description of it.

§ 1.72. Title of the invention.

The title of the invention, which should be as short and specific as possible, should appear as a heading on the first page of the specification.

§ 1.73 Summary of the invention.

A brief summary of the invention indicating its nature and substance, which may include a statement of the object of the invention, should precede the detailed description. Such summary should, when set forth, be commensurate with the invention as claimed and any object recited should be that of the invention as claimed.

§ 1.74. Reference to drawings.

When there are drawings, there shall be a brief description of the several views of the drawings and the detailed description of the invention shall refer to the different views by specifying the numbers of the figures, and to the different parts by use of reference letters or numerals (preferably the latter).

§ 1.75. Claim.

(a) The specification must conclude with a claim particularly pointing out and distinctly claiming the part, improvement, or combination which the applicant regards as his invention or discovery.

(b) More than one claim may be presented, provided they differ substantially from each other and are not unduly multiplied.

(c) When more than one claim is presented, they may be placed in dependent form in which a claim may refer back to and further restrict a single preceding claim.

(d) The claim or claims must conform to the invention as set forth in the remainder of the specification and the terms and phrases used in the claims must find clear support or antecedent basis in the description so that the meaning of the terms in the claims may be ascertainable by reference to the description.

See §§ 1.141 to 1.47 as to claiming different inventions in one application.

§ 1.76. Signature to the specification.

The specification and claim must be signed by the applicant in person. See §§ 1.57 and 1.58.

§ 1.77. Arrangement of specification.

The following order of arrangement should be observed in framing the specification:

- (a) Title of the invention; or a preamble stating the name, citizenship and residence of the applicant and the title of the invention may be used.
- (b) Brief summary of the invention.
- (c) Brief description of the several views of the drawing, if there are drawings.
- (d) Detailed description.
- (e) Claim or claims.
- (f) Signature.

§ 1.78. Cross-references to other applications.

(a) When an applicant files an application claiming an invention disclosed in a prior filed application of the same applicant, the second application must contain a reference to the prior application, identifying it by serial number and filing date and indicating the relationship of the applications. When an applicant files, or a common assignee owns, two or more applications relating to the same subject matter of invention, with one or more of the applications disclosing unclaimed matter that is disclosed and claimed in another of the applications, the applications not claiming it must refer to and identify the application claiming it. Cross-reference to other related applications may be made when appropriate. See § 1.14 (b).

(b) Where two or more applications filed by the same applicant, or owned by the same party, contain conflicting claims, elimination of such claims from all but one application may be required in the absence of good and sufficient reason for their retention in more than one application.

§ 1.79. Reservation clauses not permitted.

A reservation for a future application of subject matter disclosed but not claimed in a pending application will not be permitted in the pending application.

THE DRAWINGS**§ 1.81. Drawings required.**

The applicant for patent is required by statute to furnish a drawing of his invention whenever the nature of the case admits of it; this drawing must be filed with the application. Illustrations facilitating an understanding of the invention (for example, flow sheets in cases of processes, and diagrammatic views) may also be furnished in the same manner as drawings, and may be required by the Office when considered necessary or desirable.

§ 1.82. Signature to drawing.

The drawing must either be signed by the applicant in person or have the name of the applicant placed thereon followed by the signature of the attorney or agent as such.

§ 1.83. Content of drawing.

The drawing must show every feature of the invention specified in the claims. When the invention consists of an improvement on an old machine the drawing must when possible exhibit, in one or more views, the improved portion itself, disconnected from the old structure, and also in another view, so much only of the old structure as will suffice to show the connection of the invention therewith.

§ 1.84. Standards for drawings.

The complete drawing is printed and published when the patent issues, and a copy is attached to the patent. This work is done by the photolithographic process, the sheets of drawings being reduced about one-third in size. In addition, a reduction of a selected portion of the drawings of each application is published in the Official Gazette. It is therefore necessary for these and other reasons that the character of each drawing be brought as nearly as possible to a uniform standard of execution and excellence, suited to the requirements of the reproduction process and of the use of the drawings, to give the best results in the interests of inventors, of the Office, and of the public. The following regulations with respect to drawings are accordingly prescribed:

(a) Paper and ink.

Drawings must be made upon pure white paper of a thickness corresponding to two-ply or three-ply Bristol board. The surface of the paper must be calendered and smooth and of a quality which will permit erasure and correction. India ink alone must be used for pen drawings to secure perfectly black solid lines. The use of white pigment to cover lines is not acceptable.

(b) Size of sheet and margins.

The size of a sheet on which a drawing is made must be exactly 10 by 15 inches. One inch from its edges a single marginal line is to be drawn, leaving the "sight" precisely 8 by 13 inches. Within this margin all work and signatures must be included. One of the shorter sides of the sheet is regarded as its top, and, measuring down from the marginal line, a space of not less than $1\frac{1}{4}$ inches is to be left blank for the heading of title, name, number, and date, which will be applied subsequently by the Office in a uniform style.

(c) Character of lines.

All drawings must be made with drafting instruments or by photolithographic process which will give them satisfactory reproduction characteristics. Every line and letter (signatures included) must be absolutely black. This direction applies to all lines however fine, to shading, and to lines representing cut surfaces in sectional views. All lines must be clean, sharp, and solid, and fine or crowded lines should be avoided. Solid black should not be used for sectional or surface shading. Freehand work should be avoided wherever it is possible to do so.

(d) Hatching and shading.

Hatching should be made by oblique parallel lines, which may be not less than about one-twentieth inch apart.

Heavy lines on the shade side of objects should be used except where they tend to thicken the work and obscure reference characters. The light should come from the upper left hand corner at an angle of 45°. Surface delineations should be shown by proper shading, which should be open.

(e) Scale.

The scale to which a drawing is made ought to be large enough to show the mechanism without crowding when the drawing is reduced in reproduction, and views of portions of the mechanism on a larger scale should be used when necessary to show details clearly; two or more sheets should be used if one does not give sufficient room to accomplish this end, but the number of sheets should not be more than is necessary.

(f) Reference characters.

The different views should be consecutively numbered figures. Reference numerals (and letters, but numerals are preferred) must be plain, legible and carefully formed, and not be encircled. They should, if possible, measure at least one-eighth of an inch in height so that they may bear reduction to one-twenty-fourth of an inch; and they may be slightly larger when there is sufficient room. They must not be so placed in the close and complex parts of the drawing as to interfere with a thorough comprehension of the same, and therefore should rarely cross or mingle with the lines. When necessarily grouped around a certain part, they should be placed at a little distance, at the closest point where there is available space, and connected by lines with the parts to which they refer. They should not be placed upon hatched or shaded surfaces but when necessary, a blank space may be left in the hatching or shading where the character occurs so that it shall appear perfectly distinct and separate from the work. The same part of an invention appearing in more than one view of the drawing must always be designated by the same character, and the same character must never be used to designate different parts.

(g) Symbols, legends.

Graphical drawing symbols for conventional elements may be used when appropriate, subject to approval by the Office. The elements for which such symbols are used must be adequately identified in the specification. While descriptive matter on drawings is not permitted, suitable legends may be used, or may be required, in proper cases, as in diagrammatic views and flow sheets. The lettering should be as large as, or larger than, the reference characters.

(h) Location of signature and names.

The signature of the applicant, or the name of the applicant and signature of the attorney or agent, should be placed in the lower right hand corner of each sheet within the marginal line. Signatures of witnesses are not required. The title of the invention must not be placed on the drawing but may be written in pencil below the lower marginal line.

(i) Views.

The drawing must contain as many figures as may be necessary to show the invention; the figures should

be consecutively numbered if possible in the order in which they appear. The figures may be plan, elevation, section, or perspective views, and detail views of portions or elements, on a larger scale if necessary, may also be used. Exploded views, with the separated parts of the same figure embraced by a bracket, to show the relationship or order of assembly of various parts are permissible. When necessary, a view of a large machine or device in its entirety may be broken and extended over several sheets if there is no loss in facility of understanding the view (the different parts should be identified by the same figure number but followed by the letters, a, b, c, etc., for each part). The plane upon which a sectional view is taken should be indicated on the general view by a broken line, the ends of which should be designated by numerals corresponding to the figure number of the sectional view and have arrows applied to indicate the direction in which the view is taken. A moved position may be shown by a broken line superimposed upon a suitable figure if this can be done without crowding, otherwise a separate figure must be used for this purpose. Modified forms of construction can only be shown in separate figures. Views should not be connected by projection lines nor should center lines be used.

(j) Arrangement of views.

All views on the same sheet must stand in the same direction and should, if possible, stand so that they can be read with the sheet held in an upright position. If views longer than the width of the sheet are necessary for the clearest illustration of the invention, the sheet may be turned on its side. The space for a heading must then be reserved at the right and the signatures placed at the left, occupying the same space and position on the sheet as in the upright views and being horizontal when the sheet is held in an upright position. One figure must not be placed upon another or within the outline of another.

(k) Figure for Official Gazette.

The drawing should, as far as possible, be so planned that one of the views will be suitable for publication in the Official Gazette as the illustration of the invention.

(l) Extraneous matter.

An agent's or attorney's stamp, or address, or other extraneous matter, will not be permitted upon the face of a drawing, within or without the marginal line, except that the title of the invention in pencil, and identifying indicia, to distinguish from other drawings filed at the same time, may be placed below the lower margin.

(m) Transmission of drawings.

Drawings transmitted to the Office should be sent flat, protected by a sheet of heavy binder's board, or may be rolled for transmission in a suitable mailing tube; but must never be folded. If received creased or mutilated, new drawings will be required.

See § 1.152 for design drawings, § 1.165 for plant drawings, and § 1.174 for reissue drawings.

§ 1.85. Informal drawings.

The requirements of § 1.84 relating to drawings will be strictly enforced. A drawing not executed in conformity thereto may be admitted for purpose of examination, but in such case the drawing must be corrected or a new one furnished, as required. The necessary corrections will be made by the Office upon applicant's request and at his expense. (See § 1.21.)

§ 1.86. Draftsman to make drawings.

Applicants are advised to employ competent draftsmen to make their drawings.

The Office may furnish the drawings at the applicant's expense as promptly as its draftsmen can make them, for applicants who can not otherwise conveniently procure them. (See § 1.21.)

§ 1.87. Return of drawings.

The drawing of an accepted application will not be returned to the applicant except for signature.

A photographic print is made of the drawing of an accepted application.

§ 1.88. Use of old drawings.

If the drawings of a new application are to be identical with the drawings of a previous application of the applicant on file in the Office, or with part of such drawings, the old drawings or any sheets thereof may be used if the prior application is, or is about to be, abandoned, or if the sheets to be used are cancelled in the prior application. The new application must be accompanied by a letter requesting the transfer of the drawings, which should be completely identified.

MODELS, EXHIBITS, SPECIMENS**§ 1.91. Models not generally required as part of application or patent.**

Models were once required in all cases admitting a model, as a part of the application, and these models became a part of the record of the patent. Such models are no longer generally required (the description of the invention in the specification, and the drawings, must be sufficiently full and complete, and capable of being understood, to disclose the invention without the aid of a model), and will not be admitted unless specifically called for.

§ 1.92. Model or exhibit may be required.

A model, working model, or other physical exhibit, may be required if deemed necessary for any purpose on examination of the application.

§ 1.93. Specimens.

When the invention is a composition of matter, the applicant may be required to furnish specimens of the composition, and of its ingredients or intermediates, sufficient in quantity for the purpose of experiment.

§ 1.94. Return of models, exhibits or specimens.

Models, exhibits, or specimens in applications which have become abandoned, and also in other applications on conclusion of the prosecution, may

be returned to the applicant upon demand and at his expense, unless it be deemed necessary that they be preserved in the Office. Such physical exhibits in contested cases may be returned to the parties at their expense. If not claimed within a reasonable time, they may be disposed of at the discretion of the Commissioner.

§ 1.95. Copies of exhibits.

Copies of models or other physical exhibits will not ordinarily be furnished by the Office, and any model or exhibit in an application or patent shall not be taken from the Office except in the custody of an employee of the Office specially authorized by the Commissioner.

EXAMINATION OF APPLICATIONS**§ 1.101. Order of examination.**

Applications filed in the Patent Office and accepted as complete applications (§§ 1.53 and 1.55) are assigned for examination to the respective examining divisions having the classes of inventions to which the applications relate. Applications shall be taken up for examination by the examiner to whom they have been assigned in the order in which they have been filed.

Applications which have been acted upon by the examiner, and which have been placed by the applicant in condition for further action by the examiner (amended applications) shall be taken up for such action in the order in which they have been placed in such condition (date of amendment).

§ 1.102. Advancement of examination.

Applications will not be advanced out of turn for examination or for further action except as provided by this part, or upon order of the Commissioner to expedite the business of the Office, or upon a verified showing which, in the opinion of the Commissioner, will justify so advancing it.

Applications wherein the inventions are deemed of peculiar importance to some branch of the public service and the head of some department of the Government requests immediate action for that reason, may be advanced for examination; but in this case it shall be the duty of the head of that department to be represented before the Commissioner in order to prevent the improper issue of a patent. (See 29 Stat. 694; 35 U. S. C. 43.)

§ 1.103. Suspension of action.

Suspension of action by the Office will be granted at the request of the applicant for good and sufficient cause and for a reasonable time specified. Only one suspension may be granted by the primary examiner; any further suspension must be approved by the Commissioner.

If action on an application is suspended when not requested by the applicant, the applicant shall be notified of the reasons therefor.

Action by the examiner may be suspended by order of the Commissioner in the case of applications owned by the United States whenever publication of the invention by the granting of a patent

thereon might be detrimental to the public safety or defense, at the request of the appropriate department or agency.

§ 1.104. Nature of examination, examiner's action.

(a) On taking up an application for examination, the examiner shall make a thorough study thereof and shall make a thorough investigation of the available prior art relating to the subject matter of the invention sought to be patented. The examination shall be complete with respect both to compliance of the application with the statutes and rules and to the patentability of the invention as claimed, as well as with respect to matters of form, unless otherwise indicated.

(b) The applicant will be notified of the examiner's action. The reasons for any adverse action or any objection or requirement will be stated and such information or references will be given as may be useful in aiding the applicant to judge of the propriety of continuing the prosecution of his application.

§ 1.105. Completeness of examiner's action.

The examiner's action will be complete as to all matters, except that in appropriate circumstances, such as misjoinder of invention, fundamental defects in the application, and the like, the action of the examiner may be limited to such matters before further action is made. However, matters of form need not be raised by the examiner until a claim is found allowable.

§ 1.106. Rejection of claims.

If the invention is not considered patentable, or not considered patentable as claimed, the claims, or those considered unpatentable will be rejected.

In rejecting claims for want of novelty or for want of invention, the examiner must cite the best references at his command. When a reference is complex or shows or describes inventions other than that claimed by the applicant, the particular part relied on must be designated as nearly as practicable. The pertinence of each reference, if not obvious, must be clearly explained and each rejected claim specified.

§ 1.107. Citation of references.

If domestic patents be cited, their numbers and dates, the names of the patentees, and the classes of inventions must be stated. If foreign patents be cited, their nationality or country, numbers and dates, and the names of the patentees must be stated, and such other data must be furnished as may be necessary to enable the applicant to identify the patents cited. In citing foreign patents, the number of pages of specification and sheets of drawing must be specified, and in case part only of the patent be involved, the particular pages and sheets containing the parts relied upon must be identified. If printed publications be cited, the author (if any), title, date, pages or plates, and place of publication, or place where a copy can be found, shall be given. When a rejection is based on facts within the personal knowledge of an em-

ployee of the Office, the data shall be as specific as possible, and the reference must be supported, when called for by the applicant, by the affidavit of such employee, and such affidavit shall be subject to contradiction or explanation by the affidavits of the applicant and other persons.

§ 1.108. Abandoned and forfeited applications not cited.

Abandoned and forfeited applications as such will not be cited as references.

ACTION BY APPLICANT AND FURTHER CONSIDERATION

§ 1.111. Reply by applicant.

(a) After the Office action, if adverse in any respect, the applicant, if he persist in his application for a patent, must reply thereto and may request re-examination or reconsideration, with or without amendment.

(b) In order to be entitled to re-examination or reconsideration, the applicant must make request therefor in writing, and he must distinctly and specifically point out the supposed errors in the examiner's action; the applicant must respond to every ground of objection and rejection in the prior Office action (except that request may be made that objections or requirements as to form not necessary to further consideration of the claims to be held in abeyance until a claim is allowed), and the applicant's action must appear throughout to be a bona fide attempt to advance the case to final action. The mere allegation that the examiner has erred will not be received as a proper reason for such re-examination or reconsideration.

(c) In amending an application in response to a rejection, the applicant must clearly point out the patentable novelty which he thinks the claims present in view of the state of the art disclosed by the references cited or the objections made. He must also show how the amendments avoid such references or objections.

See §§ 1.135 and 1.136 for time or reply.

§ 1.112. Re-examination and reconsideration.

After response by applicant (§ 1.111) the application will be re-examined and reconsidered, and the applicant will be notified if claims are rejected, or objections or requirements made, in the same manner as after the first examination. Applicant may respond to such office action, in the same manner provided in § 1.111, with or without amendment, but any amendments after the second Office action must ordinarily be restricted to the rejection or to the objections or requirements made, and the application will be again considered, and so on repeatedly, unless the examiner has indicated that the action is final.

§ 1.113. Final rejection or action.

(a) On the second or any subsequent examination or consideration, the rejection or other action may be made final, whereupon applicant's response is limited to appeal in the case of rejection of any claim (§ 1.191), or to amendment as specified in

§ 1.116. Petition may be taken to the Commissioner in the case of objections or requirements not involved in the rejection of any claim (§ 1.181). Response to a final rejection or action must include cancellation of, or appeal from the rejection of, each claim so rejected and, if any claim stands allowed, compliance with any requirement or objection as to form.

(b) In making such final rejection, the examiner shall repeat or state all grounds of rejection then considered applicable to the claims in the case, clearly stating the reasons therefor.

AMENDMENTS

§ 1.115. Amendment by applicant.

The applicant may amend before or after the first examination and action, and also after the second or subsequent examination or reconsideration as specified in § 1.112 or when and as specifically required by the examiner.

§ 1.116. Amendments after final action.

(a) After final rejection or action (§ 1.113) amendments may be made cancelling claims or complying with any requirement of form which has been made, and amendments presenting rejected claims in better form for consideration on appeal may be admitted; but the admission of any such amendment or its refusal, and any proceedings relative thereto, shall not operate to relieve the application from its condition as subject to appeal or to save it from abandonment under § 1.135.

(b) If amendments touching the merits of the application be presented after final rejection, or after appeal has been taken, or when such amendment might not otherwise be proper, they may be admitted upon a showing of good and sufficient reasons why they are necessary and were not earlier presented.

(c) No amendment can be made as a matter of right in appealed cases. After decision on appeal, amendments can only be made as provided in § 1.198, or to carry into effect a recommendation under § 1.196.

§ 1.117. Amendment and revision required.

The specification, claims and drawing must be amended and revised when required, to correct inaccuracies of description and definition or unnecessary prolixity, and to secure correspondence between the claims, the specification and the drawing.

§ 1.118. Amendment of disclosure.

In original applications, all amendments of the drawings or specifications, and all additions thereto, must conform to at least one of them as it was at the time of the filing of the application. Matter not found in either, involving a departure from or an addition to the original disclosure, cannot be added to the application even though supported by a supplemental oath, and can be shown or claimed only in a separate application.

§ 1.119. Amendment of claims.

The claims may be amended by cancelling particular claims, by presenting new claims, or by

amending the language of particular claims (such amended claims being in effect new claims). In presenting new or amended claims, the applicant must point out how they avoid any reference or ground of rejection of record which may be pertinent.

§ 1.121. Manner of making amendments.

Erasures, additions, insertions, or alterations of the papers and records must not be made by the applicant. Amendments are made by filing a paper (which should conform to § 1.52), directing or requesting that specified amendments be made. The exact word or words to be stricken out or inserted in the application must be specified and the precise point indicated where the deletion or insertion is to be made.

§ 1.122. Entry and consideration of amendments.

(a) Amendments are "entered" by the Office by making the proposed deletions by drawing a line in red ink through the word or words cancelled, and by making the proposed substitutions or insertions in red ink, small insertions being written in at the designated place and larger insertions being indicated by reference.

(b) Ordinarily all amendments presented in a paper filed while the application is open to amendment are entered and considered, subsequent cancellation or correction being required of improper amendments. Untimely amendatory papers may be refused entry and consideration in whole or in part.

§ 1.123. Amendments to the drawing.

(a) No change in the drawing may be made except by permission of the Office. Permissible changes in the construction shown in any drawing may be made only by the Office. A sketch in permanent ink showing proposed changes, to become part of the record, must be filed. The paper requesting amendments to the drawing should be separate from other papers. The drawing may not be withdrawn from the Office except for signature.

(b) Substitute drawings will not ordinarily be admitted in any case unless required by the Office.

§ 1.124. Amendment of amendments.

When an amendatory clause is to be amended, it should be wholly rewritten and the original insertion cancelled, so that no interlineations or deletions shall appear in the clause as finally presented. Matter cancelled by amendment can be reinstated only by a subsequent amendment presenting the cancelled matter as a new insertion.

§ 1.125. Substitute specification.

If the number or nature of the amendments shall render it difficult to consider the case, or to arrange the papers for printing or copying, the examiner may require the entire specification or claims, or any part thereof, to be rewritten. A substitute specification will ordinarily not be accepted unless it has been required by the examiner.

§ 1.126. Numbering of claims.

The original numbering of the claims must be preserved throughout the prosecution. When claims

are cancelled, the remaining claims must not be renumbered. When claims are added by amendment or substituted for cancelled claims, they must be numbered by the applicant consecutively beginning with the number next following the highest numbered claim previously presented (whether entered or not). When the application is ready for allowance, the examiner, if necessary, will renumber the claims consecutively in the order in which they appear or in such order as may have been requested by applicant.

§ 1.127. Petition from refusal to admit amendment.

From the refusal of the primary examiner to admit an amendment, in whole or in part, a petition will lie to the Commissioner under § 1.181.

AFFIDAVITS OVERCOMING REJECTIONS

§ 1.131. Affidavit of prior invention to overcome cited patent or publication.

(a) When any claim of an application is rejected on reference to a domestic patent which substantially shows or describes but does not claim the rejected invention, or on reference to a foreign patent or to a printed publication, and the applicant shall make oath to facts showing a completion of the invention in this country before the filing date of the application on which the domestic patent issued, or before the date of the foreign patent, or before the date of the printed publication, then the patent or publication cited shall not bar the grant of a patent to the applicant, unless the date of such patent or printed publication be more than one year prior to the date on which the application was filed in this country.

(b) The showing of facts shall be such, in character and weight, as to establish reduction to practice prior to the effective date of the reference, or conception of the invention prior to the effective date of the reference coupled with due diligence from said date to a subsequent reduction to practice or to the filing of the application. Original exhibits of drawings or records, or photographic or photostatic copies thereof, must accompany and form part of the affidavit or their absence satisfactorily explained.

§ 1.132. Affidavits traversing grounds of rejection.

When any claim of an application is rejected on reference to a domestic patent which substantially shows or describes but does not claim the invention, or on reference to a foreign patent, or to a printed publication, or to facts within the personal knowledge of an employee of the Office, or when rejected upon a mode or capability of operation attributed to a reference, or because the alleged invention is held to be inoperative or lacking in utility, or frivolous or injurious to public health or morals, affidavits traversing these references or objections may be received.

INTERVIEWS

§ 1.133. Interviews.

(a) Interviews with examiners concerning applications and other matters pending before the Office must be had in the examiners' rooms at such times,

within office hours, as the respective examiners may designate. Interviews will not be permitted at any other time or place without the authority of the Commissioner. Interviews for the discussion of the patentability of pending applications will not be had before the first official action thereon. Interviews should be arranged for in advance.

(b) In every instance where reconsideration is requested in view of an interview with an examiner, a complete written statement of the reasons presented at the interview as warranting favorable action must be filed by the applicant. An interview does not remove the necessity for response to Office actions as specified in §§ 1.111, 1.135.

TIME FOR RESPONSE BY APPLICANT; ABANDONMENT OF APPLICATION

§ 1.135. Abandonment for failure to respond within time limit.

(a) If an applicant fails to prosecute his application within six months after the date when the last official notice of any action by the Office was mailed to him, or within such shorter time as may be fixed (§ 1.136), the application will become abandoned.

(b) Prosecution of an application to save it from abandonment must include such complete and proper action as the condition of the case may require. The admission of an amendment not responsive to the last official action, or refusal to admit the same, and any proceedings relative thereto, shall not operate to save the application from abandonment.

(c) When action by the applicant is a bona fide attempt to advance the case to final action, and is substantially a complete response to the examiner's action, but consideration of some matter or compliance with some requirement has been inadvertently omitted, opportunity to explain and supply the omission may be given before the question of abandonment is considered.

(d) Prompt ratification or filing of a correctly signed copy may be accepted in case of an unsigned or improperly signed paper.

See § 1.7.

§ 1.136. Time less than six months.

(a) An applicant may be required to prosecute his application in a shorter time than six months, but not less than thirty days, whenever such shorter time is deemed necessary or expedient. Unless the applicant is notified in writing that response is required in less than six months, the maximum period of six months is allowed.

(b) The time for reply, when a time less than six months has been set, will be extended only for good and sufficient cause, and for a reasonable time specified. Any request for such extension must be filed on or before the day on which action by the applicant is due, but in no case will the mere filing of the request effect any extension. Only one extension may be granted by the primary examiner in his discretion; any further extension must be approved by the Commissioner. In no case can any extension carry the date on which response to an action is due beyond six months from the date of the action.

§ 1.137. Revival of abandoned application.

An application abandoned for failure to prosecute may be revived as a pending application if it is shown to the satisfaction of the Commissioner that the delay was unavoidable. A petition to revive an abandoned application must be accompanied by a verified showing of the causes of the delay, by the proposed response unless it has been previously filed, and by the petition fee.

§ 1.138. Express abandonment.

An application may be expressly abandoned by filing in the Patent Office a written declaration of abandonment, signed by the applicant himself and the assignee of record, if any, and identifying the application.

JOINDER OF INVENTIONS IN ONE APPLICATION; DIVISION**§ 1.141. Different inventions in one application.**

Two or more independent inventions can not be claimed in one application; but (a) where several distinct inventions are dependent upon each other and mutually contribute to produce a single result they may be claimed in one application, and (b) more than one species of an invention, not to exceed three, may be specifically claimed in different claims in one application, if that application also includes an allowable claim generic to all the claimed species.

§ 1.142. Requirement for division.

(a) If two or more inventions are claimed in a single application, and they are of such a nature that a single patent may not be issued to cover them, the applicant will be required to limit the claims to whichever invention he may elect, this official action being called a requirement for division. If the divisibility of the inventions be clear, such requirement will be made before any other action on the merits; however, it may be made at any time before final action in the case, at the discretion of the examiner.

(b) Claims to the invention or inventions not elected, if not cancelled, are nevertheless withdrawn from further consideration by the examiner by the election, subject however to reinstatement in the event the requirement for division is withdrawn or overruled.

§ 1.143. Reconsideration of requirement.

(a) If the applicant disagrees with the requirement for division, he may request reconsideration and withdrawal or modification of the requirement, giving the reasons therefor (see § 1.111). In requesting reconsideration the applicant must indicate a provisional election of one invention for prosecution, which invention shall be the one elected in the event the requirement becomes final.

(b) The requirement for division will be reconsidered on such a request, but will not be repeated and made final without the written approval of an examiner of classification, a copy of which approval shall be supplied to the applicant. If the requirement is repeated and made final, the examiner will

at the same time act on the claims to the invention elected.

§ 1.144. Appeal from requirement for division.

After a final requirement for division the applicant, in addition to making any response due on the remainder of the action, may appeal from the requirement. The prosecution of claims to the elected invention may be continued during such appeal. Appeal may be deferred until after final action on or allowance of the claims to the invention elected. Appeal may not be taken if reconsideration of the requirement was not requested.

§ 1.145. Subsequent presentation of claims for different invention.

If, after an Office action on an application, the applicant presents claims directed to an invention divisible from the invention previously claimed, such claims, if the amendment is entered, will be rejected and the applicant will be required to limit the claims to the invention previously claimed. Such rejection and requirement will not be repeated and made final without the written approval of an examiner of classification.

§ 1.146. Election of species.

In the first action on an application containing a generic claim and claims restricted separately to each of more than one species embraced thereby, the examiner, if of the opinion after a complete search on the generic claims that no generic claim presented is allowable, shall require the applicant in his response to that action to elect that species of his invention to which his claims shall be restricted if no generic claim is finally held allowable. However, if such application contains claims directed to more than three species, the examiner may require restriction of the claims to not more than three species before taking any further action in the case.

§ 1.147. Separate application for invention not elected.

The non-elected inventions, those not elected after a requirement for division (§ 1.142), may be made the subjects of separate applications, which must conform to the rules applicable to original applications and which will be examined in the same manner as original applications. However, if such an application is filed before the original application is patented or becomes abandoned, and if it is identical with the original application as filed, the drawings being identical and the papers constituting an exact copy of the original papers which were signed and executed by the applicant; signing and execution by the applicant may be omitted; such application may consist of the filing fee, a copy of the drawings complying to rules relating to drawings and a certified typewritten copy of the original application as filed, together with a proposed amendment cancelling the irrelevant claims or other matter.

DESIGN PATENTS**§ 1.151. Rules applicable.**

The rules relating to applications for patents for other inventions or discoveries are also applicable

to applications for patents for designs except as otherwise provided.

§ 1.152. Drawing.

The design must be represented by a drawing made in conformity with the rules laid down for drawings of mechanical inventions and must contain a sufficient number of views to constitute a complete disclosure of the appearance of the article. Appropriate surface shading must be used to show the character or contour of the surfaces represented.

§ 1.153. Title, description and claim.

The title of the design must designate the particular article. No specific description, other than a reference to the drawing, is ordinarily required or permitted. The claim shall be in formal terms to the ornamental design for the article (specifying name) as shown, or as shown and described. More than one claim is neither required nor permitted.

§ 1.154. Arrangement of specification.

The following order of arrangement should be observed in framing design specifications:

- (a) Preamble, stating name and residence of the applicant and title of the design.
 - (b) Description of the figure or figures of the drawing.
 - (c) Description, if any.
 - (d) Claim.
 - (e) Signature of applicant.
- See § 1.58.

§ 1.155. Term of design patent.

(a) The petition for a design patent should specify the term, $3\frac{1}{2}$, 7, or 14 years, for which a design patent is sought; but if no term is specified, or if the term specified is greater than that covered by the fee paid, the application will be accepted as filed for a term corresponding to the fee received, and the applicant so notified.

(b) Where the applicant initially requests that the patent issue for one of the shorter terms, he may, at any time before the application is allowed and passed to issue, upon the payment of the additional sum necessary, amend his application by requesting that the patent be issued for a longer term. In order to afford the applicant an opportunity for making such an amendment and paying the additional sum, the Office may notify him before the application is allowed and passed to issue unless otherwise directed, but failure of the Office to send or of the applicant to receive such notification will not warrant any change in the term requested after the application is allowed and passed to issue.

PLANT PATENTS

§ 1.161. Rules applicable.

The rules relating to applications for patent for other inventions or discoveries are also applicable to applications for patents for plants except as otherwise provided.

§ 1.162. Applicant, oath.

The applicant for a plant patent must be the person who has invented or discovered and asexually

reproduced the new and distinct variety of plant for which a patent is sought (or his executor or administrator, or guardian, as stated in §§ 1.42 and 1.43). The oath required of the applicant, in addition to the averments required by § 1.65, must state that he has asexually reproduced the plant.

§ 1.163. Specification.

The specification must contain as full and complete a disclosure as possible of the plant and the characteristics thereof that distinguish the same over related known varieties, and its antecedents, and must particularly point out where and in what manner the variety of plant has been asexually reproduced.

Two copies of the specification (including the claim) must be submitted, but only one need be signed and executed; the second copy may be a legible carbon copy of the original.

§ 1.164. Claim.

The claim shall be in formal terms to the new and distinct variety of the specified plant as described and illustrated, and may also recite the principal distinguishing characteristics. More than one claim is neither required nor permitted.

§ 1.165. Drawings.

Plant patent drawings are not mechanical drawings and should be artistically and competently executed. Figure numbers and reference characters need not be employed unless required by the examiner. The drawing must disclose all the distinctive characteristics of the plant capable of visual representation.

The drawing may be in color and when color is a distinguishing characteristic of the new variety, the drawing must be in color. Two copies of color drawings must be submitted. Color drawings may be made either in permanent water color or oil, or in lieu thereof may be photographs made by color photography or properly colored on sensitized paper. The paper in any case must correspond in size, weight and quality to the paper required for other drawings.

§ 1.166. Specimens.

The applicant may be required to furnish specimens of the plant, or its flower or fruit, in a quantity and at a time in its stage of growth as may be designated, for study and inspection. Such specimens, properly packed, must be forwarded in conformity with instructions furnished to the applicant. When it is not possible to forward such specimens, plants must be made available for official inspection where grown.

§ 1.167. Examination.

Applications may be submitted by the Patent Office to the Department of Agriculture for study and report.

Affidavits from qualified agricultural or horticultural experts regarding the novelty and distinctiveness of the variety of plant may be received when the need of such affidavits is indicated.

REISSUES**§ 1.171. Application for reissue.**

An application for reissue must contain the same parts required for an application for an original patent, complying with all the rules relating thereto except as otherwise provided, and in addition, must comply with the requirements of the rules relating to reissue applications. The application must be accompanied by a certified copy of an abstract of title or an order for a title report, to be placed in the file, and by an offer to surrender the original patent (§ 1.178).

§ 1.172. Applicants, assignees.

Reissue applications must be signed and sworn to by the inventors if they be living, and must be accompanied by the written assent of all assignees, if any, owning an undivided interest in the patent. If the inventor is dead, a reissue application may be made by the assignee of the entire interest.

A reissue will be granted to the original patentee, his legal representatives or assigns as the interest may appear.

§ 1.173. Specification.

The specification of the reissue application must include the entire specification and claims of the patent, with the matter to be omitted by reissue enclosed in square brackets or otherwise indicated as being deleted; and any additions made by the reissue must be underlined, so that the old and the new specifications and claims may be readily compared. Claims should not be renumbered and the numbering of claims added by reissue should follow the number of the highest numbered patent claim. No new matter shall be introduced into the specification.

§ 1.174. Drawings.

The drawings upon which the original patent was issued may be used in reissue applications if no changes whatsoever are to be made in the drawings. In such cases, when the reissue application is filed, the applicant must submit a temporary drawing which may consist of a copy of the printed drawings of the patent or a photoprint of the original drawings securely mounted by pasting on sheets of drawing board of the size required for original drawing, or an order for the same.

Amendments which can be made in a reissue drawing, that is, changes from the drawing of the patent, are restricted.

§ 1.175. Reissue oath.

Applicants for reissue, in addition to complying with the requirements of the first sentence of § 1.65, must also file with their applications a statement under oath as follows:

(a) That applicant verily believes the original patent to be wholly or partly inoperative or invalid, and the reasons why.

(b) When it is claimed that such patent is so inoperative or invalid "by reason of a defective or

insufficient specification," particularly specifying such defects or insufficiencies.

(c) When it is claimed that such patent is inoperative or invalid "by reason of the patentee claiming as his own invention or discovery more than he had a right to claim as new," distinctly specifying the part or parts so alleged to have been improperly claimed as new.

(d) Particularly specifying the errors which it is claimed constitute the inadvertence, accident, or mistake relied upon, and how they arose or occurred.

(e) That said errors arose "without any fraudulent or deceptive intention" on the part of the applicant.

(f) When any reissue claim is broader in any respect than the patent claims, applicant shall explain when and under what circumstances he became aware of the lack of breadth in the patent claims, and shall further explain any delay thereafter up to the filing of such reissue application.

Corroborating affidavits of others may be filed and the examiner may, in any case, require additional information or affidavits concerning the application for reissue and its object.

§ 1.176. Examination of reissue.

An original claim, if re-presented in the reissue application, is subject to re-examination, and the entire application will be examined in the same manner as original applications, subject to the rules relating thereto, excepting that division will not be required. Applications for reissue will be acted on by the examiner in advance of other applications.

§ 1.177. Reissue in divisions.

The Commissioner may, in his discretion, cause several patents to be issued for distinct and separate parts of the thing patented, upon demand of the applicant, and upon payment of the required fee for each division. Each division of a reissue constitutes the subject of a separate specification descriptive of the part or parts of the invention claimed in such division; and the drawing may represent only such part or parts, subject to the provisions of §§ 1.83 and 1.84. On filing divisional reissue applications, they shall be referred to the Commissioner. Unless otherwise ordered by the Commissioner, all the divisions of a reissue will issue simultaneously; if there be any controversy as to one division, the others will be withheld from issue until the controversy is ended, unless the Commissioner shall otherwise order.

§ 1.178. Original patent.

The application for a reissue must be accompanied by an offer to surrender the original patent. The application should also be accompanied by the original patent, or if the original is lost or inaccessible, by an affidavit to that effect. The application may be accepted for examination in the absence of the original patent or the affidavit, but one or the other must be supplied before the case is allowed. If a reissue be refused, the original patent will be returned to applicant upon his request.

§ 1.179. Notice of reissue application.

When an application for a reissue is filed, there will be placed in the file of the original patent a notice stating that an application for reissue has been filed. When the reissue is granted or the reissue application is otherwise terminated, the fact will be added to the notice in the file of the original patent.

PETITIONS AND ACTION BY THE COMMISSIONER**§ 1.181. Petition to the Commissioner.**

(a) Petition may be taken to the Commissioner (1) from any action or requirement of any examiner in the ex parte prosecution of an application which is not subject to appeal to the Board of Appeals or to the court; (2) in cases in which a statute or the rules specify that the matter is to be determined directly by or reviewed by the Commissioner; and (3) to invoke the supervisory authority of the Commissioner in appropriate circumstances.

(b) Any such petition must contain a statement of the facts involved and the point or points to be reviewed and the action requested. Briefs or memoranda, if any, in support thereof should accompany or be embodied in the petition; and where facts are to be proven, the proof in the form of affidavits (and exhibits, if any) must accompany the petition.

(c) When a petition is taken from an action or requirement of an examiner in the ex parte prosecution of an application, it may be required that there have been a proper request for reconsideration (§ 1.111) and a repeated action by the examiner. The examiner may be directed by the Commissioner to furnish a written statement, within a specified time, setting forth the reasons for his decision upon the matters averred in the petition, supplying a copy thereof to the petitioner.

(d) No fee is required for a petition to the Commissioner except in the case of a petition to revive an abandoned application (§ 1.137) or for the delayed payment of a final fee (§ 1.317).

(e) Oral hearing will not be granted except when considered necessary by the Commissioner.

(f) The mere filing of a petition will not stay the period for replying to an examiner's action which may be running against an application, nor act as a stay of other proceedings.

(g) Determination of petitions of various kinds may be delegated by the Commissioner to the Supervisory Examiners or to the Solicitor and Law Examiners.

§ 1.182. Questions not specifically provided for.

All cases not specifically provided for in the regulations of this part will be decided in accordance with the merits of each case by or under the authority of the Commissioner, and such decision will be communicated to the interested parties in writing.

§ 1.183. Suspension of rules.

In an extraordinary situation, when justice requires, any requirement of the regulations in this part which is not a requirement of the statutes may

be suspended or waived by the Commissioner in person on petition of the interested party, subject to such other requirements as may be imposed.

§ 1.184. Reconsideration of cases decided by former Commissioners.

Cases which have been decided by one Commissioner will not be reconsidered by his successor except in accordance with the principles which govern the granting of new trials.

APPEAL TO THE BOARD OF APPEALS**§ 1.191. Appeal to Board of Appeals.**

(a) Every applicant for a patent or for reissue of a patent, any of the claims of which have been twice rejected, or who has been given a final rejection (§ 1.113), and every applicant who has been twice required to divide his application (§ 1.143), may, upon the payment of the fee required by law, appeal from the decision of the primary examiner to the Board of Appeals within the time allowed for response.

(b) The appeal must identify the rejected claim or claims appealed, and must be signed by the applicant or his duly authorized attorney or agent.

(c) Except as otherwise provided by §§ 1.144 and 1.206, appeal when taken must be taken from the rejection of all claims under rejection which applicant proposes to contest. Questions relating to matters not affecting the merits of the invention may be required to be settled before an appeal can be considered.

§ 1.192. Appellant's brief.

The appellant shall, within sixty days from the date of the appeal, or within six months from the date of the action appealed from if such time is later, file a brief of the authorities and arguments on which he will rely to maintain his appeal, including a concise explanation of the invention and a copy of the claims involved, at the same time indicating if he desires an oral hearing.

On failure to file the brief within the time allowed, the appeal shall stand dismissed.

EFFECTIVE DATE

Sections 1.192–1.195 shall not apply to appeals from final rejections of the primary examiners made before March 1, 1949, and appeals to the Board of Appeals from such rejections shall be governed by the applicable rules in effect prior to March 1, 1949.

§ 1.193. Examiner's answer.

(a) The primary examiner may, within such time as may be directed by the Commissioner, furnish a written statement in answer to the appellant's brief including such explanation of the invention claimed and of the references and grounds of rejection as may be necessary, supplying a copy to the appellant. If the primary examiner shall find that the appeal is not regular in form or does not relate to an appealable action, he shall so state and a petition from such decision may be taken to the Commissioner as provided in § 1.181.

(b) The appellant may file a reply brief directed only to such new points as may be raised in the ex-

aminer's answer, within twenty days from the date of such answer.

EFFECTIVE DATE

Effective date, see note set out under section 1.192 of these rules.

§ 1.194. Hearing.

If no request for oral hearing has been made by the appellant, the appeal will be assigned for consideration and decision. If the appellant has requested an oral hearing, a day of hearing will be set, and due notice thereof given to the appellant. Hearing will be held as stated in the notice, and oral argument will be limited to one-half hour unless otherwise ordered before the hearing begins.

EFFECTIVE DATE

Effective date, see note set out under section 1.192 of these rules.

§ 1.195. Affidavits after appeal.

Affidavits or exhibits submitted after the case has been appealed will not be admitted without a showing of good and sufficient reasons why they were not earlier presented.

EFFECTIVE DATE

Effective date, see note set out under section 1.192 of these rules.

§ 1.196. Decision by the Board of Appeals.

(a) The Board of Appeals, in its decision, may affirm or reverse the decision of the primary examiner in whole or in part on the grounds and on the claims specified by the examiner. The affirmation of the rejection of a claim on any of the grounds specified constitutes a general affirmation of the decision of the primary examiner on that claim, except as to any ground specifically reversed.

(b) Should the Board of Appeals have knowledge of any grounds not involved in the appeal for rejecting any claim, it may include in its decision a statement to that effect with its reasons for so holding, which statement shall constitute a rejection of the claims. The appellant may submit an appropriate amendment of the claims so rejected or a showing of facts, or both, and have the matter reconsidered by the primary examiner. The statement shall be binding upon the primary examiner unless an amendment or showing of facts not previously of record be made which, in the opinion of the primary examiner, avoids the additional ground for rejection stated in the decision. The applicant may waive such reconsideration before the primary examiner and have the case reconsidered by the Board of Appeals upon the same record before them. Where request for such reconsideration is made the Board of Appeals shall, if necessary, render a new decision which shall include all grounds upon which a patent is refused. The applicant may waive reconsideration by the Board of Appeals and treat the decision, including the added grounds for rejection given by the Board of Appeals, as a final decision in the case.

(c) Should the decision of the Board of Appeals include an explicit statement that a claim may be allowed in amended form, applicant shall have the

right to amend in conformity with such statement, which shall be binding on the primary examiner in the absence of new references or grounds of rejection.

§ 1.197. Action following decision.

After decision by the Board of Appeals, the case shall be returned to the primary examiner, subject to the applicant's right of appeal or other review, for such further action by the applicant or by the primary examiner, as the condition of the case may require, to carry into effect the decision.

Any request or petition for rehearing or reconsideration must be filed before the limit of appeal to the U. S. Court of Customs and Patent Appeals expires. (See § 1.302 for time for appeal to the court).

§ 1.198. Reopening after decision.

Cases which have been decided by the Board of Appeals will not be reopened or reconsidered by the primary examiner, except under the provisions of § 1.196, without the written authority of the Commissioner, and then only for the consideration of matters not already adjudicated, sufficient cause being shown.

INTERFERENCES; DEFINITION, PREPARATION, DECLARATION

§ 1.201. Definition, when declared.

(a) An interference is a proceeding instituted for the purpose of determining the question of priority of invention between two or more parties claiming substantially the same patentable invention and may be instituted as soon as it is determined that common patentable subject matter is claimed in a plurality of applications or in an application and a patent.

(b) An interference will be declared between pending applications for patent or for reissue of different parties when such applications contain claims for substantially the same invention which are allowable in the application of each party, and interferences will also be declared between pending applications for patent, or for reissue, and unexpired original or reissued patents, of different parties, when such applications and patents contain claims for substantially the same invention which are allowable in all of the applications involved, in accordance with the provisions of the regulations in this part.

(c) Interferences will not be declared, nor continued, between applications or applications and patents owned by the same party unless good cause is shown therefor. The parties shall make known any and all right, title and interest affecting the ownership of any application or patent involved or essential to the proceedings, not recorded in the Patent Office, when an interference is declared, and of changes in such right, title, or interest, made after the declaration of the interference and before the expiration of the time prescribed for seeking review of the decision in the interference.

§ 1.202. Preparation for interference between applications; preliminary inquiry of junior applicant.

In order to ascertain whether any question of priority arises between applications which appear to

interfere and are otherwise ready to be prepared for interference, any junior applicant may be called upon to state in writing under oath the date and the character of the earliest fact or act, susceptible of proof, which can be relied upon to establish conception of the invention under consideration for the purpose of establishing priority of invention. The statement filed in compliance with this section will be retained by the Patent Office separate from the application file and if an interference is declared will be opened simultaneously with the preliminary statement of the party filing the same. In case the junior applicant makes no reply within the time specified, not less than thirty days, or if the earliest date alleged is subsequent to the filing date of the senior party, the interference ordinarily will not be declared.

§ 1.203. Preparation for interference between applications; suggestion of claims for interference.

(a) Before the declaration of interference, it must be determined that there is common patentable subject matter in the cases of the respective parties, patentable to each of the respective parties, subject to the determination of the question of priority. Claims in the same language, to form the counts of the interference, must be present or be presented, in each application.

(b) When the claims of two or more applications differ in phraseology, but relate to substantially the same patentable subject matter, the examiner shall, if it has been determined that an interference should be declared, suggest to the parties such claims as are necessary to cover the common invention in the same language. The examiner shall send copies of the letter suggesting claims to the applicant and to the assignee, as well as to the attorney or agent of record in each case. The parties to whom the claims are suggested will be required to make those claims (i. e., present the suggested claims in their applications by amendment) within a specified time, not less than 30 days, in order that an interference may be declared. The failure or refusal of any applicant to make any claim suggested within the time specified, shall be taken without further action as a disclaimer of the invention covered by that claim unless the time be extended upon a proper showing.

(c) The suggestion of claims for purpose of interference will not stay the period for response to an Office action which may be running against an application, unless the claims are made by the applicant within the time specified for making the claims.

(d) When an applicant presents a claim in his application (not suggested by the examiner as specified in this section) which is copied from some other application, either for purpose of interference or otherwise, he must so state, at the time he presents the claim and identify the other application.

§ 1.204. Interference with a patent; affidavit by junior applicant.

(a) The fact that one of the parties has already obtained a patent will not prevent an interference. Although the Commissioner has no power to cancel

a patent, he may grant another patent for the same invention to a person who, in the interference, proves himself to be the prior inventor.

(b) When the filing date or effective filing date of an applicant is subsequent to the filing date of a patentee, the applicant, before an interference will be declared, shall file an affidavit that he made the invention in controversy in this country, before the filing date of the patentee, or that his acts in this country with respect to the invention were sufficient under the law to establish priority of invention relative to the filing date of the patentee; and, when required, the applicant shall file an affidavit (of the nature specified in § 1.131) setting forth facts which would prima facie entitle him to an award of priority relative to the filing date of the patentee.

§ 1.205. Interference with a patent; copying claims from patent.

(a) Before an interference will be declared with a patent, the applicant must present in his application, copies of all the claims of the patent which also define his invention and such claims must be patentable in the application. If claims cannot be properly presented in his application owing to the inclusion of an immaterial limitation or variation, an interference may be declared after copying the claims excluding such immaterial limitation or variation.

(b) Where an applicant presents a claim copied or substantially copied from a patent, he must, at the time he presents the claim, identify the patent, give the number of the patented claim, and specifically apply the terms of the copied claim to his own disclosure, unless the claim is copied in response to a suggestion by the Office. The examiner will call to the Commissioner's attention any instance of the filing of an application or the presentation of an amendment copying or substantially copying claims from a patent without calling attention to that fact and identifying the patent.

§ 1.206. Interference with a patent; claims improperly copied.

(a) Where claims are copied from a patent and the examiner is of the opinion that the applicant can make only some of the claims so copied, he shall notify the applicant to that effect, state why he is of the opinion the applicant cannot make the other claims and state further that the interference will be promptly declared. The applicant may proceed under § 1.233, if he desires to further contest his right to make the claims not included in the declaration of the interference.

(b) Where the examiner is of the opinion that none of the claims can be made, he shall state in his action why the applicant can not make the claims and set a time limit, not less than 30 days, for reply. If, after response by the applicant, the rejection is made final, a similar time limit shall be set for appeal. Failure to respond or appeal, as the case may be, within the time fixed will, in the absence of a satisfactory showing, be deemed a disclaimer of the invention claimed.

§ 1.207. Preparation of interference notices and statements.

(a) When an interference is found to exist and the applications are in condition therefor, the primary examiner shall forward the files to the Examiners of Interference, together with notices of interference to be sent to all the parties (as specified in § 1.209) disclosing the name and residence of each party and those of his attorney or agent, and of any assignee, and, if any party be a patentee, the date and number of the patent. The notices shall also specify the issue of the interference, which shall be clearly and concisely defined in only as many counts as may be necessary to define the interfering subject matter (but in the case of an interference with a patent all the claims of the patent which can be made by the applicant should constitute the counts), and shall indicate the claim or claims of the respective cases corresponding to the count or counts. If the application or patent of a party included in the interference is a division or continuation of a prior application and the examiner has determined that it is entitled to the filing date of such prior application, the notice to such party shall so state.

(b) The primary examiner shall also forward a statement for the Examiners of Interferences disclosing the applications involved in interference, fully identified, arranged in the inverse chronological order of the filing of the completed applications, and also disclosing the count or counts in issue and the ordinals of the corresponding claims, the name and residence of any assignee, and the names and addresses of all attorneys or agents, both principal and associate.

§ 1.208. Conflicting parties having same attorney.

Whenever it shall be found that two or more parties whose interests appear to be in conflict are represented by the same attorney or agent, the examiner shall notify each of said principal parties and the attorney or agent of this fact, and shall also call the matter to the attention of the Commissioner. If conflicting interests exist, the same attorney or agent or his associates will not be recognized to represent either of the parties whose interests are in conflict without the consent of the other party or in the absence of special circumstances requiring such representation, in further proceedings before the Patent Office involving the matter or application or patent in which the conflicting interests exist.

§ 1.209. Declaration of interference; mailing of notices.

(a) When the notices of interference are in proper form, an examiner of interferences shall assign a number to the interference and add to the notices a designation of the time within which the preliminary statements required by § 1.215 must be filed, and shall, pro forma, institute and declare the interference by forwarding the notices to the several parties to the proceeding.

(b) The notices of interference shall be forwarded by the examiner of interferences to all the parties, in care of their attorneys or agents; a copy of the notices will also be sent the applicants or patentees

in person and if the application or patent in interference has been assigned, to the assignees. When one of the parties has received a patent, a notice shall be sent to the patentee as well as to the attorney or agent last of record.

(c) When the notices sent in the interest of a patent are returned to the Office undelivered, or when one of the parties resides abroad and his agent in the United States is unknown, additional notice may be given by publication in the Official Gazette for such period of time as the Commissioner may direct.

§ 1.211. Jurisdiction of interference.

Upon the institution and declaration of the interference, as provided in § 1.209, the Examiners of Interferences will take jurisdiction of the same, which will then become a contested case.

The primary examiner will retain jurisdiction of the case until the declaration of interference is made. See § 1.237 (b).

§ 1.212. Suspension of ex parte prosecution.

On declaration of the interference, ex parte prosecution of an application is suspended, and amendments and other papers received during the pendency of the interference will not be entered or considered without the consent of the Commissioner, except as provided by the regulations in this part. Proposed amendments directed toward the declaration of an interference with another party will be considered to the extent necessary. Ex parte prosecution as to specified matters may be continued concurrently with the interference, on order from or with the consent of the Commissioner.

INTERFERENCES: PRELIMINARY STATEMENT**§ 1.215. Preliminary statement required.**

Each party to the interference will be required to file a concise preliminary statement giving certain facts and dates, on or before a date fixed by the Office. The preliminary statement must be signed and sworn to by the inventor but in appropriate circumstances, as when the inventor is dead or a showing is made of inability to obtain a statement from the inventor, the preliminary statement may be made by the personal representative or assignee or by someone authorized or entitled to make the statement and having knowledge of the facts.

§ 1.216. Contents of the preliminary statement.

The preliminary statement must state that the applicant made the invention set forth by each count of the interference, and whether the invention was made in the United States or abroad.

(a) When the invention was made in the United States the preliminary statement must set forth as to the invention defined by each count the following facts relating to conception of the invention and reduction of the invention to practice;

(1) The date upon which the first drawing of the invention was made; if a drawing of the invention has not been made prior to the filing date of the application, it must be so stated.

(2) The date upon which the first written description of the invention was made; if a written description of the invention has not been made prior to the filing date of the application, it must be so stated.

(3) The date upon which the invention was first disclosed to another person; if the invention was not disclosed to another person prior to the filing date of the application, it must be so stated.

(4) The date of the first act or acts susceptible of proof (other than acts of the character specified in subparagraphs (1), (2), and (3)) of this paragraph which, if proven, would establish conception of the invention, and a brief description of such act or acts; if there have been no such acts it must be so stated.

(5) The date of the actual reduction to practice of the invention; if the invention has not been actually reduced to practice before the filing date of the application, it must be so stated.

(6) The date after conception of the invention when active exercise of reasonable diligence toward reducing the invention to practice began.

(b) The preliminary statement in every case must also set forth:

(1) The serial number and filing date of any prior co-pending application in the United States by the same applicant, not specified by the examiner in the notice of interference, disclosing the invention set forth by the counts of the interference, the benefit of the filing date of which application may be claimed as the effective filing date of the application or patent involved.

(2) The filing date and country (and number, if known) of any application for the same invention in a foreign country, the filing date of which may be claimed under R. S. 4887; 35 U. S. C. 32, second paragraph.

If a party intends to rely solely on a prior application, domestic or foreign and on no other evidence, the preliminary statement may so state and may then consist only of the identification of the prior application and need not be signed or sworn to by the inventor.

§ 1.217. Contents of the preliminary statement; invention made abroad.

When the invention was made abroad the facts specified by § 1.216 (a) (1) to (6) are not required, and in lieu thereof there should be stated:

When the invention was introduced into this country by or on behalf of the party, giving the circumstances with the dates connected therewith which are relied upon to establish the fact and, when appropriate, including allegations of activity in this country of the nature of that represented by § 1.216 (a) (1) to (6).

If a party is entitled to the benefit of the proviso in 60 Stat. 943, sec. 9; 35 U. S. C. 109, he must so state and his preliminary statement must include allegations of activity abroad corresponding to those required by § 1.216 (a) (1) to (6).

§ 1.218. Time for filing preliminary statement.

The time for filing the preliminary statement is ordinarily specified in the notices of interference mailed to the parties (§ 1.209). If either party re-

quire a postponement of the time for filing his preliminary statement, he shall present a motion, duly served on the other parties, with his reasons therefor, and such motion should be made, if possible, prior to the day previously set. But an examiner of interferences may, in his discretion, extend the time on ex parte request, on stipulation, or upon his own motion.

§ 1.219. Statements sealed before filing.

The statement must be filed in a sealed envelope bearing the name of the party filing it and the number and title of the interference. The envelope should contain nothing but this statement and if mailed should be enclosed in an outer envelope. The statements may be opened only by an examiner of interference.

§ 1.221. Defective statements.

If, on examination, a statement is found to be defective in any particular, the party may be notified of the defects, and a time assigned within which he must cure the same by an amended statement or be restricted in a specified manner; but in no case will the original or amended statement be returned to the party after it has been filed.

If a party shall fail or refuse to file an amended statement, he shall be restricted in the further proceedings in the interference as specified in the notice of the defects.

§ 1.222. Correction of statement on motion.

In case of material error arising through inadvertence or mistake, the statement may be corrected on motion (see § 1.243), upon a satisfactory showing that the correction is essential to the ends of justice. The motion to correct the statement must be made, if possible, before the taking of any testimony, and as soon as practicable after the discovery of the error.

§ 1.223. Effect of statement.

(a) The preliminary statement should be carefully prepared, as each of the parties by whom or on whose behalf it is made will be strictly held in his proofs to the dates set forth therein. This includes joint applicants; a new preliminary statement will not be received in the event the application is amended to remove the names of those not inventors, except by motion under § 1.222.

(b) If a party proves any date earlier than alleged in his preliminary statement, such proof will be held to establish the date so alleged and none earlier.

(c) If a party to an interference fails to file a statement, testimony will not be received subsequently from him to prove that he made the invention at a date prior to the filing date of his application.

(d) The preliminary statement can in no case be used as evidence in behalf of the party making it.

§ 1.224. Reliance on prior application.

A party will not be permitted to rely on a prior application to obtain the benefit of its filing date unless the prior application is specified in the notice

of interference or is set forth in the preliminary statement. If a prior foreign application is set forth in the preliminary statement, said foreign application cannot be relied upon unless the necessary papers to prove a date of priority under R. S. 4887; 35 U. S. C. 32, second paragraph, are filed within three months, or within such extension of time as may be granted, from the filing of the preliminary statement, if they have not previously been filed. A motion to amend the preliminary statement to recite a prior application may be brought under § 1.222 but a copy of such prior application must be served on the opposing party with the motion.

§ 1.225. Failure of junior party to file statement or to overcome filing date of senior party.

If a junior party to an interference fails to file a statement, or if his statement fails to overcome the prima facie case made by the filing date of the application of a senior party, such junior party shall be notified by an examiner of interferences that judgment upon the record will be rendered against him at the expiration of a time fixed by the examiner of interferences, not less than thirty days, unless cause be shown why such action should not be taken. Within this period any of the motions permitted by §§ 1.231 to 1.236 may be brought, except that motions to dissolve (§ 1.232) must be limited to such matters as may be considered at final hearing (§ 1.258), but if a patent is not involved such junior party may file a statement as to his reasons for considering such claim or claims unpatentable, which statement shall be given due consideration by the primary examiner after the termination of the interference before acting on the application of the successful party. If a motion is denied by the primary examiner, the party under order to show cause may, within twenty days from the decision, request that final hearing be set to consider such matters as may be reviewed under § 1.258.

§ 1.226. Notice and access to applications.

After the preliminary statements have been received and approved, or the time for filing them has expired, the parties will be notified, and given the serial numbers and filing dates of the applications of each adverse party, including any applications which the parties may be entitled to inspect, and the parties will be permitted to see or obtain copies of each other's applications, except copies of affidavits filed under §§ 1.131 and 1.202, which shall be and remain sealed until preliminary statements are opened under § 1.227. The preliminary statements are re-sealed by an examiner of interferences and shall not be revealed to the opposing parties except as provided in § 1.227.

The notices will also ordinarily specify the motion period (§ 1.231), the times for taking testimony (§ 1.251), and the date of final hearing (§§ 1.251, 1.256), except when an order to show cause is given under § 1.225.

§ 1.227. Access to preliminary statements.

(a) The preliminary statements shall not be opened to the inspection of the opposing parties

until after all motions under §§ 1.231 to 1.236 and proceedings respecting the same have been finally disposed of or the time for filing such motions has expired without such a motion having been filed, and the case is in condition for taking of testimony.

(b) A junior party who fails to file a preliminary statement or a party who alleges no date in his preliminary statement earlier than the filing date of the application of another party shall not have access to the preliminary statement of said other party.

(c) If the interference be terminated by dissolution before the preliminary statements have been opened to the inspection of the parties, the preliminary statements will remain sealed.

(d) Unopened statements will be removed from interference files and preserved by the Office, and in no case will such statements be open to the inspection of the opposing party without authority from the Commissioner.

INTERFERENCES: MOTION PERIOD, DISSOLUTION, REFORMATION

§ 1.231. Motion period.

After the preliminary statements have been received and approved, or the time for filing them has expired, a period will be fixed within which the various motions specified in §§ 1.232 to 1.236 may be brought by the parties. The period, not less than thirty days, will be fixed by an examiner of interferences in the notice referred to in § 1.226. In the case of a junior party under order to show cause (§ 1.225) the period specified for answer to the order is the motion period and such motions may be brought as constitute an answer to the order.

§ 1.232. Motions to dissolve.

(a) Motions to dissolve an interference may be brought on the ground (1) that there has been such informality in declaring the same as will preclude the proper determination of the question of priority of invention, or (2) that the claims forming the counts of the interference are not patentable, or are not patentable to a particular applicant, while being patentable to another party, or (3) that a particular party has no right to make the claims, or (4) that there is no interference in fact if the interference involves a design or plant patent or application, or if the interference involves a patent, the claims of which have been copied in modified form.

(b) When one of the parties to the interference is a patentee, motions to dissolve on the ground that the counts are unpatentable, may not be brought.

(c) Motions to dissolve on the ground that the counts are unpatentable, or are unpatentable to the party bringing the motion, must be accompanied by a proposed amendment to the application of the moving party cancelling the claims forming the counts of the interference, which amendment shall be entered by the primary examiner to the extent the motion is not denied, after the interference is terminated.

§ 1.233. Motions to amend.

(a) Motions may be brought to amend the interference to put in issue any claims which should be made the basis of interference between the moving party and any other party. When a patent is involved, such claims must be claims of the patent (as provided by § 1.205). If the claims are not already in the application of the moving party, the motion must be accompanied by a proposed amendment adding the claims to the application. The preliminary statement for the proposed counts may be required before the motion is considered.

(b) Such motions must, if possible, be made within the time set, but if a motion to dissolve the interference has been brought by another party, such motion may be made within thirty days from the filing of the motion to dissolve, or if the interference is dissolved by the primary examiner on his own motion as provided in § 1.237, within 30 days from the date on which the interference was suspended and referred to the primary examiner under § 237 or the date of the decision if there was no such reference.

(c) Where a party opposes the addition of such claims in view of prior patents or publications, full notice of such patents or publications, applying them to the proposed counts, must be given to all parties at least twenty days prior to the date of the hearing.

(d) The proposed claims must be indicated to be patentable in the opinion of the moving party in each of the applications involved in the motion and must, unless they stand allowed, be distinguished from the prior art of record or sufficient other reason for their patentability given. The reason why an additional count is necessary must be stated and when more than one count is proposed, the motion must point out wherein they differ materially from each other and why each proposed count is necessary to the interference. The proposed claims must also be applied to the disclosure of each application involved in the motion, except as to an application in which the claims already appear and the claims identified as originating therein.

(e) On the granting of such motion and the adoption of the claims by the other parties within a time specified, and after the expiration of the time for filing any new preliminary statements, the Primary Examiner shall redeclare the interference or shall declare such other interferences as may be necessary to include said claims. A preliminary statement as to the added claims need not be filed if a party states he intends to rely on the original statement. A second motion period will not be set and subsequent motions with respect to such matters as could have been raised during the motion period will not be considered.

§ 1.234. Motion to include another application.

(a) Any party to an interference may bring a motion to add (subject to the provisions of § 1.201 (c)) or substitute any other application owned by him, as to the existing issue; or to include any other application or patent owned by him as to any subject matter disclosed in his application or patent involved in the interference and in an opposing party's

application or patent in the interference which should be made the basis of interference between himself and such other party.

(b) Such motions are subject to the same conditions and the procedure in connection therewith is the same, so far as applicable, as set forth in § 1.233 for motions to amend.

§ 1.235. Motions relating to burden of proof.

Any party may bring a motion to shift the burden of proof on the ground that he is entitled to the benefit of the filing date of an earlier domestic or foreign application, or on the ground that an opposing party is not entitled to the benefit of an earlier application of which he has been given the benefit in the declaration. (See § 1.224.)

§ 1.236. Hearing and determination of motions.

(a) The motions specified must contain a full statement of the grounds therefor, and any briefs or memoranda in support thereof or in opposition thereto shall, except as hereinafter provided, be filed in the Patent Office not less than ten days prior to the date of hearing and, if not so filed, consideration thereof may be refused.

(b) If, in the opinion of an examiner of interferences, such motions, and motions of a similar character, be in proper form, they will be set for hearing before the primary examiner, due notice of the day of hearing being given by the Office to all parties. Appearance at the hearing is not required; any party may waive oral hearing and, in lieu of appearance at the hearing but not in addition thereto, file a reply brief no later than three days following the date of the hearing. If, in the opinion of the examiner of interferences, the motion be not in proper form, or if it be not brought within the time specified and no satisfactory reason given for the delay, it will not be considered and the parties will be so notified. Consideration of matters raised by motion which can be considered at final hearing may, as directed by the Commissioner, be deferred to final hearing.

(c) Setting a motion brought under the provisions of §§ 1.231 to 1.235 for hearing will act as a stay of proceedings pending the determination of the motion.

(d) In the determination of a motion to dissolve an interference between an application and a patent, the prior art of record in the patent file may be referred to for the purpose of construing the issue.

§ 1.237. Dissolution on motion of examiner.

(a) If, during the pendency of an interference, a reference or other reason be found which, in the opinion of the primary examiner, renders all or part of the counts unpatentable, the attention of the examiners of interferences shall be called thereto unless the interference is before the primary examiner for determination of a motion. The interference may be suspended and referred to the primary examiner for his determination of the question of patentability, in which case the interference shall be dissolved or continued in accordance with such determination. The consideration of such reference or reason by the primary examiner shall be inter

partes as in the case of a motion to dissolve. If such reference or reason be found while the interference is before the primary examiner for determination of a motion, decision thereon may be incorporated in the decision on the motion, but the parties shall be entitled to reconsideration or rehearing if they have not been heard on the matter. (See § 1.236)

(b) Prior to the approval of the preliminary statements and notification of the parties thereof (§ 1.226), an interference may be withdrawn at the request of the primary examiner, in which event the interference shall be considered as not having been declared.

§ 1.238. Addition of new party by examiner.

If, during the pendency of an interference, another case appears, claiming substantially the subject matter in issue, the primary examiner may request the suspension of the interference for the purpose of adding said case. Such suspension will be granted as a matter of course by an examiner of interferences if no testimony has been taken. If, however, any testimony may have been taken, a notice for the proposed new party, disclosing the issue in interference and the names and addresses of the interferants and of their attorneys or agents, and notices for the interferants disclosing the name and address of the said party and his attorney or agent, shall be prepared by the primary examiner and forwarded to the examiner of interferences, who shall mail said notices and set a time for stating any objections and at his discretion a time of hearing on the question of the admission of the new party. If an examiner of interferences be of the opinion that the interference should be suspended and the new party added, he shall prescribe the terms for such suspension.

INTERFERENCES: MISCELLANEOUS PROVISIONS

§ 1.241. Copies of part of application.

When an application is involved in an interference in which a part only of the invention is included in the issue, the applicant may file certified copies, one for the record and one for each party, of the part or parts of the specification and drawings, and other papers in the file, which exclude merely the noninterfering disclosure and such copies may be used in the proceedings in place of the complete application.

§ 1.242. Prosecution by assignee.

When on motion duly made and upon satisfactory proof, it shall be shown that, by reason of the inability or refusal of the inventor to take suitable action in an interference, or from other cause, the ends of justice require that an assignee of an undivided interest in the invention be permitted to prosecute the same, it may be so ordered.

§ 1.243. Motions before the Examiners of Interferences.

Motions of a character other than specified in §§ 1.232 to 1.236 will be determined by an examiner of interferences or the Board of Interference Examiners, as may be deemed appropriate. Such motions

shall be made in writing and shall contain a full statement of the action sought and the grounds therefor, and satisfactory proof of any facts required, if necessary, must accompany the motion. Oral hearings will not be held except on order of the examiner of interferences or Board of Interference Examiners. Briefs or memoranda in support of such motions shall accompany the motion. Any reply to the motion, together with any brief or memorandum in support thereof, shall be filed within ten days unless some other date is set by the examiner of interferences.

§ 1.244. Motions; miscellaneous provisions.

(a) Typewritten briefs may be used in connection with all motions. By stipulation of the parties subject to approval or by order of the tribunal before whom the motion is pending, briefs may be received if filed otherwise than as prescribed.

(b) In oral hearings on motions, the moving parties shall have the right to make the opening and closing arguments. Unless otherwise ordered before the hearing begins, oral arguments will be limited to one-half hour for each party.

(c) Petitions for reconsideration or modification of the decision must be filed within twenty days after the date of the decision.

(d) There is no appeal from decisions rendered on motions, either of the primary examiners or of the examiners of interferences, but the Commissioner may consider on petition any matter involving abuse of discretion or the exercise of his supervisory authority, or such other matters as he may deem proper to consider. Any such petition must comply with § 1.181 and, if not filed within twenty days from the decision complained of, may be dismissed as untimely.

§ 1.245. Extensions of time.

Extension of time in any case not otherwise provided for may be had by stipulation of the parties, subject to approval, or on motion duly brought, sufficient cause being shown for such extension.

§ 1.246. Stay of proceedings.

Except as provided in § 1.236, to effect a stay of proceedings, motion should be made before the tribunal having jurisdiction of the interference, who will, sufficient ground appearing therefor, order a suspension of the interference pending the determination of such motion.

§ 1.247. Service of papers.

Every paper filed in the Patent Office in interference cases must be served upon the other parties as provided in § 1.248, except the following, (a) the application involved and any papers therein prior to the declaration of the interference, and any application referred to by the examiner in the notice of interference (§ 1.207) or by the party in a timely filed preliminary statement, (b) preliminary statements, (c) ex parte requests for extension of time to file preliminary statements (§ 1.218), (d) documentary exhibits introduced at the taking of a deposition, (e) original transcripts of testimony (but copies of

the record must be served (§ 1.253)), (f) statutory disclaimers of entire claims involved in the interference and (g) disclaimers, concessions of priority or abandonments of the invention under § 1.262. The specification in certain rules that a designated paper must be served does not imply that other papers, not enumerated above, need not be served. However, the requirement for service of designated papers may be waived under particular circumstances and service may be required of other designated papers which need not ordinarily be served. Proof of such service must be made before the paper will be considered in the interference by the Office. A statement of the attorney, attached to or appearing in the original paper when filed, clearly stating the time and manner in which service was made will be accepted as prima facie proof of service except as stated in § 1.273.

§ 1.248. Service of papers; manner of service.

Service of papers must be on the attorney or agent of the party if there be such or on the party if there is no attorney or agent, and may be made in either of the following ways: (a) By delivering a copy of the paper to the person served; (b) by leaving a copy at the usual place of business of the person served with some one in his employment; (c) when the person served has no usual place of business, by leaving a copy at his residence, with a member of his family over 14 years of age and of discretion; (d) transmission by first class or registered mail. Whenever it shall be satisfactorily shown to the Commissioner that none of the above modes of obtaining or serving the paper is practicable, service may be by notice published in the Official Gazette.

INTERFERENCES: TRIAL

§ 1.251. Assignment of times for taking testimony.

(a) Times will be assigned in which the junior party shall complete his testimony in chief, and in which the other party shall complete the testimony on his side, and a further time in which the junior party may take rebutting testimony, but he shall take no other testimony. If there be more than two parties to the interference, the times for taking testimony will be so arranged that each shall have an opportunity to prove his case against prior parties and to rebut their evidence, and also to meet the evidence of junior parties.

(b) The times for taking testimony will ordinarily be assigned in the notices sent to the parties when the preliminary statements have been received and approved (§ 1.226). The date for final hearing will ordinarily be set in the same notices. If motions under §§ 1.231 to 1.236 have been brought and set for hearing, the times will be reassigned after determination thereof.

(c) Testimony shall be taken during the times assigned in accordance with § 1.271 et seq.

§ 1.252. Failure of junior party to take testimony.

Upon the filing of a motion for judgment by any senior party to an interference stating that the time

for taking testimony on behalf of any junior party has expired and that no testimony has been taken and no other evidence offered by said junior party, an order shall be entered that the junior party show cause within a time set therein, not less than ten days, why judgment should not be rendered against him, and in the absence of a showing of good and sufficient cause, judgment shall be so rendered.

§ 1.253. Copies of the testimony.

(a) In addition to the original transcript of the testimony (§§ 1.275 to 1.278), three true copies of the record of each party must be filed, for the use of the Patent Office, and one true copy of the record must be served upon each of the opposing parties.

(b) These copies of the record may be submitted either in printed or in typewritten form.

(c) These records, whether printed or typewritten, must include the testimony presented by the party filing the same. A copy of the counts of the interference and the preliminary statement required by § 1.215 et seq. must be included. Each record must contain an index of the names of the witnesses, giving the pages where their examination and cross-examination begin, and an index of the exhibits, briefly describing their nature and giving the pages at which they are introduced and offered in evidence, and also the pages where copies of exhibits are shown when such exhibits are copied in the record. The names of the witnesses must appear at the top of the pages over their testimony, and the pages must be consecutively numbered.

(d) The copies of the record for the junior party or parties must be filed and served not less than seventy days before the day for final hearing, and in the case of the senior party not less than fifty days before the day for final hearing, unless otherwise specified by the examiner of interferences.

(e) When the copies of the record are submitted in printed form, they shall be printed in 11-point type and adequately leaded; the paper must be opaque and unglazed; the size of the page shall be 7½ by 10¼ inches; the size of the printed matter shall be 4½ by 7½ inches; and they shall be bound to lie flat when opened. Twenty-five additional copies for the United States Court of Customs and Patent Appeals, should appeal be taken, may also be filed; if no such appeal be taken, the twenty-five copies will be returned to the party filing them.

(f) When the copies of the record are submitted in typewritten form, they must be clearly legible copies on opaque, unglazed, durable paper approximately 8½ by 11 inches in size (letter-size) and one of the three copies for the Office must be a ribbon copy. The typing shall be on one side of the paper, in not smaller than pica type; and double-spaced with a margin of 1½ inches on the left-hand side of the page. The sheets shall be bound at their left edges, in such manner to lie flat when opened, in a volume or volumes of convenient size (approximately 100 pages per volume is suggested) provided with covers. Multigraphed or otherwise reproduced copies conforming to the standards specified will be accepted.

(g) The testimony of any party failing to supply copies of his record as specified may be refused consideration.

§ 1.254. Briefs at final hearing.

Briefs at final hearing before the Board of Interference Examiners shall be submitted in printed form, except that when not in excess of fifty legal-size double spaced typewritten pages, or the equivalent thereof, and in any other case where satisfactory reason therefor is shown, they may be submitted in typewritten form. If submitted in printed form, they shall be the same in size and the same as to page and print as is specified for printed copies of testimony. Typewritten briefs shall conform to the requirements for typewritten copies of testimony, except that legal size paper may be used and the binding and covers specified are not required. Three copies of each brief must be filed. Unless other dates are set by an examiner of interferences, the brief of the junior party or parties shall be filed not less than forty days, and that of the senior party not less than twenty days, prior to the hearing. Reply briefs, if filed, shall be due not less than ten days before the hearing.

§ 1.255. Request for findings of fact and conclusions of law.

Either party may, in his brief, submit concise proposed findings of fact, supported by specific references to and analysis of the record, and conclusions of law, supported by citation of authorities. The opposing party may, in his brief in reply thereto, accept any such proposed findings, or reject any proposed findings giving the reasons therefor, and may likewise submit proposed findings. The Board of Interference Examiners may, in its discretion, adopt the proposed findings in whole or in part.

§ 1.256. Final hearing.

Final hearings will be held by the Board of Interference Examiners on the day appointed at the designated time. If either party appear at the proper time, he will be heard. After the day of hearing, the case will not be taken up for oral argument except by consent of all parties. If the Board of Interference Examiners be prevented from hearing the case at the time specified, a new assignment will be made, or the case will be continued from day to day until heard. Unless it shall be otherwise ordered before the hearing begins, oral arguments will be limited to not more than one hour for each party. After a contested case has been argued, nothing further relating thereto will be heard unless upon request of the Board of Interference Examiners.

Hearings may be set, advanced, and adjourned, as far as convenient and proper, to meet the wishes of the parties and their attorneys.

Petitions for rehearings or modification of the decision must be filed before the limit of appeal expires.

See § 1.302.

§ 1.257. Burden of proof.

The parties to an interference will be presumed to have made their inventions in the chronological order

of the filing dates of their applications for patents involved in the interference or the effective filing dates which such applications have been accorded; and the burden of proof will rest upon the party who shall seek to establish a different state of facts.

The termination of the interference by dissolution under §§ 1.232 or 1.237, without an award of priority, or by an award of priority based solely upon ancillary matters, shall not disturb this presumption, and a party under these circumstances enjoying the status of a senior party with respect to any subject matter of his application shall not be deprived of any claim to such subject matter solely on the ground that such claim was not added to the interference by amendment under § 1.233.

§ 1.258. Matters considered in determining priority.

In determining priority of invention, the Board of Interference Examiners will consider only priority of invention on the evidence submitted. Questions of patentability of a claim generally will not be considered in the decision on priority; and neither will the patentability of a claim to an opponent be considered, unless the non-patentability of the claim to the opponent will necessarily result in the conclusion that the party raising the question is in fact the prior inventor on the evidence before the Office, or relates to matters which have been determined to be ancillary to priority and must be considered, but a party shall not be entitled to raise such non-patentability unless he has duly presented and prosecuted a motion under § 1.232 for dissolution upon such ground or shows good reason why such a motion was not presented and prosecuted.

The matters raised on a motion relating to the burden of proof (§ 1.235) may be reviewed at final hearing.

At final hearing between an application and a patent the prior art of record in the patent file may be referred to for the purpose of construing the issue.

§ 1.259. Recommendation by Board of Interference Examiners.

The Board of Interference Examiners may, either before or concurrently with their decision on the question of priority, but independently of such decision, direct the attention of the Commissioner to any matter not relating to priority which may have come to their notice, and which in their opinion establishes the fact that no interference exists, or that there has been irregularity in declaring the same, or which amounts to a bar to the grant of a patent to either of the parties for the claim or claims in interference. The Commissioner may suspend the interference and remand the case to the primary examiner for his consideration of the matters to which attention has been directed if such matters have not been considered before by the examiner, or take other appropriate action. If the case is not so remanded, the primary examiner will, after judgment on priority, consider such matters, unless the same shall have been previously disposed of by the Commissioner.

the record must be served (§ 1.253)), (f) statutory disclaimers of entire claims involved in the interference and (g) disclaimers, concessions of priority or abandonments of the invention under § 1.262. The specification in certain rules that a designated paper must be served does not imply that other papers, not enumerated above, need not be served. However, the requirement for service of designated papers may be waived under particular circumstances and service may be required of other designated papers which need not ordinarily be served. Proof of such service must be made before the paper will be considered in the interference by the Office. A statement of the attorney, attached to or appearing in the original paper when filed, clearly stating the time and manner in which service was made will be accepted as prima facie proof of service except as stated in § 1.273.

§ 1.248. Service of papers; manner of service.

Service of papers must be on the attorney or agent of the party if there be such or on the party if there is no attorney or agent, and may be made in either of the following ways: (a) By delivering a copy of the paper to the person served; (b) by leaving a copy at the usual place of business of the person served with some one in his employment; (c) when the person served has no usual place of business, by leaving a copy at his residence, with a member of his family over 14 years of age and of discretion; (d) transmission by first class or registered mail. Whenever it shall be satisfactorily shown to the Commissioner that none of the above modes of obtaining or serving the paper is practicable, service may be by notice published in the Official Gazette.

INTERFERENCES: TRIAL

§ 1.251. Assignment of times for taking testimony.

(a) Times will be assigned in which the junior party shall complete his testimony in chief, and in which the other party shall complete the testimony on his side, and a further time in which the junior party may take rebutting testimony, but he shall take no other testimony. If there be more than two parties to the interference, the times for taking testimony will be so arranged that each shall have an opportunity to prove his case against prior parties and to rebut their evidence, and also to meet the evidence of junior parties.

(b) The times for taking testimony will ordinarily be assigned in the notices sent to the parties when the preliminary statements have been received and approved (§ 1.226). The date for final hearing will ordinarily be set in the same notices. If motions under §§ 1.231 to 1.236 have been brought and set for hearing, the times will be reassigned after determination thereof.

(c) Testimony shall be taken during the times assigned in accordance with § 1.271 et seq.

§ 1.252. Failure of junior party to take testimony.

Upon the filing of a motion for judgment by any senior party to an interference stating that the time

for taking testimony on behalf of any junior party has expired and that no testimony has been taken and no other evidence offered by said junior party, an order shall be entered that the junior party show cause within a time set therein, not less than ten days, why judgment should not be rendered against him, and in the absence of a showing of good and sufficient cause, judgment shall be so rendered.

§ 1.253. Copies of the testimony.

(a) In addition to the original transcript of the testimony (§§ 1.275 to 1.278), three true copies of the record of each party must be filed, for the use of the Patent Office, and one true copy of the record must be served upon each of the opposing parties.

(b) These copies of the record may be submitted either in printed or in typewritten form.

(c) These records, whether printed or typewritten, must include the testimony presented by the party filing the same. A copy of the counts of the interference and the preliminary statement required by § 1.215 et seq. must be included. Each record must contain an index of the names of the witnesses, giving the pages where their examination and cross-examination begin, and an index of the exhibits, briefly describing their nature and giving the pages at which they are introduced and offered in evidence, and also the pages where copies of exhibits are shown when such exhibits are copied in the record. The names of the witnesses must appear at the top of the pages over their testimony, and the pages must be consecutively numbered.

(d) The copies of the record for the junior party or parties must be filed and served not less than seventy days before the day for final hearing, and in the case of the senior party not less than fifty days before the day for final hearing, unless otherwise specified by the examiner of interferences.

(e) When the copies of the record are submitted in printed form, they shall be printed in 11-point type and adequately leaded; the paper must be opaque and unglazed; the size of the page shall be 7½ by 10¼ inches; the size of the printed matter shall be 4½ by 7½ inches; and they shall be bound to lie flat when opened. Twenty-five additional copies for the United States Court of Customs and Patent Appeals, should appeal be taken, may also be filed; if no such appeal be taken, the twenty-five copies will be returned to the party filing them.

(f) When the copies of the record are submitted in typewritten form, they must be clearly legible copies on opaque, unglazed, durable paper approximately 8½ by 11 inches in size (letter-size) and one of the three copies for the Office must be a ribbon copy. The typing shall be on one side of the paper, in not smaller than pica type; and double-spaced with a margin of 1½ inches on the left-hand side of the page. The sheets shall be bound at their left edges, in such manner to lie flat when opened, in a volume or volumes of convenient size (approximately 100 pages per volume is suggested) provided with covers. Multigraphed or otherwise reproduced copies conforming to the standards specified will be accepted.

(g) The testimony of any party failing to supply copies of his record as specified may be refused consideration.

§ 1.254. Briefs at final hearing.

Briefs at final hearing before the Board of Interference Examiners shall be submitted in printed form, except that when not in excess of fifty legal-size double spaced typewritten pages, or the equivalent thereof, and in any other case where satisfactory reason therefor is shown, they may be submitted in typewritten form. If submitted in printed form, they shall be the same in size and the same as to page and print as is specified for printed copies of testimony. Typewritten briefs shall conform to the requirements for typewritten copies of testimony, except that legal size paper may be used and the binding and covers specified are not required. Three copies of each brief must be filed. Unless other dates are set by an examiner of interferences, the brief of the junior party or parties shall be filed not less than forty days, and that of the senior party not less than twenty days, prior to the hearing. Reply briefs, if filed, shall be due not less than ten days before the hearing.

§ 1.255. Request for findings of fact and conclusions of law.

Either party may, in his brief, submit concise proposed findings of fact, supported by specific references to and analysis of the record, and conclusions of law, supported by citation of authorities. The opposing party may, in his brief in reply thereto, accept any such proposed findings, or reject any proposed findings giving the reasons therefor, and may likewise submit proposed findings. The Board of Interference Examiners may, in its discretion, adopt the proposed findings in whole or in part.

§ 1.256. Final hearing.

Final hearings will be held by the Board of Interference Examiners on the day appointed at the designated time. If either party appear at the proper time, he will be heard. After the day of hearing, the case will not be taken up for oral argument except by consent of all parties. If the Board of Interference Examiners be prevented from hearing the case at the time specified, a new assignment will be made, or the case will be continued from day to day until heard. Unless it shall be otherwise ordered before the hearing begins, oral arguments will be limited to not more than one hour for each party. After a contested case has been argued, nothing further relating thereto will be heard unless upon request of the Board of Interference Examiners.

Hearings may be set, advanced, and adjourned, as far as convenient and proper, to meet the wishes of the parties and their attorneys.

Petitions for rehearings or modification of the decision must be filed before the limit of appeal expires.

See § 1.302.

§ 1.257. Burden of proof.

The parties to an interference will be presumed to have made their inventions in the chronological order

of the filing dates of their applications for patents involved in the interference or the effective filing dates which such applications have been accorded; and the burden of proof will rest upon the party who shall seek to establish a different state of facts.

The termination of the interference by dissolution under §§ 1.232 or 1.237, without an award of priority, or by an award of priority based solely upon ancillary matters, shall not disturb this presumption, and a party under these circumstances enjoying the status of a senior party with respect to any subject matter of his application shall not be deprived of any claim to such subject matter solely on the ground that such claim was not added to the interference by amendment under § 1.233.

§ 1.258. Matters considered in determining priority.

In determining priority of invention, the Board of Interference Examiners will consider only priority of invention on the evidence submitted. Questions of patentability of a claim generally will not be considered in the decision on priority; and neither will the patentability of a claim to an opponent be considered, unless the non-patentability of the claim to the opponent will necessarily result in the conclusion that the party raising the question is in fact the prior inventor on the evidence before the Office, or relates to matters which have been determined to be ancillary to priority and must be considered, but a party shall not be entitled to raise such non-patentability unless he has duly presented and prosecuted a motion under § 1.232 for dissolution upon such ground or shows good reason why such a motion was not presented and prosecuted.

The matters raised on a motion relating to the burden of proof (§ 1.235) may be reviewed at final hearing.

At final hearing between an application and a patent the prior art of record in the patent file may be referred to for the purpose of construing the issue.

§ 1.259. Recommendation by Board of Interference Examiners.

The Board of Interference Examiners may, either before or concurrently with their decision on the question of priority, but independently of such decision, direct the attention of the Commissioner to any matter not relating to priority which may have come to their notice, and which in their opinion establishes the fact that no interference exists, or that there has been irregularity in declaring the same, or which amounts to a bar to the grant of a patent to either of the parties for the claim or claims in interference. The Commissioner may suspend the interference and remand the case to the primary examiner for his consideration of the matters to which attention has been directed if such matters have not been considered before by the examiner, or take other appropriate action. If the case is not so remanded, the primary examiner will, after judgment on priority, consider such matters, unless the same shall have been previously disposed of by the Commissioner.

INTERFERENCES: TERMINATION**§ 1.261. Termination of interference.**

An interference will be terminated by judgment of priority after final hearing (§ 1.251 et seq.), or by judgment on the record as provided by § 1.225 or § 1.252, or by dissolution as provided by § 1.232 or § 1.237, or as otherwise provided.

§ 1.262. Disclaimer, concession, abandonment.

(a) An applicant or a patentee involved in an interference may, at any time, file a written disclaimer or concession of priority, or abandonment of the invention, signed by the inventor in person with the written consent of the assignee when there has been an assignment. Upon the filing of such an instrument by any party, judgment shall be rendered against him.

(b) An applicant, except an applicant for reissue having a claim or claims from his patent in the interference, may at any time prior to the taking of testimony, and at any time thereafter with the consent of all of the other parties involved, avoid the continuance of the interference as to all counts by filing a written abandonment of the contest or of the application, signed by the inventor in person with the written consent of the assignee when there has been an assignment. Upon the filing of such abandonment of the contest or of the application, the interference shall be dissolved as to that party, but such dissolution shall in subsequent proceedings have the same effect with respect to the party filing the same as an adverse award of priority.

(c) Upon a showing of sufficient cause, the disclaimer, or abandonment of the invention, or abandonment of the contest or of the application, above referred to, may be executed and filed by the assignee of the entire interest. A concession of priority may not be made by an assignee.

(d) Such disclaimer, concession of priority, abandonment of the invention, or abandonment of the contest shall operate without further action as a direction to cancel the claims involved from the application of the party making the same on termination of the interference on the basis thereof.

§ 1.263. Statutory disclaimer by patentee.

The disclaimer referred to in § 1.262, when made by a patentee in interference is not a disclaimer under R. S. 4917; 35 U. S. C. 65. If a disclaimer under the statute, see § 1.321, which has the effect of cancelling the claims from the patent, is made by the patentee, including all assignees as shown by the records of the Patent Office, the interference will be dissolved pro forma.

§ 1.264. Reissue filed by patentee.

If a patentee in interference files an application for reissue during the interference, omitting the claims involved (for the purpose of avoiding the interference), the application will be examined and such examination will include the question of patentability over the issue of the interference and over the application of the other party. The interference will not be terminated unless a reissue is granted ex-

cluding claims to the conflicting subject matter, whereupon the interference will be dissolved. If a reissue application is filed for other purposes, it may be held subject to the outcome of the interference. An application for reissue will not be included in the interference on the basis of new claims presented by the reissue unless a motion to that effect is brought during the motion period or any delay adequately explained.

§ 1.265. Status of claims of defeated applicant after interference.

Whenever an award of priority has been rendered in an interference proceeding and the limit of appeal from such decision has expired, the claim or claims constituting the issue of the interference in the application of the defeated or unsuccessful applicant or applicants stand finally disposed of without further action by the examiner and are not open to further ex parte prosecution.

§ 1.266. Action after interference.

After the termination of the interference, the primary examiner will promptly take such action in each of the applications involved as may be necessary. Amendments presented during the interference shall not be entered except as otherwise provided; amendments required to accompany motions to amend shall be entered only to the extent the motion was granted (matter not entered may be subsequently presented by the applicant, subject to the sections relating to amendments, provided the prosecution of the application is not otherwise closed). The examiner will act on any matter requiring action and call for response to any examiner's action unresponded to.

After judgment of priority, the application of any party may be held subject to further examination, including interference with other applications.

§ 1.267. Second interference.

A second interference between the same parties will not be declared upon another application for patent for the same invention filed by either party.

TESTIMONY IN INTERFERENCES AND OTHER CONTESTED CASES**§ 1.271. Evidence must comply with rules.**

Evidence touching the matter at issue which shall not have been taken and filed in compliance with this part will not be considered in determining the interference or other proceeding. (R. S. 4905; 35 U. S. C. 53.)

§ 1.272. Manner of taking testimony of witnesses.

(a) The testimony of witnesses shall be taken by depositions on oral examination in accordance with the regulations in this part.

(b) If the parties so stipulate in writing, deposition may be taken before any person authorized to administer oaths, at any place, upon any notice, and in any manner, and when so taken may be used like other depositions. By agreement of the parties, provided the Commissioner consent, testimony may be

taken before an officer or officers of the Patent Office under such terms and conditions as the Commissioner may prescribe.

(c) By agreement of the parties, the testimony of any witness or witnesses of any party, may be submitted in the form of an affidavit by such witness or witnesses. The parties may stipulate what a particular witness would testify to if called, or the facts in the case of any party may be stipulated. (R. S. 4905; 35 U. S. C. 53.)

§ 1.273. Notice of examination of witnesses.

Before the deposition of witnesses shall be taken by a party due notice in writing shall be given to the opposing party or parties, as provided in § 1.248, of the time when and place where the depositions will be taken, of the cause or matter in which they are to be used, and of the names and residences of the witnesses to be examined. The opposing party shall have full opportunity, either in person or by attorney, to cross-examine the witnesses. If the opposing party shall attend the examination of witnesses not named in the notice, and shall either cross-examine such witnesses or fail to object to their examination, he shall be deemed to have waived his right to object to such examination for want of notice. Neither party shall take testimony in more than one place at the same time, nor so nearly at the same time that reasonable opportunity for travel from one place of examination to the other cannot be had.

The notice for taking testimony must be served (unless otherwise stipulated in an instrument in writing filed in the case) upon the attorney of record, if there be one, or, if there be no attorney of record, upon the adverse party. Reasonable time must be given therein for such adverse party to reach the place of examination. Such notice shall, with sworn proof of the fact, time, and mode of service thereof, be attached to the deposition or depositions, whether the opposing party shall have cross-examined or not. (R. S. 4905; 35 U. S. C. 53.)

§ 1.274. Persons before whom depositions may be taken.

(a) Within the United States, or within a territory or insular possession of the United States, depositions shall be taken before an officer authorized to administer oaths by the laws of the United States or of the place where the examination is held.

(b) No such officer who is a relative or employee of either of the parties, or of their attorneys or agents, or interested, directly or indirectly, in the matter in controversy, either as counsel, attorney, agent or otherwise, shall be competent to take depositions, unless with the written consent of all the parties. (R. S. 4905; 35 U. S. C. 53)

§ 1.275. Examination of witnesses.

(a) Each witness before testifying shall be duly sworn according to law by the officer before whom his deposition is to be taken.

(b) The testimony shall be taken in answer to interrogatories, with the questions and answers recorded in their regular order by the officer, or by

some other person (who shall be subject to the provisions of § 1.274 (b)), in the presence of the officer except when his presence is waived on the record by agreement of the parties. The testimony shall be taken stenographically and transcribed, unless the parties present agree otherwise.

(c) In the absence of all opposing parties and their attorneys or agents, testimony may be taken in longhand, typewriting, or stenographically.

(d) All objections made at the time of the examination to the qualifications of the officer taking the deposition, or to the manner of taking it, or to the evidence presented, or to the conduct of any party, and any other objection to the proceedings, shall be noted by the officer upon the deposition. Evidence objected to shall be taken subject to the objections.

(e) When the testimony has been transcribed, the deposition shall be carefully read over by the witness, or by the officer to him, and shall then be signed by the witness in the presence of the officer unless the reading and the signature be waived on the record by agreement of all parties. (R. S. 4905; 35 U. S. C. 53)

§ 1.276. Certification and filing by officer.

The officer shall annex to the deposition his certificate showing: (a) Due administration of the oath by the officer to the witness before the commencement of his testimony; (b) the name of the person by whom the testimony was taken down, and whether, if not taken down by the officer, it was taken down in his presence; (c) the presence or absence of the adverse party; (d) the place, day, and hour of commencing and taking the deposition; (e) that the deposition was read by or to the witness before he signed the same, and that he signed the same in the presence of the officer; and (f) the fact that the officer was not disqualified as specified in § 1.274. If any of the foregoing requirements are waived, the certificate shall so state. The officer shall sign the certificate and affix thereto his seal of office, if he have such seal. Unless waived on the record by agreement, he shall then, without delay, securely seal in an envelope all the evidence, notices, and paper exhibits, inscribe upon the envelope a certificate giving the number and title of the case, the name of each witness, and the date of sealing, address the package, and forward the same to the Commissioner of Patents. If the weight or bulk of an exhibit shall exclude it from the envelope, it shall, unless waived on the record by agreement of all parties, be authenticated by the officer and transmitted in a separate package, marked and addressed as provided in this section. (R. S. 4905; 35 U. S. C. 53)

§ 1.277. Form of deposition.

The pages of each deposition must be numbered consecutively, and the name of the witness plainly and conspicuously written at the top of each page. The testimony may be written on legal-size or letter-size paper, with a wide margin on the left-hand side of the page, and with the writing on one side only

of the sheet. The questions propounded to each witness must be consecutively numbered and each question must be followed by its answer.

The form of the deposition may be such as to facilitate preparation of the copies of the record required by § 1.253. (R. S. 4905; 35 U. S. C. 53)

§ 1.278. Depositions must be filed.

All depositions which are taken must be duly filed in the Patent Office. On refusal to file, the Office at its discretion will not further hear or consider the contestant with whom the refusal lies; and the Office may, at its discretion, receive and consider a copy of the withheld deposition, attested by such evidence as is procurable. (R. S. 4905; 35 U. S. C. 53)

§ 1.279. Inspection of testimony.

After testimony is filed in the Office, it may be inspected by any party to the case, but it cannot be withdrawn for the purpose of printing. It may be printed by someone specially designated by the Office for that purpose, under proper restrictions. (R. S. 4905; 35 U. S. C. 53)

§ 1.281. Additional time for taking testimony.

If either party shall be unable to procure the testimony of a witness or witnesses within the time limited and said time has expired or is about to expire, and desires additional time for such purpose, he must file a motion, accompanied by a statement under oath setting forth specifically the cause of such inability, the name or names of the witness or witnesses, the facts expected to be proved by such witness or witnesses, the steps which have been taken to procure such testimony, and the dates on which efforts have been made to procure it. (R. S. 4905; 35 U. S. C. 53)

See § 1.245 for extensions of time.

§ 1.282. Official records and printed publications.

Official records and any special matter contained in a printed publication, if competent evidence and pertinent to the issue, may be introduced in evidence by filing in the Patent Office a notice to that effect, before the closing of the time for taking the testimony of the party (before the time for taking the testimony in chief if such matters are not in rebuttal), specifying the record or the printed publication, the page or pages thereof to be used, indicating generally its relevancy, and accompanied by the record or authenticated copy, or the printed publication or a copy. The notice and copies of the record of publication must be served on each of the other parties.

See §§ 1.216 and 1.224 for introduction of prior applications, the filing date of which is claimed. (R. S. 4905; 35 U. S. C. 53)

§ 1.283. Testimony taken in another interference or action.

Upon motion duly made and granted, testimony taken in another interference proceeding, or testimony taken in a suit between the same parties or those in interest, may be used in an interference proceeding, so far as relevant and material, subject, however, to the right of any contesting party to

recall or demand the recall of witnesses whose testimony has been taken, and to take other testimony in rebuttal of the testimony. (R. S. 4905; 35 U. S. C. 53)

§ 1.284. Testimony taken in foreign countries.

Upon motion duly made and granted, testimony may be taken in foreign countries, upon complying with the following requirements:

(a) The motion must designate a place for the examination of the witnesses at which an officer duly qualified to take testimony under the laws of the United States in a foreign country shall reside, and it must be accompanied by a statement under oath that the motion is made in good faith, and not for the purposes of delay or of vexing or harassing any party to the case; it must also set forth the names of the witnesses, the particular facts to which it is expected each will testify, and the grounds on which is based the belief that each will so testify.

(b) It must appear that the testimony desired is material and competent, and that it can not be taken in this country at all, or can not be taken here without hardship and injury to the moving party greatly exceeding that to which the opposite party will be exposed by the taking of such testimony abroad.

(c) Upon the granting of such motion, a time will be set within which the moving party shall file in duplicate the interrogatories to be propounded to each witness, and serve a copy of the same upon each adverse party, who may, within a designated time, file, in duplicate, cross-interrogatories. Objections to any of the interrogatories or cross-interrogatories may be filed at any time before the depositions are taken, and such objections will be considered and determined upon the hearing of the case.

(d) As soon as the interrogatories and cross-interrogatories are decided to be in proper form, the Commissioner will cause them to be forwarded to the proper officer, with the request that, upon payment of, or satisfactory security for, his official fees, he notify the witnesses named to appear before him within a designated time and make answers thereto under oath; and that he reduce their answers to writing, and transmit the same, under his official seal and signature, to the Commissioner of Patents with the certificate prescribed in § 1.276.

(e) By stipulation of the parties the requirements of paragraph (c) of this section as to written interrogatories and cross-interrogatories may be dispensed with, and the testimony may be taken before the proper officer upon oral interrogatories by the parties, their attorneys or their agents.

(f) Unless false swearing in the giving of such testimony before the officer taking it shall be punishable as perjury under the laws of the foreign state in which it shall be taken, it will not stand on the same footing in the Patent Office as testimony duly taken in the United States; but its weight in each case will be determined by the tribunal having jurisdiction of such case. (R. S. 4905; 35 U. S. C. 53)

§ 1.285. Effect of errors and irregularities in depositions.

Notice will not be taken of merely formal or technical objections which shall not appear to have

wrought a substantial injury to the party raising them; and in case of such injury it must be made to appear that, as soon as the party became aware of the ground of objection, he gave notice thereof.

(a) As to notice.

All errors and irregularities in the notice for taking a deposition are waived unless objection is promptly made and served in writing upon the party giving the notice.

(b) As to disqualification of officer.

Objection to taking a deposition because of disqualification of the officer before whom it is to be taken is waived unless made before the taking of the deposition begins or as soon thereafter as the disqualification becomes known or could be discovered with reasonable diligence.

(c) As to taking of deposition.

(1) Objections to the competency of a witness or to the competency, relevancy, or materiality of testimony are not waived by failure to make them before or during the taking of the deposition, unless the ground of the objection is one which might have been obviated or removed if presented at that time.

(2) Errors and irregularities occurring at the oral examination in the manner of taking the deposition, in the form of the questions or answers, in the oath or affirmation, or in the conduct of the parties, and errors of any kind which might be obviated, removed, or cured if promptly presented, are waived unless seasonable objection thereto is made at the taking of the deposition.

(d) As to completion and return of deposition.

Errors and irregularities in the manner in which the testimony is transcribed or the deposition is prepared, signed, certified, sealed, indorsed, transmitted, filed, or otherwise dealt with by the officer are waived unless a motion to suppress the deposition or some part thereof is made with reasonable promptness after such defect is, or with due diligence might have been, ascertained. (R. S. 4905; 35 U. S. C. 53)

§ 1.286. Objections to admissibility.

Subject to the provisions of § 1.285, objection may be made to receiving in evidence any deposition or part thereof, or any other evidence, for any reason which would require the exclusion of the evidence according to the established rules of evidence, which will be applied strictly by the Office. (R. S. 4905; 35 U. S. C. 53)

PROTESTS AND PUBLIC USE PROCEEDINGS

§ 1.291. Protests to the grant of a patent.

The patent statutes do not provide for opposition to the grant of a patent on the part of the public. Protests to the grant of a patent are ordinarily merely acknowledged, and filed after being referred to the examiner having charge of the subject matter involved for his information.

§ 1.292. Public use proceedings.

(a) When a petition for the institution of public use proceedings, supported by affidavits, is filed by one having information of the pendency of an origi-

nal application and is found, on reference to the primary examiner, to make a prima facie showing that the invention involved in an interference or claimed in an application believed to be on file had been in public use or on sale one year before the filing of the application, or before the date alleged by an interfering party in his preliminary statement or the date of invention established by such party, a hearing may be had before the Commissioner to determine whether a public use proceeding should be instituted. If instituted, times may be set for taking testimony, which shall be taken as provided by §§ 1.271 to 1.286. The petitioner will be heard in the proceedings but after decision therein will not be heard further in the prosecution of the application for patent.

(b) The petition and accompany papers should be filed in duplicate, or served upon the applicant, his attorney or agent of record, and petitioner should offer to bear any expense to which the Office may be put in connection with the proceeding.

APPEAL TO THE U. S. COURT OF CUSTOMS AND PATENT APPEALS

§ 1.301. Appeal to court.

Any applicant dissatisfied with the decision of the Board of Appeals, and any party to an interference dissatisfied with the decision of the Board of Interference Examiners, may appeal to the U. S. Court of Customs and Patent Appeals. The appellant must take the following steps in such an appeal: (a) In the Patent Office, give notice to the Commissioner and file the reasons of appeal (see § 1.302); (b) in the court, file a petition of appeal and a certified transcript of the record within a specified time after filing the reasons of appeal, and pay the fee for appeal, as provided by the rules of the court.

§ 1.302. Notice and reasons of appeal.

When an appeal is taken to the U. S. Court of Customs and Patent Appeals, the appellant shall give notice thereof to the Commissioner, and file in the Patent Office, within sixty days from the date of the decision appealed from, his reasons of appeal specifically set forth in writing. If a petition for rehearing or reconsideration is filed within thirty days after said decision, the notice of appeal may be given and the reasons of appeal filed within thirty days after action on the petition. No petition for rehearing or reconsideration filed more than thirty days after such decision, nor any proceedings on such petition, shall operate to extend the period of sixty days hereinabove provided for appeal.

In interferences and other contested cases, the notice and reasons must be served as provided in § 1.248. (R. S. 4912; 35 U. S. C. 60)

EFFECTIVE DATE

This rule shall not apply to cases in which the time for appeal had expired prior to March 1, 1949.

CIVIL ACTION UNDER R. S. 4915

§ 1.305. Civil action under R. S. 4915.

(a) From adverse decisions by the Board of Appeals in ex parte cases, and from decisions of the

Board of Interference ~~Examiners~~, the appellant, if an applicant, has the option of proceeding under R. S. 4915; 35 U. S. C. 63, instead of appealing to the U. S. Court of Customs and Patent Appeals.

(b) If an applicant in an ex parte case has taken an appeal to the U. S. Court of Customs and Patent Appeals, he thereby waives his right to proceed under R. S. 4915 (U. S. C., title 35, sec. 63).

(c) If a defeated applicant to an interference proceeding has taken an appeal to the U. S. Court of Customs and Patent Appeals, and any adverse party to the interference shall, within twenty days after the appellant shall have filed notice of the appeal to the court (§ 1.302), file notice with the Commissioner that he elects to have all further proceedings conducted as provided in R. S. 4915; 35 U. S. C. 63, certified copies of such notices will be transmitted to the U. S. Court of Customs and Patent Appeals for such action as may be necessary. The notice of election must be served as provided in rule § 1.248.

ALLOWANCE AND ISSUE OF PATENT

§ 1.311. Notice of allowance.

If, on examination, it shall appear that the applicant is justly entitled to a patent under the law, a notice of allowance will be sent him, his attorney or his agent, calling for the payment of the final fee within six months from the date of such notice of allowance. Upon the receipt of the fee within the time fixed by law, the patent will be prepared for issue. In cases in which no final fee is due (designs, reissues, and patents issued under the act of April 30, 1928, 45 Stat. 467; 35 U. S. C. 45), the patent will be prepared for issue in due course after the notice of allowance is sent.

§ 1.312. Amendments after allowance.

Amendments after the notice of allowance of an application will not be permitted as a matter of right, but may be made, if the printing of the specification has not begun, on the recommendation of the primary examiner, approved by the Commissioner, without withdrawing the case from issue.

§ 1.313. Withdrawal from issue.

After the notice of allowance of an application is sent, the case will not be withdrawn from issue except by approval of the Commissioner, and if withdrawn for further action on the part of the Office, a new notice of allowance will be sent if the application is again allowed. When the final fee has been paid, and the patent to be issued has received its date and number, the application will not be withdrawn from issue on account of any mistake or change of purpose of the applicant, his attorney or his agent, nor for the purpose of enabling the inventor to procure a foreign patent, nor for any other reasons except mistake on the part of the Office, or because of fraud or illegality in the application, or for interference. Express abandonment of the application (§ 1.138) may not be recognized by the Office unless it is actually

received by appropriate officials in time to act thereon before the date of issue.

§ 1.314. Issuance of patent.

Every patent shall issue within a period of three months from the date of the payment of the final fee, which fee shall be paid not later than six months from the date on which the application was allowed and the notice of allowance sent; and if the final fee be not paid within that period, the patent shall be withheld. In the absence of request to suspend issue of the patent up to three months, the patent will issue in regular course in about one month. The issue closes weekly on Thursday, and the patents ordinarily bear date as of the fourth Tuesday thereafter.

§ 1.315. Delivery of patent.

The patent will be delivered or mailed on the day of its date to the attorney or agent of record, if there be one; or if the attorney or agent so request, to the patentee or assignee of an interest therein; or, if there be no attorney or agent, to the patentee or to the assignee of the entire interest, if he so request.

§ 1.316. Forfeited application.

A forfeited application is one upon which a patent has been withheld for failure to pay the final fee within the prescribed time. (See § 1.314.)

A forfeited application is not considered as pending while forfeited, and, if the final fee is not subsequently paid and accepted as provided in § 1.317, the application is abandoned, as the date it became forfeited.

§ 1.317. Delayed payment of final fee.

The Commissioner of Patents may, in his discretion, receive the final fee if paid within one year after the six months' period for payment has passed and the patent shall issue as specified in § 1.314. Each petition for the delayed payment of the final fee shall be accompanied by the final fee and the petition fee, and a verified statement in support of the petition.

DISCLAIMER

§ 1.321. Statutory disclaimer in patents.

A disclaimer under R. S. 4917; 35 U. S. C. 65, must comply with the requirements of the statute and must also identify the patent, specify that the claiming of more than the patentee had a right to claim occurred through inadvertence, accident or mistake and without any fraudulent or deceptive intention, identify the claim or claims subject to the disclaimer, and be signed by the person making the disclaimer. Such disclaimers are not examined except as to formal matters, but a disclaimer observed not to be a disclaimer in fact may be refused, and the recording of a disclaimer does not indicate that it is considered by the Patent Office to be proper or valid or that the patent after disclaimer, or any claim thereof, is considered valid. A notice of the disclaimer is published in the Official Gazette and attached to the printed copies of the specification. See § 1.21 for fee for disclaimer.

CORRECTION OF ERRORS IN PATENT**§ 1.322. Certificate of correction.**

A certificate of correction under the act of March 4, 1925, 43 Stat. 1268, 35 U. S. C. 88, may be issued at the request of the patentee or his assignee and endorsed on the patent itself. Such certificate will not be issued at the request or suggestion of anyone not owning an interest in the patent, nor on motion of the Office, without first notifying the patentee (including any assignee of record) and affording him an opportunity to be heard.

If the nature of the mistake on the part of the the Office is such that a certificate of correction is deemed inappropriate in form, the Commissioner, with the consent of the patentee (or assignee of record, if any) may issue a reissued patent in lieu thereof as a more appropriate form for certificate of correction, without expense to the patentee.

§ 1.323. Other mistakes not corrected.

Mistakes not incurred through the fault of the Office, and not affording legal grounds for reissue, will not be corrected after the date of the patent.

Changes or corrections will not be made in a patent after the date thereof except as provided in § 1.322.

ASSIGNMENTS AND RECORDING**§ 1.331. Recording of assignments.**

(a) Assignments, including grants and conveyances, of patents or applications for patents under R. S. 4898; 35 U. S. C. 47, will be recorded in the Patent Office in books kept for that purpose. Other instruments affecting title to a patent or application for patent, and licenses, even though the recording thereof may not serve as constructive notice under R. S. 4898, will be recorded as provided in this section or in the discretion of the Commissioner.

(b) No instrument will be recorded which is not in the English language and which does not amount to an assignment, grant, mortgage, lien, incumbrance, or license, or which does not affect the title of the patent or invention to which it relates, and which does not identify the patent or application to which it relates, except as ordered by the Commissioner.

(c) An instrument relating to a patent should identify the patent by number and date (the name of the inventor and title of the invention as stated in the patent should also be given); an instrument relating to an application should identify the application by serial number and date of filing (the name of the inventor and title of the invention as stated in the application should also be given) but if an assignment is executed concurrently with or subsequent to the execution of the application but before the application is filed or before its serial number and filing date are ascertained, it should adequately identify the application, as by its date of execution and name of the inventor and title of the invention; so that there can be no mistake as to the patent or application intended.

§ 1.332. Receipt and recording.

The receipt of assignments is generally acknowledged by the Office. They are recorded in regular order as promptly as possible, and then transmitted with the date of record and Liber and Page number stamped thereon to the persons entitled to them. The date of the record is the date of the receipt of the assignment at the Office in proper form and accompanied by the full legal fee for recording.

§ 1.333. Conditional assignments.

Assignments which are made conditional on the performance of certain acts or events, as the payment of money or other condition subsequent, if recorded in the Office are regarded as absolute assignments for Office purposes until cancelled with the written consent of both parties or by the decree of a competent court. The Office has no means for determining whether such conditions have been fulfilled.

§ 1.334. Issue of patent to assignee.

In case of an assignment of the entire interest in the invention and application, or of the entire interest in the patent to be granted, the patent will normally issue to the assignee; and if the assignee hold an undivided part interest, the patent will normally issue jointly to the inventor and the assignee; if it is desired that the patent so issue the assignment in either case must first have been recorded, and at a day not later than the date of the payment of the final fee; in the case of an application for reissue, the assignment must be recorded before the case is allowed; in the case of an application for a design patent, the assignment must be recorded at least ten days before the case is allowed.

RECOGNITION OF ATTORNEYS AND AGENTS**§ 1.341. Registration of attorneys and agents.**

A register of attorneys and a register of agents are kept in the Patent Office on which are entered the names of all persons recognized as entitled to represent applicants before the Patent Office in the preparation and prosecution of applications for patent. Registration in the Patent Office under the provisions of the regulations in this part shall only entitle the persons registered to practice before the Patent Office.

(a) Attorneys at law.

Any attorney at law in good standing admitted to practice before any United States Court or the highest court of any State or Territory of the United States who fulfills the requirements and complies with the provisions of these rules may be admitted to practice before the Patent Office and have his name entered on the register of attorneys.

(b) Agents.

Any citizen of the United States not an attorney at law who fulfills the requirements and complies with the provisions of these rules may be admitted to practice before the Patent Office and have his name entered on the register of agents.

Board of Interference ~~Examiners~~, the appellant, if an applicant, has the option of proceeding under R. S. 4915; 35 U. S. C. 63, instead of appealing to the U. S. Court of Customs and Patent Appeals.

(b) If an applicant in an ex parte case has taken an appeal to the U. S. Court of Customs and Patent Appeals, he thereby waives his right to proceed under R. S. 4915 (U. S. C., title 35, sec. 63).

(c) If a defeated applicant to an interference proceeding has taken an appeal to the U. S. Court of Customs and Patent Appeals, and any adverse party to the interference shall, within twenty days after the appellant shall have filed notice of the appeal to the court (§ 1.302), file notice with the Commissioner that he elects to have all further proceedings conducted as provided in R. S. 4915; 35 U. S. C. 63, certified copies of such notices will be transmitted to the U. S. Court of Customs and Patent Appeals for such action as may be necessary. The notice of election must be served as provided in rule § 1.248.

ALLOWANCE AND ISSUE OF PATENT

§ 1.311. Notice of allowance.

If, on examination, it shall appear that the applicant is justly entitled to a patent under the law, a notice of allowance will be sent him, his attorney or his agent, calling for the payment of the final fee within six months from the date of such notice of allowance. Upon the receipt of the fee within the time fixed by law, the patent will be prepared for issue. In cases in which no final fee is due (designs, reissues, and patents issued under the act of April 30, 1928, 45 Stat. 467; 35 U. S. C. 45), the patent will be prepared for issue in due course after the notice of allowance is sent.

§ 1.312. Amendments after allowance.

Amendments after the notice of allowance of an application will not be permitted as a matter of right, but may be made, if the printing of the specification has not begun, on the recommendation of the primary examiner, approved by the Commissioner, without withdrawing the case from issue.

§ 1.313. Withdrawal from issue.

After the notice of allowance of an application is sent, the case will not be withdrawn from issue except by approval of the Commissioner, and if withdrawn for further action on the part of the Office, a new notice of allowance will be sent if the application is again allowed. When the final fee has been paid, and the patent to be issued has received its date and number, the application will not be withdrawn from issue on account of any mistake or change of purpose of the applicant, his attorney or his agent, nor for the purpose of enabling the inventor to procure a foreign patent, nor for any other reasons except mistake on the part of the Office, or because of fraud or illegality in the application, or for interference. Express abandonment of the application (§ 1.138) may not be recognized by the Office unless it is actually

received by appropriate officials in time to act thereon before the date of issue.

§ 1.314. Issuance of patent.

Every patent shall issue within a period of three months from the date of the payment of the final fee, which fee shall be paid not later than six months from the date on which the application was allowed and the notice of allowance sent; and if the final fee be not paid within that period, the patent shall be withheld. In the absence of request to suspend issue of the patent up to three months, the patent will issue in regular course in about one month. The issue closes weekly on Thursday, and the patents ordinarily bear date as of the fourth Tuesday thereafter.

§ 1.315. Delivery of patent.

The patent will be delivered or mailed on the day of its date to the attorney or agent of record, if there be one; or if the attorney or agent so request, to the patentee or assignee of an interest therein; or, if there be no attorney or agent, to the patentee or to the assignee of the entire interest, if he so request.

§ 1.316. Forfeited application.

A forfeited application is one upon which a patent has been withheld for failure to pay the final fee within the prescribed time. (See § 1.314.)

A forfeited application is not considered as pending while forfeited, and, if the final fee is not subsequently paid and accepted as provided in § 1.317, the application is abandoned, as the date it became forfeited.

§ 1.317. Delayed payment of final fee.

The Commissioner of Patents may, in his discretion, receive the final fee if paid within one year after the six months' period for payment has passed and the patent shall issue as specified in § 1.314. Each petition for the delayed payment of the final fee shall be accompanied by the final fee and the petition fee, and a verified statement in support of the petition.

DISCLAIMER

§ 1.321. Statutory disclaimer in patents.

A disclaimer under R. S. 4917; 35 U. S. C. 65, must comply with the requirements of the statute and must also identify the patent, specify that the claiming of more than the patentee had a right to claim occurred through inadvertence, accident or mistake and without any fraudulent or deceptive intention, identify the claim or claims subject to the disclaimer, and be signed by the person making the disclaimer. Such disclaimers are not examined except as to formal matters, but a disclaimer observed not to be a disclaimer in fact may be refused, and the recording of a disclaimer does not indicate that it is considered by the Patent Office to be proper or valid or that the patent after disclaimer, or any claim thereof, is considered valid. A notice of the disclaimer is published in the Official Gazette and attached to the printed copies of the specification. See § 1.21 for fee for disclaimer.

CORRECTION OF ERRORS IN PATENT**§ 1.322. Certificate of correction.**

A certificate of correction under the act of March 4, 1925, 43 Stat. 1268, 35 U. S. C. 88, may be issued at the request of the patentee or his assignee and endorsed on the patent itself. Such certificate will not be issued at the request or suggestion of anyone not owning an interest in the patent, nor on motion of the Office, without first notifying the patentee (including any assignee of record) and affording him an opportunity to be heard.

If the nature of the mistake on the part of the the Office is such that a certificate of correction is deemed inappropriate in form, the Commissioner, with the consent of the patentee (or assignee of record, if any) may issue a reissued patent in lieu thereof as a more appropriate form for certificate of correction, without expense to the patentee.

§ 1.323. Other mistakes not corrected.

Mistakes not incurred through the fault of the Office, and not affording legal grounds for reissue, will not be corrected after the date of the patent.

Changes or corrections will not be made in a patent after the date thereof except as provided in § 1.322.

ASSIGNMENTS AND RECORDING**§ 1.331. Recording of assignments.**

(a) Assignments, including grants and conveyances, of patents or applications for patents under R. S. 4898; 35 U. S. C. 47, will be recorded in the Patent Office in books kept for that purpose. § 1.332. Receipt and recording.

The receipt of assignments is generally acknowledged by the Office. They are recorded in regular order as promptly as possible, and then transmitted with the date of record and Liber and Page number stamped thereon to the persons entitled to them. The date of the record is the date of the receipt of the assignment at the Office in proper form and accompanied by the full legal fee for recording.

RECOGNITION OF ATTORNEYS AND AGENTS**§ 1.341. Registration of attorneys and agents.**

A register of attorneys and a register of agents are kept in the Patent Office on which are entered the names of all persons recognized as entitled to represent applicants before the Patent Office in the preparation and prosecution of applications for patent. Registration in the Patent Office under the provisions of the regulations in this part shall only entitle the persons registered to practice before the Patent Office.

(a) Attorneys at law.

Any attorney at law in good standing admitted to practice before any United States Court or the highest court of any State or Territory of the United States who fulfills the requirements and complies with the provisions of these rules may be admitted to practice before the Patent Office and have his name entered on the register of attorneys.

(b) Agents.

Any citizen of the United States not an attorney at law who fulfills the requirements and complies with the provisions of these rules may be admitted to practice before the Patent Office and have his name entered on the register of agents.

(c) Requirements for registration.

In order that the Commissioner may determine whether a person seeking to have his name placed upon either of the registers has the qualifications specified, satisfactory proof of good moral character and repute, and of sufficient basic training in scientific and technical matters must be submitted and an examination which is held from time to time must be taken and passed. The taking of an examination may be waived in the case of any person who has served for three years in the examining corps of the Patent Office.

(d) Registration of firms.

Any firm, the individual members of which are each registered on the register of attorneys, may have its name entered upon the register of attorneys. Any firm, one of the individual members of which is registered on the register of agents and each of the remaining individual members are registered either on the register of attorneys or the register of agents, may have its name entered on the register of agents. If the membership of the firm is changed, application must be made for registration of the firm as changed.

(e) Foreign patent attorneys and agents.

Any foreign patent attorney or agent not a resident of the United States who shall file proof to the satisfaction of the Commissioner that he is registered and in good standing before the patent office of the country in which he resides and practices, and is possessed of the qualifications stated in paragraph (c) of this section, may be registered on the register of agents as entitled to represent applicants located in such country before the United States Patent Office in the presentation and prosecution of applications: *Provided*, That the patent office of such country allows substantially reciprocal privileges to those admitted to practice before the United States Patent Office. Such registration shall continue only during the period that the conditions specified obtain.

(f) Government employees.

Officers and employees of the United States who are disqualified by statute (18 U. S. C. 281) from practicing as attorneys or agents in proceedings or other matters before government departments or agencies, may not be registered, and if any registered attorney or agent becomes such an officer or employee, his name on the register shall be endorsed as inactive during the period of such employment, but officers or employees whose official duties require the

preparation and prosecution of applications for patent may be registered (on compliance with the regulations in this part) or recognized to practice, to the extent necessary to carry out their official duties.

(g) Former examiners.

No person who has served in the examining corps of the Patent Office will be registered after termination of his services, nor, if registered before such service, be reinstated, unless he undertakes (1) not to prosecute or aid in any manner in the prosecution of any application pending in any examining division in which he served, on the date he left said division; and (2) not to prepare or prosecute nor to assist in any manner in the preparation or prosecution of any application of another filed within two years after the date he left such division, and assigned to such division, without the specific authorization of the Commissioner. Associated and related classes in other divisions may be required to be included in the undertaking or designated classes may be excluded. In case application for registration or reinstatement is made after resignation from the Office, the applicant will not be registered, or reinstated, if he has prepared or prosecuted, or assisted in the preparation or prosecution of any such application as indicated in this paragraph.

(h) Oath and registration fee.

Before his name may be entered on the register of attorneys or on the register of agents, every applicant for registration must, after his application is approved, subscribe and swear to an oath prescribed by the Commissioner of Patents and pay the prescribed registration fee (see § 1.21).

(i) Committee on Enrollment.

The Commissioner may establish a Committee on Enrollment to receive and act upon applications for registration to practice before the Patent Office, to conduct and supervise the examinations provided for in paragraph (c) of this section, to maintain the registers and to perform such other duties in connection with enrollment and recognition of attorneys and agents as may be necessary; or such functions may be performed by designated officials of the Patent Office. Any action of such committee or official may be reviewed by the Commissioner. (R. S. 487; 35 U. S. C. 11)

NOTE: All persons registered prior to November 15, 1938, were registered as attorneys, whether they were attorneys at law or not, and such registrations have not been changed.

§ 1.342. Limited recognition.

Any person not registered and not entitled to be recognized under § 1.341 as an attorney or agent to represent applicants generally may, upon a showing of circumstances which render it necessary or justifiable, be recognized by the Commissioner to prosecute as attorney or agent a specified application or applications, but this limited recognition shall not extend further than the application or applications specified. (R. S. 487; 35 U. S. C. 11)

§ 1.343. Persons not registered or recognized.

No person or firm not registered or specifically recognized as provided in § 1.342 will be permitted to prosecute applications of others before the Patent Office. (R. S. 487; 35 U. S. C. 11)

§ 1.344. Professional conduct.

Attorneys and agents appearing before the Patent Office must conform to the standards of ethical and professional conduct generally applicable to attorneys before the courts of the United States. (R. S. 487; 35 U. S. C. 11)

§ 1.345. Advertising.

Every attorney, and agent registered to practice before the United States Patent Office shall submit to the Commissioner of Patents for approval copies of all proposed advertising matter, circulars, letters, cards, etc., intended to solicit patent business, and if it be not disapproved by him and the attorney or agent so notified within ten days after submission, it may be considered approved.

No registered agent shall, in advertising matter or in papers filed in the Patent Office, represent himself to be an attorney, solicitor, or lawyer.

Any registered attorney or agent sending out or using any such matter, a copy of which has not been submitted to the Commissioner of Patents in accordance with this rule, or which has been disapproved by the Commissioner of Patents, and any registered agent misrepresenting his status shall be subject to suspension or disbarment.

§ 1.346. Signature and certificate of attorney.

Every paper filed by an attorney or agent representing an applicant or party to a proceeding in the Patent Office must bear the signature of such attorney or agent, except papers which are required to be signed by the applicant or party in person (such as the application itself and affidavits required of applicants). The signature of an attorney or agent to a paper filed by him, or the filing or presentation of any paper by him, constitutes a certificate that the paper has been read; that its filing is authorized; that to the best of his knowledge, information, and belief there is good ground to support it; and that it is not interposed for delay. When an applicant or party is represented by a registered firm such papers must carry the signature of an individual member of the firm or an individual registered attorney or agent employed by the firm and duly authorized to sign on behalf of the firm, in addition to the firm name, and the certification shall be a certification by and on behalf of the firm and by the individual. (R. S. 487; 35 U. S. C. 11)

§ 1.347. Removing names from registers.

Attorneys, agents, and firms, registered to practice before the Patent Office, should notify the Office of any change of address for entry on the register, by letter separate from any notice of change of address filed in individual applications. The Office may address a letter to any person or firm on the registers, at the address of which separate notice for the register was last received, for the purpose

of ascertaining whether such person or firm desires to remain on the register. The name of any person or firm failing to reply and give the information requested within a time limit specified will be removed from the register, and the names so removed published in the Official Gazette. Any name so removed may be reinstated, either on the register of attorneys or the register of agents, as may be appropriate. (R. S. 487; 35 U. S. C. 11)

§ 1.348. Suspension or disbarment proceedings.

Except as otherwise provided, proceedings for suspension, disbarment, or exclusion from practice are before a Commissioner.

(a) Investigating and prosecuting officer.

The duties of investigation, preparing charges, collecting and presenting testimony, and presenting a case for suspension, exclusion from practice or disbarment shall be performed by the Solicitor of the Patent Office or, at this direction, by a designated law examiner or other person, and neither the Solicitor nor such law examiner or other person shall participate in any manner in the decision of the case. If, upon investigation of a complaint or other information concerning an attorney or agent, it shall appear to the Solicitor that grounds for suspension, exclusion from practice, or disbarment exist, he shall prepare and forward the necessary notice and statement.

(b) Notice of proceedings.

Proceedings for suspension or disbarment shall be instituted by the Solicitor by mailing to, or otherwise serving on, the respondent a notice of such proceeding with a statement of the charges against him, at the same time forwarding a copy to the Commissioner. It shall be the duty of the respondent to answer the charges as specified in paragraph (c) of this section.

(c) Answer.

The respondent's answer shall be filed in writing with the Commissioner within thirty days from the time the notice is served on the respondent, or within such extension of time as may be allowed by the Commissioner for good cause shown. The answer shall be under oath. Failure to answer within the time allowed will be taken as an admission of the charges. The respondent in his answer should specifically admit or deny every material allegation of fact in the statement of charges; every allegation not denied shall be deemed admitted, unless the respondent states that he has no knowledge thereof sufficient to form a belief, which statement shall be considered a denial. Any special matters of defense shall be stated affirmatively in the answer. False statements in the answer may be made the basis of supplemental charges.

(d) Hearing.

Unless the Commissioner finds the answer sufficient to dispose of the charges, he will set the case for hearing before him, notifying the respondent and the Solicitor of the place, day and time of commencement of the hearing. Evidence as to the mat-

ters in issue may be submitted at the hearing, the testimony of witnesses being presented orally, under oath and reported.

The hearing may be advanced and continued by the Commissioner, as far as may be deemed convenient and proper.

Depositions for use at the hearing in lieu of personal appearance of witnesses may be taken by either the Solicitor or the respondent on application to and with the written consent of the Commissioner within such times and under such conditions as the Commissioner may prescribe.

(e) Hearing officer.

The Commissioner may, in his discretion, delegate the conduct of the hearing to a hearing or trial examiner who shall be the presiding officer and who shall make a recommended decision.

(f) Administrative Procedure Act.

§ 4a. Membership; status of chapters; rules and regulations governing chapters; election of officers.

Membership in the American National Red Cross shall be open to all the people of the United States, its Territories, and dependencies, upon payment of the sums specified from time to time in the bylaws.

The chapters of the American National Red Cross shall be the local units of the corporation within the States and Territories of the United States. The regulations with respect to the granting of charters to the chapters and the revocation of the same, the territorial jurisdiction of the chapters, the relationship of the chapters to the corporation and compliance by the chapters with the policies and rules of the corporation, shall be as determined from time to time by the Board of Governors. Such regulations shall require that each chapter shall, in the election of the governing body of the chapter and in the selection of delegates to the national convention of the corporation, adhere to democratic principles of election as specified in the bylaws. (Jan. 5, 1905, ch. 23, § 4a, as added Apr. 16, 1947, ch. 50, § 5, 61 Stat. 81.)

§ 5. Board of Governors; number; election; tenure; filling vacancies; annual meetings; voting by proxy.

The governing body of the corporation in which all powers of government, direction, and management of the corporation shall be lodged, shall consist of a Board of Governors numbering fifty persons, to be appointed or elected in the manner following, namely:

(a) Eight Governors shall be appointed by the President of the United States. Of the Governors so appointed, one shall be designated by the President of the United States to act as the principal officer of the corporation with such title and such functions as may from time to time be prescribed in the bylaws; and the remainder shall be officials of departments and agencies of the Federal Government, whose positions and interests are such as to qualify them to contribute toward the accomplishment of Red Cross programs and objectives. Of these at least one and not more than three shall be selected from the armed forces.

(b) Thirty Governors shall be elected by the chapters. The Governors so elected shall be elected at the national convention under procedures for nomination and election which shall be such as to insure equitable representation of all the chapters, having regard to geographical considerations, to the size of the chapters and to the size of the populations served by the chapters.

(c) Twelve Governors shall be elected by the Board of Governors as members-at-large. The Governors so elected shall be individuals who are representative of the national interests which it is the function of the Red Cross to serve, and with which it is desirable that the corporation shall have close association.

The term of office of all Governors shall be three years, except that the term of office of any Governor appointed by the President of the United States (other than the principal officer of the corporation) shall expire if and when such Governor shall retire,

prior to the date on which his term as Governor would otherwise expire, from the official position held at the time of his appointment as Governor.

Of the first Board of Governors to be selected hereunder, those Governors to be elected pursuant to subsection (b) of this section shall be elected at the first national convention following May 8, 1947, those Governors to be elected pursuant to subsection (c) of this section shall be elected as soon as practicable following such first national convention, and those Governors to be appointed pursuant to subsection (a) of this section shall be appointed so as to take office at the same time. The Governors so elected pursuant to subsections (b) and (c) shall be divided by lot into three classes, the terms of which shall expire at the end of one, two, and three years, respectively, so that thereafter one-third of the members of the Board of Governors elected pursuant to subsections (b) and (c) of this section will be chosen at the time of each national convention, and shall take office at such time or as soon as practicable thereafter.

The President of the United States shall fill as soon as may be any vacancy that may occur by death, resignation, or otherwise in the office of the principal officer of the corporation or in the membership of the Board of Governors appointed by him. Any vacancy that may occur in the Governors elected by the chapters pursuant to subsection (b) of this section or in the Governors-at-large elected by the Board of Governors pursuant to subsection (c) of this section, shall be temporarily filled by appointment made by the Board of Governors, such appointees to serve until the next national convention.

The Board of Governors shall have power (i) to appoint from its own members an executive committee of not less than eleven persons, who, when the Board of Governors is not in session, shall have and exercise all the powers of the Board of Governors, and (ii) to appoint and remove, or provide for the appointment and removal of, all officers and employees of the corporation, except the principal officer designated by the President of the United States.

The annual meeting of the corporation shall be the national convention of delegates of the chapters, which shall be held annually on such date and at such place as may be specified by the Board of Governors. In all matters requiring a vote at the national convention, each chapter shall be entitled to not less than one vote. The number of votes which each chapter shall be entitled to cast shall be determined according to allocation by the Board of Governors, which shall be established on an equitable basis giving consideration both to the size of the membership of the chapters and to the size of the populations in the territories served by the chapters. Such allocations shall be reviewed at least every five years.

Voting by proxy shall not be allowed at any meeting of the Board of Governors, or at the national convention, or at any meeting of the chapters: *Provided, however*, That in the event of any national emergency which in the opinion of the Board of

Governors makes attendance at the national convention impossible, the Board of Governors may permit the election of Governors by proxy at the national convention. (As amended May 8, 1947, ch. 50, § 6, 61 Stat. 82.)

AMENDMENTS

1947—Act July 26, 1947, cited to text, extended from Sept. 1, 1947, to Sept. 1, 1948, the time within which application for compensation and settlement may be made.

§ 35. Same; method of payments; cash; bonds; decreased or incompetent former servicemen; assignment of bonds for life insurance payments.

(a) * * *

(1) Settlement and compensation shall be made entirely in cash—

(i) when the amount due is less than \$50;

(ii) in the case of any enlisted member of the armed forces discharged prior to January 1, 1943;

(iii) in any case covered by subsection (b) or (c) of this section; or

(iv) in the case of any applicant who has not made application for settlement and compensation and who makes application to the Secretary after July 26, 1947 and who requests that settlement and compensation be made entirely in cash. The amount of cash settlement provided for in this subparagraph shall include an amount equivalent to the amount of interest which would have accrued to the end of the month in which settlement is made had the settlement been made in an armed forces leave bond, issued pursuant to the provisions of

paragraph (2) of this subsection. Such equivalent amount shall be considered as interest, as in the case of bonds, for the purposes of section 36 of this title. Appropriations available for cash payments shall also be available for the payment of the equivalent amounts authorized by this subparagraph to be paid.

(2) In all other cases settlement and compensation shall be made in bonds of the United States to the highest multiple of \$25 and in cash to the extent of the full amount of any difference. Any such bond issued pursuant to an application made under subsection (a) of section 34 of this title shall be dated as of the 1st day of January, the 1st day of April, the 1st day of July, or the 1st day of October, whichever next follows the date of discharge, and any such bond issued pursuant to an application made under subsection (b) of section 34 of this title shall be dated as of October 1, 1946. Each such bond shall mature five years from the date thereof, but shall be redeemable in cash at any time after September 1, 1947, at the option of the holder thereof, at full face value plus accrued interest. The bonds issued under sections 747, 752-754b, 757, 757b-757d, 758, 760, 764-766, 769, 771, 773, 774, 801 of Title 31, and through such agencies as he may designate. Except as provided in subsection (d) of this section, such bonds shall be nonnegotiable and shall not be transferable by sale, exchange, assignment, pledge, hypothecation, or otherwise. Such bonds shall be issued only to and in the names of living members or living former members of the armed forces. In the event of the death of any holder of any such bond or of any check issued pursuant to this subsection, payment of the bond shall be made by the Secretary of the Treasury prior to, upon, or after its maturity upon application at the option of such holder's survivors and payment of the check shall be made by the Secretary of the Treasury upon application by such survivors as follows:

- (i) to such holder's surviving spouse and children, if any, in equal shares;
- (ii) if such holder leaves no surviving spouse or child or children, then in equal shares to such holder's surviving parents, if any;
- (iii) if such holder leaves no surviving spouse, child, or parent, then in equal shares to such holder's surviving brothers and sisters, if any; and
- (iv) if such holder leaves no surviving spouse, child, parent, brother, or sister, then in equal shares to the surviving child or children, if any, of such holder's deceased brothers and sisters.

If there is no such survivor, any such bond shall be retired, and any such check shall be canceled and the amount of the bond or check covered into the general fund of the Treasury. Payment of any such bond or any such check to any holder, or any survivor entitled thereto under the provisions of this subsection, between seventeen and twenty-one years of age shall constitute a complete discharge of the obligations of the United States under sections 32-37 of this title, section 18 of Title 10, section 50c of Title 14, and section 604 of Title 34. Where the Secretary of the Treasury is of the opinion

that any holder of any such bond or any such check or any survivor entitled to payment under the provisions of this subsection is, by reason of being either under seventeen years of age or under mental disability, incapable of satisfactorily looking after his own interests, payment of such bond or such check may be made in the same manner, and with the same effect, as settlement and compensation made under the provisions of subsection (c) of this section. Interest on each bond issued under sections 32-37 of this title, section 18 of Title 10, section 50c of Title 14, and section 604 of Title 34, shall accrue at the rate of 2½ per centum per annum from the date of such bond to the date of maturity or to the last day of the month in which payment of the principal of the bond is made, whichever is earlier, and shall be paid with such principal. All decisions by the Secretary of the Treasury under this section with respect to the issuance and payment of bonds and under this paragraph with respect to the issuance and payment of checks shall be final and conclusive and shall not be subject to review by any court or by any officer of the United States. The provisions of this section with respect to the issuance and payment of bonds shall be carried out subject to regulations of the Secretary of the Treasury.

(b) Leave by sections 32-37 of this title, section 18 of Title 10, section 50c of Title 14, and section 604 of Title 34 provided to be settled and compensated for under this section shall, in the case of any member or former member of the armed forces who dies after discharge, or on or after September 1, 1946, if not discharged prior to such date, and before settlement and compensation has been effected, be settled and compensated for, on application therefor, with such member's or former member's survivors, as follows:

- (i) to such member's or former member's surviving spouse and children, if any, in equal shares;
- (ii) if such member or former member leaves no surviving spouse or child or children, then in equal shares to such member's or former member's surviving parents, if any;
- (iii) if such member or former member leaves no surviving spouse, child, or parent, then in equal shares to such member's or former member's surviving brothers and sisters, if any; and
- (iv) if such member or former member leaves no surviving spouse, child, parent, brother, or sister, then in equal shares to the surviving child or children, if any, of such member's or former member's deceased brothers and sisters.

If there is no such survivor, no settlement and compensation shall be made under said sections. Settlement and compensation under this subsection with any such survivor between seventeen and twenty-one years of age shall constitute a complete discharge of the obligations of the United States under said sections.

(2) Any bond assigned under this subsection shall be redeemed at any time, upon presentation to the Secretary of the Treasury, and the proceeds thereof shall be paid and credited to the appropriate fund or appropriation designated by the Administrator.

(e) The provisions of subsections (h) and (i) of section 757c of Title 31, relating to the use of paying agents for the payment of United States savings bonds shall apply with equal force to payments of the armed forces leave bonds issued pursuant to sections 32-37 of this title, section 18 of Title 10, section 50c of Title 14, and section 604 of Title 34. (As amended July 26, 1947, ch. 344, §§ 1-4, 61 Stat. 510; June 19, 1948, ch. 541, § 1 (b, c), 62 Stat. 506.)

PART VIII

EDUCATION OF VETERANS

4. From time to time the Administrator shall secure from the appropriate agency of each State a list of the educational and training institutions (including industrial establishments), within such jurisdiction, which are qualified and equipped to furnish education or training (including apprenticeship, refresher or retraining and institutional on-farm training), which institutions, together with such additional ones as may be recognized and approved by the Administrator, shall be deemed qualified and approved to furnish education or training to such person as shall enroll under this part: *Provided*, That wherever there are established State apprenticeship agencies expressly charged by State laws to administer apprentice training, whenever possible, the Administrator shall utilize such existing facilities and services in training on the job when such training is of one year's duration or more.

5. The Administrator shall pay to the educational or training institution (including the institution offering institutional on-farm training), for each person enrolled in full time or part time course of education or training, the customary cost of tuition, and such laboratory, library, health, infirmary, and other similar fees as are customarily charged, and may pay for books, supplies, equipment, and other necessary expenses, exclusive of board, lodging, other living expenses, and travel, as are generally required for the successful pursuit and completion of the course by other students in the institution: *Provided*, That in no event shall such payments, with respect to any person, exceed \$500 for an ordinary school year unless the veteran elects to have such customary charges paid in excess of such limitation, in which event there shall be charged against his period of eligibility the proportion of an ordinary school year which such excess bears to \$500: *Provided further*, That no payments shall be made to institutions, business or other establishments furnishing apprentice training on the job: *And provided further*, That any institution may apply to the Administrator for an adjustment of tuition and the Administrator, if he finds that the customary tuition charges are insufficient to permit the institution to furnish education or training to eligible veterans, or inadequate compensation therefor, may provide for the payment of such fair and reasonable compensation as will not exceed the estimated cost of teaching personnel and supplies for instruction; and may in like manner readjust such payments from time to time.

6. While enrolled in and pursuing a course under this part, (including an institutional on-farm training course) such person, upon application to the Administrator, shall be paid a subsistence allowance of \$65 per month, if without a dependent or dependents, or \$90 per month, if he has a dependent or dependents, including regular holidays and leave not exceeding thirty days in a calendar year: Except, That (1) while so enrolled and pursuing a course of full-time institutional training, such person, shall be paid a subsistence allowance of \$75 per month, if without a dependent or dependents, or \$105 per month if he has one dependent or \$120 per month if he has more than one dependent, and (2) while so enrolled and pursuing a course of part-time institutional training, including a course of institutional on-farm training, or other combination course, such person shall be paid, subject to the limitations of this paragraph, additional subsistence allowance in an amount bearing the same relation to the difference between the basic rates and the increased rates provided in (1) hereof as the institutional training part of such course bears to a course of full-time institutional training. Such person attending a course on a part-time

basis, and such person receiving compensation for productive labor whether performed as part of his apprenticeship or other training on the job at institutions, business or other establishments, or otherwise, shall be entitled to receive such lesser sums, if any, as subsistence or dependency allowances as may be determined by the Administrator: *Provided*, That in no event shall the rate of such allowance plus the compensation received exceed \$210 per month for a veteran without a dependent, or \$270 per month for a veteran with one dependent, or \$290 for a veteran with two or more dependents: *Provided further*, That only so much of the compensation as is derived from productive labor based on the standard workweek for the particular trade or industry, exclusive of overtime, shall be considered in computing the rate of allowances payable under this paragraph.

11. * * *

(c) As used in this part the term "institutional on-farm training" shall include any course of instruction approved by the appropriate agency of the State or the Administrator. Such course shall be considered a full-time course when it combines (1) organized group instruction in agricultural and related subjects of at least two hundred hours per year (and of at least eight hours each month) at an educational or training institution, with (2) supervised work experience on a farm or other agricultural establishment. To be approved, such a course shall be developed with due consideration to the size and character of the farm on which the veteran is to receive his supervised work experience and to the need of the veteran, in the type of farming for which he is training, for proficiency in planning, producing, marketing, farm mechanics, conservation of resources, food conservation, farm financing, farm management, and the keeping of farm and home accounts. Such a course shall, in addition, satisfy the requirements of either of the following:

1. If the veteran performs part of his course on a farm under his own control—

a. he shall receive not less than one hundred hours of individual instruction per year, not less than fifty hours of which shall be on such farm (with at least two visits by the instructor to such farm each month). Such individual instruction shall be given by the instructor responsible for the veteran's institutional instruction and shall include instruction and home-study assignments in the preparation of budgets, inventories, and statements showing the production, use on the farm, and sale of crops, livestock, and livestock products;

b. he shall be assured of control of such farm (whether by ownership, lease, management agreement, or other tenure arrangement) until the completion of his course; and

c. such farm shall be of a size and character which (1) together with the group instruction part of the course, will occupy the full time of the veteran, (2) will permit instruction in all aspects of the management of a farm of the type for which the veteran is being trained, and (3) if the veteran intends to continue operating such farm at the close of his course, will assure him a satisfactory income under normal conditions.

2. If the veteran performs part of his course as the employee of another—

a. he shall receive, on his employer's farm, not less than fifty hours of individual instruction per year (with at least one visit by the instructor to such farm each month). Such individual instruction shall be given by the instructor responsible for the veteran's institutional instruction;

b. his employer's farm shall be of a size and character which (1) together with the group instruction part of the course, will occupy the full time of the veteran, and (2) will permit instruction in all aspects of the management of a farm of the type for which the veteran is being trained;

c. his employer shall agree to instruct him in various aspects of farm management in accordance with the training schedule developed for the veteran by his instructor, working in cooperation with his employer. If it is found by the Administrator of Veterans' Affairs or the State approving agency that any approved course of institu-

tional on-farm training has ceased to meet the requirements of this Act, the Veterans' Administration shall cut off all benefits under this part as of the date of such withdrawal of approval. Where it has been found that a variation in the proportion of hours of group instruction and individual instruction on the farm will better serve the conditions in a certain area, any program acceptable to the State approving agency which meets the total number of training hours called for in this Act (including assembled instruction, individual instruction, and assigned and supervised related home study and supervision in operational skills by the farmer trainer under the direction of the institution) shall be recognized as complying with the requirements of this Act; and

d. The Administrator of Veterans' Affairs is authorized to contract with approved institutions for such courses where the Administrator finds that the agreed cost is reasonable and fair. (As amended Aug. 6, 1947, ch. 508, §§ 1-4, 61 Stat. 791; Feb. 14, 1948, ch. 52, § 1, 62 Stat. 20; May 4, 1948, ch. 255, § 1, 62 Stat. 208.)

[Effective date. Section 3 of act Feb. 14, 1948, ch. 52, 62 Stat. 20, provided that the amendment to paragraph 6 by section 1 of said act Feb. 14, 1948, should take effect on the first day of the second calendar month next succeeding its enactment.]

[Amendment of par. 6 of this part by section 1 of act May 4, 1948, ch. 255, 62 Stat. 208, became effective Apr. 1, 1948, by the provisions of section 3 of said Act May 4, 1948.]

[Section 5 of act Aug. 6, 1947, ch. 508, 61 Stat. 793, provided: "The amendments made by this Act [amendments to pars. 4, 5, 6, and 11 (c) of part VIII of this Reorganization] shall take effect on the first day of the first calendar month following the month in which this Act is enacted. Until such effective date, the practices of the Veterans' Administration as to institutional on-farm training in effect on the date of the enactment of this Act shall remain in effect."]

SETTLEMENT OF CLAIMS FOR WAR CONTRACT LOSSES INCURRED BETWEEN SEPT. 16, 1940, AND AUG. 14, 1945

Act Aug. 7, 1946, ch. 864, §§ 1-6, 60 Stat. 902, as amended June 25, 1948, ch. 646, § 37, 62 Stat. 992, provided that:

"Where work, supplies, or services have been furnished between September 16, 1940, and August 14, 1945, under a contract or subcontract, for any department or agency of the Government which prior to the latter date was authorized to enter into contracts and amendments or modifications of contracts under section 201 of the First War Powers Act, 1941 [section 611 of Appendix to Title 50], such departments and agencies are hereby authorized, in accordance with regulations to be prescribed by the President within sixty days after the date of approval of this Act [August 7, 1946], to consider, adjust, and settle equitable claims of contractors, including subcontractors and materialmen performing work or furnishing supplies or services to the contractor or another subcontractor, for losses (not including diminution of anticipated profits) incurred between September 16, 1940, and August 14, 1945, without fault or negligence on their part in the performance of such contracts or subcontracts. Settlement of such claims shall be made or approved in each case by the head of the department or agency concerned or by a central authority therein designated by such head.

"SEC. 2. (a) In arriving at a fair and equitable settlement of claims under this Act [Act Aug. 7, 1946, ch. 684, 60 Stat. 706], the respective departments and agencies shall not allow any amount in excess of the amount of the net loss (less the amount of any relief granted subsequent to the establishment of such loss) on all contracts and subcontracts held by the claimant under which work, supplies, or services were furnished for the Government between September 16, 1940, and August 14, 1945, and shall consider with respect to such contracts and subcontracts (1) action taken under the Renegotiation Act [section 1191 of Appendix to Title 50], the Contract Settlement Act of 1944 [sections 101-125 of this title], or similar legislation; (2) relief granted under section 201 of the First War Powers Act, 1941 [section 611 of Appendix to Title 50], or otherwise; and (3) relief proposed to be granted by any other department or agency under this Act. Wherever a department or agency considering a claim under this Act finds that losses under any such contract or subcontract affected the computa-

tion of the amount of excessive profits determined in a renegotiation agreement or order, and to the extent that the department or agency finds such amount was thereby reduced, claims for such losses shall not be allowed under this Act.

"(b) Every claimant under this Act shall furnish to the department or agency concerned any evidence within the possession of such claimant bearing upon the matters referred to in subsection (a) of this section.

"Sec. 3. Claims for losses shall not be considered unless filed with the department or agency concerned within six months after the date of approval of this Act [August 7, 1946] and shall be limited to losses with respect to which a written request for relief was filed with such department or agency on or before August 14, 1945, but a previous settlement under the First War Powers Act, 1941 [sections 601-622 of Appendix to Title 50], or the Contract Settlement Act of 1944 [sections 101-125 of this title] shall not operate to preclude further relief otherwise allowable under this Act.

"Sec. 4. Appropriations or funds available for work, supplies, or services of the character involved in the respective claims at the time of settlement thereof shall be available for payment of the settlements: *Provided*, That where no such appropriations are available, appropriations for payment of such settlements are hereby authorized.

"Sec. 5. Each department and agency shall report to the Congress quarterly the name of each claimant to whom relief has been granted under this Act, together with the amount of such relief and a brief statement of the facts and the administrative decision.

"Sec. 6. Whenever any claimant under this Act is dissatisfied with the action of a department or agency of the Government in either granting or denying his claim, such claimant shall have the right within six months to file a petition with the Court of Claims or, if the claim does not exceed \$10,000 in amount or suit has heretofore been brought or is brought within thirty days after the enactment of this amendatory act, with any Federal district court of competent jurisdiction, asking a determination by the court of the equities involved in such claim; and upon the filing of such a petition, the court, sitting as a court of equity, shall have jurisdiction to determine the amount, if any, to which such claimant and petitioner may be equitably entitled (not exceeding the amount which might have been allowed by the department or agency concerned under the terms of this Act) and to enter an order directing such department or agency to settle the claim in accordance with the finding of the court; and thereafter either party may appeal from the decision if it was rendered by a district court or petition the Supreme Court for a writ of certiorari if it was rendered by the Court of Claims, as in other cases. Any case heretofore brought in a district court under this section may, at the election of the petitioner to be exercised within thirty days after the enactment of this amendatory Act [June 25, 1948], be transferred to the Court of Claims for original disposition in that court."

161. Concurrent authority of Secretaries of Army, Navy, and Air Force.

§ 151. Purchases and contracts for supplies and services—(a) Applicability to all Armed Services.

The provisions of this chapter shall be applicable to all purchases and contracts for supplies or services made by the Department of the Army, the Department of the Navy, the Department of the Air Force, the United States Coast Guard, and the National Advisory Committee for Aeronautics (each being hereinafter called the agency), for the use of any such agency or otherwise, and to be paid for from appropriated funds.

(b) Congressional declaration of policy.

It is the declared policy of the Congress that a fair proportion of the total purchases and contracts for supplies and services for the Government shall be placed with small business concerns. Whenever it is proposed to make a contract or purchase in excess of \$10,000 by negotiation and without advertising, pursuant to the authority of paragraph (7) or (8) of this section, suitable advance publicity, as determined by the agency head with due regard to the type of supplies involved and other relevant considerations, shall be given for a period of at least fifteen days, wherever practicable, as determined by the agency head.

(c) Advertising requirements; exception of certain purchases and contracts from requirements.

All purchases and contracts for supplies and services shall be made by advertising, as provided in section 152 of this title, except that such purchases and contracts may be negotiated by the agency head without advertising if—

- (1) determined to be necessary in the public interest during the period of a national emergency declared by the President or by the Congress;
- (2) the public exigency will not admit of the delay incident to advertising;
- (3) the aggregate amount involved does not exceed \$1,000;
- (4) for personal or professional services;
- (5) for any service to be rendered by any university, college, or other educational institution;
- (6) the supplies or services are to be procured and used outside the limits of the United States and its possessions;
- (7) for medicines or medical supplies;
- (8) for supplies purchased for authorized resale;
- (9) for perishable subsistence supplies;

(10) for supplies or services for which it is impracticable to secure competition;

(11) the agency head determines that the purchase or contract is for experimental, developmental, or research work, or for the manufacture or furnishing of supplies for experimentation, development, research, or test: *Provided*, That beginning six months after the effective date of this chapter and at the end of each six-month period thereafter, there shall be furnished to the Congress a report setting forth the name of each contractor with whom a contract has been entered into pursuant to this subsection since the date of the last such report, the amount of the contract, and, with due consideration given to the national security, a description of the work required to be performed thereunder;

(12) for supplies or services as to which the agency head determines that the character, ingredients, or components thereof are such that the purchase or contract should not be publicly disclosed;

(13) for equipment which the agency head determines to be technical equipment, and as to which he determines that the procurement thereof without advertising is necessary in order to assure standardization of equipment and interchangeability of parts and that such standardization and interchangeability is necessary in the public interest;

(14) for supplies of a technical or specialized nature requiring a substantial initial investment or an extended period of preparation for manufacture, as determined by the agency head, when he determines that advertising and competitive bidding may require duplication of investment or preparation already made, or will unduly delay procurement of such supplies;

(15) for supplies or services as to which the agency head determines that the bid prices after advertising therefor are not reasonable or have not been independently arrived at in open competition: *Provided*, That no negotiated purchase or contract may be entered into under this paragraph after the rejection of all bids received unless (A) notification of the intention to negotiate and reasonable opportunity to negotiate shall have been given by the agency head to each responsible bidder, (B) the negotiated price is lower than the lowest rejected bid price of a responsible bidder, as determined by the agency head, and (C) such negotiated price is the lowest negotiated price offered by any responsible supplier;

(16) the agency head determines that it is in the interest of the national defense that any plant, mine, or facility or any producer, manufacturer, or other supplier be made or kept available for furnishing supplies or services in the event of a national emergency, or that the interest either of industrial mobilization in case of such an emergency, or of the national defense in maintaining active engineering, research and development, are otherwise subserved: *Provided*, That beginning six months after the effective date of this chapter and at the end of each six-month period thereafter, there shall be fur-

nished to the Congress a report setting forth the name of each contractor with whom a contract has been entered into pursuant to this subsection since the date of the last such report, the amount of the contract, and, with due consideration given to the national security, a description of the work required to be performed thereunder; or

(17) otherwise authorized by law.

(d) Evidence of violation of antitrust laws; reference to Attorney General.

If in the opinion of the agency head bids received after advertising evidence any violation of the antitrust laws he shall refer such bids to the Attorney General for appropriate action.

(e) Exclusion of certain authorizations and controls from provisions of section.

This section shall not be construed to (A) authorize erection, repair, or furnishing of any public building or public improvement, but such authorization shall be required in the same manner as heretofore, or (B) permit any contract for the construction or repair of buildings, roads, sidewalks, sewers, mains, or similar items to be negotiated without advertising as required by section 152 of this title, unless such contract is to be performed outside the continental United States or unless negotiation of such contract is authorized by the provisions of paragraph (1), (2), (3), (10), (11), (12), or (15) of subsection (c) of this section. (Feb. 19, 1948, ch. 65, § 2, 62 Stat. 21.)

EFFECTIVE DATE

SHORT TITLE

Congress in enacting act Feb. 19, 1948, cited to text, which constitutes this chapter, provided by section 1 of said act Feb. 19, 1948, that it should be popularly known as the "Armed Services Procurement Act of 1947."

REPEALS

Section 11 (d) of act Feb. 19, 1948, cited to text, provided: "All other laws and parts of laws to the extent that they are inconsistent with this Act [this chapter] are hereby repealed."

§ 152. Advertisements for bids; time; opening of bids; award or rejection of bids.

Whenever advertising is required—

(a) The advertisement for bids shall be a sufficient time previous to the purchase or contract, and specifications and invitations for bids shall permit such full and free competition as is consistent with the procurement of types of supplies and services necessary to meet the requirements of the agency concerned.

(b) All bids shall be publicly opened at the time and place stated in the advertisement. Award shall be made with reasonable promptness by written notice to that responsible bidder whose bid, conforming to the invitation for bids, will be most advantageous to the Government, price and other factors considered: *Provided*, That all bids may be rejected when the agency head determines that it is in the public interest so to do. (Feb. 19, 1948, ch. 65, § 3, 62 Stat. 22.)

§ 153. Types of contracts—(a) Discretion of agency head; warranty clause.

Except as provided in subsection (b) of this section, contracts negotiated pursuant to section 151 (c) of this title may be of any type which in the opinion of the agency head will promote the best interests of the Government. Every contract negotiated pursuant to section 151 (c) of this title shall contain a suitable warranty, as determined by the agency head, by the contractor that no person or selling agency has been employed or retained to solicit or secure such contract upon an agreement or understanding for a commission, percentage, brokerage or contingent fee, excepting bona fide employees or bona fide established commercial or selling agencies maintained by the contractor for the purpose of securing business, for the breach or violation of which warranty the Government shall have the right to annul such contract without liability or in its discretion to deduct from the contract price or consideration the full amount of such commission, percentage, brokerage, or contingent fee.

(b) Exclusion of cost-plus-a-percentage-of-cost contracts; regulations governing cost-plus-a-fixed-fee contracts.

The cost-plus-a-percentage-of-cost system of contracting shall not be used, and in the case of a cost-plus-a-fixed-fee contract the fee shall not exceed 10 per centum of the estimated cost of the contract, exclusive of the fee, as determined by the agency head at the time of entering into such contract (except that a fee not in excess of 15 per centum of such estimated cost is authorized in any such contract for experimental, developmental, or research work and that a fee inclusive of the contractor's costs and not in excess of 6 per centum of the estimated cost, exclusive of fees, as determined by the agency head at the time of entering into the contract, of the project to which such fee is applicable is authorized in contracts for architectural or engineering services relating to any public works or utility project). Neither a cost nor a cost-plus-a-fixed-fee contract nor an incentive-type contract shall be used unless the agency head determines that such method of contracting is likely to be less costly than other methods or that it is impractical to secure supplies or services of the kind or quality required without the use of a cost or cost-plus-a-fixed-fee contract or an incentive-type contract. All cost and cost-plus-a-fixed-fee contracts shall provide for advance notification by the contractor to the procuring agency of any subcontract thereunder on a cost-plus-a-fixed-fee basis and of any fixed-price subcontract or purchase order which exceeds in dollar amount either \$25,000 or 5 per centum of the total estimated cost of the prime contract; and a procuring agency, through any authorized representative thereof, shall have the right to inspect the plants and to audit the books and records of any prime contractor or subcontractor engaged in the performance of a cost or cost-plus-a-fixed-fee contract. (Feb. 19, 1948, ch. 65, § 4, 62 Stat. 23.)

(b) The terms governing advance payments may include as security provision for, and upon inclusion of such provision there shall thereby be created, a lien in favor of the Government, paramount to all other liens, upon the supplies contracted for, upon the credit balance in any special account in which such payments may be deposited and upon such of the material and other property acquired for performance of the contract as the parties shall agree. A copy of the findings shall be submitted to the General Accounting Office with the contract.

§ 11.201. Labor and material reports; construction contracts.

Federal agencies not operating under arrangement with the Department of Labor to furnish such sta-

tistics directly to it shall request prospective contractors on Government construction work exceeding \$2,000 to be performed in continental United States to agree to include in the contract the following labor and material report provision recommended by the Department of Labor:

The contractor will report monthly, and will cause all subcontractors to report in like manner, within five days after the close of each calendar month, on forms to be furnished by the Department of Labor, the number of persons on their respective pay rolls, the aggregate amount of such pay rolls, the man hours worked, and the total expenditures for materials. C. 10a), which permits purchase of products of foreign origin if the cost of domestic products is unreasonable, the following differentials shall be applied by Executive departments and independent establishments in favor of domestic products to be delivered in the continental United States:

(1) Where the cost of the foreign products exceeds \$100, a differential of 25% ;

(2) Where the cost of the foreign product is \$100 or less, a differential of 100%.

(b) When the cost is enhanced by duty paid the United States, the differential shall be 25% or 100%, as the case may be, of the cost exclusive of duty. The cost of the domestic product is unreasonable whenever it exceeds the cost of the foreign product including duty plus the amount of the differential.

(c) Nothing in this section prejudices the authority of any department or independent establishment to reject a bid for a domestic product as unreasonable, or to negotiate for a lower price, for any reason other than the comparative cost of a foreign product. CODIFICATION

Section is composed of subsecs. (e) and (f) of section 5 of act Feb. 28, 1948, cited to text, and was not enacted as a part of the Public Health Service Act which comprises this section.

§ 210b. Professional categories—(a) Division of corps; basis of categories.

For the purpose of establishing eligibility of officers of the Regular Corps for promotions, the Surgeon General shall by regulation divide the corps into professional categories. Each category shall, as far as practicable, be based upon one of the subjects of examination set forth in section 209 (a) (1) of this title or upon a subdivision of such subject, and the categories shall be designed to group officers by fields of training in such manner that officers in any one grade in any one category will be available for similar duty in the discharge of the several functions of the Service.

(b) Assignment of officers.

Each officer of the Regular Corps on active duty shall, on the basis of his training and experience, be assigned by the Surgeon General to one of the categories established by regulations under subsection (a) of this section. Except upon amendment of such regulations, no assignment so made shall be changed unless the Surgeon General finds (1) that the original assignment was erroneous, or (2) that the officer is equally well qualified to serve in another category to which he has requested to be transferred, and that such transfer is in the interests of the Service.

(c) Maximum number of officers in each category.

Within the limits fixed by the Administrator in regulations under section 207 (d) of this title for any fiscal year, the Surgeon General shall determine for each category in the Regular Corps the maximum number of officers authorized to be in each of the grades from the assistant grade to the director grade, inclusive.

(d) Vacancies in grade for purposes of promotion.

The excess of the number so fixed for any grade in any category over the number of officers of the Regular Corps on active duty in such grade in such category (including, in the case of the director grade, officers holding such grade in accordance with section 207 (c) of this title) shall for the purpose of promotions constitute vacancies in such grade in such category. For purposes of this subsection, an officer who has been temporarily promoted or who is temporarily holding the grade of director in accordance with section 207 (c) of this title shall be deemed to hold the grade to which so promoted or which he is temporarily holding; but while he holds such promotion or grade, and while any officer is temporarily assigned to a position pursuant to sec-

tion 206 (c) of this title, the number fixed under subsection (c) of this section for the grade of his permanent rank shall be reduced by one.

(e) Absence of vacancy in grade as affecting promotion.

The absence of a vacancy in a grade in a category shall not prevent an appointment to such grade pursuant to section 209 of this title, a permanent length of service promotion, or the recall of a retired officer to active duty; but the making of such an appointment, promotion, or recall shall be deemed to fill a vacancy if one exists.

(f) Vacancy in grade as affecting maximum number for each category.

Whenever a vacancy exists in any grade in a category the Surgeon General may increase by one the number fixed by him under subsection (c) of this section for the next lower grade in the same category, without regard to the numbers fixed in regulations under section 207 (d) of this title; and in that event the vacancy in the higher grade shall not be filled except by a permanent promotion, and upon the making of such promotion the number for the next lower grade shall be reduced by one. (July 1, 1944, ch. 373, title II, § 209, as added Feb. 28, 1948, ch. 83, § 5 (1), 62 Stat. 41.)

§ 211. Promotion of commissioned officers—(a) Permanent or temporary promotions; examination.

Promotions of officers of the Regular Corps to any grade up to and including the director grade shall be either permanent promotions based on length of service, other permanent promotions to fill vacancies, or temporary promotions. Permanent promotions shall be made by the President, by and with the advice and consent of the Senate, and temporary promotions shall be made by the President. Each permanent promotion shall be to the next higher grade, and shall be made only after examination given in accordance with regulations of the President.

(b) Promotion to certain grades only to fill vacancies; regulations; definition of "restricted grade".

The President may by regulation provide that in a specified professional category permanent promotions to the senior grade, or to both the full grade and the senior grade, shall be made only if there are vacancies in such grade. A grade in any category with respect to which such regulations have been issued is referred to in this section as a "restricted grade."

(c) Examinations.

Examinations to determine qualification for permanent promotions may be either noncompetitive or competitive, as the Surgeon General shall in each case determine; except that examinations for promotions to the assistant or senior assistant grade shall in all cases be noncompetitive. The officers to be examined shall be selected by the Surgeon General from the professional category, and in the order of seniority in the grade, from which promotion is to be recommended. In the case of a competitive examination the Surgeon General shall determine in advance of the examination the number (which may be one or more) of officers who, after passing the examination, will be recommended to the Presi-

dent for promotion; but if the examination is one for promotions based on length of service, or is one for promotions to fill vacancies other than vacancies in the director grade or in a restricted grade, such number shall not be less than 80 per centum of the number of officers to be examined.

(d) Permanent promotions to qualified officers on length of service.

Officers of the Regular Corps, found pursuant to subsection (c) of this section to be qualified, shall be given permanent promotions based on length of service, as follows:

(1) Officers in the junior assistant grade shall be promoted at such times as may be prescribed in regulations of the President.

(2) Officers with permanent rank in the assistant grade, the senior assistant grade, and the full grade shall (except as provided in regulations under subsection (b) of this section) be promoted after completion of three, ten, and seventeen years, respectively, of service in grades above the junior assistant grade; and such promotions, when made, shall be effective, for purposes of pay and pay period and for purposes of seniority in grade, as of the day following the completion of such years of service. An officer with permanent rank in the assistant, senior assistant, or full grade who has not completed such years of service shall be promoted at the same time, and his promotion shall be effective as of the same day, as any officer junior to him in the same grade in the same professional category who is promoted under this paragraph.

(e) Promotion of professional category officers to fill certain vacancies.

Officers in a professional category of the Regular Corps, found pursuant to subsection (c) of this section to be qualified, may be given permanent promotions to fill any or all vacancies in such category in the senior assistant grade, the full grade, the senior grade, or the director grade; but no officer who has not had one year of service with permanent or temporary rank in the next lower grade shall be promoted to any restricted grade or to the director grade.

(f) Reexamination upon failure of promotion; effective date of promotion.

If an officer who has completed the years of service required for promotion to a grade under paragraph (2) of subsection (d) of this section fails to receive such promotion, he shall (unless he has already been twice examined for promotion to such grade) be once reexamined for promotion to such grade. If he is thereupon promoted (otherwise than under subsection (e) of this section), the effective date of such promotion shall be one year later than it would have been but for such failure. Upon the effective date of any permanent promotion of such officer to such grade, he shall be considered as having had only the length of service required for such promotion which he previously failed to receive.

(g) Separation from service upon failure of promotion.

If, for reasons other than physical disability incurred in line of duty, an officer of the Regular Corps

in the junior assistant grade is found pursuant to subsection (c) of this section not to be qualified for promotion he shall be separated from the Service. If, for reasons other than physical disability incurred in line of duty, an officer of the Regular Corps in the assistant, senior assistant, or full grade, after having been twice examined for promotion (other than promotion to a restricted grade), fails to be promoted—

(1) if in the assistant grade he shall be separated from the Service and paid six months' pay and allowances;

(2) if in the senior assistant grade he shall be separated from the Service and paid one year's pay and allowances;

(3) if in the full grade he shall be considered as not in line for promotion and shall, at such time thereafter as the Surgeon General may determine, be retired from the Service with retired pay (unless he is entitled to a greater amount by reason of another provision of law) at the rate of $2\frac{1}{2}$ per centum of his active duty pay at the time of retirement for each complete year, not in excess of thirty, of his active commissioned service in the Service.

(h) Separation from service upon refusal to stand examination.

If an officer of the Regular Corps, eligible to take an examination for promotion, refuses to take such examination, he may be separated from the Service in accordance with regulations of the President.

(i) Review of record; separation from service.

At the end of his first three years of service, the record of each officer of the Regular Corps originally appointed to the senior assistant grade or above, shall be reviewed in accordance with regulations of the President and, if found not qualified for further service, he shall be separated from the Service and paid six months' pay and allowances.

(j) Determination of order of seniority.

(1) The order of seniority of officers in a grade in the Regular Corps shall be determined, subject to the provisions of paragraph (2) of this section, by the relative length of time spent in active service after the effective date of each such officer's original appointment or permanent promotion to that grade. When permanent promotions of two or more officers to the same grade are effective on the same day, their relative seniority shall be the same as it was in the grade from which promoted. In all other cases of original appointments or permanent promotions (or both) to the same grade effective on the same day, relative seniority shall be determined in accordance with regulations of the President.

(2) In the case of an officer originally appointed in the Regular Corps to the grade of assistant or above, his seniority in the grade to which appointed shall be determined after inclusion, as service in such grade, of any active service in such grade or in any higher grade in the Reserve Corps, but (if the appointment is to the grade of senior assistant or above) only to the extent of whichever of the following is greater: (A) His active service in such grade or any higher grade in the Reserve Corps after the first day on which, under regulations in effect

on the date of his appointment to the Regular Corps, he had the training and experience necessary for such appointment, or (B) the excess of his total active service in the Reserve Corps (above the grade of junior assistant) over three years if his appointment in the Regular Corps is to the senior assistant grade, over ten years if the appointment is to the full grade, or over seventeen years if the appointment is to the senior grade.

(k) Temporary promotions; fill vacancy in higher grade; war or national emergency; selection of officers; termination of appointment.

Any commissioned officer of the Regular Corps in any grade in any professional category may be recommended to the President for temporary promotion to fill a vacancy in any higher grade in such category, up to and including the director grade. In time of war, or of national emergency proclaimed by the President, any commissioned officer of the Regular Corps in any grade in any professional category may be recommended to the President for promotion to any higher grade in such category, up to and including the director grade, whether or not a vacancy exists in such grade. The selection of officers to be recommended for temporary promotions shall be made in accordance with regulations of the President. Promotion of an officer recommended pursuant to this subsection may be made without regard to length of service, without examination, and without vacating his permanent appointment, and shall carry with it the pay and allowances of the grade to which promoted. Such promotions may be terminated at any time, as may be directed by the President.

(l) Determination of requirements of Service by Administrator; assignment of Reserve Officers to professional categories; temporary promotions; termination of temporary promotions.

Whenever the number of officers of the Regular Corps on active duty, plus the number of officers of the Reserve Corps who have been on active duty for thirty days or more, exceeds the authorized strength of the Regular Corps, the Administrator shall determine the requirements of the Service in each grade in each category, based upon the total number of officers so serving on active duty and the tasks being performed by the Service; and the Surgeon General shall thereupon assign each officer of the Reserve Corps on active duty to a professional category. If the Administrator finds that the number of officers fixed under subsection (c) of this section for any grade and category (or the number of officers, including officers of the Reserve Corps, on active duty in such grade in such category, if such number is greater than the number fixed under subsection (c) of this section) is insufficient to meet such requirements of the Service, officers of either the Regular Corps or the Reserve Corps may be recommended for temporary promotion to such grade in such category. Any such promotion may be terminated at any time, as may be directed by the President.

(m) Acceptance of promotion; oath and affidavit.

Any officer of the Regular Corps, or any officer of the Reserve Corps on active duty, who is promoted to a higher grade shall, unless he expressly declines

such promotion, be deemed for all purposes to have accepted such promotion; and shall not be required to renew his oath of office, or to execute a new affidavit as required by section 21a of Title 5. (As amended Feb. 28, 1948, ch. 83, § 6 (a), 62 Stat. 42.)

(e) Establishment and maintenance of community programs of heart disease control; appropriations; allotments.

To enable the Surgeon General to carry out the purposes of sections 287–287d of this title and to assist, through grants, States, counties, health districts, and other political subdivisions of the State, and public and nonprofit agencies, institutions, and other organizations, in establishing and maintaining organized community programs of heart disease control, including grants for demonstrations and the training of personnel, there is authorized to be appropriated for each fiscal year such sums as may be necessary for such purposes. For each fiscal year, the Surgeon General, with the approval of the Administrator, shall determine the total sum from the appropriation under this subsection which shall be available for allotment among the several States, and shall, in accordance with regulations, from time to time make allotments from such sum to the several States on the basis of (1) the population and (2) the financial need of the respective States. Upon making such allotments the Surgeon General shall notify the Secretary of the Treasury of the amounts thereof.

(f) Determination of amounts paid each State.

The Surgeon General, with the approval of the Administrator, shall from time to time determine the amounts to be paid to each State from the allotments to such State, and shall certify to the Secretary of the Treasury, the amounts so deter-

mined, reduced or increased, as the case may be, by the amounts by which he finds that estimates of required expenditures with respect to any prior period were greater or less than the actual expenditures for such period: *Provided*, That in the case of amounts to be paid from allotments to any State under subsection (e) of this section, the Surgeon General may determine and certify to the Secretary of the Treasury amounts to be paid to a county, health district, other political subdivision of the State or to any public or nonprofit agency, institution, or other organization in the State, if he finds that payment to such subdivision or other organization has been recommended by the State health authority of the State, and (1) that the State health authority has not, prior to August 1 of the fiscal year for which the allotment is made, presented and had approved a plan in accordance with subsection (g) of this section, or (2) that the State health authority is not authorized by law to make payments to such other organization. Upon receipt of such certification, the Secretary of the Treasury shall, through the Division of Disbursement of the Treasury Department and prior to audit or settlement by the General Accounting Office, pay in accordance with such certification.

(g) Conditions on use of allotments.

The moneys so paid to any State, or to any political subdivision or other organization, shall be expended solely in carrying out the purposes specified in subsection (a), or subsection (b), or subsection (c), or subsection (e) of this section, as the case may be, and in accordance with plans, approved by the Surgeon General, which have been presented by the health authority of such State, or, under the circumstances specified in subsection (f) (1) of this section, by the political subdivision, or the agency, institution or other organization to whom the payment is made, and, to the extent that any such plan contains provisions relating to mental health, by the mental health authority of such State.

(h) State funds to be provided.

Money so paid from allotments under subsections (a), (b), (c), and (e) of this section, shall be paid upon the condition that there shall be spent in such State for the same general purpose from funds of such State and its political subdivisions (or in the case of payments to a political subdivision or to an agency, institution or other organization under circumstances specified in subsection (f) (1) of this section; from funds of such political subdivision or organization), an amount determined in accordance with regulations.

(i) Cessation of Federal aid; notice and hearing.

Whenever the Surgeon General, after reasonable notice and opportunity for hearing to the health authority or, where appropriate, the mental health authority of the State (or, in the case of payments to any political subdivision or any agency, institution, or other organization under the circumstances specified in subsection (f) (1) of this section, such subdivision or organization) finds that, with respect to money paid to the State, subdivision, or organi-

zation out of appropriations under subsection (a), or subsection (b), or subsection (c), or subsection (e) of this section, as the case may be, there is a failure to comply substantially with either—

- (1) the provisions of this section;
- (2) the plan submitted under subsection (g) of this section; or
- (3) the regulations;

the Surgeon General shall notify such State health authority or mental health authority, political subdivision, or organization that further payments will not be made to the State subdivision, or organization from appropriations under such subsection (or in his discretion that further payments will not be made to the State, subdivision, or organization from such appropriations for activities in which there is such failure), until he is satisfied that there will no longer be any such failure. Until he is so satisfied the Surgeon General shall make no further certification for payment to such State, subdivision, or organization from appropriations under such subsection, or shall limit payment to activities in which there is no such failure.

(j) Regulations.

All regulations and amendments thereto with respect to grants to States under this section shall be made after consultation with a conference of the State health authorities and, in the case of regulations or amendments which relate to or in any way affect grants under subsection (c) of this section for work in the field of mental health, the State mental health authorities. Insofar as practicable, the Surgeon General shall obtain the agreement, prior to the issuance of any such regulations or amendments, of the State health authorities and, in the case of regulations or amendments which relate to or in any way affect grants under subsection (c) of this section for work in the field of mental health, the State mental health authorities.

Chapter 8A.—GRAZING LANDS

§ 315b. Grazing permits; fees; vested water rights; permits not to create right in land.

The Secretary of the Interior is authorized to issue or cause to be issued permits to graze livestock on such grazing districts to such bona fide settlers, residents, and other stock owners as under his rules and regulations are entitled to participate in the use of the range, upon the payment annually of reasonable fees in each case to be fixed or determined from time to time, and in fixing the amount of such fees the Secretary of the Interior shall take into account the extent to which such districts yield public benefits over and above those accruing to the users of the forage resources for livestock purposes. Such fees shall consist of a grazing fee for the use of the range, and a range-improvement fee which, when appropriated by the Congress, shall be available until expended solely for the construction, purchase, or maintenance of range improvements. Grazing permits shall be issued only to citizens of the United States or to those who have filed the necessary declarations of intention to become such, as required by the naturalization laws, and to groups, associations, or corporations authorized to conduct business under the laws of the State in which the grazing district is located. Preference shall be given in the issuance of grazing permits to those within or near a district who are landowners engaged in the livestock business, bona fide occupants or settlers, or owners of water or water rights, as may be necessary to permit the proper use of lands, water or water rights owned, occupied, or leased by them, except that until July 1, 1935, no preference

shall be given in the issuance of such permits to any such owner, occupant, or settler, whose rights were acquired between January 1, 1934, and December 31, 1934, both dates inclusive, except that no permittee complying with the rules and regulations laid down by the Secretary of the Interior shall be denied the renewal of such permit, if such denial will impair the value of the grazing unit of the permittee, when such unit is pledged as security for any bona fide loan. Such permits shall be for a period of not more than ten years, subject to the preference right of the permittees to renewal in the discretion of the Secretary of the Interior, who shall specify from time to time numbers of stock and seasons of use. During periods of range depletion due to severe drought or other natural causes, or in case of a general epidemic of disease, during the life of the permit, the Secretary of the Interior is authorized, in his discretion to remit, reduce, refund in whole or in part, or authorize postponement of payment of grazing fees for such depletion period so long as the emergency exists: *Provided further*, That nothing in sections 315–315m, 315n, 315o and 315o–1 of this title shall be construed or administered in any way to diminish or impair any right to the possession and use of water for mining, agriculture, manufacturing, or other purposes which has heretofore vested or accrued under existing law validly affecting the public lands or which may be hereafter initiated or acquired and maintained in accordance with such law. So far as consistent with the purposes and provisions of said sections, grazing privileges recognized and acknowledged shall be adequately safeguarded, but the creation of a grazing district or the issuance of a permit pursuant to the provisions of such sections shall not create any right, title, interest, or estate in or to the lands. (As amended Aug. 6, 1947, ch. 507, § 1, 61 Stat. 790.)

local associations of stockmen, State land officials, and official State agencies engaged in conservation or propagation of wild life interested in the use of the grazing districts. The Secretary of the Interior shall provide by appropriate rules and regulations for local hearings on appeals from the decisions of the administrative officer in charge in a manner similar to the procedure in the land department. The Secretary of the Interior shall also be empowered to accept contributions toward the administration, protection, and improvement of lands within or without the exterior boundaries of a grazing district, moneys so received to be covered into the Treasury as a special fund, which is appropriated and made available until expended, as the Secretary of the Interior may direct, for payment of expenses incident to said administration, protection, and improvement, and for refunds to depositors of amounts contributed by them in excess of their share of the cost. And the remaining 66⅔ per centum of all grazing fees received from such grazing lands shall be deposited to the credit of the Indians pending final disposition under applicable laws, treaties, or agreements. The applicable public land laws as to said Indian ceded lands within a district created under sections 315–315m, 315n, 315o and 315o–1 of this title shall continue in operation, except that each and every application for nonmineral title to said lands in a district created under such sections shall be allowed only if in the opinion of the Secretary of the Interior the land is of the character suited to disposal through the Act under which application is made and such entry and disposal will not affect adversely the best public interest, but no settlement or occupation of such lands shall be permitted until ninety days after allowance of an application. (As amended Aug. 6, 1947, ch. 507, § 3, 61 Stat. 791.)

Such payments shall be deemed payment in full for such losses. Nothing herein contained shall be construed to create any liability not now existing against the United States. Such lands may be disposed of in farm units of such sizes as the Secretary determines to be adequate, taking into consideration the character of soil, topography, location with respect to the irrigation system, and such other factors as the Secretary deems relevant: *Provided*, That the area disposed of to an individual shall, so far as practicable, not exceed one hundred and sixty acres. For the purpose of predicated the repayment obligations of the various lands within said project on their respective ability, as determined by the Secretary, to share the burdens thereof, he may provide for the equitable apportionment of said general repayment obligation to the lands benefited on a unit basis in accordance with the extent of the benefit derived from the project, the character of soil, topography, and such other factors as he deems relevant, and he may provide for a system of variable payments under which larger annual payments will be required during periods of above-normal production or income and lesser annual payments will be required during periods of subnormal production or income. (c) Commutation payments to Arizona and Nevada.

Payment subject to the provisions of section 618b of this title, in commutation of the payments now provided for the States of Arizona and Nevada in section 617c (b) of this title, to each of said States of the sum of \$300,000 for each year of operation, beginning with the year of operation ending May 31, 1938, and continuing annually thereafter until and including the year of operation ending May 31, 1987, and such payments for any year of operation which shall have expired at the time when this subdivision (c) shall become effective shall be due immediately, and be paid, without interest, as expeditiously as administration of this subchapter will permit, and each such payment for subsequent years of operation

shall be made on or before July 31, following the close of the year of operation for which it is made. All such payments shall be made from revenues hereafter received in the Colorado River Dam Fund.

Notwithstanding the foregoing provisions of this subsection, in the event that there are levied and collected by or under authority of Arizona or Nevada or by any lawful taxing political subdivision thereof, taxes upon—

(i) the project as herein defined;

(ii) the electrical energy generated at Hoover Dam by means of facilities, machinery, or equipment both owned and operated by the United States, or owned by the United States and operated under contract with the United States;

(iii) the privilege of generating or transforming such electrical energy or of use of such facilities, machinery, or equipment or of falling water for such generation or transforming; or

(iv) the transmission or control of such electrical energy so generated or transformed (as distinguished from the transmission lines and other physical properties used for such transmission or control) or the use of such transmission lines or other physical properties for such transmission or control,

payments made hereunder to the State by or under the authority of which such taxes are collected shall be reduced by an amount equivalent to such taxes. Nothing herein shall in anywise impair the right of either the State of Arizona or the State of Nevada, or any lawful taxing political subdivision of either of them, to collect nondiscriminatory taxes upon that portion of the transmission lines and all other physical properties, situated within such State and such political subdivision, respectively, and belonging to any of the lessees and/or allottees under subchapter I of this chapter and/or under this subchapter, and nothing herein shall exempt or be construed so as to exempt any such property from nondiscriminatory taxation, all in the manner provided by the constitution and laws of such State. Sums, if any, received by each State under the provisions of subchapter I of this chapter shall be deducted from the first payment or payments to said State authorized by this subchapter. Payments under this subsection shall be deemed contractual obligations of the United States, subject to the provisions of section 618b of this title.

(d) Transfer of sums to Colorado River Development Fund; expenditure of fund.

Transfer, subject to the provisions of section 618b of this title, from the Colorado River Dam Fund to a special fund in the Treasury, established and designated the "Colorado River Development Fund", of the sum of \$500,000 for the year of operation ending May 31, 1938, and the like sum of \$500,000 for each year of operation thereafter, until and including the year of operation ending May 31, 1987. The transfer of the said sum of \$500,000 for each year of operation shall be made on or before July 31 next following the close of the year of operation for which it is made: *Provided*, That any such transfer for any

year of operation which shall have ended at the time this subsection shall become effective shall be made, without interest, from revenues received in the Colorado River Dam Fund, as expeditiously as administration of this subchapter will permit, and without readvances from the general funds of the Treasury. Receipts of the Colorado River Development Fund for the years of operation ending in 1938, 1939, and 1940 (or in the event of reduced receipts during any of said years, due to adjustments under section 618b of this title, then the first receipts of said fund up to \$1,500,000), are authorized to be appropriated only for the continuation and extension, under the direction of the Secretary, of studies and investigations by the Bureau of Reclamation for the formulation of a comprehensive plan for the utilization of waters of the Colorado River system for irrigation, electrical power, and other purposes, in the States of the upper division and the States of the lower division, including studies of quantity and quality of water and all other relevant factors. The next such receipts up to and including the receipts for the year of operation ending in 1955 are authorized to be appropriated only for the investigation and construction of projects for such utilization in and equitably distributed among the four States of the upper division: *Provided, however*, That in view of distributions heretofore made, and in order to expedite the development and utilization of water projects within all of the States of the upper division, the distribution of such funds for use in the fiscal years 1949 to 1955, inclusive, shall be on a basis which is as nearly equal as practicable. Such receipts for the years of operation ending in 1956 to 1987, inclusive, are authorized to be appropriated for the investigation and construction of projects for such utilization in and equitably distributed among the States of the upper division and the States of the lower division. The terms "Colorado River system", "States of the upper division", and "States of the lower division" as so used shall have the respective meanings defined in the Colorado River compact mentioned in subchapter 1 of this chapter. Such projects shall be only such as are found by the Secretary to be physically feasible, economically justified, and consistent with such formulation of a comprehensive plan. Nothing in subchapter 1 of this chapter shall be construed so as to prevent the authorization and construction of any such projects prior to the completion of said plan of comprehensive development; nor shall subchapter 1 of this chapter be construed as affecting the right of any State to proceed independently of subchapter 1 of this chapter or its provisions with the investigation or construction of any project or projects. Transfers under this subsection shall be deemed contractual obligations of the United States, subject to the provisions of section 618b of this title.

(e) Reimbursement to School District for pupil instruction costs; limitations.

operated by said district, of pupils who are dependents of any employee or employees of the United States living in or in the immediate vicinity of Boulder City, such reimbursement not to exceed the sum of \$65 per semester per pupil and to be payable semi-annually, after the term of instruction in each semester has been completed, under regulation to be prescribed by the Secretary. Immediately after his appointment and qualification the director of locomotive inspection shall divide the territory comprising the several States and the District of Columbia into fifty locomotive boiler inspection districts, so arranged that the service of the inspector appointed for each district shall be most effective, and so that the work required of each inspector shall be substantially the same. Thereupon there shall be appointed by the Interstate Commerce Commission fifty inspectors of locomotive boilers. Said inspectors shall be in the classified service and shall be appointed after competitive examination according to the law and the rules of the Civil Service Commission governing the classified service. The director of locomotive inspection shall assign one inspector so appointed to each of the districts hereinbefore named. In order to obtain the most competent inspectors possible, it shall be the duty of the director of locomotive inspection to prepare a list of questions to be propounded to applicants with respect to construction, repair, operation, testing, and inspection of locomotive boilers, and their practical experience in such work, which list, being approved by the Interstate Commerce Commission, shall be used by the Civil Service Commission as a part of its examination. No person interested, either directly or indirectly, in any patented article required to be used on any locomotive under supervision or who is intemperate in his habits shall be eligible to hold the office of either director of locomotive inspection or assistant or district inspector. § 228e. Annuities and lump sums for survivors.

(f) Lump-sum payment.

(1) Upon the death, on or after January 1, 1947, of a completely or partially insured employee who will have died leaving no widow, child, or parent who would on proper application therefor be entitled to receive an annuity under this section for the month in which such death occurred, there shall be paid a lump sum of eight times the employee's basic amount to the following person (or if more than one there shall be distributed among them) whose relationship to the deceased employee will have been determined by the Board, and who will have been living on the date of such determination: to the widow or widower of the deceased; or, if no such widow or widower be then living, to any child or children of the deceased and to any other person or persons who, under the intestacy law of the State where the deceased will have been domiciled, will have been entitled to share as distributees with such children of the deceased, in such proportions as is provided by such law; or, if no widow or widower and no such child and no such other person be then living, to the parent or parents of the deceased, in equal shares. A person who is entitled to share as distributee with an above-named relative of the deceased shall not be precluded from receiving a payment under this paragraph by reason

of the fact that no such named relative will have survived the deceased or of the fact that no such named relative of the deceased will have been living on the date of such determination. If none of the persons described in this paragraph be living on the date of such determination, such amount shall be paid to any person or persons, equitably entitled thereto, to the extent and in the proportions that he or they shall have paid the expenses of burial of the deceased. If a lump sum would be payable to a widow, child, or parent under this paragraph except for the fact that a survivor will have been entitled to receive an annuity for the month in which the employee will have died, but within one year after the employee's death there will not have accrued to survivors of the employee, by reason of his death annuities which, after all deductions pursuant to paragraph (1) of subsection (i) of this section will have been made, are equal to such lump sum, a payment to any then surviving widow, children, or parents shall nevertheless be made under this paragraph equal to the amount by which such lump sum exceeds such annuities so accrued after such deductions. No payment shall be made to any person under this paragraph, unless application therefor shall have been filed, by or on behalf of any such person (whether or not legally competent), prior to the expiration of two years after the date of death of the deceased employee, except that if the deceased employee is a person to whom section 1002 of Appendix to Title 50, is applicable such two years shall run from the date on which the deceased employee, pursuant to sections 1001-1017 of Appendix to Title 50, is determined to be dead, and for all other purposes of this section such employee, so long as it does not appear that he is in fact alive, shall be deemed to have died on the date determined pursuant to said sections to be the date or presumptive date of death.

(2) Whenever it shall appear, with respect to the death of an employee on or after January 1, 1947, that no benefits, or no further benefits, other than benefits payable to a widow or parent upon attaining age sixty-five at a future date, will be payable under this section or, pursuant to subsection (k) of this section, under section 402 of Title 42, there shall be paid to such person or persons as the deceased employee may have designated by a writing filed with the Board prior to his death, or if there be no designation, to the person or persons in the order provided in paragraph (1) of this subsection or, in the absence of such person or persons, to his estate, a lump sum in an amount equal to the sum of 4 per centum of his compensation paid after December 31, 1936, and prior to January 1, 1947, and 7 per centum of his compensation after December 31, 1946 (exclusive in both cases of compensation in excess of \$300 for any month), minus the sum of all benefits paid to him, or to others by reason of his death, under this chapter and, pursuant to subsection (k) of this section, under section 402 of Title 42: *Provided, however*, That if the employee is survived by a widow or parent who may upon attaining age sixty-five be entitled to further benefits under this section, or pursuant to subsection (k) of this section, under section 402 of Title 42, such lump sum shall not be

paid unless such widow or parent makes and files with the Board an irrevocable election, in such form as the Board may prescribe, to have such lump sum paid in lieu of all benefits to which such widow or parent might otherwise become entitled under this section or, pursuant to subsection (k) of this section, under section 402 of Title 42. Such election shall be legally effective according to its terms. Nothing in this section shall operate to deprive a widow or parent making such election of any insurance benefits under section 402 of Title 42, to which such widow or parent would have been entitled had this section not been enacted. The term "benefits" as used in this paragraph includes all annuities payable under this chapter, lump sums payable under paragraph (1) of this subsection, and insurance benefits and lump-sum payments under section 402 of Title 42, pursuant to subsection (k) of this section. (As amended June 23, 1948, ch. 608, § 2, 62 Stat. 577.)

AMENDMENTS

1948—Subsec. (f) amended by act June 23, 1948, § 2, cited to text, which inserted (1) preceding first par. and changed all references in that paragraph from "this subsection" to "this paragraph", and added par. (2) which, in effect, is a guarantee that every employee who contributes to the system will obtain in benefits, either to himself or his survivors or a designated beneficiary, an amount at least equal to the contribution he makes, plus an allowance in lieu of interest.

Said act July 1, 1944, retained the name Public Health Service.

§ 673. Requirements as to watches; duties of seamen; hours of work; penalty; right of seaman to discharge; effective date.

In all merchant vessels of the United States of more than one hundred tons gross, excepting those navigating rivers, harbors, lakes (other than Great Lakes, bays, sounds, bayous, and canals, exclusively, the licensed officers and sailors, coal passers, firemen, oilers, and water tenders shall, while at sea, be divided into at least three watches, which shall be kept on duty successively for the performance of ordinary work incident to the sailing and management of the vessel: *Provided*, That in the case of radiotelegraph operators this requirement shall be applicable only when three or more radio officers are employed. No licensed officer or seaman in the deck or engine department of any tug documented under the laws of the United States (except boats or vessels used exclusively for fishing purposes) navigating the Great Lakes, harbors of the Great Lakes, and connecting and tributary waters between Gary, Indiana; Duluth, Minnesota; Niagara Falls, New York; and Ogdensburg, New York, shall be required or permitted to work more than eight hours in one day except in case of extraordinary emergency affecting the safety of the vessel and/or life or property. The seamen shall not be shipped to work alternately in the fireroom and on deck, nor shall those shipped for deck duty be required to work in the fireroom, or vice versa; nor shall any licensed officer or seaman in the deck or engine department be required to work more than eight hours in one day; but these provisions shall not limit either the authority of the master or other officer or the obedience of the seamen when in the judgment of the master or other officer the whole or any part of the crew are needed for maneuvering, shifting berth, mooring, or unmooring, the vessel or the performance of work necessary for the safety of the vessel, her passengers, crew, and cargo, or for the saving of life aboard other vessels in jeopardy, or when in port or at sea, from requiring the whole or any part of the crew to participate in the performance of fire, lifeboat, or other drills. While such vessel is in a safe harbor no seaman shall be required to do any unnecessary work on Sundays or the following-named days: New Year's Day, the Fourth of July, Labor Day, Thanksgiving Day, and Christmas Day, but this shall not prevent the dispatch of a vessel on regular schedule or when ready to proceed on her voyage. And at all times while such vessel is in a safe harbor, eight hours, inclusive of the anchor watch, shall constitute a day's work. Whenever the master of any vessel shall fail to comply with this section and the regulation issued thereunder, the owner shall be liable to a penalty not to exceed \$500, and the seamen shall be entitled to discharge from such vessel and to receive the wages earned. But this section shall not apply to vessels engaged in salvage operations: *Provided*, That in all tugs and barges subject to this section when engaged on a voyage of less than six hundred miles, the licensed officers and members of crews other than coal passers, firemen, oilers, and water tenders may, while at sea, be divided into not less than two watches,

but nothing in this proviso shall be construed as repealing any part of section 222 of this title. This section shall take effect six months after June 25, 1936. (As amended May 12, 1948, ch. 286, § 4 (a), 62 Stat. 233.)

WATER TRANSPORTATION SERVICE FOR ALASKA; TERMINATION DATE; CONTRACTS; CHARTERS, ETC.; RIGHT TO CANCEL DEFINITION; RETROACTIVE EFFECT

Joint Res. Mar. 7, 1947, ch. 12, 61 Stat. 10, as amended by Joint Res. July 1, 1948, ch. 786, 62 Stat. 1211, provided:

"That it is the intention of the Congress to assist in providing essential water transportation service for the Territory of Alaska pending the determination of a long-range policy with respect to such transportation.

"Sec. 2. (a) The United States Maritime Commission is authorized to enter into contracts, charters, and other arrangements deemed by it to be appropriate, with American citizens, deemed by the Commission to be qualified, to supply ocean transportation service with American-flag vessels to, from, and within Alaska. Such contracts, charters, or arrangements may include provisions for making available to such operators Government-owned vessels made available to the Commission for such purposes and vessels under the control or jurisdiction of the Commission for operation on voyages commencing not later than March 1, 1949. Such provisions may include (1) charter hire at a nominal rate; (2) such marine insurance to be provided by the Commission, as the Commission may determine to be necessary or appropriate as to vessels made available by the Commission and other vessels operated in the Alaska service under contracts, charters, or arrangements with the Commission; (3) requirements that the operators shall operate such vessels to secure the most economical transportation adequate for the Alaska service; and (4) such other requirements, terms, and conditions as the Commission may deem appropriate.

"(b) Each such contract, charter, or arrangement shall provide that, as of the end of each accounting period, the cumulative gross profit, before overhead expenses, from the operation of vessels thereunder, as approved by the Commission, shall be allocated as follows and in the following order:

"(1) To provide for the operator's proportionate share of the expenses of all operators of maintaining a survey of Alaska ocean transportation services and of the costs and methods of operation of operators in said services, in accordance with a program approved by the Commission;

"(2) To allow compensation to the operator for working capital, use of facilities other than operator-owned vessels, and overhead expenses, on such bases as the Commission may determine; and such bases may be fixed in terms of a percentage or percentages, deemed by the Commission to be reasonable, of vessel operating revenues;

"(3) To allow the operator a return at the rate of 10 per centum per annum, before Federal income taxes, on the fair value of operator-owned vessels used in the Alaska service;

"(4) Any profit remaining thereafter, at the conclusion of each accounting period, shall be held in a special account. At the end of the second and each succeeding accounting period, if any, such account shall be available for paying any then cumulative deficiency (covering the period from the commencement of operations hereunder) with respect to any amounts which, if earned, would have theretofore been allocated pursuant to the previous paragraphs of this subsection;

"(5) At the conclusion of operations under any such contract, charter, or other arrangement, any balance in said special account shall be promptly divided and paid 75 per centum to the Commission and 25 per centum to the operator.

"(c) The Commission may incorporate in each such contract, charter, or arrangement such definitions and formulas for the determinations of vessel-operating revenue, gross profit before overhead expenses, overhead expenses, accounting periods, fair value, and depreciation, as it may deem necessary or appropriate to carry out the other provisions of this subsection and of this joint resolution. The Commission's determination of the value of operator-owned vessels, for the purposes of such contract, charter, or other arrangement, shall be for the pur-

poses of this joint resolution only and shall not be relevant evidence in any regulatory proceeding before the Commission.

"Sec. 3. (a) Every contract, charter, or arrangement made under this joint resolution shall expressly reserve to the Commission, after reasonable notice to the operator and affording him opportunity for hearing if the Commission determines that it is in the public interest so to do, the right to cancel the same upon reasonable notice of such cancellation but not less than ninety days. Such contract, charter, or arrangement shall also reserve to the operator the right to request the Commission to modify or cancel the same for good cause shown, and if the Commission shall determine that the operator's claim is justified, it may make such modification or shall permit such cancellation at such time thereafter as it may consider reasonable but not more than ninety days after such determination.

"(b) Whenever the President shall proclaim that the security of the national defense makes it advisable, or during any national emergency declared by proclamation of the President, the Commission may terminate any contract, charter, or arrangement hereunder, without cost to the United States, upon such notice to the operator as the President shall determine.

"(c) Nothing contained in this joint resolution shall be construed to limit the right of the Commission to enter into other contracts, charters, or arrangements with new or other operators, if after such notice, investigation, or consultation as the Commission may deem necessary or appropriate in the particular case, but without the necessity of hearings, the Commission shall determine such action to be in the interest of the economy of the Territory of Alaska or of the national defense.

"Sec. 4. The word 'vessels' as used in the joint resolution shall include such passenger vessels, freight vessels, combination freight and passenger vessels, tugs, barges, and other watercraft, as shall, in the discretion of the Commission, be deemed suitable for use in ocean transportation to, from, and within Alaska.

"Sec. 5. The provisions of this joint resolution, as amended, shall not, prior to July 1, 1948, affect the operation of contracts, charters, or other arrangements in accordance with their terms in effect on the date of enactment of this amendatory section [July 1, 1948], unless superseded before July 1, 1948, by contracts, charters, or arrangements entered into under this joint resolution, as amended."

Thirty per centum of the Territorial receipts derived from the leasing of cultivated sugar-cane lands under any other provisions of law, or from water licenses, shall be deposited into the Hawaiian home-loan fund until the aggregate amount of the fund (including in said amount the principal of all outstanding loans and advances, and all transfers which have been made from this fund to other funds for which this fund has not been or need not be reimbursed) shall equal \$2,000,000. In addition to these moneys, there shall be covered into the loan fund the installments of principal paid by lessees upon loans made to them as provided in paragraph 2 of section 709 of this title, or as payments representing reimbursements on account of advances made pursuant to section 703 (1) of this title, but not including interest on such loans or advances. The moneys in said fund shall be available (1) for construction and reconstruction of revenue-producing improvements, including acquisition thereof of real property and interests therein, such as water rights or other interests; (2) for payment into the treasury of the Territory of such amounts as are necessary to meet the following charges for Territorial bonds issued for such revenue-producing improvements, to wit, the interest on such bonds, and the principal of such serial bonds maturing the following year; (3) for operation and maintenance of such improvements, heretofore or hereafter constructed from said fund or other funds; and (4) for the purchase of water or other utilities, goods, commodities, supplies, or equipment and for services, to be resold, rented, or furnished on a charge basis to occupants of Hawaiian home lands. The moneys in said fund may be supplemented by other funds available for, or appropriated by the legislature for, the same purposes. In addition to such moneys, said fund, with the approval of the Governor, may be supplemented by transfers made on a loan basis from the home-loan fund. The amounts of all such transfers shall be repaid into the home-loan fund in not exceeding ten annual installments, and the aggregate amount of such transfers outstanding at any one time shall not exceed \$500,000. No projects or activities shall be undertaken hereunder except as authorized by sections 714 and 715 of this title or the other provisions of sections 691-716 of this title.

(2) The Commission's budget, if it meets with the approval of the Governor, shall be included in the Governor's budget report and shall be transmitted to the legislature for its approval.

(3) Upon approval by the legislature of the Commission's budget estimate of expenditures for the ensuing biennium, the amount thereof shall be available to the Commission for said biennium and shall be expendable by the Commission for the expenses hereinabove provided, or, if no action on the budget is taken by the legislature prior to adjournment, the amount submitted to the legislature, but not in excess of \$200,000, shall be available for such expenditures; any amount of money in said account in excess of the amount approved by the legislature for the biennium or so made available shall be transferred to the general fund of the treasury of the Territory, such transfer to be made immediately after the amount of moneys deposited in said administration account shall equal the amount approved by the legislature or so made available.

§ 710. Same; insurance by borrowers; acceleration of loans; lien to secure loans; enforcement by forfeiture.

The Commission may require the borrower to insure, in such amount as the Commission may by regulation prescribe, all livestock and dwellings and other permanent improvements upon his tract, purchased or constructed out of any moneys loaned from the fund; or in lieu thereof the Commission may directly take out such insurance and add the cost thereof to the amount of principal payable under the loan. Whenever the Commission has reason to believe that the borrower has violated any condition enumerated in paragraphs (2), (4), (5), or (6) of section 709 of this title, the Commission shall give due notice and afford opportunity for a hearing to the borrower or the successor or successors to his interest in the tract as the case demands. If upon such hearing the Commission finds that the borrower has violated the condition the Commission may declare all principal and interest of the loan immediately due and payable notwithstanding any provision in the contract of loan to the contrary. The Commission shall have a first lien upon the borrower's or lessee's interest in his tract, growing crops, either on the tract or in any collective contract or program, dwellings, or other permanent improvements thereon, and his livestock, to the amount of all principal and interest due and unpaid and of all taxes and insurance upon such tract and improvements paid by the Commission, and of all indebtedness of the lessee, the payment of which has been assured by the Commission. Such lien shall have priority over any other obligation for which the tract, said growing crops, dwellings, other improvements, or livestock may be security.

The Commission may, at such times as it deems advisable, enforce any such lien by declaring the borrower's interest in his tract, or his successor's interest therein, as the case may be, together with the said growing crops, dwellings, and other permanent improvements thereon, and the livestock, to be forfeited, the lease in respect to such tract canceled, and shall thereupon order the tract to be vacated and the livestock surrendered within a reasonable time. The right to the use and occupancy of the Hawaiian home lands contained in such tract shall thereupon revert in the Commission, and the Commission may take possession of the tract and the improvements and growing crops thereon: *Provided*, That the Commission shall pay to the borrower any difference which may be due him after the appraisal provided for in paragraph (1) of section 703 of this title has been made. The Commission is authorized directly to undertake and carry on general water and other development projects in respect to Hawaiian home lands and to undertake other activities having to do with the economic and social welfare of the homesteaders, including the authority to derive revenue from the sale, to others than homesteaders, of water and other products of such projects or activities, or from the enjoyment thereof by others than homesteaders, where such sale of products or enjoyment of projects or activities by others does not interfere with the proper performance of the duties of the Commission: *Provided, however*, That roads through or over Hawaiian home lands, other than Federal-aid highways and roads, shall be maintained by the county or city and county in which said particular road or roads to be maintained are located. The Legislature of the Territory is authorized to appropriate out of the treasury of the Territory such sums as it deems necessary to augment the Hawaiian home-loan fund, the Hawaiian home-development fund, the Hawaiian home-operating fund, and the Hawaiian home-administration account, and to provide the Commission with funds sufficient to execute and carry on such projects and activities. The legislature is further authorized to issue bonds to the extent required to yield the amount of any sums so appropriated for the payment of which, if issued for revenue-producing improvements, the Commission shall provide, as set forth in section 707 (d) of this title. Said district court shall have jurisdiction of all controversies where all of the parties on either side of the controversy are citizens or subjects of a foreign State or States, or citizens of a State, Territory, or District of the United States not domiciled in Puerto Rico, wherein the matter in dispute exceeds, exclusive of interest or cost, the sum or value of \$3,000, and of all controversies in which there is a separable controversy involving such jurisdictional amount and in which all of the parties on either side of such separable controversy are citizens or subjects of the character aforesaid. The salaries of the judge and officials of the United States District Court for the

hereinafter referred to as the "New York company," a corporation created by an act of the Legislature of the State of New York passed on April 7, 1849, as amended by an act of that legislature passed on April 12, 1855, and which is wholly owned by the United States, and such receipt shall be evidence of the ownership of the corporation by the United States of America. In its capacity as owner of the corporation, the United States shall be represented by the President of the United States or such officer of the United States as may be designated by him, hereinafter referred to as the "stockholder."

(b) Increase of investments.

The amount of the receipt (referred to in subsection (a) of this section) shall be increased by subsequent additional direct investments of the United States, in excess of repayments to the Treasury and extraordinary expenditures and losses applicable as offsets to such investments under the provisions of subsection (d) of this section, due to (1) funds advanced to the corporation from the Treasury within such appropriations by the Congress as may from time to time be made to meet increased capital needs, and (2) transfers to the corporation from other Government agencies (or, conversely, decreased by transfers from the corporation to other Government agencies), pursuant to applicable provisions of law, of business enterprises, facilities, appurtenances, and other assets, less liabilities assumed in connection with such transfers. Transfers of properties and other assets from or to other Government agencies under clause (2) above shall be at such appropriate amount or amounts as shall be agreed upon between the corporation and the agencies concerned and approved by the Director of the Bureau of the Budget, and in the determination thereof due consideration shall be given to the cost and probable earning power of the transferred assets, or usable value to the transferee if clearly less than cost, and adequate provisions made for depreciation of properties and equipment, obsolete or otherwise unusable inventories, and other reasonably determinable shrinkages in values, and, insofar as practicable, there shall be excluded from such amount any portion of the value of the transferred property which is properly allocable to national defense. The board of directors shall certify to the Secretary of the Treasury the amount of each such transfer, the amount of any accumulated repayments to the Treasury or extraordinary expenditures or losses applicable as offsets to the amount of such transfer under the provisions of subsection (d) of this section, and the effective date of the transfer.

(c) Reimbursement of Treasury.

In order to reimburse the Treasury, as nearly as possible, for the interest cost of the funds or other assets directly invested in the corporation, the corporation shall pay interest to the Treasury, at least annually, on the net direct investment of the Government in the corporation, as defined in subsections (a) and (b) of this section, and shown by the receipt described therein, at a rate or rates determined by the Secretary of the Treasury as required to reimburse the Treasury for its cost.

(d) Accounting of surplus.

The corporation shall account for its surplus as follows: (1) The total net income from operations from and after 1904 (when the Government acquired control of the New York company), plus the undistributed net income prior to 1904, less (2) payments to the Treasury as dividends from and after 1904, not applied as offsets to direct capital contributions as described below, and less (3) extraordinary expenditures or losses incurred through directives based on national policy and not related to the operations of the corporation, not reimbursed through specific appropriations by the Congress, and not applied as offsets to direct capital contributions as described below. The corporation shall not be required to pay interest to the Treasury on any part of its surplus, as above defined. Repayments to the Treasury as dividends shall be applicable as offsets against directly contributed capital, past or future, in determining the base for the interest payments required under subsection (c) of this section. Extraordinary expenditures and losses (as defined in clause 3 of this subsection), to the extent not reimbursed through specific appropriations, shall be considered as repayments to the Treasury analogous to dividends and similarly applicable as offsets against directly contributed capital. (June 29, 1948, ch. 706, § 2, 62 Stat. 1076.)

§ 1361c. Board of Directors; composition, appointment and tenure; oath; compensation; quorum.

Before entering upon his duties, each of the directors so appointed shall take an oath faithfully to discharge the duties of his office. The directors shall receive no salary for their services on the board, but under regulations and in amounts prescribed by the board of directors, with the approval of the stockholder, may be paid by the corporation a reasonable per diem allowance in lieu of subsistence expenses in connection with attendance at meetings of the board or in connection with the time spent on special service of the corporation, and their traveling expenses to and from meetings or when upon such special service, without regard to the Subsistence Expense Act of 1926, as amended, or the Standardized Government Travel Regulations. Nothing contained in sections 1361a-1361j of this title or in any other Act shall be construed to prevent the appointment and service, as a director, officer, or employee of the corporation, of any officer or employee of the United States. The directors, of whom a majority shall constitute a quorum for the transaction of business, shall meet for organization purposes when and where called by the stockholder, and for subsequent meetings as provided by the bylaws. AMENDMENTS

1948—Par. (7) amended by act June 24, 1948, cited to text, to allow free transportation to time inspectors and their families.

For purposes of this section—

(A) The term "carrier" means any common carrier subject to chapters 1, 8, or 12 of this title or any freight forwarder subject to chapter 13 of this title; and

(B) The term "antitrust laws" has the meaning assigned to such term in section 12 of Title 5.

(2) Application to Commission for approval of agreements; rules and regulations.

Any carrier party to an agreement between or among two or more carriers relating to rates, fares, classifications, divisions, allowances, or charges (including charges between carriers and compensation paid or received for the use of facilities and equipment), or rules and regulations pertaining thereto, or procedures for the joint consideration, initiation or establishment thereof, may, under such rules and regulations as the Commission may prescribe, apply to the Commission for approval of the agreement, and the Commission shall by order approve any such agreement (if approval thereof is not prohibited by paragraphs (4), (5), or (6) of this section) if it finds that, by reason of furtherance of the national transportation policy declared in chapters 1, 8, 12, and 13 of this title, the relief provided in paragraph (9) of this section should apply with respect to the making and carrying out of such agreement; otherwise the application shall be denied. The approval of the Commission shall be granted only upon such terms and conditions as the Commission may prescribe as necessary to enable it to grant its approval in accordance with the standard above set forth in this paragraph.

(3) Maintenance of accounts and records by conferences, bureaus, committees, etc.

Each conference, bureau, committee, or other organization established or continued pursuant to any agreement approved by the Commission under the provisions of this section shall maintain such accounts, records, files, and memoranda and shall submit to the Commission such reports, as may be prescribed by the Commission, and all such accounts, records, files, and memoranda shall be subject to inspection by the Commission or its duly authorized representatives.

(4) Agreements between carriers of different classes.

The Commission shall not approve under this section any agreement between or among carriers of different classes unless it finds that such agreement is of the character described in paragraph (2) of this section and is limited to matters relating to transportation under joint rates or over through routes; and for purposes of this paragraph carriers by railroad, express companies, and sleeping-car companies are carriers of one class; pipe-line companies are carriers of one class; carriers by motor vehicle are carriers of one class; carriers by water are carriers of one class; and freight forwarders are carriers of one class.

(6) Agreements for determining matters through joint consideration.

The Commission shall not approve under this section any agreement which establishes a procedure for the determination of any matter through joint consideration unless it finds that under the agreement there is accorded to each party the free and unrestrained right to take independent action either before or after any determination arrived at through such procedure.

(7) Investigation of prior approved agreements; termination or modification of approval; effective date.

The Commission is authorized, upon complaint or upon its own initiative without complaint, to investigate and determine whether any agreement previously approved by it under this section, or terms and conditions upon which such approval was granted, is not or are not in conformity with the standard set forth in paragraph (2) of this section, or whether any such terms and conditions are not necessary for purposes of conformity with such standard, and, after such investigation, the Commission shall by order terminate or modify its approval of such agreement if it finds such action necessary to insure conformity with such standard, and shall modify the terms and conditions upon which such approval was granted to the extent it finds necessary to insure conformity with such standard or to the extent to which it finds such terms and conditions not necessary to insure such conformity. The effective date of any order terminating or modifying approval, or modifying terms and conditions, shall be postponed for such period as the Commission determines to be reasonably necessary to avoid undue hardship.

(Feb. 4, 1887, ch. 104, Part I, § 5a, as added June 17, 1948, ch. 491, 62 Stat. 472.)

* * * * *

(12) Recovery by initial or delivering carrier from connecting carrier.

The common carrier, railroad, or transportation company issuing such receipt or bill of lading, or delivering such property so received and transported, shall be entitled to recover from the common carrier, railroad, or transportation company on whose line the loss, damage, or injury shall have been sustained, the amount of such loss, damage, or injury as it may be required to pay to the owners of such property, as may be evidenced by any receipt, judgment, or transcript thereof, and the amount of any expense reasonably incurred by it in defending any action at law brought by the owners of such property. (As amended June 3, 1948, ch. 386, 62 Stat. 295.)

AMENDMENTS

1948—Act June 8, 1948, cited to text, amended section to include recovery of any expense reasonably incurred by the carrier defending the suit in any action at law brought by the owners of the damaged or lost property.

§ 20b. Modification of railroad financial structures—Approval and authorization of Commission; exclusion of equipment-trust securities.

(1) It shall be lawful (any express provision contained in any mortgage, indenture, deed of trust, corporate charter, stock certificate, or other instrument or any provision of State law to the contrary notwithstanding), with the approval and authorization of the Commission, as provided in paragraph (2) of this section, for a carrier as defined in section 20a (1) of this title to alter or modify (a) any provision of any class or classes of its securities as defined in section 20a (2) of this title being hereinafter in this section sometimes called "securities"; or (b) any provision of any mortgage, indenture, deed of trust, corporate charter, or other instrument pursuant to which any class of its securities shall have been issued or by which any class of its obligations is secured (hereinafter referred to as instruments): *Provided*, That the provisions of this section shall not apply to any equipment-trust certificates in respect of which a carrier is obligated, or to any evidences of indebtedness of a carrier the payment

of which is secured in any manner solely by equipment, or to any instrument, whether an agreement, lease, conditional-sale agreement, or otherwise, pursuant to which such equipment-trust certificates or such evidences of indebtedness shall have been issued or by which they are secured.

(2) Application; public hearing; findings; submission of plan to security holders; order of Commission; force and effect.

Whenever an alteration or modification is proposed under paragraph (1) of this section, the carrier seeking authority therefor shall, pursuant to such rules and regulations as the Commission shall prescribe, present an application to the Commission. Upon presentation of any such application, the Commission may, in its discretion, but need not, as a condition precedent to further consideration, require the applicant to secure assurances of assent to such alteration or modification by holders of such percentage of the aggregate principal amount or number of shares outstanding of the securities affected by such alteration or modification as the Commission shall in its discretion determine. If the Commission shall not require the applicant to secure any such assurances, or when such assurances, as the Commission may require shall have been secured, the Commission shall set such application for public hearing and the carrier shall give reasonable notice of such hearing in such manner, by mail, advertisement, or otherwise, as the Commission may find practicable and may direct, to holders of such of its classes of securities and to such other persons in interest as the Commission shall determine to be appropriate and shall direct. If the Commission, after hearing, in addition to making (in any case where such alteration or modification involves an issuance of securities) the findings required by paragraph (2) of section 20a of this title, not inconsistent with paragraph (1) of this section shall find that, subject to such terms and conditions and with such amendments as it shall determine to be just and reasonable, the proposed alteration or modification—

(a) is within the scope of paragraph (1) of this section;

(b) will be in the public interest;

(c) will be in the best interests of the carrier, of each class of its stockholders, and of the holders of each class of its obligations affected by such modification or alteration; and

(d) will not be adverse to the interests of any creditor of the carrier not affected by such modification or alteration,

then (unless the applicant, carrier shall withdraw its application) the Commission shall cause the carrier, in such manner as it shall direct, to submit the proposed alteration or modification (with such terms, conditions, and amendments, if any) to the holders of each class of its securities affected thereby, for acceptance or rejection. All letters, circulars, advertisements, and other communications, and all financial and statistical statements, or summaries thereof, to be used in soliciting the assents or the opposition of such holders shall, before being so used, be submitted to the Commission for its approval as

to correctness and sufficiency of the material facts stated therein. If the Commission shall find that as a result of such submission the proposed alteration or modification has been assented to by the holders of at least 75 per centum of the aggregate principal amount or number of shares outstanding of each class of securities affected thereby (or in any case where 75 per centum thereof is held by fewer than twenty-five holders, such larger percentage, if any, as the Commission may determine to be just and reasonable and in the public interest), the Commission shall enter an order approving and authorizing the proposed alteration or modification upon the terms and conditions and with the amendments, if any, so determined to be just and reasonable. Such order shall make provision as to the time when such alteration or modification shall become and be binding, which may be upon publication of a declaration to that effect by the carrier, or otherwise, as the Commission may determine. Any alteration or modification which shall become and be binding pursuant to the approval and authority of the Commission hereunder shall be binding upon each holder of any security of the carrier of each class affected by such alteration or modification, and upon any trustee or other party to any instrument under which any class of obligations shall have been issued or by which it is secured, and when any alteration or modification shall become and be binding the rights of each such holder and of any such trustee or other party shall be correspondingly altered or modified.

(3) When class of securities affected; what constitutes outstanding securities; assent to modification.

For the purposes of this section a class of securities shall be deemed to be affected by any modification or alteration proposed only (a) if a modification or alteration is proposed as to any provision of such class of securities, or (b) if any modification or alteration is proposed as to any provision of any instrument pursuant to which such class of securities shall have been issued or shall be secured: *Provided*, That in any case where more than one class of securities shall have been issued and be outstanding or shall be secured pursuant to any instrument, any alteration or modification proposed as to any provision of such instrument which does not relate to all of the classes of securities issued thereunder, shall be deemed to affect only the class or classes of securities to which such alteration or modification is related. For the purpose of the finding of the Commission referred to in paragraph (2) of this section as to whether the required percentage of the aggregate principal amount or number of shares outstanding of each class of securities affected by any proposed alteration or modification has assented to the making of such alteration or modification, any security which secures any evidence or evidences of indebtedness of the carrier or of any company controlling or controlled by the carrier shall be deemed to be outstanding unless the Commission in its discretion determines that the proposed alteration or modification does not materially affect the interests of the holder or holders of the evidence or evidences of indebtedness secured by such security. When-

ever any such pledged security is, for said purposes, to be deemed outstanding, assent in respect of such security, as to any proposed alteration or modification, may be given only (any express or implied provision in any mortgage, indenture, deed of trust, note, or other instrument to the contrary notwithstanding) as follows: (a) Where such security is pledged as security under a mortgage, indenture, deed of trust, or other instrument, pursuant to which any evidences of indebtedness are issued and outstanding, by the holders of a majority in principal amount of such evidences of indebtedness, or (b) where such security secures an evidence or evidences of indebtedness not issued pursuant to such a mortgage, indenture, deed of trust, or other instrument, by the holder or holders of such evidence or evidences of indebtedness; and in any such case the Commission, in addition to the submission referred to in paragraph (2) of this section, shall cause the carrier in such manner as it shall direct to submit the proposed alteration or modification (with such terms, conditions, and amendments, if any, as the Commission shall have determined to be just and reasonable) for acceptance or rejection, to the holders of the evidences of indebtedness issued and outstanding pursuant to such mortgage, indenture, deed of trust, or other instrument, or to the holder or holders of such evidence or evidences of indebtedness not so issued, and such proposed alteration or modification need not be submitted to the trustee of any such mortgage, indenture, deed of trust, or other instrument, but assent in respect of any such security shall be determined as hereinbefore in this section provided. For the purposes of this section a security or an evidence of indebtedness shall not be deemed to be outstanding if in the determination of the Commission the assent of the holder thereof to any proposed alteration or modification is within the control of the carrier or of any person or persons controlling the carrier.

(4) Modification of securities of carrier acting as guarantor, endorser, surety, or otherwise; person deemed carrier.

(a) Any authorization and approval hereunder of any alteration or modification of a provision of any class of securities of a carrier or of a provision of any instrument pursuant to which a class of securities has been issued, or by which it is secured, shall be deemed to constitute authorization and approval of a corresponding alteration or modification of the obligation of any other carrier which has assumed liability in respect of such class of securities as guarantor, endorser, surety, or otherwise: *Provided*, That such other carrier consents in writing to such alteration or modification of such class of securities in respect of which it has assumed liability or of the instrument pursuant to which such class of securities has been issued or by which it is secured and, such consent having been given, any such corresponding alteration or modification shall become effective, without other action, when the alteration or modification of such class of securities or of such instrument shall become and be binding.

(b) Any person who is liable or obligated contingently or otherwise on any class or classes of se-

curities issued by a carrier shall, with respect to such class or classes of securities, for the purposes of this section, be deemed a carrier.

(5) Authority of section as exclusive and plenary.

The authority conferred by this section shall be exclusive and plenary and any carrier, in respect of any alteration or modification authorized and approved by the Commission hereunder, shall have full power to make any such alteration or modification and to take any actions incidental or appropriate thereto, and may make any such alteration or modification and take any such actions, and any such alteration or modification may be made without securing the approval of the Commission under section 208 of Title 11 or other paragraph of this section, and without securing approval of any State authority, and any carrier and its officers and employees and any other persons, participating in the making of an alteration or modification approved and authorized under the provisions of this section or the taking of any such actions, shall be, and they are, relieved from the operation of all restraints, limitations, and prohibitions of law, Federal, State, or municipal, insofar as may be necessary to enable them to make and carry into effect the alteration or modification so approved and authorized in accordance with the conditions and with the amendments, if any, imposed by the Commission. Any power granted by this section to any carrier shall be deemed to be in addition to and in modification of its powers under its corporate charter or under the laws of any State. The provisions of this section shall not affect in any way the negotiability of any security of any carrier or of the obligation of any carrier which has assumed liability in respect thereto.

(6) Reports to Commission from carrier.

The Commission shall require periodical or special reports from each carrier which shall hereafter secure from the Commission approval and authorization of any alteration or modification under this section, which shall show, in such detail as the Commission may require, the action taken by the carrier in the making of such alteration or modification.

(7) Section as permissive.

The provisions of this section are permissive and not mandatory and shall not require any carrier to obtain authorization and approval of the Commission hereunder for the making of any alteration or modification of any provision of any of its securities or of any class thereof or of any provision of any mortgage, indenture, deed of trust, corporate charter, or other instrument, which it may be able lawfully to make in any other manner, whether by reason of provisions for the making of such alteration or modification in any such mortgage, indenture, deed of trust, corporate charter, or other instrument, or otherwise: *Provided*, That the provisions of paragraph (2) of section 20a of this title, if applicable to such alteration or modification made otherwise than pursuant to the provisions of this section, shall continue to be so applicable.

(8) Law governing applications; supplemental orders.

The provisions of paragraph (6) of section 20a of this title, except the provisions of paragraph (6) of said section in respect of hearings, shall apply to applications made under this section. In connection with any order entered by the Commission pursuant to paragraph (2) of this section, the Commission may from time to time, for good cause shown, make such supplemental orders in the premises as it may deem necessary or appropriate, and may by any such supplemental order modify the provisions of any such order, subject always to the requirements of paragraph (2) of this section.

(9) Solicitation of proxies.

The provisions of subdivision (a) of section 78n of Title 15 shall not apply to any solicitation in connection with a proposed alteration or modification pursuant to this section.

(10) Rules and regulations.

The Commission shall have the power to make such rules and regulations appropriate to its administration of the provisions of this section as it shall deem necessary or desirable.

(11) Issuance of securities; law governing.

Any issuance of securities under this section which shall be found by the Commission to comply with the requirements of paragraph (2) of section 20a of this title shall be deemed to be an issuance which is subject to the provisions of section 20a of this title within the meaning of section 77c (a) (6) of Title 15. Section 77e of Title 15 shall not apply to the issuance, sale, or exchange of certificates of deposit representing securities of, or claims against, any carrier which are issued by committees in proceedings under this section, and said certificates of deposit and transactions therein shall, for the purposes of said Securities Act, be deemed to be added to those exempted by sections 77c and 77e of Title 15.

(12) Taxes on issuance, transfer, or exchange of securities.

The provisions of sections 1801, 1802, 3481, and 3482 of Title 26 and any amendments thereto, unless specifically providing to the contrary, shall not apply to the issuance, transfer, or exchange of securities or the making or delivery of conveyances to make effective any alteration or modification effected pursuant to this section.

(13) Conditions permitting modification and adjustment procedure to carriers in receivership or reorganization proceedings.

The Commission shall not approve an application filed under this section by any carrier while in equity receivership or in process of reorganization under section 205 of Title 11, except that the Commission may approve an application filed by a carrier which, on April 9, 1948, is in equity receivership and with respect to which no order confirming the sale of the carrier's property has been entered, or is in process of reorganization under section 205 of Title 11 and with respect to which no order confirming a plan shall have been entered, or, such an order having been entered, if an appeal from said order is pending on said date in a circuit court of appeals or the mat-

ter is pending in the Supreme Court on a petition to review any order of a circuit court of appeals dealing with said order of confirmation or the time within which to make such appeal or to file such petition has not expired, if prior to the filing of such application with the Commission such carrier shall have applied for and been granted permission to file such application by the district judge before whom the equity receivership or section 205 of Title 11 proceeding is pending. Any such carrier applying for permission to file such application shall file with the court as a prerequisite to the granting of such permission (1) a copy of the proposed application, (2) a copy of the proposed plan of alteration or modification of its securities, and (3) assurances satisfactory to the court of the acceptance of such plan from holders of at least 25 per centum of the aggregate amount of all securities, including not less than 25 per centum of the aggregate amount of all creditors' claims, affected by such plan. An order of a district judge granting or withholding such permission shall be final and shall not be subject to review. Upon granting of such permission, such proceeding, so far as it relates to a plan of reorganization, shall be suspended until the Commission shall have notified the court that (a) the application filed by such carrier under this section has been dismissed or denied by the Commission or withdrawn, (b) the Commission has approved and authorized an alteration or modification under this section with respect to the securities of such carrier, or (c) twelve months have elapsed since the filing of such application and no such alteration or modification has been approved and authorized by the Commission. Upon receipt by the court of notification that such application has been dismissed or denied or withdrawn or that twelve months have elapsed and no alteration or modification has been approved and authorized, the equity receivership or section 205 of Title 11 proceeding shall be resumed as though permission to file application under this section had not been granted. Upon receipt by the court of notification that the Commission has authorized and approved such alteration or modification of the carrier's securities under this section as, in the judgment of the court, makes further receivership or section 205 of Title 11 proceeding unnecessary, the court shall enter an order restoring custody of the property to the debtor, and making such other provision as may be necessary to terminate the equity receivership or section 205 of Title 11 proceeding. (Feb. 4, 1887, ch. 104, § 20b, as added Apr. 9, 1948, ch. 180, § 2, 62 Stat. 163.)

Any person who (1) violates any entry or clearance regulation made under section 177 (c) of this title, or (2) any immigration regulation made under such section, shall be subject to a civil penalty of \$500 which may be remitted or mitigated by the Commissioner of Customs, or the Attorney General, respectively, in accordance with such proceedings as the Commissioner of Customs or the Attorney General shall by regulation prescribe. Any person violating any customs regulation made under section 177 (b) of this title, or any provision of the customs or public-health laws or regulations thereunder made applicable to aircraft by regulation under such section shall be subject to a civil penalty of \$500, and any aircraft used in connection with any such violation shall be subject to seizure and forfeiture as provided for in such customs laws, which penalty and forfeiture may be remitted or mitigated by the Secretary of the Treasury. Any civil penalty imposed under this section may be collected by proceedings in personam against the person subject to the penalty and/or in case the penalty is a lien, by proceedings in rem against the aircraft. Such proceedings shall conform as nearly as may be to civil suits in admiralty; except that either party may demand trial by jury of any issue of fact, if the value in controversy exceeds \$20, and facts so tried shall not be reexamined other than in accordance with the rules of the common law. The fact that in a libel in rem the seizure is made at a place not upon the high seas or navigable waters of the United States, shall not be held in any way to limit the requirement of the conformity of the proceedings to civil suits in rem in admiralty. The Supreme Court of the United States, and under its direction other courts of the United States, are authorized to prescribe rules regulating such proceedings in any particular not provided by law. The determination under this section as to the remission or mitigation of a civil penalty imposed under this section shall be final. (3) For the purpose of carrying out his functions under this section, the Administrator is authorized to exercise all powers conferred upon him by any other provisions of this chapter and to appoint

The provisions of section 5 of Title 41 shall not apply to contracts with educational institutions and other persons for the use of aircraft, control towers, or other facilities or for the performance of services authorized by this section.

(4) Any executive department or independent establishment is authorized to cooperate with the Administrator in carrying out the purposes of this section, and for such purposes may lend or transfer to the Administrator, by contract or otherwise, or if so requested by the Administrator, lend to educational institutions or other persons cooperating with the Administrator in the conduct of any such training or program, officials, experts, or employees, aircraft, control towers and other property or equipment, and lands or buildings under its control. (1) Any conveyance which affects the title to, or any interest in, any civil aircraft of the United States;

(2) Any lease, and any mortgage, equipment trust, contract of conditional sale, or other instrument executed for security purposes, which lease or other instrument affects the title to, or any interest in, any specifically identified aircraft engine or engines of seven hundred and fifty or more rated take-off horsepower for each such engine or the equivalent of such horsepower, and also any assignment or amendment thereof or supplement thereto;

§ 903. Application of provisions; exemptions.

* * * * *

(e) (1) Notwithstanding any provision of this part the Commission may, by order, from time to time, upon application, or upon its own initiative without application, exempt from the requirements of this part the transportation of passengers between points in the United States by way of a foreign port or ports, upon a finding that application of such requirements thereto is not necessary to carry out the

national transportation policy declared in this chapter and chapters 1, 8 and 13 of this title.

(2) It is declared to be the policy of Congress to exclude from the provisions of this chapter, in addition to the transportation otherwise excluded under this section, transportation by contract carriers by water which, by reason of the inherent nature of the commodities transported, their requirement of special equipment or their shipment in bulk, is not actually and substantially competitive with transportation by any common carrier subject to this chapter or chapter 1 or 8 of this title. Upon application of a carrier, made in such manner and form as the Commission may by regulations prescribe, the Commission shall, subject to such reasonable conditions and limitations as the Commission may prescribe, by order exempt from the provisions of this chapter such of the transportation engaged in by such carrier as it finds necessary to carry out the policy above declared. A carrier (other than a carrier subject, at the time this chapter takes effect, to the provisions of the Intercoastal Shipping Act, 1933, as amended) making such application prior to January 1, 1941, shall be exempt from the provisions of this chapter until a final determination has been made upon such application if such carrier or a predecessor in interest was in bona fide operation as a contract carrier by water on January 1, 1940, over the route or routes or between the ports with respect to which application is made and has so operated since that time (or, if engaged in furnishing seasonal service only, was in bona fide operation during the seasonal period, prior to or including such date, for operations of the character in question) except, in either event, for interruptions of service over which such carrier or its predecessor in interest had no control. (As amended June 12, 1948, ch. 457, 62 Stat. 386.)

§ 1116. Reimbursement for damage by Federal agencies to public airports—(a) Submission and determination of claims.

Reimbursement shall be made to public agencies, as provided in this section, for the necessary rehabilitation or repair of public airports heretofore or hereafter substantially damaged by any Federal agency. The Administrator is authorized to render such assistance as he deems necessary to public agencies in the preparation of requests for reimbursement for the cost of rehabilitation or repair of public airports, under the control or management of such public agencies, which have been substantially damaged by any Federal agency and, upon receipt of such a request from a public agency, the Administrator is further authorized, on behalf of the United States, to consider, ascertain, and determine, in accordance with regulations he shall prescribe pursuant to this section, the actual or estimated cost of such necessary rehabilitation or repair for which such public agency is entitled to reimbursement from the United States.

(b) Certification of claims to Congress; cost in excess of certification; contractual obligation of Government.

Such amount as may be found by the Administrator to be the actual or estimated cost of such rehabilitation or repair shall be certified by the Administrator to Congress, which certification shall include a brief statement of the character of the damage upon which the request for reimbursement is based and of the work performed or to be performed to accomplish such rehabilitation or repair. In the event that, upon completion of such rehabilitation or repair, it is determined that the actual cost thereof, as approved by the Administrator, exceeds the amount of the estimate certified to Congress by him, the Administrator shall certify to Congress the amount by

which such actual cost exceeds such estimate including in such certification a brief statement of the cause of the variation between the estimated and the actual cost of such rehabilitation and repair. Certifications made hereunder by the Administrator shall be deemed contractual obligations of the United States, payable as hereinafter provided.

(c) Appropriations; limitations on payments by Administrator; disposition of excess.

There are authorized to be appropriated such amounts as may be necessary to enable the Administrator to make payments as provided for in this section to public agencies, either upon completion of the rehabilitation or repair involved, or as such rehabilitation or repair progresses, it being the purpose of this subsection to authorize the Administrator to make payments to public agencies, out of funds appropriated pursuant to this section, as reimbursement for the cost of such public agencies of work performed in accomplishing rehabilitation or repair prior to final completion of such work and at such time or times as may be determined by the Administrator, after consultation with the public agency involved: *Provided*, That no such payment made by the Administrator shall be in an amount which, together with all previous payments made to reimburse such public agency for the cost of such rehabilitation or repair, shall exceed the estimated cost of the work then performed. If the Administrator shall determine at any time that the aggregate of such payments exceeds the actual cost of the work then performed the United States shall be entitled to recover such excess. In the event the estimate of the cost of rehabilitation or repair of an airport as certified to Congress by the Administrator exceeds the actual cost of such rehabilitation or repair, the amount of such excess shall be covered into the Treasury of the United States as miscellaneous receipts. Appropriations made pursuant to this subsection shall remain available until June 30, 1953, unless sooner expended.

(d) Time limitation on reimbursement requests.

No request for reimbursement of the cost of rehabilitation or repair to a public airport submitted pursuant to this section shall be considered by the Administrator unless such request has been submitted to him within six months after the occurrence of the damage upon which the request is based, except that in case of a request relating to damage caused by operations of a military nature during time of war, such request may be submitted within six months after the date of termination of such war unless the airport is under the control and management of the United States at the time of termination of such war, in which event the request may be submitted to the Administrator within six months after the transfer of such control or management of the airport to the public agency involved. (As amended June 29, 1948, ch. 738, 62 Stat. 1111.)

(b) When considered consistent with the needs of national defense, and subject to such conditions, if any, as may be agreed upon in specific cases between the parties, any department of the National Military Establishment is authorized to transfer at its discretion to the Chief of the Weather Bureau without charge therefor, meteorological facilities installed by or in the possession of such department in territory (including Alaska) outside the continental limits of the United States, which such department has found to be no longer required exclusively for military purposes, and which, in the opinion of the Chief of the Weather Bureau are, or are likely to become, necessary for carrying out the purposes of this chapter. Transfer of property in foreign territory shall be made hereunder only after consultation with the Air Coordinating Committee.

In the event property is retaken which incorporates improvements or additions not made at Government expense, reasonable compensation shall be paid to the person or persons who made such improvements or additions, or to their successors in interest. The Secretary of the department which made the transfer, or his duly authorized representative, shall determine, for purposes of this section, what is reasonable compensation for such improvements or additions. (June 16, 1948, ch. 473, § 9, 62 Stat. 453.)

§ 1159. Powers—(a) Administration; penalties.

With regard to airport property and airway property in territory (including Alaska) outside the conti-

Any person who knowingly and willfully violates any rule or regulation issued by the Administrator under clause (2) of this section, if such violation is committed in any area under the civil jurisdiction of the United States, shall be deemed guilty of a misdemeanor and upon conviction thereof shall be subject to a fine of not more than \$500 or to imprisonment not exceeding six months, or to both such fine and imprisonment.

(b) Chief of Weather Bureau.

GENERAL RULES OF PRACTICE

GENERAL INFORMATION

Rule 1. Scope of rules.

These general rules govern procedure before the Interstate Commerce Commission in proceedings under the Interstate Commerce Act and related acts, unless otherwise directed by the Commission in any proceeding.

Rule 2. Liberal construction.

These rules shall be liberally construed to secure just, speedy, and inexpensive determination of the issues presented.

Rule 3. Information; special instructions.

Information as to procedure under these rules, and instructions supplementing these rules in special instances, will be furnished upon application to the Secretary of the Commission, Washington, D. C.

Rule 4. Communications and pleadings generally.—
(a) How addressed.

All communications, including correspondence concerning matters referred to boards, should be addressed to the Commission unless otherwise specifically directed.

(b) Timely filing required.

Pleadings, requests, or other papers or documents required or permitted to be filed under these Rules must be received for filing at the Commission's offices at Washington, D. C., within the time limits, if any, for such filing. The date of receipt at the Commission and not the date of deposit in the mails is determinative.

(c) Disposition of, when defective.

In any proceeding when upon inspection the Commission is of the opinion that a pleading, document, or paper tendered for filing does not comply with these Rules, or, if it be an application, does not sufficiently set forth required material or is otherwise insufficient, the Commission may decline to accept the pleading, document, or paper for filing and may return it unfiled, or the Commission may accept it for filing and advise the person tendering it of the deficiency and require that the deficiency be corrected.

(d) Objectionable matter.

The Commission may order any redundant, immaterial, impertinent, or scandalous matter stricken from any pleading, document, or paper filed with it.

Rule 5. Definitions.

As used in these Rules—

(a) The terms "act" and "part" mean the Interstate Commerce Act and the several parts thereof, respectively. The term "act" also means, unless the context otherwise indicates, any other statute which the Commission administers in whole or in part.

(b) The term "proceeding" shall include: (1) An informal or formal "complaint" alleging violation of any provision of the act or of any regulation or requirement made pursuant to a power granted by such act, including petitions on the special docket; (2) an "application" for (A) the granting of any right, privilege, authority, or relief under or from any provision of the act or of any regulation or requirement made pursuant to a power granted by such act, or (B) the consideration of any submission required by law to be made to the Commission; and (3) an "investigation" instituted, or requested to be instituted, by the Commission, including, among others, matters on the valuation and investigation and suspension dockets.

(c) The term "complainant" means a person filing a complaint; "defendant" means a carrier or other person against whom complaint is filed; "applicant" means a person filing an application; "respondent" means a person designated in an investigation; "protestant" means a person opposed to a tentative valuation, to the granting of an application, or to any tariff or schedule becoming effective; "intervener" means a person permitted to intervene as provided in Rule 72; and "petitioner" means any other person seeking relief otherwise than by complaint or application.

(d) The term "pleading" means a complaint, answer, reply, application, protest, motion (other than motion orally made at hearing or argument), petition, document supplementing oral hearing as described in Rule 86, and all documents filed under modified and shortened procedure.

(e) The term "practitioner" means a person authorized by the Commission to appear before it in a representative capacity.

(f) The term "officer," except as a different meaning is indicated in Rules 17 (b), 57 to 66, inclusive, 71 (a), and 78 (civil and corporate functionaries), includes: (1) A Commissioner, a board of employees (herein called an "employee board"), an examiner, or special board composed of State representatives (herein called a "joint board") to which a proceeding (herein called "referred matter") is by order assigned or referred for hearing, consideration, or recommendation of an appropriate order thereon pursuant to provisions of law;¹ and (2) a Commissioner, an examiner, or other Commission employee before whom, without entry of an order of reference, a proceeding is assigned for hearing. The term "board" means either an employee board or a joint board as the context requires.

(i) The term "officer's report" or "board's report" means a proposed report or report and recommended order.

(j) The term "shortened procedure" means the procedure specified in Rule 44 and rules therein mentioned. (k) The term "modified procedure" means the procedure specified in Rules 45 to 54, inclusive, which rules provide for the filing and serving of pleadings in formal-complaint proceedings with a view to limiting the matters upon which subsequent oral evidence, if any, will be introduced.

Words importing the singular number may extend and be applied to several persons or things; words importing the plural number may include the singular; and words importing the masculine gender may be applied to females.

PRACTITIONERS

Rule 7. Register of practitioners.

A register is maintained by the Commission in which are entered the names of all persons entitled to practice before the Commission. Corporations and firms will not be admitted or recognized.

Rule 8. Practitioners' qualifications and classes.

The following classes of persons whom the Commission finds, upon consideration of their applications, to be of good moral character and to possess the requisite qualifications to represent others may be admitted to practice before the Commission:

(a) Attorneys at law.

Attorneys at law who are admitted to practice before the highest court of any State or Territory or the District of Columbia.

(b) Persons not attorneys.

Any person not an attorney at law who is a citizen or resident of the United States, and who shall satisfy the Commission that he is possessed of the necessary legal and technical qualifications to enable him to render valuable service before the Commission, and that he is otherwise competent to advise and assist in the presentation of matters before the Commission.

Rule 9. Applications for admission to practice.

An application under oath for admission to practice shall be addressed to the Commission, Washington, D. C., and must state the name, residence, address, and business address of the applicant, and the time and place of his admission to the bar, or the nature of his qualifications. Such application shall also state whether the applicant has ever been suspended or disbarred as an attorney, or whether his right to practice has ever been revoked by any court, commission, or administrative agency, in any jurisdiction. Such application shall be accompanied by a certificate of the clerk of the court in which ap-

plicant is admitted to practice to the effect that he has been so admitted and is in good standing; or by a certificate signed by three or more practitioners as sponsors for the applicant, which certificate shall recite that applicant possesses all the requisite qualifications under this rule, and the sponsors shall incorporate in their certificate a recommendation and motion that applicant be admitted to practice under this rule.

Rule 10. Additional certificates by practitioners' sponsors; hearing; abandonment of application.

The Commission in its discretion may call upon the practitioners making such certificate for a full statement of the nature and extent of their knowledge of the qualifications of the applicant. If upon a consideration of the papers filed by the applicant and the statements submitted by his sponsors, or otherwise, the Commission is not satisfied as to the sufficiency of the applicant's qualifications under these Rules, it will so notify him by registered mail, whereupon he may request a hearing for the purpose of showing his qualifications. If he presents such request, the Commission will accord him a hearing. If he presents to the Commission no request for such hearing within 20 days after receiving the notification above referred to, his application shall be deemed to be withdrawn.

Rule 11. Application fee.

An application filed after this rule becomes effective must be accompanied by a fee of \$10. Payment must be made either in cash or by New York draft, certified check, or express or postal money order payable to the order of the Treasurer of the United States. The fee will be returned if applicant is not admitted to practice.

Rule 12. Practitioner's oath.

No person shall be admitted to practice before the Commission until he shall have subscribed to an oath or affirmation that he will conduct himself, as a practitioner before this Commission, uprightly, and according to law; and that he will support the Constitution of the United States and laws of the United States and will conform to the rules and regulations of the Commission.

Rule 13. Denial of admission, censure, suspension, or disbarment of practitioners.

The Commission may, in its discretion, deny admission, censure, suspend, or disbar any person who, it finds, does not possess the requisite qualifications to represent others, or is lacking in character, integrity, or proper professional conduct. Any person who has been admitted to practice may be suspended or disbarred only after he is afforded an opportunity to be heard.

SPECIAL RULES RESPECTING BOARDS

Rule 14. Special rules respecting boards. (a) Organization.

After a joint board has been created, it shall select one of its members to act as chairman for all purposes concerning matters which may be referred to it. In the event the member so selected is absent from any meeting of the joint board, the members

attending shall select one of such members, except as provided in subdivision (b) of this rule, temporarily to act as chairman.

(b) Waiver by absence of a joint-board member.

The failure of a duly appointed member of a joint board to participate in any hearing after notice thereof on a matter referred to such joint board shall be considered to constitute, as to the matter referred, a waiver of action on the part of the State from which such member was appointed.

(c) Procedural rulings in case of disagreement.

If the members of a board or a majority thereof in actual attendance at a hearing shall be unable to agree upon the disposition of a procedural question arising therein, the chairman (or acting chairman) of the board shall decide the question and rule or order accordingly.

(d) Form of board's report; service.

For the sake of uniformity, the board's report shall conform as nearly as may be practicable to the form of report issued by the Commission in similar cases. The board's report will be served by the Commission.

(e) Termination of joint-board jurisdiction; subsequent procedure.

The jurisdiction of a joint board over a referred matter shall be terminated in the event of: (1) Service of a report as provided in subdivision (d) of this rule; (2) submission of the board's conclusions without written report; (3) waiver of action in writing by appropriate authority of each State from which a member is entitled to be appointed; (4) failure of all members of the board to appear at the hearing; (5) failure of a majority of the board to agree; or (6) entry of order vacating the order of reference to the joint board. Except where a report is served as provided in subdivision (d) of this rule, in which event the subsequent procedure will be as provided in Rule 96 and subsequent rules, a referred matter, after termination of joint-board jurisdiction, will be decided by the Commission or be made the subject of another officer's report on the record theretofore made or after such hearing or further hearing as may be required.

PLEADING SPECIFICATIONS GENERALLY

Rule 15. Typographical specifications generally.

Except as otherwise provided respecting applications (Rule 39 (a)), exhibits (Rule 84 (a)), and informal complaints (Rule 24 (a)), all pleadings, documents, and papers to be filed under these rules shall be on opaque, unglazed, durable paper not exceeding 8½ by 11 inches. To permit of binding in covers of uniform size, margins of at least 1½ and 1 inch, respectively, shall be allowed on the left and right margins. Binding shall be on the left margin. Reproduction may be by printing, multilithing, multigraphing, or mimeographing or by any other process, provided the copies are clear and permanently legible. White-line blueprints which cannot be reproduced by photography are not desirable. If directly typewritten, or if in facsimile reproduction of

typewriting, the impression must be on one side¹ of the paper and must be double-spaced, except that long quotations shall be single-spaced and indented. If printed, adequate leading and nothing less than 10-point type shall be used, except that 8-point type may be employed in footnotes and in tabular matter where printing limitations so require. A brief in excess of 50 pages, including cover pages, indexes, and appendixes, may not be typewritten.

Rule 16. Copies. (a) Generally.

The original and 14 copies of every pleading, document, or paper permitted or required to be filed under these rules shall be furnished for the use of the Commission, except as a different number is required under subdivision (b) of this rule, or as otherwise provided respecting: Answers (Rule 35 (c)); applications (Rules 38 (b) and 40 (c)); complaints, formal (Rules 26 and 37) and informal (Rules 24 (a) and 25 (d)); depositions (Rule 64); exhibits (Rules 84 (c) and 86); modified and shortened procedure (Rules 44 (c) and 52); petitions in intervention (Rule 72 (d)); prepared statements (Rule 77); protests in investigation and suspension proceedings (Rule 42 (c)); replies (Rule 23 (b)); and matters respecting oral argument (Rule 98), subpoenas (Rule 56 (a)), time modification (Rule 21 (b)), and transcript correction (Rule 90 (b)).

(b) In bankruptcy proceedings.

Except as otherwise provided in an application form or instruction (Rule 38) and respecting exhibits (Rule 84 (c)), the original and 19 copies of every pleading, document, or paper filed in a proceeding arising under the Uniform Bankruptcy Act shall be furnished for the use of the Commission.

Rule 17. Attestation. (a) Practitioners' signature.

If a party is represented by a practitioner, each pleading, document, or paper of such party shall be signed in ink by one such practitioner whose address shall be stated. The signature of a practitioner constitutes a certificate by him that he has read the pleading, document, or paper; that he is authorized to file it; that to the best of his knowledge, information, and belief there is good ground for it; that it is not interposed for delay; and that, with respect to a complaint, he files it with the distinct knowledge and specific consent of complainant. A pleading, document, or paper thus signed need not be verified or accompanied by affidavit except as otherwise provided respecting applications (Rule 38), modified and shortened procedure (Rules 44 (c) and 50), and statements of claimed damages (Rule 100).

(b) When no practitioner's signature.

A pleading, document, or paper not signed by a practitioner must be signed in ink, the address of the signer shall be stated, and the facts alleged in a pleading must be verified under oath by the person in whose behalf it is filed. Signature and verification in such manner must be by at least

¹ The one-side provision shall not take effect until 6 months after the current state of war shall officially have been declared at an end. In the meantime, use of both sides of paper will be permitted.

one complainant if the pleading is a complainant. A pleading, document, or paper filed on behalf of a corporation or other organization authorized to make complaint under the act which is not signed by a practitioner must be signed in ink, and the facts alleged in a pleading must be verified by an executive officer of such corporation or organization.

Rule 18. Affirmation in lieu of oath.

Whenever under these Rules an oath is required, an affirmation in judicial form will be accepted in lieu thereof.

Rule 19. Pleadings part of record.

Recitals of material and relevant facts in a pleading filed prior to oral hearing in any proceeding, unless specifically denied in a counterpleading filed under these rules, shall constitute evidence and be a part of the record without special admission or incorporation therein, but if request is seasonably made, a competent witness must be made available for cross-examination on the evidence so included in the record.

Rule 20. Amendments.

Leave to file amendments to any pleading will be allowed or denied as a matter of discretion.

Rule 21. Time. (a) Computation.

In computing any period of time prescribed or allowed by these rules, the day of the act, event, or default after which the designated period of time begins to run is not to be included. The last day of the period so computed is to be included, unless it is Saturday, Sunday or a legal holiday in the District of Columbia, in which event the period runs until the end of the next day which is neither a Saturday, Sunday nor a holiday. A half holiday shall not be considered as a holiday.

(b) Modification.

Except as to the maximum time periods provided by law or specified in these rules respecting informal complaints seeking damages (Rule 25) and petitions for reconsideration (Rule 101 (e)), any time period prescribed or permitted in these rules may, upon request and for cause, be modified by the Commission. The request must seasonably be filed in writing. If granted, the party making the request shall promptly so notify all parties to the proceeding and so certify to the Commission. The original only of the request and certificate need be filed with the Commission.

(c) Five days additional.

If the general office of a person party to a proceeding, or office of the practitioner representing him, is located at or west of El Paso, Tex., Salt Lake City, Utah, or Helena, Mont., 5 days shall be added for all parties to the time periods specified in these rules when such rules are applied in any proceeding in which such person is a party.

Rule 22. Service: Pleadings and papers to show. (a) Generally.

Except as otherwise provided in subdivision (b) of this rule, or as otherwise provided respecting applications (Rule 38 (b)), formal complaints (Rule 34), informal complaints (Rule 24 (b)), and petitions

in intervention (Rule 72 (d)), every pleading, document, or paper must, when filed, or tendered to the Commission for filing, include a certificate showing simultaneous service thereof upon all parties to the proceeding. Such service shall be made by delivery in person or by first-class mail or express, properly addressed with charges prepaid, one copy to each party. When any party is represented by a practitioner, service upon such practitioner will be deemed service upon the party.

(b) Exceptions as to letters.

Copies of letters to the Commission relating to oral argument (Rule 98), subpoenas (Rule 56 (a)), and time modification (Rule 21 (b)) need not be served upon other parties to the proceeding.

Rule 23. Replies. (a) Time for filing.

Except that a reply to a reply is not permitted, and except as otherwise provided respecting answers (Rule 35 (c)), modified and shortened procedure (Rules 44 (c) and 51), and briefs (Rules 92 and 93), an adverse party may file and serve a reply to any pleading permitted under these rules within 10 days after service thereof.

(b) Copies.

The original of the reply should be accompanied by the same number of copies as required respecting the pleading to which the reply is responsive.

COMMENCEMENT OF PROCEEDINGS

Rule 24. Informal complaints not seeking damages.

(a) Form and content.

Informal complaint may be by letter or other writing, and will be serially numbered and filed as of the date of its receipt. No form of informal complaint is suggested, but in substance the letter or other writing (original only need be filed except as provided in Rule 25 (d)) must contain the essential elements of a formal complaint as specified in Rules 28 and 30. It may embrace supporting papers.

(b) Correspondence handling.

If the informal complaint appears to be susceptible of informal adjustment, a copy or a statement of the substance thereof will be transmitted by the Commission to each person complained of in an endeavor to have it satisfied by correspondence and thus obviate the filing of a formal complaint.

(c) Discontinuance without prejudice.

A proceeding thus instituted on the informal docket is without prejudice to complainant's right to file and prosecute a formal complaint, in which event the proceeding on the informal docket will be discontinued.

Rule 25. Informal complaints seeking damages. (a) Actual filing required.

Notification to the Commission that an informal complaint may or will be filed later seeking damages is not a filing within the meaning of the statute except as provided in subdivision (e) of this rule.

(b) Content.

An informal complaint seeking damages, when permitted under the act, must be filed within the

statutory period, and should contain such data as will serve to identify with reasonable definiteness the shipments or transportation services in respect of which damages are sought. Such complaint should state: (1) That complainant makes claim for damages, (2) the name of each individual claimant seeking damages, (3) the names of defendants against which claim is made, (4) the commodities, the rate applied, the date when the charges were paid, by whom paid, and by whom borne, (5) the period of time within which or the specific dates upon which the shipments were made, and the dates when they were delivered or tendered for delivery, (6) the points of origin and destination, either specifically or, where they are numerous, by definite indication of a defined territorial or rate group of the points of origin and destination, and, if known, the routes of movement, and (7) the nature and amount of the injury sustained by each claimant.

(c) Statement of prior claim.

If a complaint filed under subdivision (b) or (e) of this rule contains a claim on any shipment which has been the subject of a previous informal or formal complaint to the Commission, reference to such complaint must be given.

(d) Copies.

It is desirable that the original of an informal complaint seeking damages be accompanied by copies in sufficient number to enable the Commission to transmit one to each defendant named.

(e) Special-docket proceedings.

Where the act provides for an award of damages for violation thereof and a carrier is willing to pay them, or to waive collection of undercharges, petition for appropriate authority should be filed by the carrier on the special docket in the form prescribed by the Commission. If the petition is granted, an appropriate order will be entered. Such petition, when not filed in connection with an informal complaint pending before the Commission, must be filed within the statutory period and will be deemed the equivalent of an informal complaint and an answer thereto admitting the matters stated in the petition. If a carrier is unable to file such petition within the statutory period and the claim is not already protected from the operation of the statute by informal complaint, a statement setting forth the facts may be filed by the carrier within the statutory period. Such statement will be deemed the equivalent of an informal complaint filed on behalf of the shipper or consignee and sufficient to stay the operation of the statute.

(f) Six months' rule.

If an informal complaint seeking damages cannot be disposed of informally, or is denied, or is withdrawn by complainant from further consideration, the parties affected will be so notified in writing by the Commission. The matter in such complaint will not be reconsidered unless, within 6 months after the date such notice is mailed, either a formal complaint as to such matter is filed, or it is informally resubmitted on an additional-fact basis. Such filing or resubmission will be deemed to relate back to the

date of the original filing, but reference to that date and the Commission's file number must be made in such resubmission or in the formal complaint filed. If the matter is not so resubmitted or included in a formal complaint, as provided in this rule, complainant will be deemed to have abandoned the complaint, and no complaint seeking damages based on the same cause of action will thereafter be placed on file or considered unless itself filed within the statutory period.

Rule 26. Formal complaints: Copies. (a) Generally.

The original of each formal complaint, amended or supplemental formal complaint, or cross complaint, must be accompanied by copies in sufficient number to enable the Commission to serve one upon each defendant, including each receiver or trustee, and retain 6 copies in addition to the original.

(b) Provision for State authorities.

If complaint is made under part II, or respecting State made rates (Rule 30 (b)), sufficient copies in addition to those required under subdivision (a) shall be furnished to permit the Commission to supply one to the appropriate authority in each of the States included in the scope of the complaint.

Rule 27. Formal complaints: Joinder. (a) Causes of action.

Two or more grounds of complaint concerning the same principle subject, or state of facts may be included in one complaint, but should separately be stated and numbered.

(b) Complainants.

Two or more complainants may join in one complaint if their respective causes of action are against the same defendant or defendants and concern substantially the same alleged violation of the act and a like state of facts.

(c) Defendants.

If complaint is made with respect to through transportation by continuous carriage or shipment, all persons subject to the act participating therein, and against which an order is sought, should be made defendants. If complaint is made of a classification or any provision thereof, ordinarily it will suffice to make defendants the persons operating one or more through routes between representative points of origin and destination.

(d) Correct designation of parties.

The unabbreviated names of all parties complainant and defendant must be stated correctly.

Rule 28. Formal complaints: Allegations generally.

A formal complaint should be so drawn as fully and completely to advise the parties defendant and the Commission in what respects the provisions of the act have been or are violated or will be violated, and should set forth briefly and in plain language the facts claimed to constitute such violation. If two or more sections or subsections of the act or requirements established pursuant thereto are alleged to be violated, the facts claimed to constitute violation of one section, subsection, or requirement should be stated separately from those claimed to constitute a violation of another section, subsection,

or requirement whenever that can be done by reference or otherwise without undue repetition.

Rule 29. Formal complaints: When damages sought.

A formal complaint that includes a request for an award of damages should contain the information specified for an informal complaint seeking damages (Rule 25, subdivisions (b) and (c)).

Rule 30. Formal complaints: Discrimination, preference, and prejudice. (a) Generally.

A complaint that alleges the act is violated because of an undue or unreasonable preference or advantage, undue or unreasonable prejudice or disadvantage, or unjust discrimination should specify clearly the particular elements stated in the act¹ as constituting such violation and the facts which complainant relies upon to establish it.

(b) State made rates.

A complaint that brings in issue any rate, fare, charge, classification, regulation, or practice made or imposed by authority of any State, upon the ground that it violates provisions of the act which prohibit undue or unreasonable advantage, preference, or prejudice as between persons or localities in intrastate commerce and persons or localities in interstate or foreign commerce, or any undue, unreasonable, or unjust discrimination against interstate or foreign commerce, should bring in issue the justness and reasonableness of the rate, fare, charge, classification, regulation, or practice applicable to the interstate or foreign commerce involved in such complaint. Such complaint should also bring in issue the question as to what should be the rate, fare, or charge, or the maximum or minimum, or maximum and minimum, thereafter to be charged, and the classification, regulation, or practice that should be established so as to remove any such advantage, preference, prejudice, or such unjust discrimination.

Rule 31. Formal complaints: Other specifications. (a) Tariff or schedule references.

The several rates, fares, charges, schedules, classifications, regulations, or practices of which complaint is made should be set out by specific reference to the tariffs or schedules in which they appear, whenever that is practicable.

(b) States in which transportation occurs.

A formal complaint under part II should specifically name the States in and through which the transportation which gives rise to the complaint is performed.

(c) Hearing place.

A formal complaint should be accompanied by a statement of the place at which hearing is desired.

Rule 32. Formal complaints: Prayers for relief. (a) Generally.

A formal complaint in which relief for the future is sought should contain a detailed statement of the relief desired. Relief in the alternative or of several

different types may be demanded, but the issues raised in the formal complaint should not be broader than those to which complainant's evidence is to be directed at the hearing.

(b) Specific prayer for damages.

Except under unusual circumstances, and for good cause shown, damages will not be awarded upon a complaint unless specifically prayed for, or upon a new complaint by or for the same complainant which is based upon any finding in the original proceeding.

Rule 33. Amended and supplemental formal complaints.

An amended or supplemental complaint may be tendered for filing by a complainant against a defendant or defendants named in the original complaint, stating a cause of action alleged to have accrued within the statutory period immediately preceding the date of such tender, in favor of complainant and against the defendant or defendants.

Rule 34. Service of formal and cross complaints.

The Commission will serve formal complaints. It will also serve supplemental, amended, and cross complaints when it has granted leave to file such pleadings. Such service will be made personally upon a carrier or freight forwarder or upon an agent thereof designated for purposes of service, or by mail addressed to the carrier or freight forwarder or to the agent thereof at the address filed. If no agent has been designated, service may be made by posting in the office of the secretary of the Commission, and if the defendant be a carrier subject to part II of the act, by also posting in the office of the secretary or clerk of the motor-carrier regulatory board of the State wherein the motor carrier maintains headquarters. If the complaint involves only the lawfulness of rates, fares, charges, classifications, or practices, service in the manner indicated in the third sentence of this rule may be made upon an attorney in fact of a carrier or freight forwarder who has filed a tariff or schedule in behalf of such carrier or freight forwarder, but such service will not be made upon a carrier subject to part I unless such carrier has failed to designate an agent for service in the city of Washington.

Rule 35. Answers and cross complaints to formal complaints. (a) Generally.

An answer may simultaneously be responsive to a formal complaint and to any amendment or supplement thereof. It should be drawn so as fully and completely to advise the parties and the Commission of the nature of the defense, including, if a departure from the requirements of section 4 (1) of the act is involved, the number of the particular application or order, if any, which protects such departure; and should admit or deny specifically and in detail each material allegation of the pleading answered. An answer may embrace a detailed statement of any counterproposal which a defendant may desire to submit.

(b) Cross complaints.

A cross complaint alleging that other persons, parties to the proceeding, have violated the act or

¹ Special rate, rebate, drawback, or other device; and particular person, company, firm, corporation, association, port, port district, gateway, transit point, locality, region, district, territory, or description of traffic.

requirements established pursuant thereto, or seeking relief against them under the act, may be tendered for filing by a defendant with its answer.

(c) Time for filing; copies.

Unless otherwise directed by the Commission, an answer to a complaint should be filed within 20 days after the day on which the complaint to which answer is filed was served. The original and six copies of an answer shall be filed with the Commission.

(d) When issue joined.

If any defendant answers or fails to file and serve answer within the period specified in subdivision (c), issue thereby is joined as to such defendant.

Rule 36. Motions to make more definite and certain.

(a) As to complaint.

Defendant may file with his answer, or with his statement under modified or shortened procedure, a motion that the allegations in the complaint be made more definite and certain, such motion to point out the defects complained of and the details desired.

(b) As to answer.

No replication to the answer shall be filed, but any party may file, within 10 days after the filing of an answer, or, in the case of modified or shortened procedure, complainant may file with his statement in reply, a motion that the answer, or defendant's statement, as the case may be, be made more definite and certain, such motion to point out the defects complained of and the details desired.

Rule 37. Satisfaction of complaint.

If a defendant satisfies a formal complaint, either before or after answering, a statement to that effect signed by the opposing parties must be filed (original only need be filed), setting forth when and how the complaint has been satisfied.

Rule 38. Applications. (a) Forms and instructions.

An application filed with the Commission shall be prepared in accord with and contain the information called for in the form of application, if any, prescribed by the Commission, or any instructions which may have been issued by the Commission with respect to the filing of an application.

(b) Copies; service.

Copies of an application shall be furnished in such number, and be filed and served in the manner and upon the persons specified in the form or instruction.

Rule 39. Applications: Notice.

Appropriate notice of the filing of an application will be given by the applicant or by the Commission to the States, to State authorities, or to other persons as may be required by the form or instruction or by the act.

Rule 40. Protests against applications. (a) Content.

A protest against the granting of any application shall set forth specifically the grounds upon which it is made and contain a concise statement of the interest of protestant in the proceeding.

(b) When filed.

Any protest shall be filed with the Commission promptly after the application is filed. If the pro-

ceeding be one respecting which the Commission has issued a notice advising the public of the filing of the application, the protest shall be filed within the time specified in such notice. Failure to file a protest shall not prejudice subsequent participation in the proceeding.

(c) Copies; service.

A protest filed under this rule shall be served upon applicant and, unless otherwise specified in the public notice, the original and two copies of the protest shall be filed with the Commission.

(d) When rule disregarded.

An application may be set for hearing without awaiting the filing of a protest or of a reply thereto, and also may be disposed of without regard to the prior subdivisions of this rule unless the act provides that the particular application may be granted only upon hearing.

Rule 41. Valuation proceedings; protests.

A protest of a tentative valuation shall contain a concise statement of the essential elements of protest with particular reference to the matters in the tentative valuation concerning which protest is made and shall include a statement of the changes therein desired by protestant. When practicable, each object of protest should be set up as a separate item in a separately numbered paragraph. Each item of protest against land values or areas must state the valuation section and zone on the Commission's maps in which the land is located. When protestant claims that property owned or used has been omitted, a full description of such property and its location must be included in the protest.

Rule 42. Petitions for suspension of tariffs or schedules. (a) Content.

The protested tariff or schedule sought to be suspended should be identified by making reference to the name of the publishing carrier, freight forwarder, or agent, to the Interstate Commerce Commission number, and to the specific items or particular provisions protested. Reference should also be made to the tariff or schedule, and the specific provisions thereof, proposed to be superseded. The protest should state the grounds in support thereof, indicate in what respect the protested tariff or schedule is considered to be unlawful, and state what protestant offers by way of substitution.

(b) When filed.

A protest against, and a prayer for suspension of, any tariff or schedule filed under the act ordinarily will not be considered unless made in writing and filed with the Commission at least 10 days before the effective date of the tariff or schedule. In an emergency satisfactorily shown by protestant, and within the time limits herein provided, a telegraphic protest may be sent to the Commission and to the publishing carrier, freight forwarder, or agent, stating the grounds relied upon, but such telegraphic protest must immediately be confirmed by protest filed and served in accordance with this rule.

(c) Copies; service.

Seven copies of each protest or reply filed under this rule must be filed with the Commission and one

copy of the protest simultaneously must be served upon the publishing carrier, freight forwarder, or agent and upon other persons known by protestant to be interested.

(d) Reply to protest.

A reply to a protest filed under this rule should be filed and served promptly.

Rule 43. Service of investigation order; default where failure to comply.

An order instituting an investigation will be served by the Commission upon respondents. If, within a time period stated in that order, a respondent fails to comply with any requirement specified therein, respondent shall be deemed in default and to have waived any further hearing. Thereafter the investigation may be decided without further proceedings.

SHORTENED AND MODIFIED PROCEDURE

Rule 44. Shortened procedure. (a) Consent; notice.

In shortened procedure (see Rule 5 (j)), the Commission will request all the parties thereto to advise the Commission within a time to be specified by it whether they consent to presentation under shortened procedure. Such advice should include, if the party is to be represented by a practitioner, the name and address of such practitioner. If all parties consent to the procedure, they will be advised that it will be followed.

(b) Declination; hearing.

If any party declines to consent to shortened procedure, such declination shall not affect or prejudice the right or interest of such party. The proceeding will thereupon be conducted under modified procedure or be set for oral hearing as the Commission may direct. At the request of any party received prior to service of an officer's report in a proceeding being conducted under shortened procedure, the Commission in its discretion may set the proceeding for oral hearing.

(c) Other applicable rules.

The provisions of modified-procedure Rules 46 (a), 47, 48, 49, 50, 51, 52, and 54 shall also apply to shortened procedure. The time periods specified in Rule 51 shall begin to run from the date the Commission advises the parties that shortened procedure will be followed.

Rule 45. Modified procedure: How initiated. (a) Petition on Commission's initiative.

Modified procedure (see Rule 5 (k)) will be ordered in a proceeding upon the Commission's initiative or upon its approval of a petition filed by any party that the modified procedure shall be observed.

(b) Order directing modified procedure.

An order directing modified procedure will list the names and addresses of the persons who at that time are parties to the proceeding, and direct that they comply with the modified-procedure rules.

Rule 46. Modified procedure: Effect of order. (a) Relief from answer rule.

Issuance of an order directing modified procedure shall relieve defendant from the obligation of answering as provided in Rule 35.

(b) Default where failure to comply.

If, within any time period provided in the modified-procedure rules, a party fails to file a pleading required by those rules, or otherwise fails to comply therewith, such party shall be deemed to be in default and to have waived any further hearing. Thereafter the complaint may be disposed of without further notice to the defaulting party and without other formal proceedings as to such party.

Rule 47. Modified procedure: Intervention.

Persons permitted to intervene under modified procedure shall file and serve pleadings in conformity with the provisions relating to the parties in whose behalf they intervene.

Rule 48. Modified procedure: Joint pleadings.

Parties having common interests shall arrange for joint preparation of pleadings filed under modified procedure.

Rule 49. Modified procedure: Content of pleadings.

(a) Generally.

A statement filed under the modified procedure after that procedure has been directed shall state the facts and include the exhibits upon which the party relies. In addition, defendant's statement and complainant's statement in reply shall specify those statements of fact of the opposite party to which exception is taken, and include a statement of the facts constituting the basis for such exception. Complainant's statement of reply shall be confined to rebuttal of the defendant's statement.

(b) Exhibit identification.

In addition to being in compliance with subdivisions (a) and (b) of Rule 84, an exhibit which is part of any pleading filed under modified procedure shall serially be numbered and bear the notation, properly filled out, in the upper right-hand corner: "Complainant (Defendant) -----, Exhibit No. -----, Witness -----."

(c) Damages.

If an award of damages is sought, the paid freight bills or properly certified copies thereof should accompany the original of complainant's statement when there are not more than 10 shipments, but otherwise the documents should be retained.

Rule 50. Modified procedure: Attestation.

The facts asserted in any pleading filed under modified procedure must be sworn to by persons having knowledge thereof, which latter fact must affirmatively appear in the affidavit. Except under unusual circumstances, such persons should be those who would appear as witnesses orally to substantiate the facts asserted should hearing become necessary. The original of any pleading filed under modified procedure must show the signature, capacity, and impression seal, if any, of the person administering the oath, and the date thereof.

Rule 51. Modified procedure: When pleadings filed and served.

Within 20 days from the date of an order requiring modified procedure, complainant shall serve upon the other parties a statement of all the evidence upon which it relies. Within 30 days there-

after, defendant shall serve its statement. Within 10 days thereafter, complainant shall serve its statement in reply. No further reply may be made by any party except by permission of the Commission.

Rule 52. Modified procedure: Copies of pleadings.

The original and six copies of any pleading served under modified procedure shall be filed with the Commission.

Rule 53. Modified procedure: Hearings. (a) Request for cross-examination or other hearing.

If cross-examination of any witness is desired, the name of the witness and the subject matter of the desired cross-examination shall, together with any other request for oral hearing, including the basis therefor, be stated at the end of defendant's statement or complainant's statement in reply as the case may be.

(b) Hearing issues limited.

The order setting the complaint for oral hearing, if hearing is deemed necessary, will specify the matters upon which the parties are not in agreement and respecting which oral evidence is to be introduced.

Rule 54. Modified procedure: Subsequent procedure.

Procedure subsequent to that provided in the modified-procedure rules shall be the same as that in proceedings not handled under modified procedure.

**NOTICE OF HEARING; SUBPENAS
DEPOSITIONS**

Rule 55. Notice of hearing. (a) Assignment; service and posting of notice.

In those proceedings in which a hearing is to be held, the Commission will, by order or otherwise, assign a time and place for hearing. Notice of such hearing will be posted in the office of the Secretary of the Commission and will be served upon the parties and such other persons as may be entitled to receive notice under the act.

(b) Change of assignment.

The Commission may confine the service of notice of a change of time or place assigned for hearing (other than by publication or posting), or of any adjourned, further, or supplemental hearing, to those only who have indicated to the Commission a desire to be notified, at their own expense if telegraphic advice becomes necessary, of any such change.

Rule 56. Subpenas. (a) Request; particularity.

Unless directed by the Commission upon its own motion, a subpoena to compel a witness to produce documentary evidence will be issued only upon petition, which must specify with particularity the books, papers, or documents desired, and the facts expected to be proved thereby. A request for issuance of a subpoena other than to compel the production of documentary evidence may be made either by letter (original only need be filed with the Commission) or orally upon the record at a hearing.

(b) Issuance.

A subpoena will issue only upon signature by the Secretary or a member of the Commission.

(c) Service.

The original subpoena shall be exhibited to the person served and shall be read to him if he is unable to read, and a copy thereof shall be delivered to him by the officer or person making service.

(d) Return.

If service of subpoena is made by a United States marshal or his deputy, such service shall be evidenced by his return thereon. If made by any other person, such person shall make affidavit thereof, stating the date, time, and manner of service; and return such affidavit on, or with the original subpoena in accordance with the form thereon. In case of failure to make service, the reasons for the failure shall be stated on the original subpoena. The written acceptance of service of a subpoena by the person named therein shall be sufficient without other evidence of return. The original subpoena, bearing or accompanied by the required return, affidavit, statement, or acceptance of service, shall be returned forthwith to the secretary of the Commission, or, if so directed on the subpoena, to the officer presiding at the hearing at which the person subpoenaed is required to appear.

(e) Witness fees.

A witness who is summoned and responds thereto is entitled to the same fee as is paid for like service in the courts of the United States, such fee to be paid by the party at whose instance the testimony is taken at the time the subpoena is served.

Rule 57. Depositions: Preliminary. (a) When permissible.

The Commission will either upon its own initiative, or for good cause shown by a party to a proceeding, issue an order to take a deposition.

(b) Officer before whom taken.

Within the United States or within a territory or insular possession subject to the dominion of the United States, depositions shall be taken before an officer authorized to administer oaths by the laws of the United States or of the place where the examination is held. Within a foreign country, a deposition may be taken before an officer or person designated by the Commission, or agreed upon by the parties by stipulation in writing to be filed with the Commission.

(c) When taken.

Unless under special circumstances and for good cause shown, no deposition shall be taken within 10 days prior to the assigned date of the hearing in such proceeding, and when the deposition is taken in a foreign country it shall not be taken within 30 days prior to such date of hearing.

(d) Fees.

A witness whose deposition is taken pursuant to these rules and the officer taking same, unless he be employed by the Commission, shall be entitled to the same fee paid for like service in the courts of the United States, which fee shall be paid by the party at whose instance the deposition is taken.

Rule 58. Depositions: Petition.

A petition requesting an order to take a deposition shall be filed with due regard to the time periods specified in Rule 57 (c) and shall set forth the name and address of the witness, the place where, the time when, the name and office of the officer before whom, and the cause or reason why such deposition should be taken.

Rule 59. Depositions: Order; interrogatories. (a) Order.

If the petition requesting an order to take a deposition is granted, which action may be taken without awaiting the possible filing of a reply, the Commission will serve upon the parties an order which will name the witness whose deposition is to be taken and specify the time when, the place where, and the officer before whom the witness is to testify, but such time and place, and the officer before whom the deposition is to be taken, so specified in the Commission's order, may or may not be the same as set out in the petition.

(b) Interrogatories.

In lieu of participating in the oral examination, parties served with the order for the taking of a deposition may promptly transmit written interrogatories to the officer, who shall propound them to the witness and record the answers verbatim, but it is not necessary that such interrogatories be served upon the party at whose instance the deposition is taken.

Rule 60. Depositions: Recordation of testimony.

The officer before whom the deposition is to be taken shall observe the provisions respecting appearances (Rule 71 (a)), and typographical specifications (Rule 15), put the witness on oath, and shall personally, or by someone acting under his direction and in his presence, record the testimony of the witness. The testimony shall be taken stenographically and transcribed unless the parties agree otherwise to record the evidence.

Rule 61. Depositions: Objections.

All objections made at the time of the examination to the qualifications of the officer taking the deposition, or to the manner of taking it, or to the evidence presented, or to the conduct of any party, and any other objection to the proceedings, shall be noted by the officer upon the deposition. Evidence objected to shall be taken subject to the objections.

Rule 62. Depositions: Deponent's signature.

When the testimony is fully transcribed or otherwise recorded, the deposition of each witness shall be submitted to him for examination and shall be read to or by him. Any changes in form or substance which the witness desires to make shall be entered upon the deposition by the officer with a statement of the reasons given by the witness for making them. The deposition shall then be signed by the witness, unless the parties by stipulation waive the signing, or the witness is ill or cannot be found or refuses to sign. If the deposition is not signed by the witness, the officer shall state at the foot thereof the fact of the waiver or of the illness or absence of the witness, or the fact of the refusal to sign, together with the

reason, if any, given therefor; and the deposition may then be used as fully as though signed, unless, on a motion to suppress, the Commission finds that the reasons given for the refusal to sign are sufficient to require rejection of the deposition in whole or in part.

Rule 63. Depositions: Officer's attestation.

The officer shall certify on the deposition that the witness was duly sworn by him and that the deposition is a true record of the testimony given by the witness, and that the officer is not of counsel or attorney for any of the parties, and that he is not interested in the event of the proceeding.

Rule 64. Depositions: Return to Commission.

The officer shall securely seal the deposition in an envelope endorsed with the title of the proceeding, and shall promptly send the original and one copy thereof, together with the original and one copy of all exhibits, by registered mail to the secretary of the Commission. The deposition must reach the Commission not later than 5 days before the date of the hearing at which it is to be offered as evidence.

Rule 65. Depositions: Notice of filing.

The party taking the deposition shall give prompt notice of its filing to all other parties.

Rule 66. Depositions: Copies.

Upon payment of reasonable charges therefor, the officer before whom the deposition is taken shall furnish a copy of it to any interested party or to the deponent.

Rule 67. Depositions: Inclusion in record.

At the oral hearing, if one is held, the deposition shall be offered in evidence by the party at whose instance it was taken. If not offered by such party, it may be offered in whole or in part by the adverse party. If only part of a deposition is offered in evidence by a party, an adverse party may require him to introduce all of it which is relevant to the part introduced, and any party may introduce any other parts. Such deposition shall be admissible in evidence subject to such objections as to competency of the witness, or to the competency, relevancy, or materiality of the testimony, as were noted at the time of taking of said deposition, or are made at the time it is offered in evidence.

HEARINGS**Rule 68. Prehearing conferences. (a) Purpose.**

Upon written notice by the Commission in any proceeding, or upon written or oral instruction of an officer, parties or their attorneys may be directed to appear before an officer at a specified time and place for a conference, prior to or during the course of a hearing, or in lieu of personally appearing to submit suggestions in writing, for the purpose of formulating issues and considering—

- (1) The simplification of issues;
- (2) The necessity or desirability of amending the pleadings either for the purpose of clarification, amplification, or limitation;
- (3) The possibility of making admissions of certain averments of fact or stipulations concerning the

use by either or both parties of matters of public record, such as annual reports and the like, to the end of avoiding the unnecessary introduction of proof;

- (4) The procedure at the hearing;
- (5) The limitation of the number of witnesses;
- (6) The propriety of prior mutual exchange between or among the parties of prepared testimony and exhibits; and
- (7) Such other matters as may aid in the simplification of the evidence and disposition of the proceeding.

(b) Facts disclosed privileged.

Facts disclosed in the course of the prehearing conference are privileged and, except by agreement, shall not be used against participating parties either before the Commission or elsewhere unless fully substantiated by other evidence.

(c) Recordation and order.

Action taken at the conference, including a recitation of the amendments allowed to the pleadings, the agreements made by the parties as to any of the matters considered and defining the issues, shall be recorded in an appropriate order, unless the parties enter upon a written stipulation as to such matters, or agree to a statement thereof made on the record by the officer.

(d) Objection to the order; subsequent proceedings.

If an order is entered, a reasonable time shall be allowed to the parties to present objections on the ground that it does not fully or correctly embody the agreements reached at such conference. Thereafter the terms of the said order or modification thereof, the written stipulation, or statement of the officer, as the case may be, shall determine the subsequent course of the proceeding, unless modified to prevent manifest injustice.

Rule 69. Stipulations.

Apart from the procedure contemplated by the prehearing provisions (Rule 68), and upon permission granted, the parties may in the discretion of the officer, by stipulation in writing filed with the Commission at any stage of the proceeding, or orally made at the hearing, agree upon any pertinent facts in the proceeding. It is desired that the facts be thus agreed upon so far as and whenever practicable.

Rule 70. Authority of officer.

An officer may grant leave to amend or to file any pleadings, or to intervene, upon request tendered at the hearing, but in no event shall an officer grant such leave if thereby the issues would be so narrowed as to make a referred matter one which should properly be referred to a different officer. An officer shall have no power to decide any motion to dismiss the proceeding or other motion which involves final determination of the merits of the proceeding. The officer shall regulate the procedure in the hearing before him and take all measures necessary or proper for the efficient performance of the duties assigned him.

Rule 71. Appearances; standards of conduct. (a) Who may appear.

Any individual may appear for himself, and any member of a partnership party to any proceeding may appear for such partnership upon adequate identification. A bona fide officer, or a fulltime employee of a corporation, association, or of an individual, may appear for such corporation, association, or individual by permission of the officer presiding at the hearing. A party also may be represented by a practitioner.

(b) Standards of conduct.

All persons appearing must conform to the standards of conduct required by the code of ethics of the Association of Interstate Commerce Commission Practitioners. Failure to conform to those standards will be ground for declining to permit appearance in any proceeding before the Commission.

Rule 72.—Intervention: Petitions. (a) Content generally.

A petition for leave to intervene must set forth the grounds of the proposed intervention, the position and interest of the petitioner in the proceeding, and whether petitioner's position is in support of or opposition to the relief sought. If the proceeding be by formal complaint and affirmative relief be sought by petitioner, the petition should conform to the requirements for a formal complaint.

(b) When filed.

A petition for leave to intervene in any proceeding should be filed prior to or at the time the proceeding is called for hearing, but not after, except for good cause shown.

(c) Broadening issues; filing.

If the petitioner seeks a broadening of the issues and shows that they would not thereby be unduly broadened, and in respect thereof seeks affirmative relief, the petition should be filed in season to permit service upon and answer by the parties in advance of the hearing.

(d) Copies; service.

When tendered at the hearing, sufficient copies of a petition for leave to intervene must be provided for distribution as motion papers to the parties represented at the hearing. If leave be granted at the hearing, one additional copy must be furnished for the use of the Commission. When not tendered at the hearing, the original of the petition shall be accompanied by copies in sufficient number to enable the Commission to retain one for its own use after it has made such service, if any, as next mentioned. All petitions for leave to intervene not tendered at the hearing will be served by the Commission, and copies shall be furnished accordingly, except petitions for leave to intervene in application proceedings under part II, which shall be served by petitioners.

(e) Disposition.

Leave will not be granted except on averments reasonably pertinent to the issues already presented and which do not unduly broaden them. If leave

is granted, the petitioner thereby becomes an intervenor and a party to the proceeding.

Rule 73. Participation without intervention.

In an investigation proceeding, in a proceeding for the issuance of a certificate of convenience and necessity for the abandonment of a line of railroad or its operation, in an application proceeding involving a motor carrier filed under section 5, in application proceedings under parts II, III, and IV, and in a proceeding of any one of the characters herein enumerated when heard on a consolidated record with a complaint proceeding, but in no other proceeding, an appearance may be entered at the hearing without filing a petition in intervention or other pleading, if no affirmative relief is sought, if there is full disclosure of the identity of the person or persons in whose behalf the appearance is to be entered, if the interest of such person in the proceeding and the position intended to be taken are stated fairly, and if the contentions will be reasonably pertinent to the issues already presented and any right to broaden them unduly is disclaimed. A person in whose behalf an appearance is entered in this manner becomes a party to the proceeding.

Rule 74. Witness examination; order of procedure.

Witnesses will be orally examined under oath before the officer unless their testimony is taken by deposition or the facts are presented to the Commission in the manner provided under modified or shortened procedure. In formal-complaint, application, and investigation proceedings, complainant, applicant, and respondent, respectively, shall open and close at the hearing. Interveners shall follow the party in whose behalf the intervention is made. The foregoing order of presentation may be varied by the officer, who also shall designate the order of presentation in any other type of proceeding, of any other party to any proceeding, or of parties to several proceedings being heard upon a consolidated record.

Rule 75. Evidence: Admissibility generally.

Any evidence which would be admissible under the general statutes of the United States, or under the rules of evidence governing proceedings in matters not involving trial by jury in the courts of the United States, shall be admissible in hearings before the Commission. The rules of evidence shall be applied in any proceeding to the end that needful and proper evidence shall be conveniently, inexpensively, and speedily produced, while preserving the substantial rights of the parties.

Rule 76. Evidence: Cumulative restriction.

The right is reserved to limit the number of witnesses whose testimony may be merely cumulative.

Rule 77. Evidence: Prepared statements.

With the approval of the officer, a witness may read into the record, as his testimony, statements of fact or expressions of his opinion prepared by him, or written answers to interrogatories of counsel, provided that the statement shall not include argument; that before any such statement is read, the witness shall deliver to the officer, the reporter, and to opposing counsel as may be directed by the officer,

a copy of such statement or of such interrogatories and his written answers thereto; and that the admissibility of the evidence contained in such statement shall be subject to the same rules as if such testimony were produced in the usual manner. Such approval ordinarily will be denied when in the opinion of the officer the memory or demeanor of the witness may be of importance.

Rule 78. Evidence: Official records.

An official record or an entry therein, when admissible for any purpose, may be evidenced by an official publication thereof or by a copy attested by the officer having the legal custody of the record, or by his deputy, and accompanied with a certificate that such officer has the custody. If the office in which the record is kept is within the United States or within a territory or insular possession subject to the dominion of the United States, the certificate may be made by a judge of a court of record of the district or political subdivision in which the record is kept, authenticated by the seal of the court, or may be made by any public officer having a seal of office and having official duties in the district or political subdivision in which the record is kept, authenticated by the seal of his office. If the office in which the record is kept is in a foreign state or country, the certificate may be made by a secretary of embassy or legation, consul general, consul, vice consul, or consular agent or by any officer in the foreign service of the United States stationed in the foreign state or country in which the record is kept, and authenticated by the seal of his office. A written statement signed by an officer having the custody of an official record or by his deputy that after diligent search no record or entry of a specified tenor is found to exist in the records of his office, accompanied by a certificate as above provided, is admissible as evidence that the records of his office contain no such record or entry. This rule does not prevent the proof of official records or of entry or lack of entry therein or official notice thereof by a method authorized by any applicable statute or by the rules of evidence.

Rule 79. Evidence: Entries in regular course of business.

Any writing or record, whether in the form of an entry in a book or otherwise, made as a memorandum or record of any act, transaction, occurrence, or event, will be admissible as evidence thereof, if it shall appear that it was made in the regular course of business and that it was the regular course of business to make such memorandum or record at the time such record was made or within a reasonable time thereafter.

Rule 80. Evidence: Documents containing matter not material.

When material and relevant matter offered in evidence is in a document containing other matter not material or relevant, the offering party shall produce the document at the hearing, shall plainly designate the matter so offered, and shall accord to the officer and to participating counsel an opportunity to inspect it. Unless it is desired to read such matter into the record, and the officer so directs, true copies in

proper form of the material and relevant matter taken from the document may be received as an exhibit, but other parties shall be afforded an opportunity to introduce in evidence, in like manner, other portions of such document if found to be material and relevant. The document itself will not be received.

Rule 81. Evidence: Documents in Commission's files.
(a) In general.

If any matter contained in a report or other document, not a tariff or schedule, open to public inspection in the files of the Commission is offered in evidence, such report or other document need not be produced, but in other respects the provisions of Rule 80 will apply.

(b) Tariffs and schedules; official notice in investigation proceedings.

If any matter contained in a tariff or schedule on file with the Commission is offered in evidence, such tariff or schedule need not be produced or marked for identification, but the matter so offered shall be specified with particularity in such manner as to be readily identified and may be received in evidence subject to check by reference to the original tariff or schedule. Official notice will be taken without offer or production of that portion of any tariff or schedule which is the subject matter of an order of investigation and suspension.

Rule 82. Evidence; Records in other Commission proceedings.

If any portion of the record before the Commission in any proceeding other than the one on hearing is offered in evidence, a true copy of such portion shall be presented for the record in the form of an exhibit unless—

(a) The party offering the same agrees to supply such copy later at his own expense, if and when required by the Commission;

(b) The portion is specified with particularity in such manner as to be readily identified; and

(c) The parties represented at the hearing stipulate upon the record that such portion may be incorporated by reference, and that any other portion offered by any other party may be incorporated by like reference subject to (a) and (b); and

(d) The officer directs such incorporation.

Any such portion so offered, whether in the form of an exhibit or by reference, shall be subject to objection.

Rule 83. Evidence: Abstracts of documents.

When documents such as freight bills or bills of lading are numerous, the officer may refuse to receive in evidence other than a limited number of such documents said to be typical. Instead he may instruct, if the proffer be for the purpose of proving damage, that introduction be deferred until there is opportunity to comply with Rule 100. If the proffer be for other purpose, the officer may require the party in orderly fashion to abstract the relevant data from the documents, affording other parties reasonable opportunity to examine both the documents and the abstract, and thereupon offer such abstract in evidence in exhibit form.

Rule 84. Evidence: Exhibits. (a) Generally.

Exhibits of a documentary character may have a maximum of 22 inches in width by 12½ inches in height. Whenever practicable, the sheets of each exhibit and the lines of each sheet should be numbered. If the exhibit consists of five or more sheets, the first sheet or title page should be confined to a brief statement of what the exhibit purports to show, with reference by sheet and line to illustrative or typical examples contained therein. The exhibit should bear an identifying number, letter, or short title which will readily distinguish it from other exhibits offered by the same party. It is desirable that, whenever practicable, rate comparisons and other evidence should be condensed into tables. Whenever practicable, especially in proceedings in which it is likely that many documents will be offered, all the documents produced by a single witness should be assembled and bound together, suitably arranged and indexed, so that they may be identified and offered as one exhibit. Exhibits should not be argumentative and should be limited to statements of fact, and be relevant and material to the issue, which can better be shown in that form than by oral testimony.

(b) Reference to tariff authority, routes, and distances.

All exhibits showing rates, fares, charges, or other tariff or schedule provisions must, by appropriate Interstate Commerce Commission number reference, indicate the tariff or schedule authority therefor, and, if distances are shown, must also show the authority therefor and, by lines, highways, or waterways, and junction points, the routes over which the distances are computed, except that the routes over which the distances are computed need not be shown when such distances are specifically published in a tariff or schedule lawfully on file with the Commission, or definitely ascertainable from a tariff or schedule on file with the Commission showing rates prescribed by the Commission and based on short-line distances, or short highway distances, provided the exhibit makes specific reference to such tariff or schedule as provided by this rule.

(c) Copies

Unless the officer shall otherwise direct, the original and one copy of each exhibit of a documentary character shall be furnished for the use of the Commission—original to be delivered to the reporter, and the copy to the officer. If the hearing be before a board, a copy of the exhibit shall be furnished to each member of the board, unless the board otherwise directs. Unless the officer for cause directs otherwise, a reasonable number of copies shall be furnished to counsel in attendance at the hearing. Unless the officer shall otherwise direct, in proceedings under the Uniform Bankruptcy Act, the original and three copies of every exhibit of a documentary character shall be furnished for use of the Commission—original to be delivered to the reporter, and the three copies to the officer.

(d) Interchange prior to hearing.

Whenever practicable, the parties should interchange copies of exhibits or other pertinent mate-

rial or matter before or at the commencement of the hearing.

(e) When excluded how treated.

In case an exhibit has been identified, objected to, and excluded, the officer will develop whether the party offering the exhibit withdraws the offer, and, if so, permit the return of the exhibit to him. If the excluded exhibit is not withdrawn, it should be given an exhibit number for identification and be incorporated in the record. Exhibit numbers once used for identification will not be duplicated thereafter.

Rule 85. Record in referred matter unaffected by a second reference.

If for any reason an order referring a matter to a particular officer is vacated and the matter referred to a different officer, any testimony already taken in such proceeding shall be part of the record along with any testimony which thereafter may be taken.

Rule 86. Evidence: Filing of subsequent to hearing; copies.

Except as provided below, or as expressly may be permitted in a particular instance, the Commission will not receive in evidence or consider as part of the record any documents, letters, or other writings submitted for consideration in connection with any proceeding after close of the hearing, and may return any such documents to the sender. Before the close of a hearing, the officer may, at the request of a party or upon his own motion, or upon agreement of the parties, require that a party furnish additional documentary evidence supplementary to the existing record within a stated period of time. Documentary evidence thus to be furnished will not be assigned an exhibit number at the hearing, but the document will be given an exhibit number at the time of filing and the parties accordingly advised. Unless otherwise directed by the officer, the original and one copy of such submission shall be filed with the Commission.

Rule 87. Evidence: Objections to.

Formal exception to a ruling of an officer at a hearing is unnecessary. It is sufficient that a party, at the time the ruling is made or sought, make known to the officer the action which he desires the officer to take or his objection to the action of the officer and his grounds therefor. An objection not pressed in brief will be considered as waived.

Rule 88. Oral argument before officer.

If oral argument before the officer is desired, he should be so notified at or before the hearing and may arrange to hear the argument at the close of the testimony within such limits of time as he may determine, having regard to other assignments for hearing before him. Such argument will be transcribed and bound with the transcript of testimony, and will be available to the Commission for consideration in deciding the case. The making of such argument shall not preclude oral argument before the Commission, and request therefor may be made as provided in Rule 98.

Rule 89. Adjournment of hearing.

A continuance may be granted if it is impossible to conclude a hearing within the time available, or for any reason a continuance is necessary or advisable, but a joint board shall not set a date and place for a continued hearing without first consulting the Commission. If consultation with the Commission is impracticable, the hearing shall be adjourned by the joint board to such time and place as the Commission subsequently shall determine.

Rule 90. Transcript of record. (a) Filing.

After the close of the hearing, the complete transcript of testimony taken and the exhibits shall be filed with the Commission.

(b) Corrections.

A suggested change in a transcript ordinarily will be considered only if offered not later than 10 days prior to the due date for opening briefs (Rules 92 and 93). If opening briefs are not to be filed, a suggested change will not be considered unless offered within 20 days after the date the transcript is filed with the Commission. A copy of the letter (the original only need be filed with the Commission) requesting the suggested change shall be served upon all parties of record and upon the official reporter.

(c) No free copies.

No free copies of the transcript will be furnished to any party to any proceeding.

BRIEFS; REPORTS; ORAL ARGUMENT

Rule 91. Briefs: Content and arrangement. (a) Due date.

The due date of each brief must appear on its front cover or title page.

(b) Table of contents; citations.

A brief of more than 20 pages shall contain on its front flyleaves a table of contents and points made with page references, the table of contents to be supplemented by a list of citations, alphabetically arranged, with references to the pages where they appear.

(c) Sketch or chart.

In proceedings wherein misrouting or undue prejudice or preference are alleged, the complainant should include as part of the brief a small sketch or chart adequately reflecting the situation.

(d) Evidence abstract.

A brief filed after a hearing should contain an abstract of the evidence relied upon by the party filing it, preferably assembled by subjects, with reference to the pages of the record or exhibit where the evidence appears. The abstract should follow the statement of the case and precede the argument. In the event the party elects not to include a separate abstract in his brief, he should give specific reference to the portions of the record, whether transcript or otherwise, relied upon in support of the respective statements of fact made throughout the brief.

(e) Requested findings.

Each brief should include such requests for specific findings, separately stated and numbered, as the party desires the Commission to make.

(f) Exhibit reproduction.

Exhibits should not be reproduced in the brief, but may, if desired, be shown, within reasonable limits, in an appendix to the brief. Analyses of such exhibits should be included in the abstract of evidence under the subjects to which they pertain.

Rule 92. Briefs: When officer's report is served.

In a proceeding which has been the subject of hearing, and in which an officer's report is to be prepared and served, which fact will be stated by the officer on the record, only one brief shall be filed by each party. The officer shall fix for all parties the same time within which to file briefs. Reply briefs are not permitted at this stage.

Rule 93. Briefs: When officer's report is not served.

If no officer's report is to be prepared and served, which fact will be stated by the officer, in a proceeding which has been the subject of hearing, the officer may, subject to variation for cause shown, fix times for filing and serving the respective briefs as follows: For the opening brief, 30 days from the close of hearing; for the brief of any opposing party, 15 days after the date fixed for the opening brief; and for reply brief, 10 days after the date fixed for the brief of the opposing party; or he may fix the same time for filing and serving of briefs of all parties. Where the same time is fixed, within 15 days after expiration of the time so fixed, reply briefs may be filed, and such briefs must be confined strictly to reply and contain no new matter, provided, however, that no reply brief may be filed in an investigation and suspension proceeding.

Rule 94. Briefs of interveners.

Briefs of interveners shall be filed and served within the time fixed for the brief of the party in whose behalf the intervention is made or as may be otherwise directed by the officer.

Rule 95. Officer's report: When and how served.

After expiration of the time set for filing briefs, if the proceeding be one in which a hearing has been held, the officer's report will be prepared and served by mailing a copy to each party. An officer's report prepared in a proceeding in which a hearing has not been held will be served by mailing a copy to each party of record and to any other persons not parties to the proceeding who are believed to have an interest in the proceeding.

Rule 96. Exceptions to officer's report. (a) Generally.

Exceptions to the officer's report with respect to statements of fact or matters of law must be specific and must be stated and numbered separately. If exception is taken to conclusions in the report, the points relied upon to support the exception must be stated and numbered separately. When exception is taken to a statement of fact contained in the report, reference also must be made to the page or part of the record relied upon to support the exception, and a corrected statement must be incorporated.

(b) When filed.

Within 20 days after service of the officer's report, any party may file and serve exceptions thereto and

reasons in support thereof. Replies may be served and filed as provided in Rule 23.

(c) Exceptions and request for hearing, by person not party.

If the proceeding is one in which no oral hearing has been held, any person not a party to the proceeding, but having an interest therein, may file and serve upon applicant, or complainant, as the case may be, exceptions to the officer's report and reasons in support thereof. A request for hearing may be included therein, but the exceptions need not include a request for hearing if none is deemed necessary.

Rule 97. Effect of exceptions or absence thereof. (a) Upon report and recommended order.

The filing of exceptions to a recommended order operates to stay the effectiveness of the order, and thereafter decision by the Commission will be made in due course. If no exception is filed to the recommended order and the Commission does not stay it, the recommended order becomes the order of the Commission upon expiration of the period for filing exceptions provided in Rule 96 (b), or of any postponement of such period, or postponement of the effective date of such order, and a notice stating that the recommended order has, giving the date, become the order of the Commission will be mailed to the parties by the Commission.

(b) Upon proposed report.

A proposed report will not become the decision of the Commission through failure to file exceptions, but in the absence of exceptions or of ascertained error, the officer's statement of the issues and of the facts ordinarily will be taken by the Commission as the basis of its decision.

Rule 98. Oral argument before Commission. (a) Request: How made.

If no officer's report is to be served, request for oral argument before the Commission must be made at the hearing or by letter (original only need be filed with the Commission) within 10 days after the hearing. If an officer's report is to be served, the request for oral argument must be included as part of the exceptions brief or reply thereto.

(b) Request for time allotment.

If the petition is granted, a notice will be served by the Commission upon the parties setting the date for the oral argument. At least 10 days before that date, any party desiring to participate in the oral argument must make request by letter (original only need be filed with the Commission) for an allotment of time. Only those making request in this manner will be permitted to participate.

ORDER COMPLIANCE; DAMAGE STATEMENTS**Rule 99. Compliance with Commission orders.**

When in consequence of proceedings under the act, the Commission has by its order directed a defendant or a respondent to do or desist from doing a particular thing, such defendant or respondent must notify the Commission on or before the date upon which order becomes effective whether or not compliance has been made therewith. If a change

in rates or schedules is required, the notification must be given in addition to the filing of proper tariffs or schedules, and must specify the Interstate Commerce Commission numbers of the tariffs or schedules so filed.

Rule 100. Statements of claimed damages based on Commission findings.

When the Commission finds that damages are due, but that the amount cannot be ascertained upon the record before it, the complainant should immediately prepare a statement showing details of the shipments on which damages are claimed, in accordance with the Form No. 5. (See appendix.) The statement should not include any shipment not covered by the Commission's findings, or any shipment on which complaint was not filed with the Commission within the statutory period. The filing of a statement will not stop the running of the statute of limitations as to shipments not covered by complaint or supplemental complaint. If the shipments moved over more than one route, a separate statement should be prepared for each route, and separately numbered, except that shipments as to which the collecting carrier is in each instance the same may be listed in a single statement if grouped according to routes. The statement, together with the paid freight bills on the shipments, or true copies thereof, should then be forwarded to the carrier which collected the charges for verification and certification as to its accuracy. If the statement is not forwarded immediately to the collecting carrier for certification, a letter request from defendants that forwarding be expedited will be considered to the end that steps be taken to have the statement forwarded immediately. All discrepancies, duplications, or other errors in the statements should be adjusted by the parties and correct agreed statements submitted to the Commission. The certificate must be signed in ink by a general accounting officer of the carrier and should cover all of the information shown in the statement. If the carrier which collected the charges is not a defendant in the case, its certificate must be concurred in by like signature on behalf of a carrier defendant. Statements so prepared and certified shall be filed with the Commission, whereupon it will consider entry of an order awarding damages.

**REHEARING; REARGUMENT; OR
RECONSIDERATION**

Rule 101. Petitions for rehearing, reargument, or reconsideration. (a) In general.

A petition seeking any change in a decision, order, or requirement of the Commission should specify whether the prayer is for reconsideration, reargument, rehearing, further hearing, modification of effective date, vacation, suspension, or otherwise.

(b) Rehearing or further hearing.

When in a petition filed under this rule opportunity is sought to introduce evidence, the evidence to be adduced must be stated briefly, such evidence must not appear to be cumulative, and explanation must be given why such evidence was not previously adduced.

(c) Modification of effective date.

A petition under this rule seeking only modification of the effective date of a decision, order, or requirement, or in the period of notice, or other period or date prescribed therein, must be filed seasonably, except that, in case of unforeseen emergency satisfactorily shown by petitioner, such relief may be sought informally, by telegram or otherwise, provided like notice is simultaneously communicated to all parties of record.

(d) Reconsideration.

If relief under this rule other than under subdivisions (b) and (c) is sought, the matters claimed to have been erroneously decided and the alleged errors or relief sought must be specified with the particularity respecting exceptions as outlined in Rule 96 (a), as should also any substitute finding or other substitute requirements desired by petitioner.

(e) Time for filing.

Except for good cause shown, and upon leave granted, petitions under this rule must be filed within 30 days after the date of service of a decision or order granting an application in whole or in part, and within 60 days after the date of service of any other character of decision or order.

(f) Successive petitions on same grounds, not entertained.

A successive petition under subdivision (d) of this rule filed by the same party or parties, and upon substantially the same grounds as a former petition, which has been considered and denied by the entire Commission, or by an appropriate appellate division, will not be entertained.

Rule 102. Petitions not otherwise covered.

When the subject matter of any desired relief is not specifically covered by these rules, a petition seeking such relief and stating the reasons therefor may be served and filed.

Joint Res. Mar. 29, 1947, ch. 24, 61 Stat. 24, provided:

"Section 1. *Findings of fact and declaration of policy.*

(a) Natural rubber, which includes all forms and types of tree, vine, and shrub rubber, is a highly strategic and critical material, deficient and incapable, as a result of climatic conditions in the United States, of sufficient development as a natural resource of the United States in quantities adequate to supply the industrial, military, and naval needs of the country for the common defense. Natural rubber is at present in short supply and is expected to continue in short supply for some months to come, and thus the supplies of natural rubber must be augmented by the use of large quantities of synthetic rubber, a product of chemical synthesis.

"Congress, in the enactment of the Strategic and Critical Materials Stock Piling Act (Public Law 520, Seventy-ninth Congress) [sections 98-98h of this title], has heretofore declared it the policy of the United States and the purpose of that Act to provide for the acquisition and retention of stocks of strategic and critical materials, including natural rubber, so as to prevent so far as possible a dangerous and costly dependence of the United States upon foreign nations for supplies of these materials in times of national emergency. Further, natural rubber, when stock piled and held in storage, must be rotated and replaced from time to time by equivalent quantities of fresh material. By reason of the foregoing, a program with respect to rubber must be devised which will supplement that heretofore adopted in the Strategic and Critical Materials Stock Piling Act [said sections].

"(b) It is the policy of the United States that there shall be maintained at all times in the interest of the national security and common defense, in addition to stock piles of natural rubber which are to be acquired, rotated, and retained pursuant to the Strategic and Critical Materials Stock Piling Act (Public Law 520, Seventy-ninth Congress, approved July 23, 1946) [said sections], a technologically advanced and rapidly expandable domestic rubber-producing industry of sufficient productive capacity to assure the availability in times of national emergency of adequate supplies of domestically produced rubber to meet the industrial, military, and naval needs of the country.

"(c) It is necessary in the public interest and to promote the national defense (1) that Congress make a thorough study and investigation of means of accomplishing such policy through the enactment of permanent legislation, the study and investigation to be completed within such time as will permit the legislation to be enacted, during the first session of the Eightieth Congress; and (2) that, pending the enactment of such permanent legislation, the United States continue allocation, specification, and inventory controls of natural and synthetic rubber and natural and synthetic rubber products and the authority of the United States to manufacture and sell synthetic rubber be continued.

"Section 2. *Temporary retention of certain emergency powers with respect to rubber.* To effectuate the purposes set forth in section 1 (c) hereof—

"(a) Notwithstanding the provisions of title XV of the Second War Powers Act, 1942, as amended [section 645 of Appendix to this title], title III of such Act [section 633 of Appendix to this title] and the amendments to existing law made by such title, shall remain in force until the effective date of permanent legislation enacted to accomplish the policy set forth in section 1 (b) hereof, but in no event beyond March 31, 1948, insofar as such provisions authorize allocation, specification, and inventory controls of natural and synthetic rubber and natural and synthetic-rubber products (including import control of synthetic rubber and natural- and synthetic-rubber products, but excluding import control of natural rubber), and it is hereby directed that, to the extent necessary to accomplish the purposes of this joint resolution, the

powers, functions, duties, and authority under the provisions so continued shall be exercised and performed until that date: *Provided*, That the President may continue allocation, specification, and inventory control of natural and synthetic rubber and natural- and synthetic-rubber products and import control of synthetic rubber and natural- and synthetic-rubber products in the public interest and to carry out the purposes of this joint resolution, notwithstanding any changes in the supply or estimated supply of natural rubber.

"(b) The powers, functions, duties, and authority of the United States to manufacture (including the conduct of research essential to the development of the synthetic-rubber industry) and sell synthetic rubber shall continue in force until the effective date of permanent legislation enacted to accomplish the policy set forth in section 1 (b) hereof, but in no event beyond March 31, 1948. There shall not be declared as surplus nor shall War Assets Administration dispose of any synthetic-rubber plant and facilities costing the Government in excess of \$5,000,000, until the effective date of permanent legislation enacted to accomplish the policy set forth in section 1 (b) hereof: *Provided*, That there shall be exempt from such disposal limitations the neoprene plant, styrene plants, the petroleum butadiene plant located at Toledo, Ohio, not to exceed two alcohol butadiene plants, and butadiene-styrene type copolymer plants to the extent that the aggregate actual capacity of such copolymer plants remaining in Government ownership shall not be less than six hundred thousand long tons per year. It is hereby directed that the aforesaid powers, functions, duties, and authority of the United States to so manufacture and sell synthetic rubber shall be exercised and performed by Reconstruction Finance Corporation while that Corporation has succession and thereafter by such officer, agency, or instrumentality of the United States as the President may designate: *Provided further*, That nothing herein shall be construed as precluding any other agency of Government from engaging in research authorized by law."

MAINTENANCE OF DOMESTIC TIN-SMELTING INDUSTRY

Joint Res. June 28, 1947, ch. 159, 61 Stat. 190, as amended June 29, 1948, ch. 722, 62 Stat. 1101, provided:

"Section 1. *Findings of fact and declaration of policy.* (a) Tin is a highly strategic and critical material of which insufficient ore reserves exist in the United States and of which an adequate supply is vital to the Nation's industrial, military, and naval requirements for the common defense.

"(b) Tin is now and for the immediate future will remain in supply short of the requirements of this country's industrial, military, and naval needs.

"(c) It is necessary in the public interest and to promote the common defense that Congress make a thorough study and investigation regarding the advisability of the maintenance on a permanent basis of a domestic tin-smelting industry and to study the availability of supplies of tin adequate to meet the industrial, military, and naval requirement of the Nation in time of national emergency.

"Section 2. *Powers and duties of Reconstruction Finance Corporation; termination date.* The powers, functions, duties, and authority of the United States heretofore exercised by the Reconstruction Finance Corporation (1) to buy, sell, and transport tin, and tin ore and concentrates; (2) to improve, develop, maintain, and operate by lease or otherwise the Government-owned tin smelter at Texas City, Texas; (3) to finance research in tin smelting and processing; and (4) to do all other things necessary to the accomplishment of the foregoing shall continue in effect until June 30, 1951, or until such earlier time as the Congress shall otherwise provide, and shall be exercised and performed by the Reconstruction Finance Corporation while that Corporation has succession, and thereafter by such officer, agency, or instrumentality of the United States as the President may designate.

"Section 3. *Reports to Congress.* The Reconstruction Finance Corporation or the officer, agency, or instrumentality of the United States subsequently designated by the President shall render a full report to Congress

on all its activities under this joint resolution not later than December 31, 1947, and at the end of each six months thereafter."

§ 451. Congressional declaration of purpose and policy.

In enacting this chapter, it is the intent of Congress to provide a comprehensive and continuous program for the future safety and for the defense of the United States by providing adequate measures whereby an essential nucleus of Government-owned industrial plants and a national reserve of machine tools and industrial manufacturing equipment may be assured for immediate use to supply the needs of the armed forces in time of national emergency or in anticipation thereof; it is further the intent of the

Congress that such Government-owned plants and such reserve shall not exceed in number or kind the minimum requirements for immediate use in time of national emergency, and that any such items which shall become surplus to such requirements shall be disposed of as expeditiously as possible. (July 2, 1948, ch. 811, § 2, 62 Stat. 1225.)

SHORT TITLE

Congress in enacting the chapter provided by section 1 of act July 2, 1948, cited to text, that it should be popularly known as the "National Industrial Reserve Act of 1948."

§ 452. Definitions.

(a) The term "national industrial reserve", as used in this chapter, means that excess industrial property which has been or may hereafter be sold, leased, or otherwise disposed of by the United States, subject to a national security clause, and that excess industrial property of the United States which not having been sold, leased, or otherwise disposed of, subject to a national security clause, shall be transferred to the Federal Works Agency under section 454 of this title.

(b) The term "excess industrial property", as used herein, means any machine tool, any industrial manufacturing equipment and any industrial plant (including structures on land owned by or leased to the United States, substantially equipped with machinery, tools, and equipment) which is capable of economic operation as a separate and independent industrial unit and which is not an integral part of an installation of a private contractor, which machine tools, industrial manufacturing equipment, and industrial plants are under the control of any executive department or independent establishment in the executive branch of the Government, including any wholly owned Government corporation and which are not required for its immediate needs and responsibilities as determined by the head thereof.

(c) The term "national security clause", as used herein, means those terms, conditions, restrictions, and reservations, heretofore formulated or as may be formulated under section 453 (2) of this title hereof for insertion in instruments of sale or lease of property, determined in accordance with section 453 (1) of this title to be a part of the national industrial reserve, which will guarantee the availability of such property for the purposes of national defense at any time when availability thereof for such purposes is deemed necessary by the Secretary of Defense. (July 2, 1948, ch. 811, § 3, 62 Stat. 1225.)

§ 453. Powers and duties of Secretary of Defense.

To effectuate the policy set forth in section 451 of this title the Secretary of Defense is authorized and directed to—

(1) determine which excess industrial properties should become a part of the national industrial reserve under the provisions of this chapter;

(2) formulate a national security clause, as defined in section 452 (c) of this title and vary or modify the same from time to time in such manner as best to attain the objectives of this chapter, having due regard to securing advantageous terms to

the Government in the disposal of excess industrial property;

(3) consent to the relinquishment or waiver of all or any part of any national security clause in specific cases when necessary to permit the disposition of particular excess industrial property when it is determined that the retention of the productive capacity of any such excess industrial property is no longer essential to the national security or that the retention of a lesser interest than that originally required will adequately fulfill the purposes of this chapter: *Provided*, That nothing in this subsection shall require the modification or waiver of any part of any such national security clause when such clause is deemed necessary by the Secretary of Defense to effectuate the purposes of this chapter; and

(4) designate what excess industrial property shall be disposed of subject to the provisions of the national security clause. (July 2, 1948, ch. 811, § 4, 62 Stat. 1226.)

§ 454. Plant disposal; modification of national security clause; transfer to Federal Works Agency; machine tools.

(a) In the event that any agency charged with the disposal of excess industrial property, after making every practicable effort so to do, is unable to dispose of any excess industrial plant because of the national security clause it shall notify the Secretary of Defense, indicating such modifications in the national security clause, if any, which in its judgment would make possible disposal of the plant. The Secretary of Defense shall consider and agree to any and all such proposed modifications as in his judgment would be consistent with the purposes of this chapter. If, however, such clause is not modified or the requirements thereof waived pursuant to section 453 (c) of this title, or if modified, such plant cannot then be disposed of under such modified clause, the Secretary of Defense shall direct that such plant be transferred to the Federal Works Agency, and such transfer shall be without reimbursement or transfer of funds.

(b) Notwithstanding any other provisions of law, any agency charged with the disposal of excess machine tools and industrial manufacturing equipment shall transfer custody of such machine tools and equipment as may be designated by the Secretary of Defense pursuant to section 453 of this title to the Federal Works Agency, without reimbursement, for storage and maintenance. (July 2, 1948, ch. 811, § 5, 62 Stat. 1226.)

§ 455. Acceptance of plants by Federal Works Agency; disposition; conditions of lease.

Subject to provisions of section 456 of this title, the Federal Works Agency is authorized and directed to accept the transfer to it of such excess industrial property as is directed to be transferred to it under section 453 of this title and, as and when directed or authorized by the Secretary of Defense pursuant to section 456 of this title, to utilize, maintain, protect, repair, restore, renovate, lease, or dispose of such property. Notwithstanding section 303 (b) of Title 40, any lease may provide for the renovation, maintenance, protection, repair, and restora-

tion by the lessee, of the property leased, or of the entire unit or installation when a substantial part thereof is leased, as part or all of the consideration for the lease of such property. (July 2, 1948, ch. 811, § 6, 62 Stat. 1226.)

§ 456. Powers of Secretary of Defense respecting property in national industrial reserve.

The Secretary of Defense, with respect to property in the national industrial reserve, is authorized when he deems such action to be in the interest of national security—

(1) to establish general policies for the care, maintenance, utilization, recording, and security of such property transferred to the Federal Works Agency pursuant to section 454 of this title; and

(2) to direct the transfer without reimbursement by the Federal Works Agency of any of such property to other Government agencies with the consent of such agencies; and

(3) to direct the leasing by the Federal Works Agency of any of such property to designated lessees; and

(4) to authorize the disposition by the Federal Works Agency of any of such property by sale or otherwise when in the opinion of the Secretary of Defense such property may be disposed of subject to or free of the national security clause provided for in section 454 of this title; and

(5) to authorize and regulate the lending of any such property by the Federal Works Agency to any nonprofit educational institution or training school when (a) the Secretary shall determine that the program proposed by such institution or school for the use of such property will contribute materially to national defense, and (b) such institution or school shall by agreement make such provision as the Secretary shall deem satisfactory for the proper maintenance of such property and for its return to the Federal Works Agency without expense to the Government. (July 2, 1948, ch. 811, § 7, 62 Stat. 1227.)

§ 457. Transportation, maintenance, disposition, etc., by Federal Works Agency of transferred property.

As and when directed or authorized by the Secretary of Defense pursuant to the provisions of section 456 of this title, the Federal Works Agency shall after the date upon which transfer is directed pursuant to section 454 of this title provide for the transportation, handling, care, storage, protection, maintenance, utilization, repair, restoration, renovation, leasing, and disposition of excess industrial property. (July 2, 1948, ch. 811, § 8, 62 Stat. 1227.)

§ 458. Limitation on acquisition of property.

Nothing contained in this chapter shall be construed as authorizing the acquisition of any property for the national industrial reserve except from excess or surplus Government-owned property. (July 2, 1948, ch. 811, § 9, 62 Stat. 1227.)

§ 459. Industrial Reserve Review Committee; composition, appointment, tenure, and compensation; laws applicable.

The Secretary of Defense shall appoint a National Industrial Reserve Review Committee, which shall

consist of not exceeding fifteen persons to be appointed from civilian life who are by training and experience familiar with various fields of American industry, including shipbuilding, aircraft manufacture, machine tools, and arms and armament production. The members of such Committee shall serve for such term or terms as the Secretary of Defense may specify and shall meet at such times as may be specified by the Secretary of Defense to consult with and advise the National Military Establishment. Each member of such Committee shall be entitled to compensation in the amount of \$50 for each day, or part of day, he shall be in attendance at any regular called meeting of the Committee, together with reimbursement for all travel expenses incident to such attendance: *Provided*, That nothing contained in sections 281, 283 and 434 of Title 18; in section 99 of Title 5; in last paragraph of section 119 of Title 41; or in any other provision of Federal law imposing restrictions, requirements, or penalties in relation to the employment of persons, the performance of services, or the payment or receipt of compensation in connection with any claim proceeding, or matter involving the United States, shall apply to such persons solely by reason of their appointment to and membership on such Committee. (July 2, 1948, ch. 811, § 10, 62 Stat. 1227.)

§ 460. Duties of Committee; recommendations.

It shall be the duty of the Committee appointed under section 459 of this title to review not less often than once each year the justification for the retention of property in the national industrial reserve established hereunder and (i) to recommend to the Secretary of Defense the disposition of any such property which in the opinion of the Committee would no longer be of sufficient strategic value to warrant its further retention for the production of war material in the event of a national emergency; (ii) to recommend to the Secretary of Defense standards of maintenance for the property held in the national industrial reserve; (iii) to review and recommend to the Secretary of Defense the disposal of that property which in the opinion of the Committee could and should be devoted to commercial use in the civilian economy; and (iv) to advise the Secretary of Defense with respect to such activities under this chapter as he may request. (July 2, 1948, ch. 811, § 11, 62 Stat. 1228.)

§ 461. Reports to Congress.

The Secretary of Defense shall submit to the Congress on April 1 of each year a report detailing the action taken by it under this chapter and containing such other pertinent information on the status of the national industrial reserve as will enable the Congress to evaluate its administration and the need for amendments and related legislation. (July 2, 1948, ch. 811, § 12, 62 Stat. 1228.)

§ 462. Appropriations.

There are authorized to be appropriated to the Office of the Secretary of Defense and to the Federal Works Administration, out of any moneys in the Treasury not otherwise appropriated, such sums as the Congress may, from time to time, determine to

be necessary to enable the Secretary of Defense and the Federal Works Agency to carry out their respective functions under this chapter. (July 2, 1948, ch. 811, § 14, 62 Stat. 1228.)

(b) The Congress declares that an adequate armed strength must be achieved and maintained to insure the security of this Nation.

(c) The Congress further declares that in a free society the obligations and privileges of serving in the armed forces and the reserve components thereof should be shared generally, in accordance with a system of selection which is fair and just, and which is consistent with the maintenance of an effective national economy.

Any such person who fails or refuses to perform such duty may be ordered to active duty, without his consent, for an additional period of not more than twelve consecutive months. Any such person who enlists or accepts appointment in any such organized unit and serves satisfactorily therein for a period of four years shall, except in time of war or national emergency declared by the Congress, be relieved from any further liability under this subsection to serve in any reserve component of the armed forces of the United States, but nothing in this subsection shall be construed to prevent any such person, while in a reserve component of such forces, from being ordered or called to active duty in such forces. The Secretary of Defense is authorized to prescribe regulations governing the transfer of such persons within and between reserve components of the armed forces and determining, for the purpose of the requirements of the foregoing provisions of this paragraph, the credit to be allowed any person so transferring for his previous service in one or more reserve components.

(e) Pay and allowances.

With respect to the persons inducted for training and service under this title [sections 451-470 of this Appendix] there shall be paid, allowed, and extended the same pay, allowances, pensions, disability and

death compensation, and other benefits as are provided by law in the case of other enlisted men of like grades and length of service of that component of the armed forces to which they are assigned. Section 3 of the Act of July 25, 1947 (Public Law 239, Eightieth Congress), is hereby amended by deleting therefrom the following: "Act of March 7, 1942 (56 Stat. 143-148, ch. 166), as amended". The Act of March 7, 1942 (56 Stat. 143-148), as amended, is hereby made applicable to persons inducted into the armed forces pursuant to this title [section 451-470 of this Appendix].

(f) Additional compensation from civilian sources.

Nothing contained in this or any other Act shall be construed as forbidding the payment of compensation by any person, firm, or corporation to persons inducted into the armed forces of the United States for training and service under this title [sections 451-470 of this Appendix], or to members of reserve components of such forces now or hereafter on any type of active duty, who, prior to their induction or order to active duty, were receiving compensation from such person, firm, or corporation.

(g) One year enlistments in armed service by male persons between 18 and 19 years.

Subject to the authorized one-year enlistee active duty personnel strengths established by section 2 of this title [section 452 of this Appendix] for the respective armed forces, the Secretaries of the Army, the Navy, and the Air Force are authorized and directed to accept enlistments for periods of one year in the Army of the United States, the United States Navy or the United States Marine Corps, and the Air Force of the United States, respectively, from among qualified male persons between the ages of eighteen and nineteen.

(h) Permanent assignment outside continental United States.

No person who is enlisted in the Army of the United States under the provisions of subsection (g) [of this section] shall be permanently assigned to duty at any place outside of the continental limits of the United States; and no person who is enlisted under the provisions of such subsection in the United States Navy, the United States Marine Corps, or the Air Force of the United States shall be assigned to duty at any naval or air force installation which is located on land outside of the continental limits of the United States. (a) The selection of persons for training and service under section 4 [section 454 of this Appendix]

shall be made in an impartial manner, under such rules and regulations as the President may prescribe, from the persons who are liable for such training and service and who at the time of selection are registered and classified, but not deferred or exempted: *Provided*, That in the selection of persons for training and service under this title [sections 451-470 of this Appendix], and in the interpretation and execution of the provisions of this title [said sections], there shall be no discrimination against any person on account of race or color: *Provided further*, That in the classification of registrants within the jurisdiction of any local board, the registrants of any particular registration may be classified, in the manner prescribed by and in accordance with rules and regulations prescribed by the President, before, together with, or after the registrants of any prior registration or registrations; and in the selection for induction of persons within the jurisdiction of any local board and within any particular classification, persons who were registered at any particular registration may be selected, in the manner prescribed by and in accordance with rules and regulations prescribed by the President, before, together with, or after persons who were registered at any prior registration or registrations.

(b) Quotas of men to be inducted for training and service under this title [sections 451-470 of this Appendix] shall be determined for each State, Territory, possession, and the District of Columbia, and for subdivisions thereof, on the basis of the actual number of men in the several States, Territories, possessions, and the District of Columbia, and the subdivisions thereof, who are liable for such training and service but who are not deferred after classification, except that credits shall be given in fixing such quotas for residents of such subdivisions who are in the armed forces of the United States on the date fixed for determining such quotas. After such quotas are fixed, credits shall be given in filling such quotas for residents of such subdivisions who subsequently become members of such forces. (b) (1) No person who served honorably on active duty between September 16, 1940, and the date of enactment of this title [June 24, 1948] for a period of twelve months or more, or between December 7, 1941, and September 2, 1945, for a period in excess of ninety days, in the Army, the Air Force, the Navy, the Marine Corps, the Coast Guard, the Public Health Service, or the armed forces of any country allied with the United States in World War II prior to September 2, 1945, shall be liable for induction for training and service under this title [sections 451-470 of this Appendix], except after a declaration of war or national emergency made by the Congress subsequent to the date of enactment of this title [June 24, 1948].

(2) No person who served honorably on active duty between September 16, 1940, and the date of enactment of this title [June 24, 1948] for a period of ninety days or more but less than twelve months in the Army, the Air Force, the Navy, the Marine Corps, the Coast Guard, the Public Health Service, or the armed forces of any country allied with the United States in World War II prior to September 2, 1945, shall be liable for induction for training and service under this title, except after a declaration of war or national emergency made by the Congress subsequent to the date of enactment of this title [June 24, 1948], if—

(A) the local board determines that he is regularly enlisted or commissioned in any organized unit of a reserve component of the armed force (or the Coast Guard) in which he served, provided such unit is reasonably accessible to such person without unduly interrupting his normal pursuits and activities (including attendance at a college or university in which he is regularly enrolled), or in a reserve component (other than in an organized unit) of such armed force or the Coast Guard in any case in which enlistment or commission in an organized unit of a reserve component of such armed force or the Coast Guard is not available to him; or

(B) the local board determines that enlistment or commission in a reserve component of such armed force or the Coast Guard is not available to him or that he has voluntarily enlisted or accepted appointment in an organized unit of a reserve component of an armed force other than the armed force in which he served or in the Coast Guard.

Nothing in this paragraph shall be deemed to be applicable to any person to whom paragraph (1) of this subsection is applicable.

(3) No person who after the date of enactment of this title [June 24, 1948] is honorably discharged upon the completion of a period of three years or more of active duty in the Army, the Air Force, the Navy, the Marine Corps, the Coast Guard, or the Public Health Service, shall be liable for induction for training and service under this title [sections 451-470 of this title], except after a declaration of war or national emergency made by the Congress subsequent to the date of enactment of this title [June 24, 1948].

(5) For the purposes of computation of the periods of active duty referred to in paragraphs (1), (2), or (3) of this subsection, no credit shall be allowed for—

(A) periods of active duty training performed as a member of a reserve component pursuant to an order or call to active duty solely for training purposes;

(B) periods of active duty in which the service consisted solely of training under the Army specialized training program, the Army Air Force college training program, or any similar program under the jurisdiction of the Navy, Marine Corps, or Coast Guard;

(C) periods of active duty as a cadet at the United States Military Academy or United States Coast Guard Academy, or as a midshipman at the United States Naval Academy, or in a preparatory school after nomination as a principal, alternate, or candidate for admission to any of such academies; or

(D) periods of active duty in any of the armed forces while being processed for entry into or separation from any educational program or institution referred to in paragraphs (B) or (C).

(c) (1) Persons who, on the effective date of this title [June 24, 1948], were members of organized units of the federally recognized National Guard, the federally recognized Air National Guard, the Officers' Reserve Corps, the Regular Army Reserve, the Air Force Reserve, the Enlisted Reserve Corps, the Naval Reserve, the Marine Corps Reserve, the Coast Guard Reserve, or the Public Health Service Reserve, shall, so long as they continue to be such members and satisfactorily participate in scheduled drills and training periods as prescribed by the Secretary of Defense, be exempt from training and service by induction under the provisions of this title [sections 451-470 of this title], but shall not be exempt from registration unless on active duty.

(2) (A) In any case in which the Governor of any State determines and issues a proclamation to the

effect that the authorized strength of any organized unit of the National Guard of his State cannot be maintained by the enlistment or appointment of persons referred to in subsection 6 (b) (2) [subsection (b) (2) of this section] or persons who are not liable for training and service under this title, any person who prior to attaining the age of eighteen years and six months enlists or accepts appointment in any such organized unit shall be deferred from training and service under this title so long as he continues to serve satisfactorily as a member of such organized unit.

(B) Except as provided in subsection (b) [of this section] or clause (A) of this paragraph, no person who shall become a member of a reserve component after the effective date of this title shall thereby be exempt from registration or training and service by induction under the provisions of this title [sections 451-470 of this Appendix].

(d) (1) Any person who, on the effective date of this title [June 24, 1948], is enrolled in the advanced course, senior division, Reserve Officers' Training Corps or the Air Reserve Officers' Training Corps, or is a member of the Naval Reserve Officers' Training Corps and has entered upon the junior or senior year, or is a midshipman, United States Naval Reserve, shall be deferred from induction for training and service under this title [sections 451-470 of this Appendix] until the completion or termination of the course of instruction and so long as he continues in a regular or reserve status upon being commissioned, but shall not be exempt from registration.

(2) Within such number as may be prescribed by the Secretary of Defense any person who, (A) on or after the effective date of this title [June 24, 1948], is selected for enrollment or continuance in the senior division, Reserve Officers' Training Corps, or the Air Reserve Officers' Training Corps, or the Naval Reserve Officers' Training Corps, or who, on or after the effective date of this title [June 24, 1948], is appointed a midshipman, United States Naval Reserve, and (B) agrees, in writing, to accept a commission if tendered and to serve, subject to call by the Secretary of the Army, the Secretary of the Air Force, or the Secretary of the Navy, respectively, not less than two years on active duty after receipt of a commission, shall be deferred from induction for training and service under this title [sections 451-470 of this Appendix] until after completion or termination of the course of instruction and so long as he continues in a regular or reserve status upon being commissioned, but shall not be exempt from registration.

(e) Fully qualified and accepted aviation cadet applicants of the Army, Navy, or Air Force who have signed an agreement of service shall, in such numbers as may be designated by the Secretary of Defense, be deferred, during the period covered by the agreement but not to exceed four months, from induction for training and service under this title [sections 451-470 of this Appendix] but shall not be exempt from registration.

(f) The Vice President of the United States; the governors of the several States, Territories, and

possessions, and all other officials chosen by the voters of the entire State, Territory, or possession; members of the legislative bodies of the United States and of the several States, Territories, and possessions; judges of the courts of record of the United States and of the several States, Territories, possessions, and the District of Columbia shall, while holding such offices, be deferred from training and service under this title [sections 451-470 of this Appendix] in the armed forces of the United States.

(g) Regular or duly ordained ministers of religion, as defined in this title [sections 451-470 of this Appendix], and students preparing for the ministry under the direction of recognized churches or religious organizations, who are satisfactorily pursuing full-time courses of instruction in recognized theological or divinity schools, or who are satisfactorily pursuing full-time courses of instruction leading to their entrance into recognized theological or divinity schools in which they have been preenrolled, shall be exempt from training and service (but not from registration) under this title [said sections].

(h) The President is authorized, under such rules and regulations as he may prescribe, to provide for the deferment from training and service under this title [sections 451-470 of this Appendix] in the armed forces of the United States of any or all categories of persons whose employment in industry, agriculture, or other occupations or employment, or whose continued service in an office (other than an office described in subsection (f) [of this section]) under the United States or any State, Territory, or possession, or the District of Columbia, or whose activity in study, research, or medical, scientific, or other endeavors is found to be necessary to the maintenance of the national health, safety, or interest: *Provided*, That no person within any such category shall be deferred except upon the basis of his individual status. The President is also authorized, under such rules and regulations as he may prescribe, to provide for the deferment from training and service under this title [sections 451-470 of this Appendix] in the armed forces of the United States (1) of any or all categories of persons in a status with respect to persons dependent upon them for support which renders their deferment advisable, and (2) of any or all categories of those persons found to be physically, mentally, or morally deficient or defective. For the purpose of determining whether or not the deferment of any person is advisable, because of his status with respect to persons dependent upon him for support, any payments of allowances which are payable by the United States to the dependents of persons serving in the armed forces of the United States shall be taken into consideration, but the fact that such payments of allowances are payable shall not be deemed conclusively to remove the grounds for deferment when the dependency is based upon financial considerations and shall not be deemed to remove the ground for deferment when the dependency is based upon other than financial considerations and cannot be eliminated by financial assistance to the dependents.

The President is also authorized, under such rules and regulations as he may prescribe, to provide for the deferment from training and service under this title [said sections] in the armed forces of the United States of any or all categories of persons who have wives or children, or wives and children, with whom they maintain a bona fide family relationship in their homes. No deferment from such training and service shall be made in the case of any individual except upon the basis of the status of such individual. There shall be posted in a conspicuous place at the office of each local board a list setting forth the names and classifications of those persons who have been classified by such local board.

(i) (1) Any person who, while satisfactorily pursuing a full-time course of instruction at a high school or similar institution of learning, is ordered to report for induction under this title [sections 451-470 of this Appendix] prior to his graduation from such school or institution, shall, upon the facts being presented to the local board, have his induction under this title [said sections] postponed (A) until the time of his graduation therefrom, or (B) until he attains the twentieth anniversary of his birth, or (C) until he ceases satisfactorily to pursue such course of instruction, whichever is the earliest. The induction of any such person shall not be postponed under this paragraph beyond the date so determined.

(2) Any person who, while satisfactorily pursuing a full-time course of instruction at a college, university, or similar institution of learning, is ordered to report for induction under this title [said sections], shall, upon the facts being presented to the local board, have his induction under this title postponed (A) until the end of such academic year or (B) until he ceases satisfactorily to pursue such course of instruction, whichever is the earlier. Nothing in this paragraph shall be deemed to preclude the President from providing, by regulations prescribed under subsection (h) of this section, for the deferment from training and service of any category or categories of students for such periods of time as he may deem appropriate.

(j) Nothing contained in this title [sections 451-470 of this Appendix] shall be construed to require any person to be subject to combatant training and service in the armed forces of the United States who, by reason of religious training and belief, is conscientiously opposed to participation in war in any form. Religious training and belief in this connection means an individual's belief in a relation to a Supreme Being involving duties superior to those arising from any human relation, but does not include essentially political, sociological, or philosophical views or a merely personal moral code. Any person claiming exemption from combatant training and service because of such conscientious objections whose claim is sustained by the local board shall, if he is inducted into the armed forces under this title [said sections], be assigned to noncombatant service as defined by the President, or shall,

if he is found to be conscientiously opposed to participation in such noncombatant service, be deferred. Any person claiming exemption from combatant training and service because of such conscientious objections shall, if such claim is not sustained by the local board, be entitled to an appeal to the appropriate appeal board. Upon the filing of such appeal, the appeal board shall refer any such claim to the Department of Justice for inquiry and hearing. The Department of Justice, after appropriate inquiry, shall hold a hearing with respect to the character and good faith of the objections of the person concerned, and such person shall be notified of the time and place of such hearing. The Department of Justice shall, after such hearing, if the objections are found to be sustained, recommend to the appeal board that (1) if the objector is inducted into the armed forces under this title [said sections], he shall be assigned to noncombatant service as defined by the President, or (2) if the objector is found to be conscientiously opposed to participation in such noncombatant service, he shall be deferred. If after such hearing the Department of Justice finds that his objections are not sustained, it shall recommend to the appeal board that such objections be not sustained. The appeal board shall, in making its decision, give consideration to, but shall not be bound to follow, the recommendation of the Department of Justice together with the record on appeal from the local board. Each person whose claim for exemption from combatant training and service because of conscientious objections is sustained shall be listed by the local board on a register of conscientious objectors.

(k) No exception from registration, or exemption or deferment from training and service, under this title [sections 451-470 of this Appendix], shall continue after the cause therefor ceases to exist.

(l) Notwithstanding any other provisions of law, no person between the ages of eighteen and twenty-one shall be discharged from service in the armed forces of the United States while this title [sections 451-470 of this Appendix] is in effect because such person entered such service without the consent of his parent or guardian.

(m) No person shall be relieved from training and service under this title [sections 451-470 of this Appendix] by reason of conviction of a criminal offense, except where the offense of which he has been convicted may be punished by death, or by imprisonment for a term exceeding one year.

(n) In the case of any registrant whose principal place of employment is located outside the appeal board area in which the local board having jurisdiction over the registrant is located, any occupational deferment made under subsection (h) of this section may, within five days after such deferment is made, be submitted for review and decision to the appeal board having jurisdiction over the area in which is located the principal place of employment of the registrant. Such decision of the appeal board shall be final unless modified or changed by the President, and such decision shall be made public.

(o) Where one or more sons or daughters of a family were killed in action or died in line of duty while serving in the armed forces of the United States, or subsequently died as a result of injuries received or disease incurred during such service, the sole surviving son of such family shall not be inducted for service under the terms of this title [sections 451–470 of this Appendix]. (June 24, 1948, ch. 265, title I, § 6, 62 Stat. 609.)

EX ORD. NO. 10028. DEFINITION OF NONCOMBATANT SERVICE AND NONCOMBATANT TRAINING

Ex. Ord. No. 10028, Jan. 14, 1949, 14 P. R. 211, provided: By virtue of and pursuant to the authority vested in me by Title I of the Selective Service Act of 1948 (62 Stat. 604), and as President of the United States, the following definitions are hereby prescribed for the purposes of section 6 (j) of the said Act [subsection (j) of this section]:

1. The term "noncombatant service" shall mean (a) service in any unit of the armed forces which is unarmed at all times; (b) service in the medical department of any of the armed forces, wherever performed; or (c) any other assignment the primary function of which does not require the use of arms in combat; provided that such other assignment is acceptable to the individual concerned and does not require him to bear arms or to be trained in their use.

(2) The term "noncombatant training" shall mean any training which is not concerned with the study, use, or handling of arms or weapons.

§ 457. Active duty for certain members of reserve components.

Notwithstanding any other provision of law or of this title [sections 451–470 of this Appendix], the President is hereby authorized to order into the active service of the armed forces of the United States, without their consent and for a period not to exceed twenty-one consecutive months each, members (other than those exempted or deferred from training and service under the provisions of section 6 (c) [section 456 (c) of this Appendix]) of any or all reserve components of the armed forces of the United States who shall have had less than ninety days' continuous active service in the armed forces of the United States, exclusive of periods of active training duty. No member of the National Guard of any State, Territory, or the District of Columbia shall be ordered into the active service of the armed forces of the United States under this section unless the governor of such State or Territory, or the Commanding General of the District of Columbia National Guard in the case of a member of the District of Columbia National Guard, has consented to the ordering into active service of the armed forces of the United States of members of the National Guard of his State, Territory, or District, as the case may be, in accordance with such program or programs as may have been mutually agreed upon. Nothing in this section shall be construed to repeal or abridge any existing law which authorizes the ordering of members of reserve components of the armed forces into active service. (June 24, 1948, ch. 625, title I, § 7, 62 Stat. 614.)

§ 458. Bounties for enlistment or induction; substitutes; purchase of release.

No bounty shall be paid to induce any person to enlist in or be inducted into the armed forces of the United States: *Provided*, That the clothing or en-

listment allowances authorized by law shall not be regarded as bounties within the meaning of this section. No person liable for training and service in such forces shall be permitted or allowed to furnish a substitute for such training and service; no substitute as such shall be received, enlisted, enrolled, or inducted into the armed forces of the United States; and no person liable for training and service in such forces under section 4 [section 454 of this Appendix] shall be permitted to escape such training and service or be discharged therefrom prior to the expiration of his period of such training and service by the payment of money or any other valuable thing whatsoever as consideration for his release from such training and service or liability therefor. (June 24, 1948, ch. 625, title I, § 8, 62 Stat. 614.)

§ 459. Separation from service—(a) Certificate recording proficiency and merit; physical examination.

Any person inducted into the armed forces under this title [sections 451–470 of this Appendix] for training and service, who, in the judgment of those in authority over him, satisfactorily completes his period of training and service under section 4 (b) [section 454 (b) of this Appendix] shall be entitled to a certificate to that effect upon the completion of such period of training and service, which shall include a record of any special proficiency or merit attained. In addition, each such person who is inducted into the armed forces under this title [sections 451–470 of this Appendix] for training and service shall be given a physical examination at the beginning of such training and service, and upon the completion of his period of training and service under this title, each such person shall be given another physical examination and, upon his written request, shall be given a statement of physical condition by the Secretary concerned: *Provided*, That such statement shall not contain any reference to mental or other conditions which in the judgment of the Secretary concerned would prove injurious to the physical or mental health of the person to whom it pertains.

(b) Reemployment rights.

In the case of any such person who, in order to perform such training and service, has left or leaves a position (other than a temporary position) in the employ of any employer and who (1) receives such certificate, and (2) makes application for reemployment within ninety days after he is relieved from such training and service or from hospitalization continuing after discharge for a period of not more than one year—

(A) if such position was in the employ of the United States Government, its Territories, or possessions, or political subdivisions thereof, or the District of Columbia, such person shall—

(i) if still qualified to perform the duties of such position, be restored to such position or to a position of like seniority, status, and pay; or

(ii) if not qualified to perform the duties of such position by reason of disability sustained

during such service but qualified to perform the duties of any other position in the employ of the employer, be restored to such other position the duties of which he is qualified to perform as will provide him like seniority, status, and pay, or the nearest approximation thereof consistent with the circumstances in his case;

(B) If such position was in the employ of a private employer, such person shall—

(i) if still qualified to perform the duties of such position, be restored by such employer or his successor in interest to such position or to a position of like seniority, status, and pay; or

(ii) if not qualified to perform the duties of such position by reason of disability sustained during such service but qualified to perform the duties of any other position in the employ of such employer or his successor in interest, be restored by such employer or his successor in interest to such other position the duties of which he is qualified to perform as will provide him like seniority, status, and pay, or the nearest approximation thereof consistent with the circumstances in his case,

unless the employer's circumstances have so changed as to make it impossible or unreasonable to do so;

(C) if such position was in the employ of any State or political subdivision thereof, it is hereby declared to be the sense of the Congress that such person should—

(i) if still qualified to perform the duties of such position, be restored to such position or to a position of like seniority, status, and pay; or

(ii) if not qualified to perform the duties of such position by reason of disability sustained during such service but qualified to perform the duties of any other position in the employ of the employer, be restored to such other position the duties of which he is qualified to perform as will provide him like seniority, status, and pay, or the nearest approximation thereof consistent with the circumstances in his case.

(c) Service considered as furlough or leave of absence.

(1) Any person who is restored to a position in accordance with the provisions of paragraph (A) or (B) of subsection (b) [of this section] shall be considered as having been on furlough or leave of absence during his period of training and service in the armed forces, shall be so restored without loss of seniority, shall be entitled to participate in insurance or other benefits offered by the employer pursuant to established rules and practices relating to employees on furlough or leave of absence in effect with the employer at the time such person was inducted into such forces, and shall not be discharged from such position without cause within one year after such restoration.

(2) It is hereby declared to be the sense of the Congress that any person who is restored to a position in accordance with the provisions of paragraph (A) or (B) of subsection (b) [of this section] should be so restored in such manner as to give him such status in his employment as he would have enjoyed

if he had continued in such employment continuously from the time of his entering the armed forces until the time of his restoration to such employment.

(d) Jurisdiction of district court; U. S. district attorney to act for claimant.

In case any private employer fails or refuses to comply with the provisions of subsection (b) or subsection (c) (1) [of this section], the district court of the United States for the district in which such private employer maintains a place of business shall have power, upon the filing of a motion, petition, or other appropriate pleading by the person entitled to the benefits of such provisions, specifically to require such employer to comply with such provisions and to compensate such person for any loss of wages or benefits suffered by reason of such employer's unlawful action: *Provided*, That any such compensation shall be in addition to and shall not be deemed to diminish any of the benefits of such provisions. The court shall order speedy hearing in any such case and shall advance it on the calendar. Upon application to the United States district attorney or comparable official for the district in which such private employer maintains a place of business, by any person claiming to be entitled to the benefits of such provisions, such United States district attorney or official, if reasonably satisfied that the person so applying is entitled to such benefits, shall appear and act as attorney for such person in the amicable adjustment of the claim or in the filing of any motion, petition, or other appropriate pleading and the prosecution thereof specifically to require such employer to comply with such provisions: *Provided*, That no fees or court costs shall be taxed against any person who may apply for such benefits: *Provided further*, That only the employer shall be deemed a necessary party respondent to any such action.

(e) Reemployment by Federal Government.

(1) Any person who is entitled to be restored to a position in accordance with the provisions of paragraph (A) of subsection (b) [of this section] and who was employed, immediately before entering the armed forces, by any agency in the executive branch of the Government or by any Territory or possession, or political subdivision thereof, or by the District of Columbia, shall be so restored by such agency or the successor to its functions, or by such Territory, possession, political subdivision, or the District of Columbia. In any case in which, upon appeal of any person who was employed immediately before entering the armed forces by any agency in the executive branch of the Government or by the District of Columbia, the United States Civil Service Commission finds that—

(A) such agency is no longer in existence and its functions have not been transferred to any other agency; or

(B) for any reason it is not feasible for such person to be restored to employment by such agency or by the District of Columbia,

the Commission shall determine whether or not there is a position in any other agency in the executive branch of the Government or in the govern-

ment of the District of Columbia for which such person is qualified and which is either vacant or held by a person having a temporary appointment thereto. In any case in which the Commission determines that there is such a position, such person shall be restored to such position by the agency in which such position exists or by the government of the District of Columbia, as the case may be. The Commission is authorized and directed to issue regulations giving full force and effect to the provisions of this section insofar as they relate to persons entitled to be restored to positions in the executive branch of the Government or in the government of the District of Columbia, including persons entitled to be restored under the last sentence of paragraph (2) of this subsection. The agencies in the executive branch of the Government and the government of the District of Columbia shall comply with such rules and regulations and orders issued by the Commission pursuant to this subsection. The Commission is authorized and directed whenever it finds, upon appeal of the person concerned, that any agency in the executive branch of the Government or the government of the District of Columbia has failed or refuses to comply with the provisions of this section, to issue an order specifically requiring such agency or the government of the District of Columbia to comply with such provisions and to compensate such person for any loss of salary or wages suffered by reason of failure to comply with such provisions, less any amounts received by him through other employment, unemployment compensation, or readjustment allowances: *Provided*, That any such compensation ordered to be paid by the Commission shall be in addition to and shall not be deemed to diminish any of the benefits of such provisions, and shall be paid by the head of the agency concerned or by the government of the District of Columbia out of appropriations currently available for salary and expenses of such agency or government, and such appropriations shall be available for such purpose. As used in this paragraph, the term "agency in the executive branch of the Government" means any department, independent establishment, agency, or corporation in the executive branch of the United States Government.

(2) Any person who is entitled to be restored to a position in accordance with the provisions of paragraph (A) of subsection (b) [of this section] and who was employed, immediately before entering the armed forces, in the legislative branch of the Government, shall be so restored by the officer who appointed him to the position which he held immediately before entering the armed forces. In any case in which it is not possible for any such person to be restored to a position in the legislative branch of the Government and he is otherwise eligible to acquire a status for transfer to a position in the classified (competitive) civil service in accordance with section 2 (b) of the Act of November 26, 1940 (54 Stat. 1212) [section 631 (b) of Title 5], the United States Civil Service Commission shall, upon appeal of such person, determine whether or not there is a position in the executive branch of the Government for which he is qualified and which

is either vacant or held by a person having a temporary appointment thereto. In any case in which the Commission determines that there is such a position such person shall be restored to such position by the agency in which such position exists.

(3) Any person who is entitled to be restored to a position in accordance with the provisions of paragraph (A) of subsection (b) [of this section] and who was employed, immediately before entering the armed forces, in the judicial branch of the Government, shall be so restored by the officer who appointed him to the position which he held immediately before entering the armed forces.

(f) Priority of rights to reemployment.

In any case in which two or more persons who are entitled to be restored to a position under the provisions of this section or of any other law relating to similar reemployment benefits left the same position in order to enter the armed forces, the person who left such position first shall have the prior right to be restored thereto, without prejudice to the reemployment rights of the other person or persons to be restored.

(g) Reemployment benefits to persons enlisting or called to active duty.

(1) Any person who, subsequent to the date of enactment of this title [June 24, 1948] and while it is in effect, enlists in the armed forces of the United States (other than in a reserve component) or the Coast Guard (other than in a reserve component) for not more than three years shall, if such enlistment is his first enlistment in the armed forces or the Coast Guard subsequent to the date of enactment of this title [June 24, 1948], be entitled, upon the expiration of his enlistment (including any extension thereof by law but not including any voluntary extension thereof) or upon his discharge under honorable conditions prior to the expiration thereof, to all the reemployment rights and other benefits provided for by this section in the case of inductees.

(2) Any person who, subsequent to the effective date of this title [June 24, 1948] and while it is in effect, enters upon active duty in the armed forces of the United States, the Coast Guard, or the Public Health Service in response to an order or call to active duty shall, upon his relief from active duty under honorable conditions, be entitled to all of the reemployment rights and benefits provided by this section in the case of inductees, if he is relieved from active duty not later than three years after the date of entering upon active duty or as soon after the expiration of such three years as he is able to obtain orders relieving him from active duty.

(h) Aid by Bureau of Veterans' Reemployment Rights.

The Secretary of Labor, through the Bureau of Veterans' Reemployment Rights, shall render aid in the replacement in their former positions of persons who have satisfactorily completed any period of active duty in the armed forces of the United States, the Coast Guard, or the Public Health Service. In rendering such aid, the Secretary shall use the then existing Federal and State agencies en-

(10) subject to the availability of funds appropriated for such purposes, to utilize, in order to provide and furnish such services as may be deemed necessary or expedient to accomplish the purposes of this title [sections 451-470 of this Appendix], such personnel of the armed forces and of Reserve components thereof with their consent, and such civilian personnel, as may be necessary. For the purposes of this title, the provisions of section 14 of the Federal Employees' Pay Act of 1946 (Public Law 390, Seventy-ninth Congress [section 947 of Title 5]) with respect to the maximum limitations as to the number of civilian employees shall not be applicable to the Department of the Army, the Department of the Navy, or the Department of the Air Force.

(c) Delegation of President's authority.

The President is authorized to delegate any authority vested in him under this title [sections 451-470 of this Appendix], and to provide for the sub-delegation of any such authority.

(f) Settlement of travel claims, etc.

The Director is authorized to make final settlement of individual claims, for amounts not exceeding \$50, for travel and other expenses of uncompensated personnel of the Office of Selective Service Records, or the Selective Service System, incurred while in the performance of official duties, without regard to other provisions of law governing the travel of civilian employees of the Federal Government. (June 24, 1948, ch. 625, title I, § 10, 62 Stat. 618.)

§ 461. Emergency medical care.

Under such rules and regulations as may be prescribed by the President, funds available to carry out the provisions of this title [sections 451-470 of this Appendix] shall also be available for the payment of actual and reasonable expenses of emergency medical care, including hospitalization, of registrants who suffer illness or injury, and the transportation, and burial, of the remains of registrants who suffer death, while acting under orders issued under the provisions of this title [said sections], but such burial expenses shall not exceed \$150 in any one case. (June 24, 1948, ch. 625, title I, § 11, 62 Stat. 621.)

§ 462. Offenses and penalties.

(a) Any member of the Selective Service System or any other person charged as herein provided with the duty of carrying out any of the provisions of this title [sections 451-470 of this Appendix], or the rules or regulations made or directions given thereunder, who shall knowingly fail or neglect to perform such duty, and any person charged with such duty, or

having and exercising any authority under said title [said sections], rules, regulations, or directions who shall knowingly make, or be a party to the making, of any false, improper, or incorrect registration, classification, physical or mental examination, deferment, induction, enrollment, or muster, and any person who shall knowingly make, or be a party to the making of, any false statement or certificate regarding or bearing upon a classification or in support of any request for a particular classification, for service under the provisions of this title [said sections], or rules, regulations, or directions made pursuant thereto, or who otherwise evades or refuses registration or service in the armed forces or any of the requirements of this title [said sections], or who knowingly counsels, aids, or abets another to refuse or evade registration or service in the armed forces or any of the requirements of this title [said sections], or of said rules, regulations, or directions, or who in any manner shall knowingly fail or neglect or refuse to perform any duty required of him under or in the execution of this title [said sections], or rules, regulations, or directions made pursuant to this title [said sections], or any person or persons who shall knowingly hinder or interfere or attempt to do so in any way, by force or violence or otherwise, with the administration of this title [said sections] or the rules or regulations made pursuant thereto, or who conspires to commit any one or more of such offenses, shall, upon conviction in any district court of the United States of competent jurisdiction, be punished by imprisonment for not more than five years or a fine of not more than \$10,000, or by both such fine and imprisonment, or if subject to military or naval law may be tried by court martial, and, on conviction, shall suffer such punishment as a court martial may direct. No person shall be tried by court martial in any case arising under this title [said sections] unless such person has been actually inducted for the training and service prescribed under this title [said sections] or unless he is subject to trial by court martial under laws in force prior to the enactment of this title [said sections]. Precedence shall be given by courts to the trial of cases arising under this title [said sections], and such cases shall, upon request of the Attorney General, be advanced on the docket for immediate hearing.

(b) Any person (1) who knowingly transfers or delivers to another, for the purpose of aiding or abetting the making of any false identification or representation, any registration certificate, alien's certificate of nonresidence, or any other certificate issued pursuant to or prescribed by the provisions of this title [sections 451-470 of this Appendix], or rules or regulations promulgated hereunder; or (2) who, with intent that it be used for any purpose of false identification or representation, has in his possession any such certificate not duly issued to him; or (3) who forges, alters, or in any manner changes any such certificate or any notation duly and validly inscribed thereon; or (4) who, with intent that it be used for any purpose of false identification or representation, photographs, prints, or in any manner makes or executes any engraving, photograph, print, or impression in the likeness of

Whenever on trial for a violation of this subsection the defendant is shown to have or to have had possession of any certificate not duly issued to him, such possession shall be deemed sufficient evidence to establish an intent to use such certificate for purposes of false identification or representation, unless the defendant explains such possession to the satisfaction of the jury. (June 24, 1948, ch. 625, title I, § 12, 62 Stat. 622.)

(c) In computing the lump-sum payments made to Air Force reserve officers under the provisions of section 2 of the Act of June 16, 1936, as amended [section 300a of Title 10], and to reserve officers of the Navy or to their beneficiaries under section 12 of the Act of August 4, 1942, as amended [section 850k of Title 34], no credit shall be allowed for any period of active service performed from the effective date of this title [June 24, 1948] to the date on which this title shall cease to be effective. Each such lump-sum payment shall be prorated for a fractional part of a year of active service in the case of any reserve officer subject to the provisions of either such section, if such reserve officer performs continuous active service for one or more years (inclusive of such service performed during the period in which this title [sections 451-470 of this Appendix] is effective) and such active service includes a fractional part of a year immediately prior to the effective date

(c) If any provision of this title [sections 451-470 of this Appendix], or the application thereof to any person or circumstance, is held invalid, the remainder of the title [said sections], and the application of such provision to other persons or circumstances, shall not be affected thereby.

(d) Except as provided in section 4 (c) or section 4 (g) [section 454 (c) or 454 (g) of this Appendix], nothing contained in this title [sections 451-470 of this Appendix] shall be construed to repeal, amend, or suspend the laws now in force authorizing voluntary enlistment or reenlistment in the armed forces of the United States, including the reserve compo-

tion thereof shall be punished by imprisonment for not more than three years and a fine not exceeding \$50,000.

(2) The President shall report to the Congress on the final day of each six-month period following the date of enactment of this Act [June 24, 1948] the percentage figure, or if such information is not available, the approximate percentage figure, of the total steel production in the United States required to be made available during such period for the execution of orders for steel products and steel materials required by the armed forces, if such percentage figure is in excess of 10 per centum. "Section 1. *Short Title.* This Act [Act Mar. 31, 1947] shall be cited as the 'First Decontrol Act of 1947.'

"Section 2. *Declaration of Congressional Purposes.* The Congress hereby declares that it is vital to a free economy and full production in the United States that all emergency controls and war powers under the Second War Powers Act [sections 631-638, 640-641e, and 643-645a of this Appendix] be removed except in certain limited instances.

"The Congress further declares that in each such limited instance the authority for such emergency controls and war powers should not be exercised by the grant of broad, general war powers but should be granted by restrictive, specific legislation.

"Section 3. *Amendment of Section 645 of this Appendix.* For the purpose of liquidating existing emergency controls and war powers and for the purpose of affording further opportunity for the appropriate com-

mittees of the Congress to consider specific legislation granting restricted authority in limited instances, title XV, section 1501, of the Second War Powers Act, 1942, approved March 27, 1942, as amended [section 645 of this Appendix], is amended to read as follows:

"Sec. 1501. After the amendments made by any such title cease to be in force, any provisions of law amended thereby (except subsection (a) of section 2 of the Act entitled "An Act to expedite national defense, and for other purposes", approved June 28, 1940, as amended by the Act of May 31, 1941 [section 1152 (a) of this Appendix]) shall be in full force and effect as though this Act had not been enacted."

"Sec. 2. *Findings of fact and declaration of policy.*

"(a) Certain materials and facilities continue in short supply at home and abroad as a result of the war. The continued exercise of certain limited emergency powers is required to complete the orderly reconversion of the domestic economy from a wartime to a peacetime basis, to protect the health, safety, and welfare of the American people, and to support the foreign policy of the United States.

"(b) The Congress hereby declares that it is the general policy of the United States to eliminate emergency wartime controls of materials except to the minimum extent necessary (1) to protect the domestic economy from the injury which would result from adverse distribution of materials which continue in short world supply; (2) to promote production in the United States by assisting in the expansion and maintenance of production in foreign countries of materials critically needed in the United States; (3) to make available to countries in need, consistent with the foreign policy of the United States, those commodities whose unrestricted export to all destinations would not be appropriate; and (4) to aid in carrying out the foreign policy of the United States.

"Sec. 3. *Temporary retention of certain emergency powers.* To effectuate the policies set forth in section 2 hereof, title XV, section 1501, of the Second War Powers Act, 1942, approved March 27, 1942, as amended, [section 645 of this Appendix] is amended to read as follows:

"(F) Materials (except foods and food products, manila (abaca) fiber and cordage, agave fiber and cordage, and fertilizer materials), including petroleum and petroleum products, required for export, but only upon certification by the Secretary of State that the prompt export of such materials is of high public importance and essential to the successful carrying out of the foreign policy of the United States, for the purpose of establishing priority in production and delivery for export, and materials necessary for the manufacture and delivery of the materials required for such export: *Provided*, That no such priority based on a certification by the Secretary of State shall be effective unless and until the Secretary of Commerce shall have satisfied himself that the proposed action will not have an unduly adverse effect on the domestic economy of the United States; and

"(2) The use of transportation equipment and facilities by rail carriers.

"(c) Notwithstanding the extension through May 31, 1948, made by subsection (b), the Congress by concurrent resolution or the President may designate an earlier time for the termination of any power, authority, or discretion under such title III [section 633 of this Appendix]. Within a reasonable time after the filing of any protest under this subsection, but in no event more than thirty days after such filing, the Administrator shall either grant or deny such protest in whole or in part, notice such protest for hearing, or provide an opportunity to present further evidence in connection therewith. In the event that the Administrator denies any such protest in whole or in part, he shall inform the protestant of the grounds upon which such decision is based, and of any economic data and other facts of which the Administrator has taken official notice. § 924. Review.

(e) (1) Within sixty days after the date of enactment of this amendment [July 30, 1947], or within sixty days after arraignment in any criminal proceedings and within sixty days after commencement of any civil proceedings brought pursuant to section 205 of this Act [section 925 of this Appendix] or section 37 of the Criminal Code [section 371 of Title 18], involving alleged violation of any provision of any regulation or order issued under section 2 [section 902 of this Appendix] or alleged violation of any price schedule effective in accordance with the provisions of section 206 [section 926 of this Appendix] with respect to which responsibility was transferred to the Department of Commerce by Executive Order 9841 [set out as a note under section 601 of this Appendix], the defendant may apply to the court in which the proceeding is pending for leave to file in the Emergency Court of Appeals a complaint against the Administrator setting forth objections to the validity of any provision which the defendant is alleged to have violated or conspired to violate. The court in which the proceeding is pending shall grant such leave with respect to any objection which it finds is made in good faith and with respect to which it finds there is reasonable and substantial excuse for the defendant's failure to present such objection in a protest filed in accordance with section 203 (a) (section 923 (a) of this Appendix). Upon the filing of a complaint pursuant to and within thirty days from the granting of such leave, the Emergency Court of Appeals shall have jurisdiction to enjoin or set aside in whole or in part the provision of the regulation, order, or price schedule complained of or to dismiss the complaint. The court may authorize the introduction of evidence, either to the Administrator or directly to the court, in accordance with subsection (a) of this section. The provisions of subsections (b), (c), and (d) of this section shall be applicable with respect to any proceeding instituted in accordance with this subsection.

(2) In any proceeding brought pursuant to section 205 of this Act (section 925 of this Appendix) or section 37 of the Criminal Code (section 371 of Title 18), involving an alleged violation of any provision of any such regulation, order or price schedule, the court shall stay the proceeding—

(i) during the period within which a complaint may be filed in the Emergency Court of Appeals pursuant to leave granted under paragraph (1) of this subsection with respect to such provision;

(ii) during the pendency of any protest properly filed by the defendant under section 203 (section 923 of this Appendix) prior to the institution of the proceeding under section 205 of this Act (section 925 of this Appendix) or section 37 of the Criminal Code (section 371 of Title 18), setting

forth objections to the validity of such provision which the court finds to have been made in good faith; and

(iii) during the pendency of any judicial proceeding instituted by the defendant under this section with respect to such protest or instituted by the defendant under paragraph (1) of this subsection with respect to such provision, and until the expiration of the time allowed in this section for the taking of further proceedings with respect thereto.

Notwithstanding the provisions of this paragraph, stays shall be granted thereunder in civil proceedings only after judgment and upon application made within five days after judgment. Notwithstanding the provisions of this paragraph, in the case of a proceeding under section 205 (a) (section 925 (a) of this Appendix) the court granting a stay under this paragraph shall issue a temporary injunction or restraining order enjoining or restraining, during the period of the stay, violations by the defendant of any provision of the regulation, order, or price schedule involved in the proceeding. If any provision of a regulation, order, or price schedule is determined to be invalid by judgment of the Emergency Court of Appeals which has become effective in accordance with section 204 (b) (subsection (b) of this section), any proceeding pending in any court shall be dismissed, and any judgment in such proceeding vacated, to the extent that such proceeding or judgment is based upon violation of such provision. Except as provided in this subsection, the pendency of any protest under section 203 (section 923 of this Appendix), or judicial proceeding under this section, shall not be grounds for staying any proceeding brought pursuant to section 205 of this Act (section 925 of this Appendix) or section 37 of the Criminal Code (section 371 of Title 18); nor, except as provided in this subsection, shall any retroactive effect be given to any judgment setting aside a provision of a regulation or order issued under section 2 (section 902 of this Appendix) or of a price schedule effective in accordance with the provisions of section 206 (section 926 of this Appendix). (As amended July 30, 1947, ch. 361, title I, § 101, 61 Stat. 619.)

The answer may include objections which could have been raised by motion under Rule 18, and shall include admissions or denials of the facts alleged in the complaint and any new matter constituting a defense. If the respondent is without knowledge or informa-

tion sufficient to form a belief as to the truth of an averment he shall so state and this shall have the effect of a denial. Facts alleged in the complaint and not denied in the answer may be taken as admitted.

(b) *Motion for Judgment on the Pleadings. Time of Filing.* Within 10 days after service of the answer to a complaint filed under Section 204 (e) of the Emergency Price Control Act of 1942, as amended, the complainant may file a motion for judgment on the pleadings.

RULE 22. AMENDMENT TO PLEADINGS

Pleadings may be amended before final judgment upon leave of court granted when justice so requires, provided that no complaint may be amended to specify objections that were not set forth by the complainant in his protest filed with the appropriate governmental officer or agency or in his application for leave to file the complaint, as the case may be.

RULE 23. INTRODUCTION OF EVIDENCE BY LEAVE OF COURT

(a) *Applications for Leave to Introduce Evidence Under Section 204 (e).* Within 10 days after service of the answer to a complaint filed under Section 204 (e) of the Emergency Price Control Act of 1942, as amended, the complainant may file an application for leave to introduce evidence in support of the allegations of fact of the complaint which are denied by the answer and the respondent may apply for leave to introduce evidence in support of any new matter constituting a defense set forth in the answer. Such application shall contain an offer of proof with respect to the evidence sought to be introduced, setting forth the character and form of such evidence and a summary of what such evidence would show if admitted. Within 5 days after service of an application for leave to introduce evidence the other party may file objections thereto, which may include an admission in whole or in part of the truth of any of the evidence offered in the application and a motion to dismiss the complaint or for judgment on the pleadings on the ground that the evidence offered, even if true, would be insufficient to establish a right to relief or an affirmative defense, as the case may be. The application together with any such objections, admissions, and motions shall be submitted to the court without oral argument unless otherwise directed by the court. A copy of the order disposing of the application shall be served by the clerk upon the parties as provided in Rule 9 (c).

(b) *Application for Leave to Introduce Additional Evidence Under Section 204 (a) or (e) or Section 2 of Act of June 23, 1945.* Within 10 days after service of the transcript in a case brought under paragraph (a) or (e) of Section 204 of the Emergency Price Control Act of 1942, as amended, or Section 2 of the Act of June 23, 1945, the complainant or the respondent may file an application for leave to introduce additional evidence. Such application shall contain (1) an offer of proof with respect to the additional evidence sought to be introduced, setting forth the character and form of such evidence and a summary of what such evidence would show if admitted; (2) a statement showing either that such evidence was offered to the appropriate governmental officer or agency and not admitted (with appropriate references to the transcript), or that such evidence could not reasonably have been offered to such officer or agency or included by the respondent in the transcript; and (3) a statement showing that such evidence is necessary to a proper disposition of the case. Within 5 days after service of the application any party affected may file objections thereto. The application, together with any objections thereto, shall be submitted to the court without oral argument, unless otherwise directed by the court. A copy of the order disposing of the application shall be served by the clerk upon the parties as provided in Rule 9 (c).

(c) *Manner of Presenting Evidence to Governmental Officer or Agency.* Whenever evidence is ordered to be presented to a governmental officer or agency such officer or agency shall, unless the court in its order has done so, fix a time, and, if oral evidence is to be presented, a place, reasonably convenient to the complainant, for the presentation of such evidence. The presentation of such evidence and of such other evidence as such officer or agency deems necessary or proper to receive shall be commenced at the time and place so appointed unless an adjournment is granted by such officer or agency and shall be completed with all reasonable dispatch. Such officer or agency may regulate the proceedings for the receipt of evidence authorized to be presented to such officer or agency under this rule and may do all acts and take all measures necessary or proper for the efficient performance of the duties of such officer or agency under the order of the court authorizing the presentation of such evidence to such officer or agency. Such officer or agency may rule upon the admissibility of evidence presented by the complainant unless otherwise directed by the order of the court. When the complainant so requests, such officer or agency shall make a record of the evidence offered and excluded in the same manner and subject to the same limitations as provided in Rule 43 (c) of the Federal Rules of Civil Procedure for a court sitting without a jury. Such officer or agency may delegate the powers of such officer or agency under this paragraph to a presiding officer appointed by such officer or agency. If the complainant is aggrieved by the exclusion of evidence by such officer or agency, he may make application to the court for

leave to introduce such evidence pursuant to and within the time limited by paragraph (b) of this rule.

(d) *Manner of Presenting Evidence to Court.* Whenever evidence shall be ordered presented directly to the court the court will determine whether such evidence shall be taken in open court, by deposition, written interrogatories, or affidavits.

RULE 24. CONSOLIDATING SIMILAR CASES

When complaints involving common questions of law or fact are pending, the court on motion or of its own initiative may order all such cases consolidated for hearing, and may make such further orders concerning proceedings therein as may tend to avoid unnecessary costs or delays.

RULE 25. DISMISSAL BY AGREEMENT

Whenever, after a case has been docketed in this court and prior to the hearing thereof, the complainant or petitioner and respondent shall, by their attorneys of record, sign and file with the clerk an agreement in writing directing the case to be dismissed, and shall pay to the clerk any fees that may be due him, it shall be the duty of the clerk to enter such dismissal and to transmit forthwith a certified copy of the agreement to the respondent, but no process shall issue without an order of the court.

(2) When evidence is ordered to be taken pursuant to Rule 23, or the transcript is ordered to be corrected pursuant to Rule 20, the complainant shall file his brief within 15 days after service of the transcript or supplemental transcript containing such evidence or correction if such evidence is presented to a governmental officer or agency or such correction is made by supplemental transcript, or within such time as the court may direct, if such evidence is presented to the court or such correction is made otherwise than by supplemental transcript.

(3) When in a case brought under Section 204 (e) of the Emergency Price Control Act of 1942, as amended, no application for leave to introduce evidence is filed by either party but a motion for judgment on the pleadings is filed by the complainant, he shall file his brief with the motion.

(b) *Contents of Complainant's Brief.* The complainant's brief shall contain:

(1) A table of contents and a table of citations, the latter alphabetically arranged.

(2) A statement of the case, which shall consist of a concise, chronological, nonargumentative statement, in narrative form, of all the facts which should be known in order to determine the points in controversy. In the statement reference shall be made to the pages of the transcript of the proceedings before the appropriate governmental officer or agency or of the evidence presented to such officer or agency or to the court which are relied upon to support the facts stated.

(3) Preceding the argument, a concise summary of the argument, suitably paragraphed.

NOTE.—The summary of the argument should be a succinct, but accurate and clear, picture of the argument actually made in the brief concerning the points in controversy. Because the summary of argument if properly prepared is most helpful to the court in following the oral argument and will often render unnecessary the making of inquiries by the court which consume time allowed for argument, counsel are urged to prepare the summary with great care.

(4) An argument, which shall be divided, under appropriate headings distinctively arranged, into as many parts as there are points to be argued. All cases shall be cited to the official reports, if any, and also to the National Reporter System, if reported therein. Statutes shall be cited to the volume and page of the statutes at large or other session laws, and also to an official or standard code, revision or compilation where they may be found. Citations to textbooks, treatises, and other publications shall include the edition and year of publication.

(c) *Time of Filing Respondent's Brief.* The respondent shall file his brief within 20 days after service upon him of the complainant's brief.

(d) *Contents of Respondent's Brief.* The respondent's brief shall contain:

(1) A table of contents and a table of citations, the latter alphabetically arranged.

(2) A counterstatement of the case conforming to the requirements of paragraph (b) (2) of this rule, if he disagrees with the statement of the complainant.

(3) Preceding the argument, a concise summary of the argument, suitably paragraphed.

NOTE.—The summary of the argument should be a succinct, but accurate and clear, picture of the argument actually made in the brief concerning the points in controversy. Because the summary of argument if properly prepared is most helpful to the court in following the oral argument and will often render unnecessary the making of inquiries by the court which consume time allowed for argument, counsel are urged to prepare the summary with great care.

(4) An argument, which shall conform to the requirements of paragraph (b) (4) of this rule.

(e) *Complainant's Reply Brief.* The complainant may file a reply brief within 10 days after the service upon him of the respondent's brief.

(f) *Briefs Shall Be Bound—Length.* All briefs shall be bound in suitable covers and shall not exceed 50 pages in length except by special permission of the court; but this limitation shall not apply to the table of contents and table of citations.

(g) *Objections Not Presented.* Objections stated in the complaint but not presented in the brief may be disregarded by the court.

(h) *Briefs After Argument.* No brief or memorandum will be received, through the clerk or otherwise, after a case has been argued or submitted, except by leave of court at the time of argument or on written motion filed with the clerk.

(i) *Filing After Time.* No brief shall be filed after the expiration of the time allowed, except by leave of court for extraordinary reasons shown.

RULE 27. HEARING CALENDAR

(a) *Cases Placed on Calendar by Clerk.* After the expiration of the time for filing the main briefs of the parties, the case shall be placed upon the hearing calendar by the clerk.

(b) *Requests for Hearing at Place Other Than Washington.* The complainant, at the time of filing the complaint, or thereafter with leave of court, may file a written request for hearing at a place other than Washington. Copies of this request shall be served upon the respondent by the clerk as provided in Rule 9. If the respondent desires that the hearing be held at some place other than the place requested by the complainant, he shall file at the time he files the transcript a written request to that effect which shall state the place preferred by him. A copy of this request shall be served upon the complainant by the clerk.

(c) *Place of Hearing Determined by Chief Judge.* The chief judge will determine the place of hearing after considering any requests properly filed in the case and with due regard to the other cases pending in the court.

(d) *Notice to Parties.* After a case has been placed upon the hearing calendar the clerk will, whenever possible not less than 10 days in advance, notify the parties of the time and place of hearing.

RULE 28. HEARING

(a) *Time Allowed.* At the hearing the complainant and the respondent shall each be allowed not more than 1 hour for oral argument, unless for good cause shown the court shall enlarge the time. The complainant shall be entitled to open and conclude the oral argument.

(b) *Number of Counsel.* Not more than two counsel shall be heard for each side, complainant and respondent, in the argument of the case, except by special leave of the court, upon sufficient reason shown.

(c) *Submission on Briefs.* Any case may be submitted on briefs, when reached in regular order, if counsel choose to submit it in that manner.

(d) *Failure of Counsel to Appear.* When a case is reached on the regular call, if briefs have been filed and no counsel appear to present oral argument, the case will be regarded as submitted on briefs.

(e) *Failure of One Party to Appear.* Where one party after filing brief fails to appear when the case is called for hearing, the court may hear argument on behalf of the party appearing and give judgment according to the right of the case.

(f) *When Brief for Complainant Only is Filed and no Counsel Appears, Case Submitted.* When a case is reached on the hearing calendar, if a brief has been filed for complainant only and no counsel appears to present oral argument, the case will be regarded as submitted.

(g) *When Case Called and no Brief Filed by Complainant, Case May be Dismissed.* When a case is called for hearing and no brief has been filed for the complainant, the court at the instance of the respondent or on its own motion may have the complainant called and the case dismissed.

PROCEEDINGS UNDER HOUSING AND RENT ACT OF 1947, AS AMENDED

RULE 30. FILING OF RECOMMENDATION OF LOCAL BOARD AND OTHER MATERIAL

(a) *Filing and Docketing—Notices.* If the Housing Expediter does not approve a recommendation of a local advisory board in a defense-rental area as to a matter referred to in paragraph (A) or (B) of Section 204 (e) (1) of the Housing and Rent Act of 1947, as amended, he shall within 35 days after the date of the receipt by him of the recommendation certify and file with the clerk of the court the recommendation, together with the record and statement of findings of the local advisory board, such statement as the Housing Expediter may desire to make as to his views on the matter, and such supporting information as the Housing Expediter deems appropriate. Upon the filing of the recommendation and other material, the clerk shall enter the case upon the docket in his office and shall assign a file number to it. The file number shall be noted on the docket and on the material filed by the Housing Expediter and all papers subsequently filed in the case. The clerk of the court thereupon, by mailing, shall serve appropriate notices upon the local board and the governor of the state involved of the filing of the transcript.

(b) *Copies To Be Filed.* One clearly legible copy of such recommendation and other material shall be filed with the clerk as provided in paragraph (a) of this rule. Three additional copies shall be filed at the same time, except that upon certification by the Housing Expediter that a lesser number of copies of any portion of the local board proceedings have been transmitted to him, the Housing Expediter may file only such additional copies thereof as are available. It shall be unnecessary in this court to print the recommendation or other material filed by the Housing Expediter.

(c) *Correction.* If anything material to the local board or the Housing Expediter is omitted from the matter filed by the Housing Expediter by error or accident or is misstated therein, the parties by stipulation, or this court, on a proper suggestion or of its own initiative, may direct that the omission or misstatement shall be corrected, and if necessary that supplementary material shall be certified and transmitted by the Housing Expediter.

(d) *Transmittal of Original Papers—Physical Exhibits.* Whenever the Housing Expediter is of the opinion that original papers or exhibits should be inspected by the court or sent to the court in lieu of copies thereof, he may make such order therefor and for the safekeeping, transportation, and return thereof as he deems proper.

RULE 31. APPEARANCES

Counsel for the Housing Expediter shall enter his appearance at the time of filing the recommendation of a local board. Counsel for the local board which made the recommendation shall enter his appearance in support of the recommendation within 10 days after the recommendation has been filed with the clerk. Counsel for the state involved in the proceeding shall enter his appearance within 10 days after the recommendation has been filed with the clerk and shall at the same time state whether approval or disapproval of the recommendation is requested by the state.

RULE 32. INTRODUCTION OF ADDITIONAL EVIDENCE TO COURT

Within 8 days after the Housing Expediter has filed with the court a recommendation of a local board accompanied by a statement of the Housing Expediter and supporting information deemed appropriate by him, the local board may file an application for leave to adduce additional evidence before the court in rebuttal to or explanation of such supporting information of the Housing Expediter. Such application shall contain an offer of proof with respect to the evidence sought to be adduced, setting forth the character and form of such evidence and a summary of what such evidence would show if admitted. Upon the filing of such application, the court may, by order, authorize such additional evidence to be adduced. Such additional evidence shall be adduced in affidavit or other duly authenticated written form, unless the court specifically directs that it be adduced in open court, by depositions or by written interrogatories.

RULE 33. MOTIONS FOR SUMMARY DISAPPROVAL

Within 5 days after the filing of the recommendation of the local board and other material with the court, the Housing Expediter may file a motion for summary disapproval of the recommendation on the ground that the local board proceedings did not conform to paragraphs (A), (B), (C), or (D) of Section 204 (e) (4) of the Housing and Rent Act of 1947, as amended. An answer to such motion may be filed by representatives of the local board or the state or states involved not later than 8 days after the motion has been filed. The court may thereupon enter an order denying the motion or disapproving the local board recommendation.

RULE 34. WITHDRAWAL OF RECOMMENDATION IN WHOLE OR IN PART

At any time before hearing, as provided in Rule 36 the local board may file with the court a motion to withdraw its recommendation, in whole or in part, on the ground that the recommendation or any portion thereof was erroneous when made or is believed to be erroneous on the basis of facts discovered after the proceedings were had by the local board, or for other reasons set forth in such motion. Upon the filing of such a motion, the court may enter an

order disapproving the recommendation in whole or in part.

RULE 35. BRIEFS

The Housing Expediter and the local board may file briefs in support of their respective positions on or before the day of hearing, but shall not be required to do so unless specifically so directed by the court. Any state or states which shall have appeared in the proceeding may also file briefs in support of their respective positions within the same period of time. The briefs shall comply in form as nearly as reasonably may be to the requirements of Rule 26.

RULE 36. HEARINGS

Within 10 days after the recommendation of a local board has been filed with the court, or as soon thereafter as practicable, the chief judge will determine the time and place of hearing, unless the court directs that the proceeding be submitted for determination on the record and briefs without oral hearing. The time allowed for oral argument shall not exceed 1 hour for each party, unless for good cause shown the court shall enlarge the time, and, except by special leave of the court upon sufficient reason shown, not more than two counsel shall be heard for each party. The Housing Expediter shall be entitled to open and conclude the oral argument. The clerk will, whenever possible not less than 10 days in advance, notify the parties of the time and place of hearing.

RULE 37. ORDERS APPROVING OR DISAPPROVING RECOMMENDATIONS

An order approving or disapproving the recommendation of the local board will be entered by the court at or after the conclusion of the hearing and within the time limited by Section 204 (e) (4) of the Housing and Rent Act of 1947, as amended. All orders shall be deemed entered upon filing with the clerk of the court and the clerk shall preserve the original orders.

RULE 38. FEES AND COSTS

No fees or costs shall be charged or assessed in this court in proceedings under the Housing and Rent Act of 1947, as amended.

§ 925. Enforcement.

* * * *

(e) If any person selling a commodity violates a regulation, order, or price schedule prescribing a maximum price or maximum prices, the person who buys such commodity for use or consumption other than in the course of trade or business may, within one year from the date of the occurrence of the violation, except as hereinafter provided, bring an action against the seller on account of the overcharge. In any action under this subsection, the seller shall be liable for reasonable attorney's fees and costs as determined by the court, plus whichever of the following sums is greater: (1) Such amount not more than three times the amount of the overcharge, or the overcharges, upon which the

action is based as the court in its discretion may determine, or (2) an amount not less than \$25 nor more than \$50, as the court in its discretion may determine: *Provided, however,* That such amount shall be the amount of the overcharge or overcharges if the defendant proves that the violation of the regulation, order, or price schedule in question was neither willful nor the result of failure to take practicable precautions against the occurrence of the violation. For the purposes of this section the payment or receipt of rent for defense-area housing accommodations shall be deemed the buying or selling of a commodity, as the case may be; and the word "overcharge" shall mean the amount by which the consideration exceeds the applicable maximum price. If any person selling a commodity violates a regulation, order, or price schedule prescribing a maximum price or maximum prices, and the buyer either fails to institute an action under this subsection within thirty days from the date of the occurrence of the violation or is not entitled for any reason to bring the action, the Administrator may institute such action on behalf of the United States within such one-year period. If such action is instituted by the Administrator, the buyer shall thereafter be barred from bringing an action for the same violation or violations. Any action under this subsection by either the buyer or the Administrator, as the case may be, may be brought in any court of competent jurisdiction. A judgment in an action for damages under this subsection shall be a bar to the recovery under this subsection of any damages in any other action against the same seller on account of sales made to the same purchaser prior to the institution of the action in which such judgment was rendered.

The Administrator may not institute any action under this subsection on behalf of the United States, or, if such action has been instituted, the Administrator shall withdraw the same—

(1) if the violation arose because the person selling the commodity acted upon and in accordance with the written advice and instructions of the Administrator or any regional administrator or district director of the Office of Price Administration; or

(2) if the violation arose out of the sale of a commodity to any agency of the Government, or to any public housing authority whose operations are supervised or financed in whole or in part by any agency of the Government, and such sale was made pursuant to the lowest bid made in response to an invitation for competitive bids.

The Administrator shall not institute or maintain any enforcement action under this subsection against any manufacturer of apparel items where the Administrator shall determine (1) that the transactions on which such proceeding is based consisted of the manufacturer's selling such an item at his published March 1942 price list prices instead of his March 1942 delivered prices, and (2) that the seller's customary pricing patterns for related apparel items would be distorted by a requirement that his ceilings be the March 1942 delivered prices. The Administrator shall not be required to make any determination under this section unless the manufacturer

makes application to the Administrator for such determination within sixty days after the date of this enactment, or within sixty days after institution of the enforcement action in which such manufacturer is involved, whichever is the later. The Administrator's determinations under this paragraph shall be subject to review by the Emergency Court of Appeals in accordance with sections 203 and 204 [sections 923 and 924 of this Appendix]. (As amended July 30, 1947, ch. 361, title I, § 101, 61 Stat. 619.)

AMENDMENTS

SHORT TITLE

Congress in enacting sections 981-985 of this Appendix and amendment of section 1001 (a) of Title 5 provided by subsec. (b) of section 6 of act Mar. 31, 1947, cited to text, that said sections should be popularly known as the "Sugar Extension Act of 1947."

§ 982. Removal of controls prior to termination of sections.

Prior to the expiration of the authority granted by this Act [sections 981-985 of this Appendix and section 1001 (a) of Title 5], the Secretary of Agriculture is hereby authorized and directed to remove any or all controls with respect to any product over which control is authorized by this Act [said sections] when he determines that the supplies of sugar are sufficient to warrant such action. (Mar. 31, 1947, ch. 30, § 2, 61 Stat. 36.)

§ 983. Transfer of functions, powers, and duties to the Secretary of Agriculture; continuance of rules and regulations; transfer of appropriations.

Emergency Price Control Act of 1942 [sections 901-905, 921, 922, 923-926 and 941-946 of this Appendix]; and (4) the President and the Price Administrator under the Stabilization Act of 1942 [sections 961-964, and 965-971 of this Appendix], all as amended and extended (and irrespective of what officer, department, or agency may be now exercising any such power, function, or duty) are, insofar as they relate to sugar, hereby transferred to and shall be executed by the Secretary of Agriculture.

(b) Every order, directive, rule or regulation relating to any power, function, or duty transferred by subsection (a) of this section, issued by any officer, department, or agency heretofore performing such power, function, or duty, which is not in conflict with the provisions of this Act [sections 981-985 of this Appendix and section 1001 (a) of Title 5] and which is in effect on the date of the enactment of this Act [Mar. 31, 1947], shall continue in full force and effect, according to its terms, unless and until modified or rescinded by the Secretary of Agriculture.

§ 984. Unlawful actions; penalties.
